**BEFORE THE WATER RESOURCES DEPARTMENT  
OF THE  
STATE OF OREGON**

In the Matter of Permit Amendment ) FINAL ORDER  
T-14610, Clackamas County ) APPROVING AN ADDITIONAL POINT OF  
 ) DIVERSION

## Authority

Oregon Revised Statute (ORS) 537.211 establishes the process in which a water right permit holder may submit a request to change the point of diversion and/or place of use authorized under an existing water right permit.

**Applicant**

ADCOCK FAMILY TREE FARM  
c/o BROOKS ADCOCK  
PO BOX 857  
14200 S UNION MILLS RD  
MULINO, OR 97042

## **Findings of Fact**

1. On February 10, 2025, Adcock Family Tree Farm, c/o Brooks Adcock, filed an application for an additional point of diversion under Permit R-15550. The Department assigned the application number T-14610.
2. Notice of the application for the permit amendment was published in the Department's weekly notice on February 25, 2025, pursuant to ORS 540.520(5).
3. The permit to be amended is as follows:

**Permit:** R-15550 in the name of ADCOCK FAMILY TREE FARM  
**Use:** MULTIPURPOSE USE  
**Priority Date:** JUNE 4, 2021  
**Maximum Volume:** 1.5 ACRE-FEET  
**Storage Facility:** RIVER BEND RESERVOIR  
**Maximum Dam Height:** THE RESERVOIR IS ENTIRELY BELOW GROUND SURFACE; THERE IS NO DAM

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Water may be  
appropriated  
for storage during  
the period:

DECEMBER 1 THROUGH MAY 31

Source: MOLALLA RIVER, tributary to WILLAMETTE RIVER

**Dam Location/Authorized Point of Diversion:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
4 S	2 E	WM	28	NW NW	POD 1 - 1160 FEET SOUTH AND 895 FEET EAST FROM THE NW CORNER OF SECTION 28

**The Area to be Submerged by the Reservoir:**

Twp	Rng	Mer	Sec	Q-Q
4 S	2 E	WM	28	NW NW

4. Permit Amendment Application T-14610 proposes an additional point of diversion located:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances	Approximate Distance from Authorized Point of Diversion
4 S	2 E	WM	28	SW NW	2	POD 2 - 1875 FEET SOUTH AND 1100 FEET EAST FROM THE NW CORNER OF SECTION 28	550 FT UPSTREAM

***Permit Amendment Review Criteria***

5. Instream water right, Certificate 72587, exists for the reach of the river in which the authorized point of diversion would be moved upstream, and stream flows within the reach, during the month of May are frequently below the levels allocated under the instream water right. Thus, the instream water right would be injured as a result of the proposed additional point of diversion.
6. Instream water right Certificate 72587 is for flows to be maintained in Mollalla River from Dickey Creek River Mile 22.3 (SWSW, Section 23, T5S, R2E, WM); downstream to Milk Creek, river mile 8.0 (SENE Section 10, T4S, R1E, WM).
7. In order to prevent injury to instream Certificate 72587, the additional point of diversion would be limited to appropriate water for storage from December 1 through April 30 of each year.
8. The change does not enlarge the permit.
9. The change does not alter any other terms of the permit.

## **Conclusions of Law**

The additional point of diversion proposed by Permit Amendment Application T-14610 is consistent with the requirements of ORS 537.211.

**Now, therefore, it is ORDERED:**

1. The additional point of diversion proposed by Permit Amendment Application T-14610 is approved.
2. Approval of this permit amendment application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of diversion.
3. Permit R-15673, in the name of ADCOCK FAMILY TREE FARM, is issued to replace Permit R-15550, and incorporates the amendments approved by this order. Permit G-15550, in the name of ADCOCK FAMILY TREE FARM, is no longer of any force or effect.
4. The combined quantity of water diverted at the new additional point of diversion (POD 2), together with that diverted at the original point of diversion (POD 1), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 1).
5. Water shall only be diverted from the additional point of diversion (POD 2) during the period from December 1 through April 30 of each year.
6. Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

7. Water shall be acquired from the same surface water source as the original point of diversion.

8. All other terms and conditions of Permit R-15673 remain the same.

Dated in Salem, Oregon on AUG 28 2025

  
Lisa J. Jaramillo, Transfer and Conservation Section Manager, for  
IVAN GALL, DIRECTOR  
Oregon Water Resources Department

*Mailing Date:* AUG 29 2025

STATE OF OREGON  
COUNTY OF CLACKAMAS  
PERMIT TO STORE PUBLIC WATERS

THIS PERMIT IS HEREBY ISSUED TO .

ADCOCK FAMILY TREE FARM  
14200 S UNION MILLS RD  
PO BOX 857  
MULINO OR 97042

This superseding permit is issued to describe an amendment for an additional point of appropriation proposed under Permit Amendment T-14610 and approved by Special Order Vol. 135, Page 508, entered AUG 28 2025. This permit supersedes Permit R-15550.

The specific limits and conditions of the use are listed below.

