- Are there **other water rights**, Permits or Ground Water Registrations associated with this land?
☐ YES ☒ NO

Any "layered" water use or a right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled.

▪ Certificate Number or other identifying number: **94872**

The following information must be provided only for those points of diversion or appropriation that are involved in the transfer.

If a point of diversion or appropriation is not numbered on the decree or water right certificate or permit, assign it a unique number in the following table (e.g. POD #1 or POA(well) #1). Use the number to refer to the point of diversion or appropriation serving the place of use described in Tables I and II. Note: Permanent district transfers do not allow for a change in point of diversion or appropriation to serve the proposed place of use.

Government lot and donation land claim numbers must be included in the table below **only** if the information is reflected on the existing water right.

Location of Existing Authorized Point(s) of Diversion (POD) or Appropriation (POA):

(i.e., the allowed point(s) of diversion or appropriation listed on the water right for the "FROM" or "OFF" lands)

*** The reason for the transfer is due to the construction of a large power transmission line that was put in on the West side of the circles. The power line forced the current circles to shift to the East.

***This area is currently involved in a one-year district temporary transfer (T-14599), so this transfer won't be effective until the 2026 irrigation season.

▪ Certificate Number or other identifying number **94872**

Provided the district filed notice of a change in place of use pursuant to OAR 690-385-4100, reference the District Internal Notice Number (DINN) used to describe the change(s) to be made permanent by this transfer.

Government lot (GOV'T LOT) and donation land claim numbers (DLC) must be included in the tables below **only** if the information is reflected on the existing water right.
