OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	FINAL ORDER DENYING A CHANGE IN
T-13946, Jackson County	)	POINTS OF DIVERSION

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

GEORGE HOEG
BELLE ADDISON
PO BOX 2068
GUERNEVILLE, CA 95446

Findings of Fact

1. On March 17, 2022, George Hoeg and Belle Addison filed an application to change the points of diversion under Certificate 16402. The Department assigned the application number T-13946.
2. Notice of the application for transfer was published on March 29, 2022, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On July 31, 2024, the Department determined that the changes in Table 1 and Table 2 of the application are not consistent, and that the changes on the application map are not consistent with the changes in Table 2 of the application.
4. On August 2, 2024, the Department contacted the applicant via email requesting clarification of the changes being made. The applicant did not respond.

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

5. On August 8, 2024, the Department sent a copy of the draft Preliminary Determination to the applicants, proposing to approve Transfer Application T-13946. The draft Preliminary Determination cover letter provided a deadline of September 7, 2025, for the applicants to respond and submit the required information.
6. On January 2, 2025, the Department again requested the required information and clarification of the changes being made. The applicants did not respond.
7. On August 8, 2025, the Department provided a final deadline of September 9, 2025, for the applicants to submit the required information; however, the applicants did not request that the Department proceed with issuance of a Preliminary Determination nor provide the required information to demonstrate that the applicants are authorized to pursue the transfer. On October 30, 2025, the Department issued a Preliminary Determination proposing to deny Transfer Application T-13946 and sent a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published in the Department's weekly notice on November 4, 2025, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
9. The portion of the right to be transferred is as follows:

Certificate: 16402 in the name of EDWIN PIERCE (confirmed by ROGUE RIVER FINAL DECREE)

Use: IRRIGATION of 1.5 ACRES in TRACT NO. 1, and IRRIGATION of 5.54 ACRES in TRACT NO. 2

10. The Department has received information from the applicant that better describes the point of diversion for Tract 2:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
39 S	2 W	WM	23	SE SE	POD 2 – 420 FEET NORTH AND 1680 FEET EAST FROM THE NW CORNER OF SECTION 26

11. Transfer Application T-13946 proposes to move the authorized point of diversion to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances	Approximate Distance from Authorized Point of Diversion
39 S	2 W	WM	26	NW NW	POD 3 - 305 FEET SOUTH AND 817 FEET EAST FROM THE NW CORNER OF SECTION 26	1100 FEET DOWNSTREAM

12. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

Transfer Review Criteria [OAR 690-380-0100(14), 690-380-4010(2) and 690-380-2110(2)]

13. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
14. A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-13946.
15. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
16. The proposed point of diversion diverts water from the same source of surface water as the authorized points of diversion, as required by OAR 690-380-2110(2).
17. The Department cannot determine that the proposed change would not result in enlargement of the right due to discrepancies in the application.
18. The Department cannot determine that the proposed change would not result in injury to other existing water rights.
19. All other application requirements are not met.

Determination and Proposed Action

The change in points of diversion proposed in Transfer Application T-13946 is not consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000.

1. The change in points of diversion proposed in Transfer Application T-13946 is denied.

SUBJECT: Water Right Transfer Application T-13946

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to deny application T-13946 because the applicant has not provided the information necessary to determine they are authorized to pursue the transfer. This document is an intermediate step in the denial process; water may not be used legally as proposed in the transfer application until a Final Order approving the transfer has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 971 304-5006 or Dante.J.Luongo@water.oregon.gov, if I may be of assistance.

Sincerely,

Dante Luongo

17. The Department cannot determine that the proposed change would not result in injury to other existing water rights.
18. All other application requirements are met.

Determination and Proposed Action

The change in points of diversion proposed in Transfer Application T-13946 appears to be not consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be denied.

If the issues identified above are resolved and Transfer Application T-13946 is approved:

1. *The change in points of diversion proposed in Transfer Application T-13946 is approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 16402 and any related decree.*
3. *Water right Certificate 16402 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
4. *The quantity of water diverted at the new point of diversion (POD 3), shall not exceed the quantity of water lawfully available at the original points of diversion (POD 1 and POD 2).*
5. *Water shall be acquired from the same source of surface water as the original points of diversion.*
6. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion (new and existing).*
 - b. *The water user shall maintain the meters or measuring devices in good working order.*
 - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice*
7. *Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.*
8. *The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.*

9. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2027**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicants to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
10. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

Dated in Salem, Oregon on **OCT 30 2025**

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
IVAN GALL, DIRECTOR
Oregon Water Resources Department

This Preliminary Determination was prepared by Kelly Starnes. If you have questions about the information in this document, you may reach me at 503 979-3511 or Patrick.K.Starnes@water.oregon.gov.

