Authority

Oregon Revised Statutes (ORS) 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a groundwater certificate of registration.

Oregon Administrative Rules (OAR) Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department’s procedures and criteria for evaluating groundwater registration modification applications.

Applicant

ROBINSON FARMS LLC
C/O CHRIS ROBINSON
PO BOX 100
AMITY, OR 97101

Findings of Fact

1. On January 23, 2024, Robinson Farms LLC, c/o Chris Robinson filed a groundwater registration modification application to modify the point of appropriation under Registration Application GR-2000 (Certificate of Registration GR-1930). The Department assigned the application number T-14386.

Under OAR 690-382-0900 and ORS 536.077(1), any person may file a protest of this Proposed Final Order within 45 days after publication of notice of this Proposed Final Order in the Department’s weekly notice. Under OAR 690-382-0900 and ORS 536.077(2), if a protest is filed, any person who supports this Proposed Final Order may file a request for party status within 30 days after the deadline for filing a protest. Please refer to the end of this document for further information about filing protests and requests for party status.

2. On May 1, 2014, Registration Application GR-2000 (Certificate of Registration GR-1930) was partially diminished to supplemental irrigation by Special Order Volume 92, Page 375, approving Transfer Application T-11605.
3. On July 7, 2014, Registration Application GR-2000 (Certificate of Registration GR-1930) was partially assigned from Charlie W. Reed to Robinson Farm, LLC.
4. On February 23, 2015, Groundwater Registration Modification Application T-11854 was approved and recorded at Special Order Volume 95, Page 127, recognizing a modification in point of appropriation.

9. Notice of the application for groundwater registration modification was published on January 30, 2024, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.
10. On March 30, 2026, the Department sent a copy of the Initial Review proposing to deny Groundwater Registration Modification Application T-14386 to the applicant. The Land Use Information Form submitted with the application was incomplete, as the Department was unable to make a positive finding that land use was approved. The Initial Review cover letter set forth a deadline of April 29, 2026, for the applicant to respond.
11. On April 6, 2026, the Department received a complete Land Use Information Form, that indicates the land uses are allowed outright. The applicant requested that the Department proceed with issuance of a Proposed Final Order and provided the necessary information to demonstrate that the applicant is authorized to pursue the Groundwater Registration Modification.

15. The proposed points of appropriation develop groundwater from the same aquifer as the authorized point of appropriation, as required by OAR 690-380-2110(2).
16. The proposed modification would not result in enlargement of the registration.
17. The proposed modification would not result in injury to other water rights.
18. All other application requirements are met.

Determination and Proposed Action

The modification in point of appropriation proposed in Groundwater Registration Modification T-14386 appears to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-382-0900, the modification will be approved.

If Groundwater Registration Modification Application T-14386 is approved, the final order will include the following:

1. *The modification to Registration Application GR-2000 (Certificate of Registration GR-1930) proposed in Groundwater Registration Modification Application T-14386 is recognized. Recognition of the modification shall not be construed as a final determination of the right to appropriate groundwater under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*
2. *The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-2000 (Certificate of Registration GR-1930) and any related decree.*
3. *Approval of this groundwater registration modification application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new points of appropriation.*
4. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
5. *Water shall no longer be appropriated from the recognized point of appropriation as part of this groundwater certificate of registration.*

6. *The quantity of water diverted at the proposed points of appropriation (Whiteson Well 3 and Well 4) shall not exceed the quantity of water lawfully available at the original point of appropriation (Pump Well – located within the NE ¼ NE ¼ of Section 7, Township 5 South, Range 4 West, W.M., South 57 degrees West, 1,400 feet from the NE corner of Section 7).*

SUBJECT: Groundwater Registration Modification T-14386

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14386. This document is an intermediate step in the approval process; water may not be used legally as proposed in the groundwater registration modification application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the McMinnville News Register newspaper, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Proposed Final Order will become a Final Order 33 days after the protest period ends, without any further action by the Department.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me, at corey.a.courchane@water.oregon.gov or (503) 979-3917, if I may be of assistance.

Sincerely,

Corey Courchane