APPLICATION FILE NUMBER: R-89116

SOURCE OF WATER: MOLALLA RIVER, TRIBUTARY TO WILLAMETTE RIVER

STORAGE FACILITY: RIVER BEND RESERVOIR

MAXIMUM DAM HEIGHT: THE RESERVOIR IS ENTIRELY BELOW GROUND SURFACE; THERE IS NO DAM

MAXIMUM VOLUME: 1.5 ACRE-FEET

PURPOSE OR USE OF THE STORED WATER: MULTIPURPOSE USE

WATER MAY BE APPROPRIATED FOR STORAGE DURING THE PERIOD: DECEMBER 1 THROUGH MAY 31 FOR POD 1, AND DECEMBER 1 THROUGH APRIL 30 FOR POD 2

DATE OF PRIORITY: JUNE 4, 2021

DAM LOCATION/AUTHORIZED POINTS OF DIVERSION:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
4 S	2 E	WM	28	NW NW		POD 1 - 1160 FEET SOUTH AND 895 FEET EAST FROM THE NW CORNER OF SECTION 28
4 S	2 E	WM	28	SW NW	2	POD 2 - 1875 FEET SOUTH AND 1100 FEET EAST FROM THE NW CORNER OF SECTION 28

THE AREA TO BE SUBMERGED BY THE RESERVOIR:

Twp	Rng	Mer	Sec	Q-Q
4 S	2 E	WM	28	NW NW

**Permit Amendment T-14610 Conditions:**

The combined quantity of water diverted at the new additional point of diversion (POD 2), together with that diverted at the original point of diversion (POD 1), shall not exceed the quantity of water lawfully available at the original point of diversion (POD 1).

Water shall only be diverted from the additional point of diversion (POD 2) during the period from December 1 through April 30 of each water year.

Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

Water shall be acquired from the same surface water source as the original point of diversion.

**Original Permit Specific Conditions**

1. Failure to comply with any of the provisions of this permit may result in action including, but not limited to, restrictions on the use, civil penalties, or cancellation of the permit.
2. **Water Use Measurement, Recording, and Reporting:**
  - A. The Director may require the permittee to install a totalizing flow meter at each point of diversion. If the Director notifies the permittee to install a measuring device, the permittee shall install such device within the period stated in the notice. Once installed, the permittee shall maintain the device in good working order, and shall allow the watermaster access to the device.
  - B. The Director may require the permittee to keep and maintain a record of the volume of water diverted, and may require the permittee to report water-use on a periodic schedule as established by the Director. In addition, the Director may require the permittee to report general water-use information, the periods of water use and the place and nature of use of water under the permit.
  - C. The Director may provide an opportunity for the permittee to submit alternative measuring and reporting procedures for review and approval.

**3. Agricultural Water Quality Management Area Rules:**

The permittee shall comply with basin-specific Agricultural Water Quality Management Area Rules described in Oregon Administrative Rule Chapter 603-095. The permittee shall protect riparian areas, allowing site capable vegetation to establish and grow along streams, while providing the following functions: shade (on perennial and some intermittent streams), bank stability, and infiltration or filtration of overland runoff.

**4. Fish Screen/By-Pass:**

The permittee shall install, maintain, and operate fish screening and by-pass devices consistent with current Oregon Department of Fish and Wildlife (ODFW) standards. Fish screening is to prevent fish from entering the proposed diversion while by-pass devices provide adequate upstream and downstream passage for fish. The required screen and by-pass devices are to be in place and functional, and approved in writing by ODFW prior to diversion of any water. The permittee may submit evidence in writing that ODFW has determined screens and/or by-pass devices are not necessary.

**5. Riparian Area Restoration:**

If the riparian area is disturbed in the process of developing a point of diversion, the permittee shall be responsible for restoration and enhancement of such riparian area in accordance with ODFW's Fish and Wildlife Habitat Mitigation Policy OAR 635-415. For purposes of mitigation, the ODFW Fish and Wildlife Habitat Mitigation Goals and Standards, OAR 635-415, shall be followed.

**6. Water Quality:**

The use may be restricted if the quality of the source stream or downstream waters decrease to the point that those waters no longer meet existing state or federal water quality standards due to reduced flows.

**7. Fish Stocking:**

Per ORS 498.222 and OAR 635-007-0600, all persons transporting fish in Oregon need to have a fish transport permit issued by the Oregon Department of Fish and Wildlife (ODFW). The permittee shall not stock fish in the reservoir without a fish transport permit issued by ODFW. As part of the permitting process, the permittee must also screen the inlet and outlet of their pond to ensure that fish cannot escape into public waters and/or to keep wild fish from entering the pond.

**8. In-Water Work:**

Any in-water work related to construction, development, or maintenance of the proposed use shall be conducted during the preferred work period of July 15 through August 31, unless an alternate time period is approved by Oregon Department of Fish and Wildlife.

**9. Off-Channel Stored Water Releases:**

The permittee shall not release polluted water from this off-channel reservoir into waters of the state except when the release is directed by the State engineer to prevent dam failure.

10. The storage of water allowed herein is subject to the installation and maintenance of an outlet pipe (with a minimum diameter of 8" for any in-channel reservoir). This requirement may be waived if the Department determines other means have been provided to evacuate water when necessary.
11. The permittee shall pass all live flow outside the storage season described above.
12. This permit allows an annual appropriation (not to exceed the specified volume). This permit does not provide for the appropriation of water for out-of-reservoir uses, the maintenance of the water level or maintaining a suitable freshwater condition. If any water is to be used for out-of-reservoir purposes, a secondary water right is required. If any additional live flow is to be appropriated to maintain either the water level or a suitable freshwater condition, an additional water right is required.

#### **STANDARD CONDITIONS**

1. This permit is for the beneficial use of water without waste. The water user is advised that new regulations may require the use of best practical technologies or conservation practices to achieve this end.
2. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan.
3. The use of water allowed herein may be made only at times when sufficient water is available to satisfy all prior rights, including prior rights for maintaining instream flows.

