RE: Permanent Transfer Application:

The Water Resources Department received your Application for a Permanent Water Right Transfer. Unfortunately, we are unable to accept your application because it does not meet the minimum filing requirements outlined in Oregon Administrative Rules Chapter 690, Division 380.

The specific reasons your application cannot be accepted at this time are due to the following:

- Each person listed on the Applicant Information section of the application as an applicant must also provide a signature on the bottom of Page 3 of 9. Sandra McCoy is listed as an applicant; however, her signature is missing on that page.

Because we are not able to accept the Permanent Water Right Transfer Application at this time, we are also returning the application and fees.

If you have any questions or concerns, please contact me at 971-701-5485 or by email elyse.d.hennen@water.oregon.gov.

Sincerely,

Elyse Hennen

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;

Surface water primary Certificate # _____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- ☐ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

NOTE TO APPLICANTS

In order for your application to be processed by the Oregon Water Resources Department (OWRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be diverted, conveyed, used, and developed. The planning official may choose to complete the form while you wait or return the "Receipt Acknowledging Request for Land Use Information" to you. Applications received by OWRD without the Land Use Information Form, or the signed receipt, will be returned to you. **IMPORTANT:** Please note that while OWRD can accept a signed receipt as part of intake for an application for a new permit to use or store water, a completed Land Use Information Form is required for OWRD's acceptance of all other applications. Please be aware that your application cannot be approved without land use approval.

This form is NOT required if:

- 1) Water is to be diverted, conveyed, and used on federal lands only; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply:
 - a. The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
 - b. The application involves a change in place of use only;
 - c. The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; and
 - d. The application involves irrigation water uses only.

NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a new water right or modifying an existing water right. The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application. **NOTE:** For new water right applications only, if you are unable to complete this form while the applicant waits, you may complete the "Receipt Acknowledging Request for Land Use Information" and return it to the applicant.

You will receive notice via OWRD's weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you previously only completed the receipt for an application for a new permit to use or store water, you will have 30 days from the Public Notice date to complete the Land Use Information Form and return it to OWRD. Your attention to this request for information is greatly appreciated. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or WRD_DL_customerservice@water.oregon.gov.

It appears that the waters of Ladd Creek should be divided between the two branches thereof. Said creek flows in a northerly direction, and upon emerging from the canyon in which it arises it divides into two branches called the East Branch and the West Branch, and the waters of Ladd Creek should be divided equally between the two said branches. Upon the waters of said Ladd Creek defraying the expenses, a concrete division box should be installed at the forks of said creek, under the supervision and specifications of the water master.

10.

As to the exceptions of J. F. Dobbin relative to the lands irrigated by the Sugar Beet Irrigation Company, it appears that he has purchased certain lands lying West of Catherine Creek, amounting to approximately 17.73 acres in the NE $\frac{1}{4}$ SW $\frac{1}{4}$, 2.75 acres in the NW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 10, 15.93 acres in the SE $\frac{1}{4}$ SW $\frac{1}{4}$ and 3.6 acres in the SW $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 3, all in T. 4 S., R. 39 E., W. 4 M. That such lands were tabulated under the name of the Amalgamated Sugar Company as being irrigated through the Sugar Beet Irrigation Company's ditch, and as it appears that J. F. Dobbin is successor in interest in the ownership of said lands, and that such water right was transferred with the land, which stands in his name, that said water right should also stand in his name in this decree, and it is so ordered.

That F. H. Johnson, D. W. Hutchinson, J. H. That Jerry Veatch has the first right to the use of the water of said creek in the same manner and to the same extent as he now uses it.
