9. Notice of the application for temporary transfer was published on September 4, 2007, pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
10. Transfer Application T-10446 proposes to temporarily transfer water rights within the boundaries of the Columbia Improvement District. The district was notified of the proposed temporary transfer and the district indicated that they did not object to the transfer.
11. Water has been used within the last five years according to the terms and conditions of the rights, and there is no information available that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
12. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five year period prior to submittal of Transfer Application T-10446.
13. The proposed change would not result in enlargement of the rights.

14. The proposed change would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(6) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

The temporary changes in place of use proposed in Transfer Application T-10446 are consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The changes in place of use proposed in Transfer Application T-10446 are approved.
2. The former place of use **shall not** be irrigated as part of this water right during the 2007 irrigation season.
3. The use shall revert to the authorized place of use at the end of the 2007 irrigation season.
4. The approval of this temporary transfer may be revoked or modified if the Department finds the change causes injury to any existing water right.
5. A subsequent application for permanent transfer of Certificates 68536, 61848 and 61849 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificates 68536, 61848 and 61849.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. The water user shall maintain and operate the existing measurement device and shall make such improvements as may be required by the Department.
9. The use of the remaining water right described by Certificates 68536, 61848 and 61849 shall continue to be in accordance with the terms and conditions of Certificates 68536, 61848 and 61849.

Dated at Salem, Oregon this 18th day of September, 2007.

Applicant Name: Baker Produce South

Proposed Changes: POU POD POA USE OTHER

Reviewer(s): Tony Justus

Date of Review: Sep. 11, 2007

1. Do you have information suggesting that the water rights may be subject to forfeiture?
 Yes No If "Yes", describe the information and indicate if you intend to file a cancellation affidavit or if you need additional time to determine if a cancellation affidavit should be filed: _____
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights? Yes No Generally characterize the frequency of any regulation or explain why regulation has not occurred:
Surface water source is Columbia River- not regulated. Ground water source is basalt aquifer of Butter Creek Critical Area - it is regulated.
3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

4. Are there upstream water rights that would be affected by the proposed change?
 Yes No If "Yes", describe how the rights would be affected and list the rights most affected: _____
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses: _____
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?
 Yes No If "Yes", explain: _____
7. For POU changes, would the original place of use continue to receive water from the same source? Yes No N/A If "Yes", explain: _____
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? Yes No If "Yes", explain: _____
9. Are there other issues not identified through the above questions? Yes No If "Yes", explain: A few items noted and included in Dorothy's deficiency email and letter.

Tim

Please take care of the \$117.30 issue last paragraph in e-mail below and I will take care of the map issue.

Susan

I will correct the map to read 28.9 acres in the NE NE of Section 6. This will require some changes in other areas of the application, application map and the proposed order. I will add 0.1 acres to the 5.3 acres in the NE SE Section 31 making it 5.4 acres page 8. On pages 16 and 24 of the application these same changes need to be made and will be made on the map also. This will keep the primary and supplemental water rights in agreement. I will email you new pages 8, 16, & 24 of the applications with these changes and try to get in the mail tomorrow the corrected map.

Thank you for working with us on these concerns.

Subject: Temp Transfer T-10446 - Baker Produce South

Hello,

I've reviewed this application in Greg Nelson's absence and have found a couple minor issues.

First, the listing of the proposed supplemental irrigation place of use under Certificate 68536, page 8 of the application differs from the map slightly.

The map lists 29.0 acres in the NENE, Section 6, T2N R26E, the application lists 28.9 acres in the NENE, Section 6, T3N R26E. I think the map shows the correct location but lists the wrong number of acres while the application lists the correct acres but the wrong location. I've drafted the order to list 28.9 acres in the NENE, Section 6, T2N R26E. Is this correct and if so would you send me an email mentioning the acres on the map should be listed as 28.9 and then drop a corrected map in the mail?

Also the map shows 10.3 acres in Section 6, T2N R26E but the application lists these acres in Section 31, T3N R26. I believe this is just a listing error and recommend that the order be drafted to list these acres in Section 6, T2N R26E.