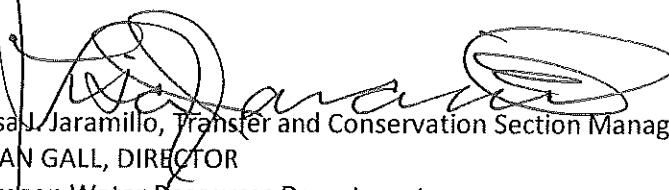

#### **DEVELOPMENT AND COMPLETION TIMELINE REQUIREMENTS**

1. The original permit, issued February 3, 2023, specified:
  - The deadline to begin construction is February 3, 2028.
  - The deadline for complete storage of the volume of water is February 3, 2028.
2. Within one year after storage of water, the permittee shall submit a claim of beneficial use to the Oregon Water Resources Department.
3. The claim of beneficial use shall be prepared by a Certified Water Right Examiner in conformance with the requirements of OAR 690-014 if an associated secondary permit exists for the use of stored water under this permit, or if the reservoir capacity is equal to or greater than 9.2 acre-feet.

4. If no secondary permit exists and the reservoir capacity is less than 9.2 acre-feet of water, the claim of beneficial use need not be prepared by a Certified Water Right Examiner. The information submitted to the Oregon Water Resources Department shall include:

- a. the dimensions of the reservoir;
- b. the maximum capacity of the reservoir in acre-feet; and
- c. a map identifying the location of the reservoir prepared in compliance with Water Resource Department standards.

Issued AUG 28 2025

## Water Right Transfer

Oregon Water Resources Department  
725 Summer St NE, Suite A  
Salem, Oregon 97301-1266  
(503) 986-0900  
[www.oregon.gov/OWRD](http://www.oregon.gov/OWRD)

Transfer Application: T-14610

Review Due Date: 03/22/2025

Applicant Name: Brooks Adcock

Proposed Changes:  POU  POD  POA  USE  OTHER

Reviewer(s): Amy Landvoigt

Date of Review: 03/25/2025

1. Do you have evidence that the right has not been used in the last 5 years and that the presumption of forfeiture would not likely be rebuttable?  Yes  No If "Yes", attach evidence (e.g. dated aerial photo showing pavement or building on the land for >5 yrs.)
2. Is there a history of regulation on the source that serves this (or these) right(s) that has involved the transferred right(s) and downstream water rights?  Yes  No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
3. Have headgate notices been issued for the source that serves the transferred right(s)?  
 Yes  No  Records not available.
4. In your estimation, after the proposed change, would distribution of water for the right(s) result in regulation of other water rights that would not have occurred if use under the original right(s) was/were maximized?  Yes  No If "Yes", explain:
5. In your estimation, if the proposed change is approved, are there upstream water rights that would be affected?  Yes  No If "Yes", describe how the rights would be affected and list the rights most affected:

6. Check here  if it appears that downstream water rights benefit from return flows resulting from the current use of the transferred right(s)? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

N/A

7. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses:

N/A

8. For instream transfers that propose protection of a reach beyond the mouth of the source stream:

N/A Would the quantity be measureable into the receiving stream consistent with OAR 690-077-0015(8)?  Yes  No

9. For POU changes:  N/A Is it likely the original place of use would continue to receive water from the same source?  Yes  No If "Yes", explain:

10. For POU or USE changes:  N/A In your best judgment, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste?

Yes  No If "Yes", explain:

11. For POU changes that involve micro-irrigation:  N/A

a. Has the applicant made changes (absent a transfer) to convert to micro-irrigation within the current place of use boundary of the water right proposed for transfer, and previously demonstrated to the Department through monitoring and site inspections by the Watermaster that the proposed transfer will not result in injury or enlargement?

Yes  No If "Yes", explain:

b. Has a temporary transfer of this nature been previously filed and approved on the same lands (or portions thereof) as those lands involved in this transfer?

Yes  No If "Yes", answer the following:

i. Were there any problems with more acres being irrigated (or wetted) than were authorized under the temporary transfer?  Yes  No If "Yes", explain:

ii. Did the designated areas that were to remain dry (or not wetted) under the temporary transfer actually remain dry?  Yes  No If "No", explain:

iii. Did the applicant comply with and meet all of the conditions of the temporary transfer?  Yes  No If "No", explain:

iv. Do you have any other observations regarding the temporary transfer?

Yes  No If "Yes", describe:

v. Did the applicant demonstrate to the Department through monitoring and site inspections by the Watermaster that neither injury nor enlargement occurred as a result of the temporary transfer?  Yes  No If "No", explain:

c. To the best of your knowledge, if this transfer is approved, does it appear that:

i. "Injury" will occur to other water rights that share the same source?

Yes  No If "Yes", explain:

ii. "Enlargement" of the water right being transferred will occur?

Yes  No If "Yes", explain:

12. Are there other issues not identified through the above questions that should be considered in determining whether the change "can be effected without injury to other rights"?

Yes  No If "Yes", explain:

Because the point of diversion will be moved upstream, an additional stretch of the Molalla River will be affected by this transfer. ISWR 72587 has not been met for brief periods in the month of May, based on flow records, in two of the last 10 years. Therefore, this right has the potential to injure ISWR 72587 during the month of May.

13. What alternatives may be available for addressing any issues identified above:

Further limit the storage season to allow storage from Dec. 1st to Apr. 30th annually to avoid the potential for injury to ISWR 72587.

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights?  No  Yes, as checked and provided below:

For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

A Headgate should be required prior to diverting water.

