Your water right transfer is in the first of three phases of processing. Enclosed is a draft of the Department's Preliminary Determination regarding Transfer Application T-13259. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be approved.

Items needed before the next phase of processing...

1. Please review the draft carefully to see if it accurately reflects the changes you intend to make, and to become familiar with all proposed conditions. **You will need to respond in writing** by the deadline provided below, whether you agree with the proposed action and conditions. Also we will appreciate having you let us know if there are typographical errors that need to be corrected.
2. A report of landownership for the lands to which the water right(s) are appurtenant (the FROM lands) is required. **The report must be prepared by a title company and meet the criteria below.** (*Reports may be called by various names, such as Customer Service Report, Property Analysis Report (PAR), List Pack, Lot Book Report, etc.*)
 - a) The title company's report must either be:

- i) prepared within 3 months of the draft Preliminary Determination showing current ownership, or
 - ii) prepared within 3 months of recording of a water right conveyance agreement, or
 - iii) prepared at any time but showing ownership at the time a water right conveyance agreement was recorded.
- b) The ownership report shall include:
- i) Date the ownership report was generated or prepared; and
 - ii) List of owners at that time; and
 - iii) Legal description of the property where the water right to be transferred is currently located.
- c) You will need to submit a notarized statement of consent from any landowner listed in the ownership report who is not already included in the transfer application, or other information such as a water right conveyance agreement, if applicable.

Conditions to your water right...

This transfer will require installation of a fish screen at the new diversion point **prior to diversion of water. You may not divert water prior to installation and approval of the fish screen by the Oregon Department of Fish and Wildlife (ODFW).** You may wish to contact the ODFW staff person listed on the enclosed contact sheet for more information about the screen and to determine a reasonable timeline.

Please note the proposed date by which all conditions must be met: October 1, 2025. If the required completion date is insufficient to comply with any of the conditions, you may extend the date at no cost to you during this stage of processing. Please let me know by the comment deadline so we can make the proper arrangements to get you the time you need.

What happens next...

Once the preliminary determination is issued a publication period is required. The Department will publish a notice in their weekly publication, which opens a 30-day period in which the transfer can be protested.

Issuance of the Preliminary Determination will occur shortly after we receive:

1. Your written response to the conditions and proposed action in the draft Preliminary Determination (e-mail is acceptable); and
2. Report of ownership, and affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application.

If we do not receive the items listed above by April 12, 2024, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me at 503-986-0892 or Joan.M.Smith@water.oregon.gov if I may be of assistance.

Sincerely,

Joan Smith

The attached documents were sent in March, 2022, however, no response to the letter or email was received by the Department. If the application is no longer necessary you may withdraw the application, an email stating that you would like to withdraw is all that is necessary. If you would like to pursue the application, please carefully read the attached letter and submit the required information.

If the Department doesn't hear back from either the Agent or the Applicant by August 19, 2024, an order denying the application as incomplete may be issued.

If you have any questions, please contact me at 503-986-0892 or Joan.M.Smith@water.oregon.gov

Regarding Transfer T-13259, the requested assignment from Rabo AgriFinance Inc. to Rickreall Dairy LLC cannot be performed at this time.

Transfer T-13259 is currently in the names of Eugene Kazemier and Rickreall Dairy LLC.

Regarding Application R-80536, Permit R-12122, and Application S-69936, Permit S-50949, the requested assignments from Rabo AgriFinance Inc. to Rickreall Dairy LLC cannot be performed as these are perfected rights as evidenced by the issuance of Certificates of Water Right. Under Oregon Water Law, a perfected right is considered a land right and goes with the land. Therefore, if you own land that has a perfected right you own the right as well. There is no provision in Oregon Water Law for changing the name on a perfected right.

The Department requests that an ownership update be filed for perfected rights when a change in ownership occurs. I am returning your requests and have included Ownership Update Forms. Additional forms may be accessed online.

