### Applicant

LEONARD AND CAROL WILKE  
8121 S VALE GARDEN RD  
CANBY, OR 97013

SUBJECT: Groundwater Registration Modification T-14001

Your Groundwater Registration Modification is in one of three phases of processing. Enclosed is a draft of our Preliminary Determination regarding Groundwater Registration (GR) Modification Application T-14001. The document reflects the Department's conclusion that, based on the information currently available, the modification will be approved.

### *Required items needing your immediate attention:*

1. Please carefully review the Draft Preliminary Determination to verify that it accurately reflects the changes you intend to make and to become familiar with the proposed conditions.
2. **Respond in writing** by January 7, 2026, with acknowledgement that you agree to the proposed action and conditions.
3. If you find any errors, please let me know.
4. **REQUIRED:** You must submit a **Report of Ownership** for the lands where the water right is currently located (i.e., the FROM lands). This report:
  - a) Must be prepared by a title company;
  - b) Shall include a "prepared by" statement and the date the title company prepared the report printed on the cover sheet;
  - c) Must:
    - i. Be prepared no earlier than 3 months prior to the date of issuance of the Draft Preliminary Determination showing current ownership; **OR**
    - ii. Be prepared within 3 months of the date the water right conveyance agreement was recorded; **OR**
    - iii. Show ownership for the FROM land at the time a water right conveyance agreement was recorded.

*If water right conveyance agreements are involved, it is helpful to provide copies of those agreements along with the Report of Ownership.*

**IMPORTANT: In order for the Department to clearly understand the date that the title company prepared the Report of Ownership, the title company must indicate/state the date that they prepared the report on the coversheet and/or first page of the report.**

- d) Must include a list of owners at the time the report was generated; **AND**
  - e) Must include a legal description of the property where the water right to be transferred is currently located (i.e., the FROM lands).
5. You must provide a notarized statement of consent signed by any landowner listed in the Report of Ownership who is not already included in the transfer application. The Department's statement of consent form (**Consent By Deeded Landowner**) is available at:  
[https://www.oregon.gov/OWRD/WRDFormsPDF/consent\\_to\\_transfer\\_form.pdf](https://www.oregon.gov/OWRD/WRDFormsPDF/consent_to_transfer_form.pdf)

**Conditions to your GR Modification...**

The Watermaster has required water measurement devices at the new and existing points of appropriation prior to appropriation of water. Enclosed is a contact information sheet to assist you in pursuing additional information or approval of the required (or alternate) devices.

**What happens next...**

Once the preliminary determination is issued a publication period is required. The Department will publish a notice in the Department's weekly publication, which opens a 30-day period in which the modification can be protested.

Issuance of the Preliminary Determination will occur shortly after we receive:

1. Your written response to the conditions and proposed action in the Draft Preliminary Determination (e-mail is acceptable); and
2. The Report of ownership, and affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application. The title company must indicate/state the date that they prepared the ownership report on the coversheet and/or first page of the report.

**If we do not receive the items listed above by January 7, 2026, a Preliminary Determination may be issued denying the application as incomplete.**

Please don't hesitate to contact me at 971 701-5485 or [Elyse.D.Hennen@water.oregon.gov](mailto:Elyse.D.Hennen@water.oregon.gov), if I may be of assistance.

Sincerely,

PRELIMINARY DETERMINATION  
PROPOSING APPROVAL OF RECOGNITION  
OF ADDITIONAL POINTS OF  
APPROPRIATION

**Authority**

Oregon Revised Statutes (ORS) 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a groundwater certificate of registration.

Oregon Administrative Rules (OAR) Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department's procedures and criteria for evaluating groundwater registration modification applications.

**Applicant**

LEONARD WILKE  
8121 S VALE GARDEN RD  
CANBY, OR 97013

**Findings of Fact**

1. On May 9, 2022, Leonard and Carol Wilke filed a groundwater registration modification application for an additional point of appropriation under Registration Application GR-1658 (Certificate of Registration GR 1609). The Department assigned the application number T-14001.
2. On May 16, 2022, Registration Application GR-1658 (Certificate of Registration GR-1609) was assigned from LLOYD H. HOUGE to LEONARD AND CAROL WILKE.
3. Notice of the application for groundwater registration modification was published on May 17, 2022, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.