Protests

Under the provisions of ORS 540.520(6) & (7) and OAR 690-380-4030, within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later, any person may file, jointly or severally, a protest expressing opposition of approval of the transfer application and disagreement with this Preliminary Determination or a standing statement in support of this Preliminary Determination. If this Preliminary Determination determines that a change in point of diversion or appropriation would result in injury, the applicant may file a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050. Protests and standing statements must be received by the Water Resources Department within 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later.

Protests must be in writing and received in hard copy form with the appropriate statutory protest filing fee; protests cannot be filed by electronic mail. [OAR 690-002-0025(3) and 690-380-0100(9)]. The protest must include the following:

- The person's name, address, and telephone number;
- All reasonably ascertainable issues and all reasonably available arguments supporting the person's position by the close of the protest period. Failure to raise a reasonably

ascertainable issue in a protest or failure to provide sufficient specificity to afford the Department an opportunity to respond to the issue may preclude consideration of the issue during the hearing;

- If you are the applicant, a protest fee of \$720 required by ORS 536.050; and
- If you are not the applicant, a protest fee of \$1425 required by ORS 536.050 and proof of service of the protest upon the applicant.

Requests for Standing

Under the provisions of OAR 690-380-4030(5), the Department shall provide to persons who have filed standing statements as defined under OAR 690-380-0100(11) notice of any differences between the Department's Preliminary Determination and the Final Order, notice of a hearing on the application under OAR 137-003-0535, and an opportunity to request limited party status or party status in the hearing.

Requests for standing must be received in the Water Resources Department no later than 30 days after the last date of publication of the newspaper notice or the Department's weekly notice as prescribed by OAR 690-380-4020, whichever is later. Requests for standing must be in writing, and must include the following:

- The requester's name, mailing address and telephone number;
- If the requester is representing a group, association or other organization, the name, address and telephone number of the represented group;
- A statement that the requester supports the preliminary determination as issued.

After the protest period has ended, the Director will either issue a Final Order or schedule a contested case hearing. The contested case hearing will be scheduled only if a protest has been filed under OAR 690-380-4030. In accordance with OAR 690-380-4200, notice and conduct of the hearing shall:

- Be under the applicable provisions of ORS 183.310 to 183.550, pertaining to contested cases, and the hearing shall be held in the area where the rights are located unless all parties stipulate otherwise; and
- If a protest has asserted that a water right to be transferred has been forfeited through non-use, include the notice and procedures described in OAR 690-017-0500 to 690-017-0900.

If after hearing the Department issues a proposed Final Order finding that a change in point of diversion or appropriation will result in injury, the applicant may file a notification of intent to

pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050 within 15 days of receipt of the proposed order. Notwithstanding 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of 690-380-5030 to 690-380-5050.

If you do not request a hearing within 30 days after the close of the protest period, or if you withdraw a request for a hearing, notify the Department or the administrative law judge that you will not appear, or fail to appear at a scheduled hearing, the Director may issue a final order by default. If the Director issues a Final Order by default, the Department designates the relevant portions of its files on this matter, including all materials that you have submitted relating to this matter, as the record for purpose of proving a *prima facie* case upon default.

You may be represented by an attorney at the hearing. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations, associations, governmental subdivisions, or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 690-137-0555, an agency representative may represent partnerships, corporations, associations, governmental subdivisions or public, or private organizations if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

Reference: Application T-13946

On March 17, 2022, OWRD received your water right Permanent Transfer Application. The application was accompanied by \$1360.00. Our receipt number 137699 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to Oregon Department of Fish and Wildlife to determine if a fish screen is needed.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of diversion until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 979-9931.

Part 2 of 5 – Transfer Application Map

OWRD

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- ☒ ☐ N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- ☐ ☒ N/A If more than three water rights are involved, separate maps are needed for each water right.
- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- ☒ Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- ☒ Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- ☒ Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- ☒ Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- ☒ Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- ☒ ☐ N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- ☒ Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- ☒ ☐ N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (*for C12345, 1.25 cfs ÷ 100 ac*); then multiply by the number of acres to be transferred to get the transfer cfs (*x 45 ac = 0.56 cfs*).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (*For C87654, 45.0 ac x 0.0125 cfs/ac = 0.56 cfs*)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land**. The fee should be assessed only once for each "on the ground" acre included in the transfer. (*In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0*).

By my signature below, I confirm that I understand:

- Prior to Department approval of the transfer application, I may be required to submit payment to the Department for publication of a notice in a newspaper with general circulation in the area where the water right is located, once per week for two consecutive weeks. If more than one qualifying newspaper is available, I suggest publishing the notice in the following newspaper: Medford Mail Tribune.
- Amendments to the application may only be made in response to the Department's Draft Preliminary Determination (DPD). The applicant will have a period of at least 30 days to amend the application to address any issues identified by the Department in the DPD, or to withdraw the application. Note that amendments may be subject to additional fees, pursuant to ORS 536.050.
- Failure to complete an approved change in place of use and/or change in character of use, will result in loss of the water right (OAR 690-380-6010).
- Refunds may only be granted upon request and, as set forth in ORS 536.050(4)(a), if the Director determines that a refund of all or part of a fee is appropriate in the interests of fairness to the public or necessary to correct an error of the Department.

