3. Transfer Application T-10460 proposes to change the place of use of the right to:

DOMESTIC					
Twp	Rng	Mer	Sec	Q-Q	GLot
8 S	10 W	WM	20	SW SW	7

4. Notice of the application for temporary transfer was published on September 25, 2007, pursuant to ORS 540.520 and OAR 690-380-4000. No comments were filed in response to the notice.
5. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
6. A pump and pipeline sufficient to use the full amount of water allowed under the existing right were present within the five year period prior to submittal of Transfer Application T-10460.
7. The proposed change would not result in enlargement of the right.
8. The proposed change would not result in injury to other water rights. This finding is made through an abbreviated review recognizing that the transfer may be revoked under ORS 540.523(6) if the Department later finds that the transfer is causing injury to any existing water right.

Conclusions of Law

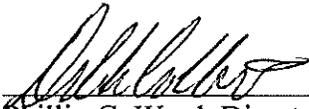

The temporary change in place of use proposed in Transfer Application T-10460 is consistent with the requirements of ORS 540.523 and OAR 690-380-8000.

Now, therefore, it is ORDERED:

1. The change in place of use proposed in Transfer Application T-10460 is approved.
2. The former place of use **shall not** be used as part of this water right during 2007, 2008, 2009, 2010 and 2011.
3. The use shall revert to the authorized place of use at the end of the 2011.

4. The approval of this temporary transfer may be revoked or modified if the Department finds the change causes injury to any existing water right.
5. A subsequent application for permanent transfer of Certificate 62189 shall be subject to a full and complete review to determine consistency with the requirements of OAR Chapter 690, Division 380. Approval of this temporary transfer does not establish a precedent for approval of a subsequent application filed for a permanent transfer.
6. The use of water at the temporary place of use authorized by this transfer shall be in accordance with the terms and conditions of Certificate 62189.
7. The time during which water is used under this approved temporary transfer does not apply toward a finding of forfeiture under ORS 540.610.
8. When required by the Department, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water used. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

Dated at Salem, Oregon this 28 day of November, 2007.

Reference: Temporary Transfer 10460

On September 18, 2007 we received your water right transfer application. The application was accompanied by \$200.00. Our receipt 89729 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Pursuant to OAR 690-380-8010, the lands **from** which an irrigation water right is to be transferred and the land **to** which the right is to be transferred may not both receive water during the same season. If the temporary transfer is approved during an irrigation season and water has already been used at the currently authorized location during that season, then the temporary transfer will not take effect until the following season.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0900.