Finally, there is an issue of fees. Here's what I came up with:

Single Change, three rights, plus acres
 43.5 IR - Cert 68536 (these 43.5 acres are "covered by 210.8 supplemental)
 210.8 IS - Cert 68536
 391.7 IR - Cert 61848
 391.7 IS - Cert 61849* - acres not charged

Susan

Please find attached a corrected Supplemental Form A. I returned the 5.4 Acres in NE SE Section 31 back to 5.3 acres on pages 8, 16 and 24. To get the primary to agree with the supplemental I reduced the 9.4 acres NE NW Section 30 (last entrée "From") pages 14 and 22 to a 9.3 acres.

Are you able to amend the maps which are in the mail to you and reference this e-mail as authorization for the changing the 5.4 back to 5.3 and the 9.4 to 9.3; or do I need to get new maps to you.

Good morning,

Took a quick look at the amendments and all looks great except that the authorized supplemental acres and the proposed supplemental acres under Cert 68536 are off by 0.1 acres. Wanted to give you a head's up as I haven't immediately been able to put my finger on the problem.

Let me know if you find resolution.

Thanks

Please take care of the \$117.30 issue last paragraph in e-mail below and I will take care of the map issue.

Susan

I will correct the map to read 28.9 acres in the NE NE of Section 6. This will require some changes in other areas of the application, application map and the proposed order. I will add 0.1 acres to the 5.3 acres in the NE SE Section 31 making it 5.4 acres page 8. On pages 16 and 24 of the application these same changes need to be made and will be made on the map also. This will keep the primary and supplemental water rights in agreement. I will email you new pages 8, 16, & 24 of the applications with these changes and try to get in the mail tomorrow the corrected map.

Thank you for working with us on these concerns.

Hello,

I've reviewed this application in Greg Nelson's absence and have found a couple minor issues.

9/12/2007

First, the listing of the proposed supplemental irrigation place of use under Certificate 68536, page 8 of the application differs from the map slightly.

The map lists 29.0 acres in the NENE, Section 6, T2N R26E, the application lists 28.9 acres in the NENE, Section 6, T3N R26E. I think the map shows the correct location but lists the wrong number of acres while the application lists the correct acres but the wrong location. I've drafted the order to list 28.9 acres in the NENE, Section 6, T2N R26E. Is this correct and if so would you send me an email mentioning the acres on the map should be listed as 28.9 and then drop a corrected map in the mail?

Also the map shows 10.3 acres in Section 6, T2N R26E but the application lists these acres in Section 31, T3N R26. I believe this is just a listing error and recommend that the order be drafted to list these acres in Section 6, T2N R26E.

Finally, there is an issue of fees. Here's what I came up with:

Single Change, three rights, plus acres

43.5 IR - Cert 68536 (these 43.5 acres are "covered by 210.8 supplemental)

210.8 IS - Cert 68536

391.7 IR - Cert 61848

391.7 IS - Cert 61849* - acres not charged

$\$200$ (1st cert) + 50 (2nd cert) + 50 (3rd cert) + 210.8 (the 43.5 is a piece of this) + $391.7 = \$902.50$

$\$785.20$ was submitted. This leaves a balance of $\$117.30$. Please have the applicant remit these funds at their earliest convenience.

Let me know.

Thanks

After talking to Susan it sounds like she is well on her way on getting the errors fixed with this transfer application so it can be processed. I respectfully request we process this application quickly, as it is the solution for the illegal irrigation that is occurring on these lands at this time. The applicant is working cooperatively with us in trying to resolve the illegal irrigation by filing the transfer. We have sent out a NOV giving the owners until September 15 to get legal or shut off.

As I understand this is what needs to be done: Susan will send a GW injury review to Marc and he will do his review. Tony has to do his Watermaster injury review. I would appreciate if you both could get these done this week. Please let me know if we determine "injury" or there is some reason the application can not go forward. If we pass all the criteria, I assume we may be in a position to approve the transfer by next week. If this is not the case, please let me know.

I want to thank you all for working so hard on getting this transfer processed timely. If anyone has any questions, please let me know.

I'm putting this in a hardcopy form of a letter. You'll be cc'd.

I hear we won't be waiting for the "comment period"/30 days to run. I'll have this issued immediately following receipt of the amendments, etc.

