RE: Transfer T-10477

Dear Gerry,

I am writing this letter in reference to Transfer T-10477 in the name of Willamette River Water Coalition. The Agent, GSI Water Solutions, Inc., has submitted documentation to ODFW concerning the intake screen. The screen manufacturer is Johnson Screens (Vivendi), a company that produces screens meeting ODFW's screening criteria. As a result, ODFW approves the fish screen associated with T-10477.

Please let me know if you have any questions or need any further clarification.

Sincerely,

Danette Ehlers
Assistant District Fish Biologist
North Willamette Watershed District

Willamette River Water Coalition
Attn: Amanda Rich
PO Box 745
Beaverton, Oregon 97075

Reference: Permit Amendment T- 10477

On October 24, 2007 we received your request for permit amendment. The application was accompanied by \$400.00. Our receipt 90308 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Except as provided under ORS 540.510(3) for municipalities, you may not use water in the new place of use, or from the new point of diversion, until we issue a final order approving the application.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0900.

**Notice of Application for
Water Right Transfer, Temporary Transfer, or Permit Amendment
10/30/07**

The Department seeks comment on the recently-filed application listed below. Any person may comment on the application. Comments must be received by the Department within 30 days of the date of this notice. The Director may presume that the transfer would be allowed by, and compatible with comprehensive plans unless an affected local government informs the Director otherwise within 30 days of this notice.

County: CLACKAMAS
Transfer: 10477
Water Right: PERMIT S 49240
Priority Date: 1973
Name: WILLAMETTE RIVER WATER COALITION
Address: PO BOX 745, BEAVERTON OR
Change: POD
Source: WILLAMETTE RIVER
Authorized POD: T3S R1W 22
Proposed POD: T3S R1W 23

The holder of a water right may apply to permanently change an existing water use subject to transfer. A transfer application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation.

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU).

Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time. Comments should be sent to the Transfers Section at the Department's Salem office.

3. Application T-10477 proposes to move the point of diversion of the permit downstream approximately 900 feet to:

Twp	Rng	Mer	Sec	¼ ¼	Location
3 S	1 W	WM	23	NW SW	3391.36 feet South and 495.26 feet East from the NW corner of Section 23

4. Notice of the application for the permit amendment was published in the Department's weekly notice on October 30, 2007, pursuant to ORS 540.520(5). No comments were filed in response to the notice.
5. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were

diverted and that the diversion is currently equipped with an appropriate fish screening and/or by-pass device.

6. The change would not result in injury to other water rights.
7. The change does not enlarge the permit.
8. The change does not alter any other terms of the permit.

Conclusion of Law

The change in point of diversion proposed by Permit Amendment Application T-10477 is consistent with the requirements of ORS 537.211.

Now, therefore, it is ORDERED:

The change and subsequent use of water shall be subject to the following conditions:

1. The quantity of water diverted at the new point of diversion shall not exceed the quantity of water lawfully available at the original point of diversion.
2. Prior to diverting water, the water user shall install an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain and operate the measuring device as required by the Department.
3. Water shall be acquired from the same surface water source as the original point of diversion.
4. The water user shall maintain and operate a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's operational and maintenance standards.
5. All other terms and conditions of Permit S-49240 remain the same.
6. Permit S-49240, in the name of the Willamette River Water Coalition, is amended as described herein.

Dated at Salem, Oregon this 25th day of June, 2008.

Phillip C. Ward, Director

Mailing Date: JUN 27 2008

Subject: RE: Draft of Final Order for T-10477 (Willamette River Water Coalition)

Lisa,
The draft final order looks good. From our perspective, it's ready to be issued.
Thanks again for your assistance (and patience) with this project.
Regards,
Kim

Subject: Draft of Final Order for T-10477 (Willamette River Water Coalition)

Hi Kim,

Attached is the draft of the Final Order for Permit Amendment T-10477 for your review. Let me know what you think. I updated the fish screen finding and condition to reflect ODFW's approval of the existing fish screen.

Thanks again,
Lisa

Subject: FW: Screen Approval for T-10477
Attachments: Willamette River Water Coalition.doc

Lisa,

ODFW has approved the fish screen to be used by the Willamette River Water Coalition, under permit amendment T-10477. (Please see the attached letter.) I looks like we are now ready for the final order on the permit amendment. Would you please send me a draft of the final order so I can review it before OWRD issues the order?