Measurement Devices for POD or POA: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install a totalizing flow meter\*, or, with prior approval of the Director, another suitable measuring device,  at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation  with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

*b. The water user shall maintain the meters or measuring devices in good working order.*

*c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

Reservoir water use measurement: (if this condition is selected, also fill in the top sections of Page 4)

*a. Before water use may begin under this order, the water user shall install staff gages\*, or, with prior approval of the Director, other suitable measuring devices, that measure the entire range and stage between empty and full in each reservoir. Staff gages shall be United States Geological Survey style.*

*b. Before water use may begin under this order, if the reservoir is located in channel, weirs or other suitable measuring devices must be installed upstream and downstream of the reservoir, and, an adjustable outlet valve must be installed. The water user shall maintain such devices in good working order. A written waiver may be obtained, if in the judgment of the Director, the installation of weirs or other suitable measuring devices, or the adjustable outlet valve, will provide no public benefit.*

\* The following alternative device(s) should be substituted for the bold, underlined device in the above selected condition:

Weir  
 Parshall Flume  
 Other: \_\_\_\_\_

Submerged Orifice  
 Flow Restrictor

<p>Contact: Lisa Jaramillo  Title: Transfer Advisor/Manager  Address: 725 Summer Street, NE, Suite A  Salem, OR 97301-1266</p> <p>Phone: (503) 871-1889  Fax: (503) 986-0901  Email: <a href="mailto:lisa.i.jaramillo@water.oregon.gov">lisa.i.jaramillo@water.oregon.gov</a></p>	<p>Name: Adcock Family Tree Farm  Contact: Brooks Adcock  Address: 14200 S Union Mills Rd  PO Box 857  Mulino, OR 97042</p> <p>Phone: (503) 266-8752  Fax: <a href="mailto:brooks@highlandmeadownursery.com">brooks@highlandmeadownursery.com</a></p>	<p>Name: Pacific Hydro-Geology, Inc.  Contact: Doann Hamilton  Address: 18487 S. Valley Vista Rd  Mulino, OR 97042</p> <p>Phone: (503) 349-6946  Fax: (503) 632-5983  Email: <a href="mailto:phgdmh@gmail.com">phgdmh@gmail.com</a></p>

**Purpose** The purpose of this Agreement is to expedite the processing of the Transfer Application. (Application Number: T-14610)

1. **Authority.** The OWRD has been authorized pursuant to ORS 536.055 to enter into a voluntary agreement with any applicant, permittee or regulated entity (collectively Applicant) for expediting or enhancing a regulatory process. In making this agreement, OWRD shall require the applicant to pay the full cost of expedited process.
2. **Restrictions.** Applicant and OWRD agree that this Agreement shall not be construed to restrict in any way the decisions and actions by OWRD. OWRD shall be free to exercise independent judgment consistent with existing laws and regulations.
3. **Effective Date and Duration.** Unless otherwise terminated by non-deposit of funds by the Applicant, this Agreement shall become effective on the date on which both parties have signed the Agreement and the full deposit of the estimated cost of the proposed service.
4. **Consideration.**
  - a. Applicant shall pay OWRD in advance for actual costs incurred by OWRD. The estimated maximum reimbursement payable to OWRD under this Agreement is **\$1,522.79**. Applicant agrees to pay the full amount of **\$1,522.79** to OWRD prior to commencement of any work stated in this Agreement. This payment will be placed in an account administered by OWRD and drawn upon as costs are actually incurred. If the actual cost of performing the work is less than payments received, OWRD will refund the unspent balance. If the actual cost of processing exceeds the estimate, the Applicant can either elect to terminate this Agreement or amend the Agreement to reflect the increase in cost.
  - b. The costs stated in this Agreement do not include the statutory application processing and filing fees.
5. **Confidentiality.** Applicant agrees that any information provided to or acquired by OWRD under this Agreement will be subject to the Oregon Public Records Law and shall be considered public records.
6. **Indemnity.** Applicant shall defend, save, hold harmless, and indemnify the State of Oregon, OWRD, and their officers, employees, and agents from and against all claims, suits, actions, losses, damages, liabilities, costs, and expenses of any nature resulting from or arising out of, or relating to the activities of Applicant or its representatives, officers, employees, contractors, or agents under this Agreement or with respect to the expedited service. The Applicant acknowledges that the Oregon Water Resources Department cannot and does not guarantee a favorable review under the subject regulatory process.

7. **Termination by Applicant.** Applicant may request to terminate this agreement only in writing at anytime during the process. The Applicant agrees to pay for the work done by OWRD up until the time of the written termination request. OWRD, upon receiving such written termination request from the Applicant, will refund any unspent balance.
8. **Termination by OWRD.** OWRD may terminate this Agreement if the applicant fails to provide any requested items necessary to complete the application and/or comply with applicable rule requirements within the specified timeframe outlined in the request letter, being a period of not less than 30 days.
9. **Funds Authorized and Available.** By its execution of this Agreement, Applicants certify that sufficient funds are authorized and available to cover the expenditures contemplated by this Agreement.
10. **Duration of Estimate.** The Estimate of Time to completion is **approximately 120 days** once this Agreement has been fully executed and payment of the estimated cost deposited. If the Applicant's Agreement is not received by the Department within thirty (30) days of mailing the Agreement, the Applicant may need to re-apply for a new estimate. NOTE: Any time estimate is approximate; No guarantee of Final Order issuance of a date is certain. Duration estimates do not include any statutory waiting periods.
10. **Completion Date.** OWRD, by the execution of this Agreement does not guarantee the completion date indicated in this Agreement. Completion date is only an estimate and may be affected by the Department's workload, issues arising from the processing of the requested services and Applicant's timely response to requests for additional information.
11. **Captions.** The captions or headings in this Agreement are for the convenience only and in no way define, limit, or describe the scope, or intent, of any provision of this Agreement.
12. **Amendment and Merger.** The terms of this Agreement shall not be waived, altered, modified, supplemented, or amended in any manner whatsoever, except by written instrument signed by both parties. Such waiver, consent, modification or change, if made, shall be effective only in the specific instance and for the specific purpose given. There are no understandings, agreements or representations, oral or written, not specified herein regarding this Agreement.
13. **Signatures.** All parties, by the authorized representative's signature below, hereby acknowledge that they have read this Agreement, understand it and agree to be bound by its terms and conditions.

