Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

Applicant

JAMES EARL WEATHERFORD LIVING TRUST
17140 MIDDLE ROCK CREEK LANE
ARLINGTON, OR 97812

Findings of Fact

1. On April 19, 2024, James Earl Weatherford Living Trust filed an application for additional points of appropriation under Certificates 57271 and 91937 and to change the place of use and character of use under Certificate 91937. The Department assigned the application number T-14442.
2. Notice of the application for transfer was published on April 30, 2024, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. The transfer application was submitted with a request for a change in character of use for Certificate 91937, however, upon review of the application a change of use is not necessary for the diminution of a right.
4. On September 26, 2025, the applicant provided an affidavit for the diminution of the 2.9 acres of primary irrigation to supplemental irrigation.

Under ORS 540.520(8) and (9) and ORS 536.077(1), any person may file a protest of this Proposed Final Order within 30 days after publication of notice of this Proposed Final Order in the Department’s weekly notice. Under ORS 540.520(9) and ORS 536.077(2), if a protest is filed, any person who supports this Proposed Final Order may file a request for party status within 30 days after the deadline for filing a protest. Please refer to the end of this document for further information about filing protests and requests for party status.

5. Transfer Application T-14442, requests that a portion of Certificate 91937 primary irrigation be corrected to reflect 2.2 acres as supplemental irrigation. Requests for corrections to certificates should be submitted within 60 days following the issuance of a certificate pursuant to ORS 183.484(2). The Department requested the applicant amend Table 2 to correctly reflect the water right of record.
6. On August 4, 2025, the applicant provided an amended Table 2 resolving the issue.
7. On November 25, 2025, the Department sent a copy of the draft Preliminary Determination (further referred to as Initial Review) to the applicant, proposing to approve Transfer Application T-14442. The Initial Review cover letter provided a deadline of December 25, 2025, for the applicant to respond and submit the required information. The applicant requested that the Department proceed with issuance of a Preliminary Determination (further referred to as Proposed Final Order) and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

SUBJECT: Water Right Transfer Application T-14442

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14442. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Condon Times-Journal newspaper, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Proposed Final Order will become a Final Order 33 days after the protest period ends, without any further action by the Department.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 971 701-5485 or Elyse.D.Hennen@water.oregon.gov, if I may be of assistance.

Sincerely,

Elyse Hennen
Transfer Specialist