Thanks so much for your patience as we worked with ODFW. Please let me know if you need anything else from us.

Best regards,
Kim

RE: Transfer T-10477

Dear Gerry,

I am writing this letter in reference to Transfer T-10477 in the name of Willamette River Water Coalition. The Agent, GSI Water Solutions, Inc., has submitted documentation to ODFW concerning the intake screen. The screen manufacturer is Johnson Screens (Vivendi), a company that produces screens meeting ODFW's screening criteria. **As a result, ODFW approves the fish screen associated with T-10477.**

Please let me know if you have any questions or need any further clarification.

Sincerely,

Danette Ehlers
Assistant District Fish Biologist
North Willamette Watershed District

Subject: Permit Amend T-10477 for Willamette River Water Coalition
Attachments: 10477-ord-peramend.dot

Hi Adam,

Attached is a draft of the Final Order proposing to approve T-10477. Please review it and let me know what you think. As soon as I have your OK, I will proceed with issuance of the Final Order.

NOTE: Because the proposed POD is less than ¼ mile from the authorized POD, Newspaper Notice is NOT required.

Thanks,
Lisa

Oregon Department of Fish and Wildlife
Water Right and Diversion Transfer Comment Form
(ODFW provides to WRD so that WRD can make findings according to statutory requirements.)

Reference Transfer #: T- 10477

A. Please check box if you believe there is a potential for injury to an instream water right.

The Oregon Department of Fish and Wildlife (ODFW) believes this proposed transfer may injure an instream water right(s) on

_____, tributary to _____.
(Stream)

Because, _____.
(Please attach any available supporting information.)

Note: This will prompt WRD to further evaluate and make a determination whether the transfer will injure an instream water right. (WRD is the agency that makes the determination of injury to a water right, while ODFW's role is to raise concerns and to evaluate proposed mitigation and net benefit to the resource if WRD requests concurrence with injury to an instream water right.)

B. Please check one of the following four boxes related to requiring a fish screen and/or by-pass device pursuant to ORS 540.525 or 540.532:

1. The new Point of Diversion (POD) requires a fish screening and/or by-pass device and is currently equipped with an appropriate fish screening and/or by-pass device.

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is currently equipped with an appropriate fish screening and/or by-pass device.

Condition: The water user shall maintain and operate a fish screening and/or by-pass device, as appropriate, at the point of diversion consistent with the Oregon Department of Fish and Wildlife's operational and maintenance standards.

2. The new Point of Diversion (POD) requires a fish screening and/or by-pass device prior to water being diverted. The diversion may be eligible for cost share assistance under ODFW's cost share program. *(see note at end)*

Option 2 should generally be selected if listed fish species are present at the point of diversion and/or the originating water right diversion is currently screened. If Option 2 is selected, provide contact information on the "Fish Screening and Passage Information" sheet. The new diversion may be eligible for cost-share.

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion

*Please return all 4 pages to: Transfers Section, Water Resources Department,
725 Summer St. NE, Suite A, Salem, OR 97301-1271*

The electronic version of this form is available at: <http://www1.wrd.state.or.us/msword/ODFWScreen.doc>.

T-10477

and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

Condition: Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

3. The new Point of Diversion (POD) requires a fish screening and/or by-pass device. However, the diversion may be used for up to two years pending a determination of whether cost share assistance under ODFW's cost share program is available.

If Option 3 is selected, provide contact information on the "Fish Screening and Passage Information" sheet. Except in extraordinary circumstances, Option 3 should NOT be checked if listed fish species are present at the point of diversion, the originating water right diversion is screened, cost-share funds are currently available, or the diversion is not eligible for ODFW's cost-share program. If extraordinary circumstances are present, please explain: _____

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. Listed fish species are not present at the point of diversion, the originating water right diversion is not screened, cost-share funds are not currently available, and the proposed diversion may be eligible for ODFW's cost-share program. A grace period of two years is appropriate until such time as cost share funds become available to assist in the construction of a fish screening and/or by-pass device. If cost share funds do not become available, the water user must screen within the indicated time period regardless of the availability of cost share funding.