OREGON WATER RESOURCES DEPARTMENT  
TRANSFER REIMBURSEMENT AUTHORITY  
ESTIMATE APPLICATION

ORS 536.055 authorizes the Oregon Water Resources Department to expedite or enhance regulatory processes voluntarily requested under the agreement.

**Please contact Transfer Staff before submitting this request, as the application fee of \$125.00 per request is non-refundable.**

**Checks submitted for this application must be separate from Transfer fees.**

**The purpose of this application is to obtain estimates of the cost and time required to process a Transfer Application Request. There is a non-refundable application fee of \$125.00 per request.**

REQUEST	TYPE	FILE NUMBER
<input checked="" type="checkbox"/>	Transfer Application	T-14L010 Transfer Number NA

	Applicant Information	Applicant's Representative/Contact

E-Mail Address:	brooks@highlandmeadownursery.com	phgdmh@gmail.com

By signing this application, I understand:

- That upon receipt of my non-refundable application fee of **\$125.00**, OWRD will, within fourteen (14) days, notify me in writing of the estimate of costs and time frame for the expedited service.
- That this fee covers the reimbursement authority staff to evaluate and provide the estimate for processing of the request.
- That upon receiving the estimate, I may agree or decline to enter into a formal contract to pay the estimated cost in advance to initiate the expedited service.
- That an incomplete or inaccurate application may delay the process and increase the cost to process my request.
- That expedited processing does not guarantee a favorable review of my request.

OWRD USE ONLY: Reimbursement Authority Number: R11-543-25

**Oregon Department of Fish and Wildlife**  
**Water Right and Diversion Transfer Comment Form**  
*(ODFW provides to WRD so that WRD can make findings according to statutory requirements.)*

Reference Transfer #: T-14610

Date of review: 2/25/25

**A. Please check box if you believe there is a potential for injury to an instream water right.**

The Oregon Department of Fish and Wildlife (ODFW) believes this proposed transfer may injure an instream water right(s) on the Molalla River [stream], tributary to the Willamette River, because moving upstream from the authorized point of diversion to the proposed point of diversion would potentially injure instream water right C72587.

(Please attach any available supporting information.)

**Note:** This will prompt WRD to make a determination whether the transfer will injure an instream water right.  
*(OWRD makes the determination of injury to a water right, while ODFW's role is to raise concerns, and to evaluate proposed mitigation and net benefit to the resource if OWRD consents to injury of an instream water right.)*

**B. Please check one of the following five boxes related to fish screen requirements pursuant to ORS 540.525 or 540.532:**

**1. Screen Maintain**

*[Select this option if the new Point of Diversion (POD) requires a fish screen and is currently equipped with an appropriate fish screen that will still be in compliance if the transferred water is diverted from this POD.]*

**Note:** This option will yield the following:

**Finding of Fact:** The Oregon Department of Fish and Wildlife has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is currently equipped with an appropriate fish screen.

**Condition:** The water user shall operate and maintain an approved fish screen at the new point of diversion. If Oregon Department of Fish and Wildlife (ODFW) determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

**2. Screen Now**

*[Option 2 should generally be selected if listed fish species are present at the point of diversion and/or the originating water right diversion is currently screened. If Option 2 is selected, provide contact information on the "Fish Screening and Passage Information" sheet. The new diversion may be eligible for cost-share.]*

**Note:** This option will yield the following:

**Finding of Fact:** The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

**Condition:** Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

*Please return all 3 pages to: Transfers Section, Water Resources Department,  
725 Summer St. NE, Suite A, Salem, OR 97301-1266*

**3. Screen 2 Year**

*[Option 3 may be checked if the change is from an unscreened diversion to a HISTORIC POD or an existing POD in use for another water right, and cost-share funds are not currently available. It should NOT be checked if listed fish species are present at the point of diversion, the originating water right diversion is screened, cost-share funds are currently available, or the diversion is not eligible for ODFW's cost-share program. Please provide contact information on the "Fish Screening and Passage Information" sheet.] If extraordinary circumstances are present, please explain: \_\_\_\_\_*

**Note:** This option will yield the following:

**Finding of Fact:** The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. Listed fish species are not present at the point of diversion, the originating water right diversion is not screened, cost-share funds are not currently available, and the proposed diversion may be eligible for ODFW's cost-share program. A grace period of two years is appropriate until such time as cost-share funds become available to assist in the construction of a fish screen. If cost-share funds do not become available, the water user must screen within the indicated time period regardless of the availability of cost-share funding.

**Condition:** By October 1, 20\_\_ [Within two years after the date of this order] the water user shall install an approved fish screen at the new point of diversion. The water user may withdraw water at the new point of diversion without a screen until October 1, 20\_\_. The water user shall provide to OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.

The water user shall maintain and operate the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

**4. Screen Future**

*[Use this option if fish are not currently present, but might possibly be at some future time.]*

**Note:** This option will yield the following:

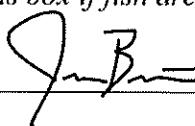

**Finding of Fact:** The Oregon Department of Fish and Wildlife has determined that the diversion is not currently equipped with an appropriate fish screen, but a fish screen may be required in the future at the new point of diversion to prevent fish from entering the diversion.

