

INSTRUCTIONS:

This checklist is intended to facilitate the Department of Water Resources' ("Department") processing of water rights transfer applications within the Deschutes Basin for the 2026 calendar year. The Confederated Tribes of the Warm Springs Reservation of Oregon ("Tribe") has reviewed this checklist. The Tribe does not object to the Department's processing of any water rights transfer applications that meets a "Yes" of all applicable checklist items, and therefore satisfies the "Meets Requirements" category at the top of this checklist. When the checklist is so satisfied, the Department may process the application in accordance with applicable law, and the Department's customary practice.

Water rights transfer applications that meet all of the checklist criteria appear to present a low risk of injury to the Tribal Reserved Water Right as defined in the Confederated Tribes of the Warm Springs Reservation Water Rights Settlement Agreement, dated November 17, 1997, as amended. The Tribe does not waive its right to dispute or challenge any transfer application, whether or not they satisfy this checklist, on the basis that the transfer injures the Tribal Reserved Water Right or other federally-reserved water right held by the Tribe. The Tribe expressly reserves, and does not waive, all rights, claims, and defenses that it may possess in connection with the application, including, but not limited to, whether the application violates the Treaty of June 25, 1855, with the Tribes of Middle Oregon, 12 Stat. 963, or the Confederated Tribes of the Warm Springs Reservation Water Rights Settlement Agreement, dated November 17, 1997, as amended.

The Tribe further reserves the right to conduct additional analysis on any transfer that is submitted to the Department with a completed checklist. The Tribe reserves the right to consider, among other things, the risk of localized impacts, cumulative impacts, water quality, return flows, groundwater recharge, Habitat Conservation Plan flow augmentation agreements, water bank transactions, and additional analyses received from the Tribe's staff, Department, applicant, or third party.

A "temporary instream lease" is any instream lease lasting five (5) years or less.

This checklist applies to surface water transfers only. This checklist does not apply to groundwater transfers.

If you have any questions about this checklist, please contact:

Alex Ehrens or Gen Hubert, on behalf of Deschutes River Conservancy, via e-mail at:
alex@deschutesriver.org

Application for
District Instream Lease
 Part 1 of 4 – Minimum Requirements Checklist

Oregon Water Resources
 Department
 725 Summer Street NE, Suite A
 Salem, Oregon 97301-1266
 (503) 986-0900
 www.oregon.gov/OWRD

This Application to be used for water rights in the name of or conveyed by an Irrigation District (or similar organization) Complete Parts 1 through 4 and any required attachments	OWRD #	IL - 2148
	District #	TIDPooled

Check all items included with this application. (N/A = Not Applicable)

26-01

Fee:

Application fee required by ORS 536.050 Fee Schedule is located at this link: https://www.oregon.gov/owrd/WRDFormsPDF/fee_schedule.pdf
<input type="checkbox"/> Check enclosed <u>or</u> <input checked="" type="checkbox"/> Fee Charged to customer account Deschutes River Conservancy (Account name)

Yes N/A **Pooled Lease**-a lease with more than one **Lessor** (Landowner/water right interest holder)

Part 1 – Completed Minimum Requirements Checklist

Part 2 – Completed District and Other Party Signature Page

Part 3 – Completed Place of Use and Lessor Signature Page
 (Include a separate **Part 3** for each Lessor.)

Part 4 – Completed Water Right and Instream Use Information
 (Include a separate **Part 4** for each Water Right.)

How many Water Rights are included in the lease application? 3 (# of rights)

List each water right to be leased instream here: 95175, 95176, 94956

Yes N/A **Other water rights**, if any, appurtenant to the **lands** involved in the lease application and not proposed to be leased instream.

List those other water rights here: 95176 (IS), 95177 (IS), 95178 (IS), 74149 (IS), 76714 (IS)

Yes No Conservation Reserve Enhancement Program **CREP** – Are some or all of the lands to be leased part of CREP or another Federal program (list here: _____)?

Required Attachments:

Yes N/A Instream lease application map(s). More than one QQ and property may be included on each map. A map is **not** required if an entire right is being leased or if the right is for use of municipal or quasi-municipal water use. The map should include the following:

- A north arrow and map scale (no smaller than 1" = 1320').
- Label township, range, section and quarter-quarter (QQ).
- If an irrigation right, the numbers of acres to be leased in each quarter-quarter identify and hachure/shade to differentiate between the acreage being leased and any remaining. If the place of use has more than one priority date, source stream, and/or point of diversion you **must identify each with separate hachuring or shading** and label.
- Tax lot lines and numbers must be included on the map and should clearly identify the property(s) involved.