Condition: Within two years after the date of this order, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. The water user may withdraw water at the new point of diversion without screening or by-pass devices until two years after the date of this order. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

4. The new Point of Diversion (POD) does not currently require a fish screen and/or by-pass device, however, the permittee may be required in the future to install, maintain, and operate fish screening and/or by-pass devices.

Note: This option will yield the following:

Finding of Fact: The Oregon Department of Fish and Wildlife has determined that a fish screening and/or by-pass device may be required in the future at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device.

Condition: Within one year after receiving written notification from the Oregon Department of Fish and Wildlife (ODFW) that a fish screening and/or by-pass device is required, the water user shall install a screening and/or by-pass device, as appropriate, at the new point of diversion. The fish screening and/or by-

T-10477

pass device must meet ODFW's design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screening and/or by-pass device meets ODFW's criteria. Once installed the water user shall maintain and operate the fish screening and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

* I spoke to the Agent, Adam Sussman with PSI Water Solutions, on 1-14-08. He believes that the POD may have already had the screening system approved. He is going to check on the paperwork.

Oregon Department of Fish and Wildlife
Additional Fish Screening and Passage Information for the Applicant
(To be completed by ODFW for WRD to provide to the applicant.)

Transfer #: T-10477

The applicant should be aware that fish screening and passage may be required for certain changes in point of diversion if the boxes below are checked.

Fish screening and/or fish by-pass devices are required as a condition of this transfer. The fish screen and/or by-pass device must meet ODFW's design, construction, operational and maintenance standards. Fish screening prevents fish from entering the diversion, while a by-pass device safely transports fish back to the body of water from which the fish were diverted.

Pursuant to ORS 498.306, cost share funds may be available to assist in the installation of fish screening and by-pass devices at diversions.

The applicant should contact the ODFW staff below to obtain additional information on the design, construction, operational, and maintenance standards for the required fish screening and/or by-pass device and to obtain information about ODFW's cost sharing program for screening and by-pass devices. **Prior to installation, the water user must obtain written approval from ODFW that the required screening and/or by-pass device meets ODFW's criteria.**

ODFW staff name: _____ Bob Hair, Field Coordinator
Address: _____ 3561 Klindt Drive
City/State/Zip: _____ The Dalles, OR 97058
Phone: (_____) _____ 541-296-8026

This transfer may trigger requirements for fish passage under ORS 509.585 because a new point of diversion will be constructed, an existing point of diversion's capacity will be increased, or an existing point of diversion will be abandoned. The applicant should contact the ODFW staff below for a determination of whether native migratory fish are or were present at the applicable location, which will determine whether fish passage must be addressed.

Watermaster Review Form: Water Right Transfer

Transfer Application: T-10477

Review Due Date: 11/27/07

Applicant Name: WRWC

Proposed Changes: POU POD POA USE OTHER

Reviewer(s): M Mccord

Date of Review: 11/16/07

1. Do you have information suggesting that the water rights may be subject to forfeiture?
 Yes No If "Yes", describe the information and indicate if you intend to file a cancellation affidavit or if you need additional time to determine if a cancellation affidavit should be filed: The right has not been developed and has a valid extension through 2047
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights? Yes No Generally characterize the frequency of any regulation or explain why regulation has not occurred:

3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right? If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most:

4. Are there upstream water rights that would be affected by the proposed change?
 Yes No If "Yes", describe how the rights would be affected and list the rights most affected: _____
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? If you check the box, describe and, if possible, estimate the losses: _____
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?
 Yes No If "Yes", explain: I do not know.
7. For POU changes, would the original place of use continue to receive water from the same source? Yes No N/A If "Yes", explain: _____
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? Yes No
If "Yes", explain: _____
9. Are there other issues not identified through the above questions? Yes No If "Yes", explain: _____
10. What alternatives may be available for addressing any issues identified above: _____

11. Have headgate notices been issued for the source that serves the right? Yes No

12. What water control and measurement conditions should be included in the transfer:

Measurement Devices	<input type="checkbox"/> Present and should be maintained.	<input checked="" type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.
Headgates	<input type="checkbox"/> Present and should be maintained.	<input type="checkbox"/> Should be required prior to diverting water.	<input type="checkbox"/> May be required in the future.