Reference: Temporary Transfer 10446

On August 24, 2007 we received your water right transfer application. The application was accompanied by \$785.20. Our receipt 89332 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Pursuant to OAR 690-380-8010, the lands from which an irrigation water right is to be transferred and the land to which the right is to be transferred may not both receive water during the same season. If the temporary transfer is approved during an irrigation season and water has already been used at the currently authorized location during that season, then the temporary transfer will not take effect until the following season.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0900.

Tim

Please take care of the \$117.30 issue last paragraph in e-mail below and I will take care of the map issue.

Susan

I will correct the map to read 28.9 acres in the NE NE of Section 6. This will require some changes in other areas of the application, application map and the proposed order. I will add 0.1 acres to the 5.3 acres in the NE SE Section 31 making it 5.4 acres page 8. On pages 16 and 24 of the application these same changes need to be made and will be made on the map also. This will keep the primary and supplemental water rights in agreement. I will email you new pages 8, 16, & 24 of the applications with these changes and try to get in the mail tomorrow the corrected map.

Thank you for working with us on these concerns.

Subject: Temp Transfer T-10446 - Baker Produce South

Hello,

I've reviewed this application in Greg Nelson's absence and have found a couple minor issues.

First, the listing of the proposed supplemental irrigation place of use under Certificate 68536, page 8 of the application differs from the map slightly.

The map lists 29.0 acres in the NENE, Section 6, T2N R26E, the application lists 28.9 acres in the NENE, Section 6, T3N R26E. I think the map shows the correct location but lists the wrong number of acres while the application lists the correct acres but the wrong location. I've drafted the order to list 28.9 acres in the NENE, Section 6, T2N R26E. Is this correct and if so would you send me an email mentioning the acres on the map should be listed as 28.9 and then drop a corrected map in the mail?

Also the map shows 10.3 acres in Section 6, T2N R26E but the application lists these acres in Section 31, T3N R26. I believe this is just a listing error and recommend that the order be drafted to list these acres in Section 6, T2N R26E.

Finally, there is an issue of fees. Here's what I came up with:

Single Change, three rights, plus acres
 43.5 IR - Cert 68536 (these 43.5 acres are "covered by 210.8 supplemental)
 210.8 IS - Cert 68536
 391.7 IR - Cert 61848
 391.7 IS - Cert 61849* - acres not charged

\$200 (1st cert) + 50 (2nd cert) + 50 (3rd cert) + 210.8 (the 43.5 is a piece of this) + 391.7 = \$902.50

\$785.20 was submitted. This leaves a balance of \$117.30. Please have the applicant remit these funds at their earliest convenience.

Let me know.

Thanks

REFERENCE: Temporary Transfer T-10446

This letter will serve as a follow-up to our earlier email exchange.

As explained earlier, there are some problems with the above reference temporary transfer application. Your clarification or correction of the following issues should be addressed at your earliest convenience.

1. The listing of the proposed supplemental irrigation place of use under Certificate 68536, page 8 of the application differs from the map slightly. The map lists 29.0 acres in the NENE, Section 6, T2N R26E, the application lists 28.9 acres in the NENE, Section 6, T3N R26E. Please clarify this issue and submit an amended map and application.
2. The submitted map shows 10.3 acres in Section 6, T2N R26E but the application lists these acres in Section 31, T3N R26. Please also clarify this discrepancy.
3. Additional fees are necessary. A check in the amount of \$785.20 was received with the application however the fees total \$902.50. The balance of \$117.30 is due. A breakdown of the fees are as follows:

\$200.00	Single change/first water right (Cert 68536)
50.00	Second water right (Cert - 61848)
50.00	Third water right (Cert - 61849)
<u>602.50</u>	\$1/an acre
902.50	Total
<u>- 785.20</u>	Check #15007 (already submitted)
\$117.30	Balance due

Please submit the clarification and/or revised map and application, as listed in #1 and #2 above, and the remainder of the fees by **October 11, 2007** to Susan Douthit, Water Resources Department, 725 Summer St. NE, Suite A, Salem, OR 97301-1271. If you have any questions, please call me at 503-986-0858.
