Authority

OAR 690-385-7600 describes the process for the Water Resources Department to issue a water right certificate upon determination that an applicant has made satisfactory proof of completion of the changes authorized by a final order approving a district permanent transfer.

Applicant

Ochoco Irrigation District
1001 NW Deer St.
Prineville, OR 97754

Findings of Fact

1. On February 28, 2008, the Department issued a final order, recorded in Special Order Volume 74, Pages 276 - 280, approving district permanent transfer application T-10487. The order established October 1, 2009, as the date for completion of the authorized change in place of use.
2. On August 23, 2010, the Department received a claim of beneficial use for T-10487.
3. The Department reviewed the claim of beneficial use and final proof maps submitted by the applicant for district permanent transfer T-10487.
4. The claim of beneficial use did not contain map(s) of the point(s) of diversion from the source. However, since these changes are for place of use only within an irrigation district, and do not involve changes in point of diversion, the existing map(s) on file with the Department are sufficient to identify the point(s) of diversion from the source.
5. The claims of beneficial use and final proof map for portions of T-9557 identify the completed change slightly differently from that authorized by the final order approving the transfer.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Change authorized by final order approving transfer:

14 S	15 E	1	SW SE	103	0.3	LOFTNESS	010-07

Change described by claim of beneficial use report and final proof map:

Twp	Rng	Sec	Q-Q	Tax Lot	Acres	User	Notice #

14 S	15 E	1	SW SE	103	0.5	LOFTNESS	010-07
Total:					1.5		

6. The reconfigured change in location of use as mapped is determined satisfactory because the reconfigured, completed use is within the same tax lot and ownership and affects the same number of irrigated acres.
7. Satisfactory proof of the changes was submitted with evidence showing that water was used in the location and for the purpose as authorized by the final order approving T-10487.

Conclusions of Law

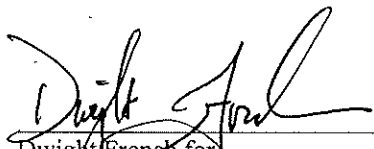

Pursuant to OAR 690-385-7600, the Department may issue a certificate upon a determination that the application of water to beneficial use under the terms of the final order approving a permanent district transfer was completed to the extent authorized.

Now, therefore, it is ORDERED:

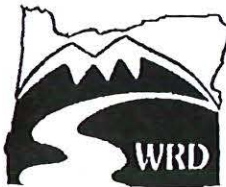

The Department has determined that the application of water to beneficial use under the terms of the final order approving district permanent transfer T-10487 was completed to the extent authorized.

Pursuant to OAR 690-385-7600, the Department will issue a water right certificate on a determination that it is necessary to produce a certificate describing the right.

Dated at Salem, Oregon this 15 day of October, 2010.

COUNTY OF CROOK

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

OCHOCO IRRIGATION DISTRICT
1001 NW DEER STREET
PRINEVILLE, OREGON 97754

This certificate confirms the right to use the waters of the OCHOCO, MCKAY, DRY, LYTLLE AND JOHNSON CREEKS and ALL WASTE AND RETURN WATER FLOWING IN ALL UNNAMED WATERWAYS and OCHOCO RESERVOIR CONSTRUCTED UNDER PERMIT R-528, a tributary of the CROOKED RIVER for IRRIGATION of 16614.3 ACRES and INDUSTRIAL USE of 160.2 ACRES/EQUIVALENT.

The right was perfected under Permit 5426. The date of priority is MARCH 13, 1916, from MCKAY CREEK and AUGUST 10, 1917, from ALL OTHER SOURCES NAMED HEREIN. The right is limited to an amount actually beneficially used and shall not exceed 209.7 CUBIC FEET PER SECOND (cfs), or the equivalent is case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

POD#	TWP	RNG	MER	SEC	1/4 - 1/4	SURVEY COORDINATES
1	15 S	17 E	W.M.	5	SW NW	OCHOCO FEED CANAL - 500 FEET NORTH AND 250 FEET EAST FROM W 1/4 CORNER OF SECTION 5

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or the equivalent) for each acre irrigated and shall be further limited to 4.0 acre feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

This is a final order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080 you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

NOTE: Tax lot numbers preceded by an asterisk (*) in the supplemental information column of the following place of use listing denotes that the tax lot extends over more than one quarter-quarter section of land.

INDUSTRIAL: The irrigation equivalent acres for the industrial water rights are listed and located by quarter-quarter sections of land within which the tax lot listed in the supplemental information column is located. The place of use for the irrigation equivalent acres of industrial water right is authorized for use anywhere within the tax lot and is not apportioned between the quarter-quarter sections of land. Where "w/in service area" appears in the tax lot column, the legal description identifies the quarter-quarter section of land adjacent to the Ochoco Feed Canal where water is diverted from the source, and the place of use for the irrigation equivalent acres industrial water right is authorized for use anywhere within the service area of the district.