Reference: Permit Amendment T- 10477

On October 24, 2007 we received your request for permit amendment. The application was accompanied by \$400.00. Our receipt 90308 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Except as provided under ORS 540.510(3) for municipalities, you may not use water in the new place of use, or from the new point of diversion, until we issue a final order approving the application.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0900.

Notice of Application for Water Right Transfer, Temporary Transfer, or Permit Amendment 10/30/07

The Department seeks comment on the recently-filed application listed below. Any person may comment on the application. Comments must be received by the Department within 30 days of the date of this notice. The Director may presume that the transfer would be allowed by, and compatible with comprehensive plans unless an affected local government informs the Director otherwise within 30 days of this notice.

County: CLACKAMAS
Transfer: 10477
Water Right: PERMIT S 49240
Priority Date: 1973
Name: WILLAMETTE RIVER WATER COALITION
Address: PO BOX 745, BEAVERTON OR
Change: POD
Source: WILLAMETTE RIVER
Authorized POD: T3S R1W 22
Proposed POD: T3S R1W 23

The holder of a water right may apply to permanently change an existing water use subject to transfer. A transfer application may involve any of the following changes: Point of diversion or appropriation (POD; POA); Additional point of diversion or appropriation (APOD; APOA); Historic POD (HIST); Place of use (POU); Character of use (USE); Instream (ISWR); Substitution (SUB); or Exchange (EXCH).

The holder of a water right subject to transfer may request to temporarily change the place of use of the water for up to 5 years and, if necessary to convey the water, to temporarily change the point of diversion or appropriation.

The holder of a water right permit may apply to change a point of diversion (POD) or appropriation (POA) or to change the place of use (POU).

Any person who provides comments within the comment period will receive a copy of the Department's preliminary determination of whether the application should be approved or rejected after the Department has completed a review of the application and will be provided an opportunity to protest the application and preliminary determination at that time. Comments should be sent to the Transfers Section at the Department's Salem office.

RE: Application for Permit Amendment of Permit S-49240 (Application S-50693)

Kelly:

On behalf of the applicant, Willamette River Water Coalition, please find enclosed an Application for Permit Amendment and a check totaling \$400 to cover the necessary filing fees for the application. The application proposes to change the point of diversion currently listed on Permit S-49240 to the actually developed location, but does not propose to change the place of use. The application is signed by Amanda Rich, who is the Executive Director of the Willamette River Water Coalition.

Please send copies of all correspondence relating to this application to both the applicant and to my attention. If you have any questions regarding the enclosed application or the information contained therein, please call me at 541-753-0745. Thank you for your assistance and I look forward to hearing from you soon.

Sincerely,

A handwritten signature in blue ink, appearing to read "Adam Sussman", is written over a light blue horizontal line.

7. AFFECTED DISTRICTS AND LOCAL GOVERNMENTS

- Are any of the Permit(s) or Registration(s) proposed for amendment/modification located within or served by an irrigation or other water district? Yes No
- Will any of the Permit(s) or Registration(s) be located within or served by an irrigation or other water district after the proposed amendment/modification? Yes No
- Is water for any of the Permit(s) or Registration(s) supplied under a water service agreement or other contract for stored water with a federal agency? Yes No

If "Yes", for any of the above, list the name and mailing address of the district and/or agency:

Tualatin Valley Water District, PO Box 745, Beaverton, OR 97075

Valley View Water District, PO Box 745, Beaverton, OR 97075

Southwood Park Water District, PO Box 745, Beaverton, OR 97075

West Slope Water District, 3105 SW 89th Ave, Portland, OR 97225

Raleigh Water District, 5010 SW Scholls Ferry Road, Portland, OR 97225

Lake Grove Water District, 16552 Boones Ferry Rd, Lake Oswego, OR 97035

Rivergrove Water District, 17661 Pilkington Rd, Lake Oswego, OR 97035

- List the name and mailing address of all affected local governments (e.g., county, city, municipal corporation, and tribal governments within whose jurisdiction the right(s) are located).

City of Wilsonville, 29799 SW Town Center Loop E, Wilsonville, OR 97070

8. PERMIT HOLDER OF RECORD

This section is to be completed only for Permit Amendment applications.

N/A – This is a Ground Water Registration Modification application.

- Is the applicant the permit holder of record? Yes No

If "No", the applicant must either:

A. *Be assigned as a permit holder of record by submitting a completed **Request for Assignment** form and the required statutory fee for an assignment;*

or

1 10477

RECEIVED

OCT 24 2007

10. ATTACHMENTS

*Check each of the following attachments included with this application.
The application will be returned if all required attachments are not included.*

Map: (Attachment A)

- A map meeting the requirements of OAR 690-380-3100 must be included but need **not** be prepared by a Certified Water Right Examiner.

Land Use Information Form: (Attachment B)

- Enclosed; *or*
- Not required if **all** of the following are met:
- ❶ In EFU zone or irrigation district;
 - ❷ Change in place of use only;
 - ❸ No structural changes needed, including diversion works, delivery facilities, other structures; *and*
 - ❹ Irrigation only.

Water Well Reports/Well Logs:

- The application involves a change in point of appropriation or change from surface water to ground water and copies of all water well reports are attached.
- Water well reports are not available and a description of construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed is attached.
- N/A. The application does **not** involve a change in point of appropriation or a change from surface water to ground water, so water well reports are **not** required.

Fees:

- Amount enclosed: \$ 400.00
See the Department's Fee Schedule at www.wrd.state.or.us/OWRD/PUBS/forms.shtml or call (503) 986-0900.

For Permit Amendments Only...

Request for Assignment:

- Enclosed. The applicant is **NOT** the permit holder of record and needs to be assigned to the permit; **OR** the landowner of the proposed place of use is **NOT** the permit holder of record and needs to be assigned to the permit.
*The Request for Assignment form is available online at: www.wrd.state.or.us/OWRD/PUBS/forms.shtml ; *or**
- N/A. The applicant is the permit holder of record and owns or controls the proposed place of use; **OR** the applicant is **not** the permit holder of record but **is** supplying an Affidavit of Consent from the permit holder.

Affidavit of Consent:

- Enclosed. Because the applicant is **NOT** the permit holder of record, an Affidavit of Consent is being supplied that gives permission for the applicant to amend the permit; *or*
- N/A. Not required because the applicant is the permit holder of record.

Before submitting your application to the Department, be sure you have:

- Answered each question completely.
- Included all the required attachments.
- Provided original signatures for all named deed holders, or other parties, with an interest in the water right.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

11. SIGNATURES

- **For Ground Water Registration Modification Applications only, check the appropriate one and sign the application in the signature box below:**

In accordance with OAR 690-382-0400(16)(a), I (we) understand that prior to Department approval of a permanent modification and upon my receipt of a draft Preliminary Determination for the proposed modification, I (we) will be required [pursuant to OAR 690-382-0700(5)] to provide the following landownership information and evidence demonstrating that I (we) are authorized to pursue the modification:

- (a) A report of ownership and lien information that has been prepared by a title company *within the last three months*;
- (b) A copy of written notification of the proposed modification provided by the applicant to all lien holders on the subject lands unless the report of ownership and lien information shows that a water right conveyance agreement has been recorded for the subject lands. *If a water right conveyance agreement has been recorded for the subject lands, a copy of the recorded agreement and a listing of the owner(s) of the lands at the time the agreement was recorded must be submitted; and*
- (c) If the applicant is not both the person named on the ground water registration or the assignee *and* the owner of the lands to which the registration is appurtenant, as identified in the report of ownership and lien information, then either of the following must be provided:
 - A) Notarized statements consenting to the modification by all persons, other than the applicant, who are named on the ground water registration or identified as landowners in the report of ownership and lien information or who are authorized representatives of an entity to whom the interest in the water right has been conveyed as identified in a water right conveyance agreement; or
 - B) Documentation demonstrating that the applicant is authorized to pursue the modification in the absence of consent of the persons named on the ground water registration or the assignee and the owner of the lands to which the registration is appurtenant.

I (we) affirm that the applicant is a municipality, as defined in ORS 540.510(3)(b), and that the right is in the name of the municipality or a predecessor. Therefore, pursuant to OAR 690-382-0400(16)(b), the applicant is NOT required to provide the above described report of ownership and lien information.

I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the ground water registration proposed for modification is appurtenant by condemnation. Documentation is provided with this application supporting this statement. Therefore, pursuant to OAR 690-382-0400(16)(c), the applicant is NOT required to provide the above described report of ownership and lien information. (NOTE: Such an entity may only apply for recognition of a modification under this subsection if it has filed a condemnation action to acquire the property and deposited the funds with the court as required by ORS 35.265.)