**Condition:** The Oregon Department of Fish and Wildlife (ODFW) may require the water user to install an approved fish screen at the new point of diversion within one year after receiving written notification that a fish screen is required. Once installed the water user shall maintain and operate the fish screen at the new point of diversion according to ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

**5. No Screen Needed**

*[Check this box if fish are not currently present, and are not expected in the future.]*

SW Hydro Coordinator

Title

**Oregon Department of Fish and Wildlife**  
**Additional Fish Screening and Passage Information for the Applicant**  
*(To be completed by ODFW for WRD to provide to the applicant.)*

Transfer #: T-14610

**The applicant should be aware that fish screening and passage may be required for certain changes in point of diversion if the boxes below are checked.**

Fish screening is required as a condition of this transfer. The fish screen must meet ODFW's design, construction, operational and maintenance standards.

Pursuant to ORS 498.306, cost-share funds may be available to assist in the installation of fish screening.

The applicant should contact the ODFW staff member below to obtain additional information on the design, construction, operational, and maintenance standards for the fish screen and to obtain information about ODFW's cost-sharing program for screening. **Prior to installation, the water user must obtain written approval from ODFW that the required screen meets ODFW's criteria.**

ODFW staff name: Toby Schuyler

Address: 3561 Klindt Dr

City/State/Zip: The Dalles/OR/97058

Phone: (541) 967-2162

This transfer may trigger requirements for fish passage under ORS 509.585 because a new point of diversion will be constructed, an existing point of diversion's capacity will be increased, or an existing point of diversion will be abandoned. The applicant should contact the ODFW staff member below for a determination of whether native migratory fish are or were present at the applicable location, which will determine whether fish passage must be addressed.

ODFW staff name: Ben Walczak

# Application for Permit Amendment

## Part 1 of 5 – Minimum Requirements Checklist

Oregon Water Resources Department  
725 Summer Street NE, Suite A  
Salem, Oregon 97301-1266  
(503) 986-0900  
www.oregon.gov/OWRD

This permit amendment application will be returned if Parts 1 through 5 and  
all required attachments are not completed and included.

For questions, please call (503) 986-0900, and ask for Transfer Section.

Received

Check all items included with this application. (N/A = Not Applicable)

FEB 10 2025

OWRD

- Part 1 – Completed Minimum Requirements Checklist.
- Part 2 – Completed Application Map Checklist.
- Part 3 – Application Fee, payable by check to the Oregon Water Resources Department, and completed Fee Worksheet, page 3. Try the new online fee calculator at:  
[http://apps.wrd.state.or.us/apps/misc/wrd\\_fee\\_calculator](http://apps.wrd.state.or.us/apps/misc/wrd_fee_calculator).
- Part 4 – Completed Applicant Information and Signature.
- Part 5 – Information about Permits to be Amended: **Number of permits to be amended: 1**  
**List the Permits here: Permit R-15550**  
Please include a separate Part 5 for each permit. (See instructions on page 6)
- Completed Permit Amendment Application Map (Does not have to be prepared by a Certified Water Right Examiner).
- N/A Request for Assignment Form and statutory fee. The request for assignment form has to be completed if the applicant is **not** the permit holder of record and needs to be assigned to the permit; **or** the landowner of the proposed place of use is **not** the permit holder of record and needs to be assigned to the permit (the Request for Assignment Form is available online at <https://www.oregon.gov/OWRD/Forms/Pages/default.aspx>). Assignment is not needed if the applicant is the permit holder of record.
- N/A Affidavit(s) of Consent are required from all permit holder(s) of record if the permit is not assigned to the applicant **or** other permit holders of record that are not listed as applicants.
- N/A Oregon Water Resources Department's Land Use Information Form with approval and signature (or signed land use form receipt stub) from each local land use authority in which water is to be diverted, conveyed, and/or used. Not required if water is to be diverted, conveyed, and/or used only on federal lands or if all of the following apply: a) a change in place of use only, b) no structural changes, c) the use of water is for irrigation only, and d) the use is located within an irrigation district or an exclusive farm use zone.
- N/A Water Well Report/Well Log for changes in point(s) of appropriation (well(s)) or additional point(s) of appropriation.
- N/A Geologist Report for a change from a surface water point of diversion to a ground water point of appropriation (well), if the proposed well is more than 500 feet from the surface water source and more than 1000 feet upstream or downstream from the point of diversion. (ORS 540.531(2) or (3)).

### (For Staff Use Only)

Application fee not enclosed/insufficient       Map not included or incomplete

Land Use Form not enclosed or incomplete

Additional signature(s) required

Part \_\_\_\_\_ is incomplete

Other/Explanation \_\_\_\_\_

Staff: \_\_\_\_\_ 503- \_\_\_\_\_ Date: \_\_\_\_\_ / \_\_\_\_\_ / \_\_\_\_\_

## Part 2 of 5 – Permit Amendment Map Checklist

Your permit amendment application will be returned if any of the map requirements listed below are not met.

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does not have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

Received

- N/A If more than three permits are involved, separate maps for each permit. FEB 10 2025
- Permanent quality printed with dark ink on good quality paper. OWRD
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water use permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the permit is being changed, a separate hachuring is needed for the portion of the permit left unchanged.
- N/A If you are proposing a change in place of use, show the proposed place of use with hachuring that includes separate hachuring for each permit, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water use permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

## Part 3 of 5 – Fee Worksheet

6	Add entries on lines 1 through 5 above » » » » » » » » Subtotal: <u>6</u> \$1,360			
7	<p>Is this permit amendment:</p> <p><input type="checkbox"/> necessary to complete a project funded by the Oregon Watershed Enhancement Board (OWEB) under ORS 541.932?</p> <p><input type="checkbox"/> endorsed in writing by ODFW as a change that will result in a net benefit to fish and wildlife habitat?</p> <p>If one or more boxes is checked, multiply line 6 by 0.5 and enter on line 7</p>			
8	If no box is applicable, enter 0 on line 7 » » » » » » » » » » » » » » <b>Permit Amendment Fee:</b> <u>8</u> \$1,360			

\*Example for Line 5a calculation to transfer 45.0 acres of Primary Permit S-12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Permit S-87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each permit involved as follows:
  - a. Divide total authorized cfs by total acres in the permit (for S-12345,  $1.25 \text{ cfs} \div 100 \text{ ac}$ ); then multiply by the number of acres to be changed to get the application cfs ( $45 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$ ).
  - b. If the water right permit does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For S-87654,  $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$ )
2. Add cfs for the portions of permits on all the land included in the application; however do not count cfs for supplemental permits on acreage for which you have already calculated the cfs fee for the primary permit on the same land. The fee should be assessed only once for each “on the ground” acre included in the application. (In this example, blank 5a would be only 0.56 cfs, since both permits serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

## Part 4 of 5 – Applicant Information and Signature

### Applicant Information

APPLICANT/BUSINESS NAME <b>Adcock Family Tree Farm c/o Brooks Adcock</b>			PHONE NO. <b>503-266-8752</b>	ADDITIONAL CONTACT NO.
ADDRESS <b>PO Box 857 / 14200 S Union Mills Rd</b>			FAX NO.	
CITY <b>Mulino</b>	STATE <b>OR</b>	ZIP <b>97042</b>	E-MAIL <b>Brooks@highlandmeadownursery.com</b>	
<b>BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.</b>				

**Agent Information** – The agent is authorized to represent the applicant in all matters relating to this application.

AGENT/BUSINESS NAME <b>Doann Hamilton / Pacific Hydro-Geology, Inc.</b>			PHONE NO. <b>(503) 632-5016</b>	ADDITIONAL CONTACT NO. <b>(503) 349-6946 (Cell)</b>
ADDRESS <b>18487 S. Valley Vista Road</b>			FAX NO. <b>(503) 632-5983</b>	
CITY <b>Mulino</b>	STATE <b>OR</b>	ZIP <b>97042</b>	E-MAIL <b>phgdmh@gmail.com</b>	
<b>BY PROVIDING AN E-MAIL ADDRESS, CONSENT IS GIVEN TO RECEIVE ALL CORRESPONDENCE FROM THE DEPARTMENT ELECTRONICALLY. COPIES OF THE FINAL ORDER DOCUMENTS WILL ALSO BE MAILED.</b>				

Explain in your own words what you propose to accomplish with this permit amendment; and why:  
The authorized POD is located at the base of a steep cliff and would create a large head pressure on the pump to get to the pond. We wish to add another POD location that will provide better access and significantly reduce the head pressure at the pump. However, we wish to keep the authorized POD in case we need to re-assess the authorized location.

If you need additional space, continue on a separate piece of paper and attach to the application as "Attachment 1".

Check this box if this project is fully or partially funded by the American Recovery and Reinvestment Act. (Federal stimulus dollars)

Is the applicant the permit holder of record?  Yes  No

If NO, include either:

- A completed assignment form (with required statutory assignment fee), assigning all or a portion of the permit to the applicant(s), OR
- An affidavit of consent from the permit holder(s) of record that gives permission for the applicant to amend the permit.

Has the Completion ("C") Date of the permit(s) in this application expired?  Yes  No

If YES, this application will not be accepted by the Department.

If NO, what are the completion dates of the permit(s)? February 3, 2028

- If the permit completion date expires while the Permit Amendment Application is pending, the Department will not approve the Permit Amendment Application until an Extension of Time Application is approved for the permit.
- You may consider using the Reimbursement Authority process to expedite the processing of this Permit Amendment Application if the completion date of the permit expires within 6 months of the date of filing this application.

By my signature below, I confirm that I understand:

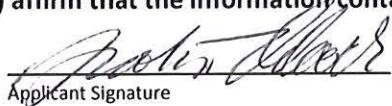

- Prior to Department approval of the permit amendment, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the permit is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Woodburn Independent

## Part 5 of 5 – Water Use Permit Information

Please use a separate Part 5 for each permit being changed. See instructions on page 6, to copy and paste additional Part 5s, or to add additional rows to tables within the form.

**PERMIT # R-15550**

**Table 1. Location of Authorized and Proposed Point(s) of Diversion (POD) or Appropriation (POA)**  
(Note: If the POD/POA name is not specified in the permit, assign it a name or number here.)

POD/POA Name or Number	Is this POD/POA Authorized by the permit or is it Proposed?	If POA, OWRD Well Log ID# (or Well ID Tag # L-____)	Twp		Rng	Sec	1/4		Tax Lot, DLC or Gov't Lot	Measured Distances (from a recognized survey corner)
POD 1	<input checked="" type="checkbox"/> Authorized <input type="checkbox"/> Proposed	NA	4	S	2	E	28	NW	NW	Lot 1
POD 2	<input type="checkbox"/> Authorized <input checked="" type="checkbox"/> Proposed	NA	4	S	2	E	28	SW	NW	Lot 2
	<input type="checkbox"/> Authorized <input type="checkbox"/> Proposed									

**Check all type(s) of change(s) proposed below (change “CODES” are provided in parentheses):**

<input type="checkbox"/> Place of Use (POU)	<input type="checkbox"/> Point of Appropriation/Well (POA)
<input type="checkbox"/> Point of Diversion (POD)	<input type="checkbox"/> Additional Point of Appropriation (APOA)
<input checked="" type="checkbox"/> Additional Point of Diversion (APOD)	<input type="checkbox"/> Surface water POD to Ground Water POA (SW/GW)

**Will all of the proposed changes affect the entire water use permit?**

Yes Complete only the proposed (“to” lands) section of Table 2 on the next page. Use the “CODES” listed above to describe the proposed changes.