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

EUGENE KAZEMIER
RICKREALL DAIRY LLC.
8845 RICKREALL RD
RICKREALL, OR 97371

Findings of Fact

1. On September 25, 2019, EUGENE KAZEMIER/RICKREALL DAIRY LLC. filed an application to change the points of diversion and to change the place of use under Certificates 44307, 45802, 45803, 45804, and to change the place of use under Certificate 92299. The Department assigned the application number T-13259.
2. Notice of the application for transfer was published on October 1, 2019, and republished on March 10, 2020, pursuant to OAR 690-380-4000. No comments were filed in response to the notices.
3. The portion of the first right to be transferred is as follows:
Certificate: 44307 in the name of M.C. FINDLEY (perfected under Permit S-12883)
Use: IRRIGATION of 4.7 ACRES
Priority Date: NOVEMBER 18, 1937
Rate: 0.06 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2½ acre feet per acre for each acre irrigated during the irrigation season of each year.

17. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

Transfer Review Criteria [OAR 690-380-4010(2)]

- 18. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
- 19. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing rights were present within the five-year period prior to submittal of Transfer Application T-13259.
- 20. The proposed changes would not result in enlargement of the rights.
- 21. The proposed changes would not result in injury to other water rights.
- 22. All other application requirements are met.

Determination and Proposed Action

The change in points of diversion and change in places of use proposed in Transfer Application T-13259 appear to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-13259 is approved, the final order will include the following:

- 1. *The change in points of diversion and change in places of use proposed in Transfer Application T-13259 are approved.*

2. *The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 44307, 45802, 45803, 45804, 92299, and any related decree.*
3. *Water right Certificates 44307, 45802, 45803, 45804, and 92299 are cancelled. New Certificates will be issued describing those portions of Certificates 44307, 45802, and 92299 not affected by this transfer.*
4. *The quantity of water diverted at the new points of diversion, shall not exceed the quantity of water lawfully available at the original points of diversion.*
5. *Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.*
The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly, and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.
6. *The former place of use of the transferred rights shall no longer receive water under the rights.*
7. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2025**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
8. *After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.*

Reference: Application T- 13259

On September 25, 2019, we received your water right Transfer application. The application was accompanied by \$3650.00. Our receipt number 130913 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to Oregon Department of Fish and Wildlife to determine if a fish screen is needed as the original POD.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water for the new use, in the new place of use or from the new point of diversion until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0815.

Part 2 of 5 – Transfer Application Map Checklist

Your transfer application will be returned if any of the map requirements listed below are not met.

Please be sure that the transfer application map you submit includes all the required items and matches the existing water right map. Check all boxes that apply.

- N/A Certified Water Right Examiner (CWRE) Stamp and Original Signature. For a list of CWREs, see http://apps.wrd.state.or.us/apps/wr/cwre_license_view/. CWRE stamp and signature are not required for substitutions.
- N/A If **more than three** water rights are involved, separate maps are needed for each water right.
- Permanent quality printed with dark ink on good quality paper.
- The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- A north arrow, a legend, and scale.
- The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers and creeks showing direction of flow, lakes and reservoirs, roads, and railroads.
- Major water delivery system features from the point(s) of diversion/appropriation such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions. If less than the entirety of the water right is being changed, a separate hachuring is needed for lands left unchanged.
- N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion or well(s) with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- N/A If you are proposing a change in point(s) of diversion or well(s), show the proposed location and label it clearly with distance and bearing or coordinates. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department’s web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the “from” or the “to” lands? Yes No

If YES, list the certificate, water use permit, or ground water registration numbers:.

Pursuant to ORS 540.510, any “layered” water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # NA;
Surface water primary Certificate # NA.

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department’s web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide “a best estimate” for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

*The applicant indicated that the pipeline is existing, however, this serves as notification that the subject properties are located within the Special Flood Hazard Area (SFHA). Any non-structural floodplain development, such as excavating, drilling, removal or fill material, etc., would require a land use application and approval prior to conducting the non-structural floodplain development activities. The applicable review and decision criteria for non-structural floodplain development can be found in the Polk county Zoning Ordinance Chapter 178.

The subject properties also contain wetlands identified on the NWI map. According to the SRA map the wetlands are inventoried as being fish bearing. Any development within the inventoried wetland areas may require permits from the Oregon Department of State Land (DSL) and Oregon Department of Fish and Wildlife (ODFW).