- **For both Permit Amendment and Ground Water Registration Modification Applications, I (we) affirm that the information contained in this application is true and accurate.**

Oregon Water Resources Department
Land Use Information Form

THIS FORM IS NOT REQUIRED IF: 1) water is to be diverted, conveyed, and/or used only on federal lands; or 2) the application is for a water-right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and all of the following apply: a) only the place of use is proposed for change, b) there are no structural changes, c) the use of water is for irrigation, and d) the use is located in an irrigation district or exclusive farm-use zone.

Applicant Name: Willamette River Water Coalition ATTN: Amanda Rich
Mailing Address: 1284 Court St. NE
City: Salem State: OR Zip: 97301 Day Phone: 503-378-0595

This application is related to a Measure 37 claim. [] Yes [x] No

A. Land and Location

Please include the following information for all tax lots where water will be diverted (taken from its source), conveyed (transported), or used. Applicants for municipal use, or irrigation uses within irrigation districts may substitute existing and proposed service-area boundaries for the tax-lot information requested below.

Table with 8 columns: Township, Range, Section, 1/4, Tax Lot #, Plan Designation (e.g. Rural Residential/RR-5), Water to be: (Diverted, Conveyed, Used), Proposed Land Use: (Municipal). Includes a row for 'Within service area boundaries'.

List all counties and cities where water is proposed to be diverted, conveyed, or used. The requested change to Permit S-49240 is limited to the Point of Diversion, which is located within the City of Wilsonville.

B. Description of Proposed Use

Type of application to be filed with the Water Resources Department:

- Permit to Use or Store Water, Water-Right Transfer, Exchange of Water, Allocation of Conserved Water, Limited Water Use License, Permit Amendment or Ground Water Registration Modification

Source of water: Reservoir/Pond, Ground Water, Surface Water (name) Willamette River > Columbia River

Estimated quantity of water needed: 202 cubic feet per second

Intended use of water: Municipal, Industrial, Domestic for household(s)

Briefly describe: The applicant is submitting a permit amendment application to the Oregon Water Resource Department requesting to change the point of diversion location listed on Permit S-49240 to the actual developed location.

Note to applicant: If the Land Use Information Form cannot be completed while you wait, please have a local government representative sign the receipt below and include it with the application filed with the Water Resources Department.

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form.

This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

Land uses to be served by proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): 4.189

Land uses to be served by proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.)
If approvals have been obtained but all appeal periods have not ended, check "Being pursued".

Type of Land-Use Approval Needed (e.g. plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:	
CONDITIONAL USE FOR	RESOLUTION NO. 1646	<input checked="" type="checkbox"/> Obtained <input type="checkbox"/> Denied	<input type="checkbox"/> Being pursued <input type="checkbox"/> Not being pursued

Thanks. One other related question. In the permit amendment application, the applicant is asked to list the name and mailing address of all affected local governments (e.g., county, city, municipal corporation, and tribal governments within whose jurisdiction the right(s) are located). Should every all of the counties and cities within the Place of Use be listed, or as with the Land Use Form, should we only list the entities to be affected by the change (where the POD is located)?

Subject: Permit Amendment question

Kelly

RECEIVED

OCT 24 2007

WATER RESOURCES DEPT
SALEM, OREGON

Hey there. How are things going? I have another permit amendment question for you. We are working on a permit amendment application for Permit G-49240. The permit amendment application will be requesting only a change in POD location as listed on the permit (changing the location to the actual developed location). This permit has a rather large Place of Use, which encompasses several counties and a number of cities. Since the

1 10477

proposed change only involves the POD, is it necessary to obtain a Land Use Information Form from every county and city contained in the Place of Use? Or is it sufficient to obtain a land use form for only the county and city in which the proposed change is occurring (where the POD is located).

Feel free to call we need to discuss this further. Thanks!

Ted

This permit, when issued, is for the beneficial use of water. By law, the land use associated with this water use must be in compliance with statewide land-use goals and any local acknowledged land-use plan. It is possible that the land use you propose may not be allowed if it is not in keeping with the goals and the acknowledged plan. Your city or county planning agency can advise you about the land-use plan in your area.