4. The groundwater registration to be modified is as follows:

**Registration:** Application GR-1658 (Certificate of Registration GR-1609), in the name of LLOYD H. HOUGE (*assigned to LEONARD AND CAROL WILKE*)

**Use:** IRRIGATION of 15.0 ACRES

**Tentative**

**Priority Date:** MAY 1954

**Quantity:** 92 GALLONS PER MINUTE

**Source:** PUMP WELL

**Original Point of Appropriation:**

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
4 S	1 E	WM	9	SW NW	PUMP WELL - 1650 FEET SOUTH AND 480 FEET EAST FROM THE NW CORNER OF SECTION 9

**Original Place of Use:**

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
4 S	1 E	WM	9	SW NW	15.0

5. The Department received information from the applicant that describes the name of the well as Well 1 and the location of the authorized point of appropriation for GR-1658 as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
4 S	1 E	WM	9	SW NW	WELL 1 - 1585 FEET SOUTH AND 495 FEET EAST FROM THE NW CORNER OF SECTION 9

6. Groundwater Registration Modification Application T-14001 proposes an additional point of appropriation approximately 340 feet southeast from the original well to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
4 S	1 E	WM	9	SW NW	WELL 2 - 1930 FEET SOUTH AND 595 FEET EAST FROM THE NW CORNER OF SECTION 9

***Review Criteria for Groundwater Registration Modification Applications***

***[OAR 690-382-0100(10), 690-382-0700(2), 690-382-1000(1) and 690-380-2110(2)]***

7. The proposed modification would not result in a state Scenic Waterway not receiving previously available water during periods in which stream flows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.
8. The proposed point of appropriation develops groundwater from the same aquifer as the authorized point of appropriation, as required by OAR 690-380-2110(2).
9. The proposed modification, as conditioned, would not result in enlargement of the registration.

10. The proposed modification, as conditioned, would not result in injury to other water rights.
11. All other application requirements are met.

### **Determination and Proposed Action**

The additional point of appropriation proposed in Groundwater Registration Modification T-14001 appears to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-382-0900, the modification will be approved.

*If Groundwater Registration Modification T-14001 is approved, , the final order will include the following:*

1. *The modification to Registration Application GR-1658 (Certificate of Registration GR-1609) proposed in Groundwater Registration Modification Application T-14001 is recognized. Recognition of the modification shall not be construed as a final determination of the right to appropriate groundwater under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*
2. *The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-1658 (Certificate of Registration GR-1609) and any related decree.*
3. *Approval of this groundwater registration modification application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of appropriation.*
4. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
5. *The combined quantity of water diverted at the proposed additional point of appropriation (Well 2), together with that diverted at the original point of appropriation (Well 1), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well 1).*

6. *Water use measurement conditions:*

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).*
- b. The water user shall maintain the meters or measuring devices in good working order.*
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

# Groundwater Transfer Review Summary Form

Transfer/PA # T- 14001

GW Reviewer Gabriela Ferreira / Dennis Orłowski Date Review Completed: April 4, 2023

## Summary of Same Source Review:

The proposed change in point of appropriation is not within the same aquifer as per OAR 690-380-2110(2).

## Summary of Injury Review:

The proposed transfer will result in another, existing water right not receiving previously available water to which it is legally entitled or result in significant interference with a surface water source as per 690-380-0100(3).

## Summary of GW-SW Transfer Similarity Review:

The proposed SW-GW transfer doesn't meet the definition of "similarly" as per OAR 690-380-2130.

*This is only a summary. Documentation is attached and should be read thoroughly to understand the basis for determinations.*

Date of Review: April 4, 2023

The information provided in the application is insufficient to evaluate whether the proposed transfer may be approved because:

- The water well reports provided with the application do not correspond to the water rights affected by the transfer.
- The application does not include water well reports or a description of the well construction details sufficient to establish the ground water body developed or proposed to be developed.
- Other \_\_\_\_\_

- 
1. Basic description of the changes proposed in this transfer: Applicant proposes to add one well as APOA on 15.0 acres of claim GR-1658. GR-1658 currently has 1 authorized POA, CLAC 13048 (Well 1), a dug well completed to a depth of 14 feet below land surface (bls). The location of CLAC 13048 was described in the original claim application as 1,650 feet south and 480 feet east from the northwest corner of Section 9; the application provides an updated location of 1,585 feet south and 495 feet east from the northwest corner of Section 9. The re-described location is approximately 70 feet north of the original location and does not significantly impact potential interference with other groundwater users or surface water. The proposed APOA (Well 2) would be constructed to a total depth of 100 feet and sealed to a depth of 40 feet bls.
  2. Will the proposed POA develop the same aquifer (source) as the existing authorized POA?  
 Yes     No    Comments: Both Well 1 and Well 2 develop shallow alluvial deposits of the Willamette aquifer within the Canby alluvial fan (Gannett and Caldwell, 1998).
  3. a) Is there more than one source developed under the right (e.g., basalt and alluvium)?  
 Yes     No \_\_\_\_\_  
 b) If yes, estimate the portion of the right supplied by each of the sources and describe any limitations that will need to be placed on the proposed change (rate, duty, etc.): N/A

4. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another ground water right**?  
 Yes    No   Comments: The nearest groundwater user was identified as Claim GR-3996, withdrawing from CLAC 13049. Well 1 is approximately 870 feet northwest of CLAC 13049, whereas the proposed APOA Well 2 would be located approximately 730 feet northwest of CLAC 13049. The reduced distance will likely cause an increase in interference with CLAC 13049, which also produces from the shallow alluvium of the Molalla River.
- b) If yes, would this proposed change, at its maximum allowed rate of use, likely result in another groundwater right not receiving the water to which it is legally entitled?  
 Yes    No   If yes, explain: Because of the unconfined and highly transmissive nature of the aquifer tapped by the subject wells, the proposed change is unlikely to cause CLAC 13049 or similarly located wells to not receive the water to which they are legally entitled.
5. a) Will this proposed change, at its maximum allowed rate of use, likely result in an increase in interference with **another surface water source**?  
 Yes    No   Comments: The proposed APOA Well 2 is ~740 feet south of the Molalla River, whereas the authorized POA Well 1 (CLAC 13048) is ~620 feet south of the Molalla River. The increased intervening distance is not likely to result in increased interference with the Molalla River.
- b) If yes, at its maximum allowed rate of use, what is the expected change in degree of interference with any **surface water sources** resulting from the proposed change?  
Stream: \_\_\_\_\_    Minimal    Significant  
Stream: \_\_\_\_\_    Minimal    Significant  
Provide context for minimal/significant impact: \_\_\_\_\_
6. For SW-GW transfers, will the proposed change in point of diversion affect the surface water source similarly (as per OAR 690-380-2130) to the authorized point of diversion specified in the water use subject to transfer?  
 Yes    No   Comments: Not applicable.
7. What conditions or other changes in the application are necessary to address any potential issues identified above: None
8. Any additional comments: None

On May 9, 2022, OWRD received your water Groundwater Registration Modification application. The application was accompanied by \$1250.00. Our receipt number 138110 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to our groundwater staff to determine whether the proposed well accesses the same source of water as the original well.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

You may not use water from the new point of appropriation until a final order approving recognition of the groundwater registration modification application has been issued by the Department. If the land is sold before the modification is approved, the buyer's consent to the modification will be required unless a recorded deed or other legal document clearly established that the groundwater registration was not conveyed in the sale.

Please refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

## Part 2 of 4 – Groundwater Registration Modification Map Checklist

Your Groundwater Registration Modification application will be returned if any of the map requirements listed below are not met.

Please be sure that the map you submit includes all the items listed below and meets the requirements of OAR 690-380-3100, however, the map does not have to be prepared by a Certified Water Right Examiner. Check all boxes that apply.

- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads and railroads.
- Major water delivery system features from the point(s) of appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes hachuring, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the registration is being changed, a separate hachuring is needed for the portion of the registration left unchanged.
- N/A If you are proposing a modification in place of use, show the proposed place of use with hachuring including priority date and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of appropriation with distance and bearing or coordinates from a recognized survey corner.
- N/A If you are proposing a modification in point(s) of appropriation, show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

# For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land-use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

- Land uses to be served by the proposed water uses (including proposed construction) are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): County Zoning Ordinance Section \_\_\_\_\_
- Land uses to be served by the proposed water uses (including proposed construction) involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being pursued."**

# Groundwater Registration Modification (GR Mod) Application Checklist

Checked by Joan

Date 5/13/22

APOA

(If OK, check box to left; if not, fill in the blank)

1. Is the name of the GR Mod applicant(s) the same as the GR claim holder(s) of record?

If not, one of the following must be included with the application:

- a) A written statement from the GR claim holder, consenting to the proposed GR Mod Application (if the GR claim holder(s) of record is the current property owner), **OR**.
- b) A concurrent "Request for Assignment" to move the GR claim into the GR Mod applicant's name must be submitted (if the GR Mod applicant(s) is the current property owner), **OR**
- c) A concurrent "Request for Assignment" to move the GR claim into the name of a third party (who now owns the property) must be submitted, **and** the third party will need to provide a written statement consenting to the proposed GR Mod Application.

If not, what is missing? \_\_\_\_\_

2. Page 1 of application: Are all attachments that have been checked actually included?

If not, what is missing? \_\_\_\_\_

3. Are fees included and correct?

If not, the correct fee would be: \_\_\_\_\_, so the amount missing is: \_\_\_\_\_

- If application proposes ONLY a change in place of use = \$875.00
- If application proposes any other change or combination of changes = \$1,250.00

4. Page 3 of application: Have all the applicants listed at the top of the page signed at the bottom?

If not, whose signature is missing? \_\_\_\_\_

5. If all #1-#4 boxes on this checklist are checked (with no remaining deficiencies identified), accept the application. Put this check sheet in the transfer folder.

If #1, #2, #3, or #4 on this checklist is deficient, the application CANNOT be accepted.

It should be returned and the deficiencies listed in the "staff" section at the bottom of Application Page 1, unless the applicant or agent can resolve the deficiencies within 2-3 days.