Yes N/A **If the Lessor(s) is not the deeded land owner**, include one of the following:

- A notarized statement from the land owner consenting to the lease and a copy of the recorded deed; or
- A water right conveyance agreement and a copy of the recorded deed for the landowner at the time the water right was conveyed; or
- Other documentation.

Yes N/A If the right has **not** been used in the last five years; provide supporting documentation indicating why a right (or portion thereof) is **not** subject to forfeiture.

Received by OWRD

 Salem, OR

Part 2 of 4 – District and other party Signature

Term of the Lease: The lease is requested to begin in: month <u>April</u> year <u>2026</u> and end: month <u>October</u> year <u>2026</u> .	
Public use: Check the public use(s) this lease will serve (as defined by ORS 537.332): <input checked="" type="checkbox"/> Conservation, maintenance and enhancement of aquatic, fish and wildlife, fish and wildlife habitat and any other ecological values. <input checked="" type="checkbox"/> Recreation <input checked="" type="checkbox"/> Pollution abatement <input type="checkbox"/> Navigation	Termination provision (for multiyear leases): The parties to the lease request (choose one): <input checked="" type="checkbox"/> a. The option of terminating the lease prior to expiration of the full term with written notice to the Department by the Lessor(s) and/or Lessee. <input type="checkbox"/> b. The option of terminating the lease prior to expiration of the full term, with consent by all parties to the lease. <input type="checkbox"/> c. The parties would not like to include a Termination Provision. (See instructions for limitations to this provision)
Additive/Replacing Relationship to other instream water rights: Instream leases are generally additive to other existing instream water rights created as a result of instream leases and transfers and/or allocations of conserved water. Since instream leases are also generally senior to other instream rights created through a state agency process or conversion of minimum flows, they generally replace a portion of these junior instream rights. If you would like this lease to relate to other instream water rights differently than described above, please check this box. <input type="checkbox"/> And attach an explanation of your intent.	
Precedent: If a right which has been leased is later proposed to be leased again or later transferred or become part of an allocation of conserved water project, a new injury review shall be required. An instream lease shall not set a precedent on a future transaction.	
Validity of the rights to be leased: <input checked="" type="checkbox"/> The water right(s) to be leased have been used under the terms and conditions of the right(s) during the last five years or have been leased instream; or <input type="checkbox"/> The water right(s) have not been used for the last five years according to the terms and conditions of the rights. However, the water right(s) is not subject to forfeiture under ORS 540.610(2). Documentation describing why the water right is not subject to forfeiture has been provided.

95175	09/01/1900	1	16	S	12	E	17	SE	SW	2602	N/A	.70	IR	15	N/A

Any additional information about the right: .30 Acres Remaining

Farm Deferral Tax Status: Counties make the determination of whether a property qualifies for the farm use assessment without consideration of whether the lands have an associated water right which is leased instream. If you have questions regarding the farm use assessment you should contact your local county assessor. You should contact your County for any weed ordinance and management requirements.

The undersigned declare:

1. I/We agree during the term of this lease to suspend use of water allowed under the water right(s) involved in the lease as well as and any other appurtenant primary or supplemental water right(s); and
2. I/We certify are the lessor(s) (water right interest holder) of the water right(s) in Table 1. If not the deeded land owner, I/we have obtained consent from the deeded land owner and/or have provided documentation of authorization to pursue the instream lease; and
3. I/We affirm that the information in this application is true and accurate.

June 1, 1907	184	0.020	7.20
Totals		0.088	32.04

*Resulting rates may not exceed the max rate identified for Section 1.5 of the Lease Application

Notes

The amounts shown in the lavender box's breaks the water right down into each priority date for what is going instream.
 The volume shown is simply the full duty as calculated in the green box.
 However, the instream rate has been reduced. The presumption I used is that water is to be protected instream over the full irrigation season, being April 15 to October 15. The instream rate then is the duty divided by the number of days in the irrigation season (184). This is then divided by 1.983471 AF/day to arrive at the rate instream. 1.983471 AF = 1 CFS for one day.
 (Duty in AF / # of days instream) * 1 CFS/1.983471 AF per Day

Season 1	0.273	55	29.77	213.19
Season 2	0.364	30	21.65	
Season 3	0.674	123	164.41	
Totals		Total Instream Vol.	215.84	
Additional Conditions to Prevent Injury for Section 2.2 of the Lease Application Form				
Water protected instream:	April 1 through October 25			

Notes

The volume identified is the sum of the rates multiplied by 1.98af/acre and then multiplied by the number of days season.

The number of days that water may be protected instream over the season has been reduced to prevent enlarge (exceeding the duty limit).

Notes

Amounts reflected above do not include transmission loss water. Based on review of records for this certificate, the diversion at the POD includes 45% transmission loss. Prior conversations with the Watermaster suggest that this should be removed from the quantity leased or transferred instream to avoid injury and enlargement issues.

See FO for IL-1549 and review materials in lease file.

Part 4 of 4 – Water Right and Instream Use Information

Use a separate Part 4 for each water right to be leased instream

Table 2

Use Table 2 to illustrate the totals for the water right proposed to be leased instream (based on Part 3 of 4)						Water Right # <u>94956</u>	
Total rate and volume by priority date, POD, use and acreage as appropriate considering the right to be leased. If not enough room below, you may add rows (see instructions) or create a spreadsheet (matching Table 2 and clearly labeled) and attach. (cfs = cubic feet per second and af = acre-feet)							
Priority Date	POD #	Use	Acres	Other Information (such as conditions/limitations on the right)	Rate (cfs)	Volume (af)	
10/31/1900	9P	IRR	8.00	Season 1 rate/Total Volume	0.081	65.14	
10/31/1900	9P	IRR	8.00	Season 2 rate	0.111		
10/31/1900	9P	IRR	8.00	Season 3 rate	0.148		
12/2/1907	9P	IRR	8.00	Season 3 rate	0.056		
Total af from storage, if applicable: _____ AF or <input checked="" type="checkbox"/> N/A							
If the POD is not described on the certificate or, if there is more than one POD listed on the certificate, then the specific POD must be described:							

Table 3

Instream Use created by the lease	River Basin: <u>Deschutes</u>	River/Stream Name: <u>Tumalo Creek, tributary to Deschutes River</u>					
Proposed Instream Reach: <input checked="" type="checkbox"/> A reach typically begins at the POD and ends at the mouth of the source stream: From the POD <u>9P</u> to <u>mouth of the Deschutes River</u>		Or Proposed Instream Point: <input type="checkbox"/> Instream use protected at the POD					
OR <input type="checkbox"/> Please check this box if you are not sure of the proposed reach and want water to be protected within a reach below the POD, if possible. If no reach is identified or the above box is not checked, and there is only one POD listed on the water right, the lease may be processed to be protected at the POD.)							
Instream Portion: May not exceed the maximum rate/volume for the right (identified in Table 2)							
Use the table 3 to illustrate the instream rate, volume and instream period by priority date, POD, Use and acreage, as appropriate. If not enough room below, you may add rows (see instructions) or create a spreadsheet (clearly labeled and matching the below portion of Table 3) and attach.							
Priority date	POD #	Use	Acres	Proposed Instream Period	Instream Rate (cfs)	Total instream volume (af)	
10/31/1900	9P	IRR	8.00	Season 1 rate/Total Volume	0.055	43.60	
10/31/1900	9P	IRR	8.00	Season 2 rate	0.073		
10/31/190	9P	IRR	8.00	Season 3 rate	0.136		
OR <input type="checkbox"/> Please check this box if you are not sure of the proposed rate, volume and instream period. As part of its review process, the Department will identify the appropriate instream rate, volume and period considering the water right(s) being leased and instream benefits.							
<input checked="" type="checkbox"/> Yes <input type="checkbox"/> N/A Conditions to avoid enlargement or injury to other water rights, if any, or other limitations: list here <u>Protected instream from 4/1/2026 - 10/26/2026</u>							
Note: The Department may identify additional conditions to prevent injury and/or enlargement.							
Any additional information about the proposed instream use: <u>n/a</u>							

**This table will calculate flow rate factors and duty for Central Oregon Irrigation District
Instream Leases with water instream under October 31, 1900 priority date only**