IRRIGATION: Because irrigation water rights on tracts of land less than 5.0 acres in size need not be mapped under ORS 541.329(2)(d) and need only be identified by tax lot number, the irrigation water right by acres is listed and located according to the quarter-quarter in which the largest portion of the tax lot is located.

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

U. S. BUREAU OF RECLAMATION
1150 N. CURTIS ROAD, SUITE 100
BOISE, IDAHO 83706-1234

This certificate confirms the right to use the waters of the CROOKED RIVER and PRINEVILLE RESERVOIR CONSTRUCTED UNDER PERMIT R-2223, a tributary of the DESCHUTES RIVER for IRRIGATION of 3087.3 ACRES and SUPPLEMENTAL IRRIGATION of 12011.9 ACRES within Ochoco Irrigation District.

The right was perfected under Permit 25991. The date of priority is APRIL 8, 1914. Permit 25991 appropriates water for the Crooked River Project as authorized by Congress under the act of August 6, 1956 (70 Stat. 1058), and authorizes the use of natural flow and stored water on the project lands of the Ochoco Irrigation District for irrigation and supplemental irrigation. Permit R-2223, with a date of priority of April 8, 1914, authorizes storing water in Prineville Reservoir. The storing of water in Prineville Reservoir under Permit R-2223 is secondary to the use of natural flow under Permit 25991 on Crooked River Project lands located within Ochoco Irrigation District.

The right is limited to an amount actually beneficially used and shall not exceed 190.0 CUBIC FEET PER SECOND (cfs), or the equivalent in case of rotation, measured at the point of diversion from the source.

The points of diversion (POD) are located as follows:

Because irrigation and supplemental irrigation water rights on tracts of land less than 5.0 acres in size need not be mapped under ORS 541.329(2)(d) and need only be identified by tax lot number, the irrigation and supplemental irrigation water right by acres is listed and located according to the quarter-quarter in which the largest portion of the tax lot is located.

NOTE: Tax lot numbers preceded by an asterisk (*) in the supplemental information column of the following place of use listing denotes that the tax lot extends over more than one quarter-quarter section of land.

INDUSTRIAL: The irrigation equivalent acres for the industrial water rights are listed and located by quarter-quarter sections of land within which the tax lot listed in the supplemental information column is located. The place of use for the irrigation equivalent acres of industrial water right is authorized for use anywhere within the tax lot and is not apportioned between the quarter-quarter sections of land. Where "w/in service area" appears in the tax lot column, the legal description identifies the quarter-quarter section of land adjacent to the Ochoco Feed Canal where water is diverted from the source, and the place of use for the irrigation equivalent acres industrial water right is authorized for use anywhere within the service area of the district.

IRRIGATION: Because irrigation water rights on tracts of land less than 5.0 acres in size need not be mapped under ORS 541.329(2)(d) and need only be identified by tax lot number, the irrigation water right by acres is listed and located according to the quarter-quarter in which the largest portion of the tax lot is located.

The amount of water used for irrigation together with the amount secured under any other right existing for the same lands is limited to a diversion of ONE-FORTIETH of one cubic foot per second (or the equivalent) for each acre irrigated and shall be further limited to 4.0 acre feet per acre for each acre irrigated during the irrigation season of each year from direct flow and storage from the reservoir constructed under Permit R-2223., and shall be further required to maintain a contract between the Ochoco Irrigation District and the Bureau of Reclamation.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

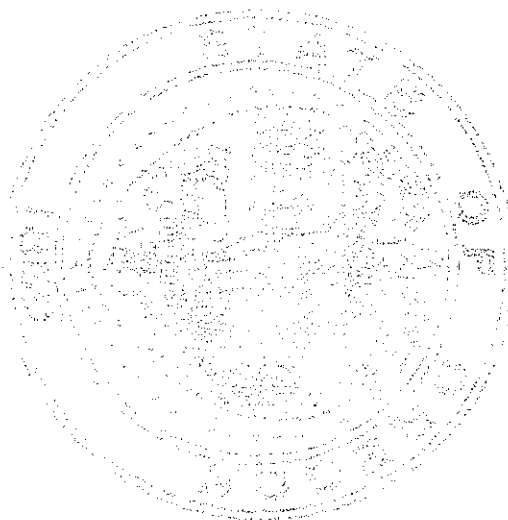

NOTE: Tax lot numbers preceded by an asterisk (*) in the supplemental information column of the following place of use listing denotes that the tax lot extends over more than one quarter-quarter section of land.

Because irrigation and supplemental irrigation water rights on tracts of land less than 5.0 acres in size need not be mapped under ORS 541.329(2)(d) and need only be identified by tax lot number, the irrigation and supplemental irrigation water right by acres is listed and located according to the quarter-quarter in which the largest portion of the tax lot is located.