No Complete all of Table 2 to describe the portion of the permit to be changed.

**For a change in place of use: NA**

**Does the permit holder of record own or control the land TO which the place of use is being moved?**

Yes  No

If NO, the landowner of the land TO which the place of use is being moved must be assigned to the permit as a permit holder of record by submitting a completed Request for Assignment form and the required statutory fee for an assignment.

**Is the proposed place of use contiguous to the authorized place of use?  Yes  No**

The permitted place of use can be moved only to lands that are contiguous to the authorized place of use unless the change to non-contiguous lands is in furtherance of mitigation or conservation efforts undertaken for the purposes of benefiting a species listed as sensitive, threatened, or endangered under ORS 496.171 to 496.192 or the federal Endangered Species Act of 1973 (16 U.S.C. 1531 to 1544), as determined by the listing agency. Contiguous land being either adjacent land or land separated from the land to which a permit is authorized by roads, utility corridors, irrigation ditches or publicly owned rights of way.

Additional remarks: None.

Received  
FEB 10 2025  
OWRD

Are there other water rights certificates, water use permits or ground water registrations associated with the "from" or "to" lands?  Yes  No

If YES, list the other certificate, permit, or ground water registration numbers: PERMIT S-55451

If the permit(s) are for irrigation or supplemental irrigation use, other water rights existing on the same land for irrigation that are subject to transfer must either change concurrently or be cancelled. Any change to a water right certificate or ground water registration must be filed separately in a water right transfer application or ground water registration modification application, respectively.

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation: NA

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (Tip: You may search for well logs on the Department's web page at: [http://apps.wrd.state.or.us/apps/gw/well\\_log/Default.aspx](http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx))

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

**Table 3. Construction of Point(s) of Appropriation**

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Proposed or Authorized POA Name or Number	Is well already built? (Yes or No)	If an existing well, OWRD Well ID Tag No. L-_____	Total well depth	Casing Diameter	Casing Intervals (feet)	Seal depth(s) (intervals)	Perforated or screened intervals (in feet)	Static water level of completed well (in feet)	Source aquifer (sand, gravel, basalt, etc.)	Well - specific rate (cfs or gpm). If less than full rate of water right

## A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), and/or used or developed. Applicants for municipal use, or irrigation uses within irrigation districts, may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Township	Range	Section	1/4	Tax Lot #	Plan Designation (e.g., Rural Residential/RR-5)	Water to be:	Proposed Land Use:
4S	2E	28		402	EFU	<input checked="" type="checkbox"/> Diverted <input checked="" type="checkbox"/> Conveyed <input checked="" type="checkbox"/> Used	Reservoir
						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	
						<input type="checkbox"/> Diverted <input type="checkbox"/> Conveyed <input type="checkbox"/> Used	

List all counties and cities where water is proposed to be diverted, conveyed, and/or used or developed:

Clackamas County

NOTE: A separate Land Use Information Form must be completed and submitted for each county and city, as applicable.

## B. Description of Proposed Use

Type of application to be filed with the Oregon Water Resources Department:

Permit to Use or Store Water  Water Right Transfer  Permit Amendment or Ground Water Registration Modification  
 Limited Water Use License  Exchange of Water  Allocation of Conserved Water

Source of water:  Reservoir/Pond  Ground Water  Surface Water (name) Molalla River

Estimated quantity of water needed: 1.5  cubic feet per second  gallons per minute  acre-feet

Intended use of water:  Irrigation  Commercial  Industrial  Domestic for \_\_\_\_\_ household(s)  
 Municipal  Quasi-Municipal  Instream  Other Multi-purpose

Briefly describe:

This Land Use Information Form is to accompany a permit amendment application that proposes  
add an additional point of diversion for an existing water right Permit R-15550.

**Note to applicant:** For new water right applications only, if the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt on the bottom of page 4 and include it with the application filed with the Oregon Water Resources Department.

See Page 4 ➔

## For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

### Please check the appropriate box below and provide the requested information

OWRD

Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): ZDO 401 EFU & 703 Flood Plain

Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being Pursued
		<input type="checkbox"/> Denied	<input type="checkbox"/> Not Being Pursued
		<input type="checkbox"/> Obtained	<input type="checkbox"/> Being Pursued

Local governments are invited to express special land use concerns or make recommendations to the Oregon Water Resources Department regarding this proposed use of water in the box below or on a separate sheet.

Placement of a portable pump and pipe to fill established reservoir from an addition point of diversion (POD). Equipment including a portable pipeline with pump and generator to be temporarily placed during the authorized storage season (Dec-May) of each year to fill the reservoir. Placement during a flood event is prohibited. Water to be used for irrigation of crops. No farm crop processing or commercial activities have been proposed or reviewed with this request.

Reference: Application T-14610

On February 10, 2025, OWRD received your water right Permit Amendment Application. The application was accompanied by \$1360.00. Our receipt number 144708 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to Oregon Department of Fish and Wildlife to determine if a fish screen is needed.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of diversion until a final order approving the application has been issued by the Department.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0935.
