Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

Findings of Fact

1. On June 18, 2024, Robert Unruh / R&C AG LLC filed an application for a change in point of appropriation, change in place of use, and diminution of portions of a water right under Certificate 48022. The Department assigned the application number T-14476.

Determination and Proposed Action

The change in point of appropriation, change in place of use and diminution of portions of a water right proposed in Transfer Application T-14476 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-14476 is approved, the final order will include the following:

1. *The change in point of appropriation, change in place of use and diminution of portions of a water right proposed in Transfer Application T-14476 are approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 48022 and any related decree.*
3. *Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new points of appropriation or the new place of use.*
4. *Water right Certificate 48022 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
5. *The quantity of water diverted at the new points of appropriation (Wells 1, 2 and 3) shall not exceed the quantity of water lawfully available at the original point of appropriation.*
6. *Water shall be acquired from the same aquifer (water source) as the original point(s) of appropriation.*
7. *The former place of use of the transferred right shall no longer receive water under the right.*
8. *The portion of the right to be diminished to supplemental irrigation is diminished.*
9. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).*
 - b. *The water user shall maintain the meters or measuring devices in good working order.*
 - c. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*
10. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2027**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*

11. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

SUBJECT: Water Right Transfer Application T-14476

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14476. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Herald and News newspaper, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Proposed Final Order will become a Final Order 33 days after the protest period ends, without any further action by the Department.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please contact me at scott.a.grew@water.oregon.gov or 503-986-0890 if I may be of assistance.

Sincerely,