Is the applicant the sole owner of the land on which the water right, or portion thereof, proposed for transfer is located? ☒ Yes ☐ No*

**If NO, include signatures of all deeded landowners (and mailing and/or e-mail addresses if different than the applicant's) or attach affidavits of consent (and mailing and/or e-mail addresses) from all landowners or individuals/entities to which the water right(s) were conveyed.*

Check the following boxes that apply:

- ☒ The applicant is responsible for completion of change(s). Notices and correspondence should continue to be sent to the applicant.
- ☐ The receiving landowner will be responsible for completing the proposed change(s) after the final order is issued. Copies of notices and correspondence should be sent to this landowner.
- ☐ Both the receiving landowner and applicant will be responsible for completion of change(s). Copies of notices and correspondence should be sent to this landowner and the applicant.

At this time, are the lands in this transfer application in the process of being sold? ☐ Yes ☐ No

If YES, and you know who the new landowner will be, please complete the receiving landowner information table below. If you do not know who the new landowner will be, then a request for assignment will have to be filed for at a later date.

If a property sells, the certificated water right(s) located on the land belong to the new owner, unless a sale agreement or other document states otherwise. For more information see:

- ☐ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

Attn: Transfer Section

Reference: Point of Diversion Transfer Application; George Hoeg and Belle Addison; Water Right S- 16402

The purpose of the following information is to clarify and assist in processing the attached Point of Diversion transfer as referenced above. The property involved in this transfer application is identified as 9400 Little Applegate Road, Jacksonville OR., Tax Lot 4000, Map 30 2W 26 by the Jackson County Assessor. The property was originally acquired from the United States of America under the Homestead Act and identified as H.E.S. No 168 and consisted of 26.74 acres. Date of H.E.S. map and survey is March 27, 1917. Please see Exhibit 4-A.

Exhibit 1; Water Right Certificate No. 16402 provides 21 acres of water right within two Tracts of land. This is a water right confirmed by decree of the Circuit Court of Jackson County. I have been unable to locate any form of documentation of how the 21 acres of irrigated land was determined. This would indicate 79 percent of the Homestead area would have been irrigated.

Exhibit 2; This Exhibit is an enlargement print of the September 18, 1911 Adjudication Map. This map fails to correctly identify the location of any features including the location of the Little Applegate River. At some point it should be noted that the West half of the Township was remapped due to the poor quality of the original mapping.

Exhibits 3 A-D; These Exhibits provide accurate documentation of the location, topographic features and irrigated lands within Tax Lot 4000, Map 39 2W 26 also identified a Homestead Entry Survey (H.E.S) No. 168.

Exhibit 4 A-E; This Exhibit contains an enlargement of the HES Plat Map and copies of the Official Field Notes from the Survey completed in March 17, 1917. The map clearly shows the areas of cultivated lands, irrigation ditch providing water to the southerly portion of the Homestead, location of the residence and sheds utilized in farming. It is interesting to note that the buildings remain as of this date. The field notes accurately define the location of the Little Applegate River and the irrigation ditch.

Exhibits 5 A-D; This Exhibit documents the relocation of the diversion utilized to convey water to the lands situated on the north side of the Little Applegate River. Evidence of the ditch used to convey the water to the place of use is identifiable in places. In recent years the water has been conveyed to the place of use by pump. The pump location is shown on my map as POD No. 3.

13946

Page 1

The previously described information describes and confirms the portion (7.04 acres) lands historically irrigated within Tax Lot 4000, 39 2W 26 / H.E.S No. 168. The transfer proposes to consolidate the points of diversion for Tracts 1 and 2 to a common pump site and deliver the water by pipeline to the places of use identified on my map.

My clients have been advised and are willing to provide an Affidavit for the Voluntary Cancellation of the remaining 13.96 acre portion of the Water Rights Certificate 16408. The Affidavit has been prepared, signed, notarized and my clients have directed me hold the affidavit pending preliminary approval of the 7.04 acre Point of Diversion Transfer.

Please contact me if you have questions or require additional information.

See bottom of Page 3. →

For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

Please check the appropriate box below and provide the requested information

- ☒ Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): *Farm Use allowed outright. Pre-existing irrigation authorized 5/21/99*
- ☐ Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

Type of Land-Use Approval Needed (e.g., plan amendments, rezones, conditional-use permits, etc.)	Cite Most Significant, Applicable Plan Policies & Ordinance Section References	Land-Use Approval:
