STATE OF OREGON**

In the Matter of Groundwater)	PROPOSED FINAL ORDER PROPOSING

Authority

Oregon Revised Statutes (ORS) 537.610, 537.705 and 540.505 to 540.580 establish the process in which the holder of a certificate of registration may submit a request for recognition of modifications to the place of use, character of use or point of appropriation under a groundwater certificate of registration.

Oregon Administrative Rules (OAR) Chapter 690, Divisions 382 and 380 implement the statutes and provide the Department’s procedures and criteria for evaluating groundwater registration modification applications.

Applicant

ANDREWS HOLDINGS LLC
C/O ROB ANDREWS, PRINCIPAL
224 WESTLAKE AVE N SUITE 500
SEATTLE, WA 98109

Findings of Fact

1. On September 22, 2022, Andrews Holdings LLC, c/o Rob Andrews filed a groundwater registration modification application to modify the point of appropriation under Registration Application GR-1598 (Certificate of Registration GR-1550). The Department assigned the application number T-14101.
2. On October 11, 2022, Registration Application GR-1598 (Certificate of Registration GR-1550) was assigned from Donald J. LaMotte to Andrews Holdings LLC.
3. Notice of the application for groundwater registration modification was published on October 11, 2022, pursuant to OAR 690-382-0600. No comments were filed in response to the notice.

Under OAR 690-382-0900 and ORS 536.077(1), any person may file a protest of this Proposed Final Order within 45 days after publication of notice of this Proposed Final Order in the Department’s weekly notice. Under OAR 690-382-0900 and ORS 536.077(2), if a protest is filed, any person who supports this Proposed Final Order may file a request for party status within 30 days after the deadline for filing a protest. Please refer to the end of this document for further information about filing protests and requests for party status.

4. On January 9, 2026, the Department mailed a copy of the Initial Review proposing to approve Groundwater Registration Modification Application T-14101 to the applicant. The Initial Review cover letter set forth a deadline of February 9, 2026, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Proposed Final Order and provided the necessary information to demonstrate that the applicant is authorized to pursue the modification.

5. The groundwater registration to be modified is as follows:

Registration: Application GR-1598 (Certificate of Registration GR-1550), in the name of DONALD J. LAMOTTE (*assigned to ANDREWS HOLDINGS LLC*)

Use: IRRIGATION of 1.0 ACRE

Tentative

Priority Date: 1916

Quantity: 50 GALLONS PER MINUTE; 4 ACRE FEET PER YEAR

Source: DUG WELL

Original Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Gov Lot	Measured Distances
6 N	35 E	WM	34	SE SW	5	DUG WELL - 1010 FEET NORTH AND 470.5 FEET WEST FROM THE SE CORNER OF THE SW1/4

Original Place of Use:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres

6. The Department received information from the applicant that describes the location and name of the original point of appropriation for GR-1597 as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
6 N	35 E	WM	34	NE SW	WELL 1 - 992 FEET SOUTH AND 487 FEET WEST FROM THE CENTER OF SECTION 34

7. Groundwater Registration Modification Application T-14101 proposes to modify the location of the original point of appropriation approximately 100 feet South from the original well to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
6 N	35 E	WM	34	NE SW	WELL 2 - 1093 FEET SOUTH AND 487 FEET WEST FROM THE CENTER OF SECTION 34

**Review Criteria for Groundwater Registration Modification Applications
[OAR 690-382-0100(10), 690-382-0700(2), 690-382-1000(1) and 690-380-2110(2)]**

8. The proposed modification would not result in a state Scenic Waterway not receiving previously available water during periods in which stream flows are less than the quantities determined by the Department to be necessary to meet the requirements of ORS 390.835.
9. The proposed point of appropriation develops groundwater from the same aquifer as the authorized point of appropriation, as required by OAR 690-380-2110(2).
10. The proposed modification, as conditioned, would not result in enlargement of the registration.
11. The proposed modification, as conditioned, would not result in injury to other water rights.
12. All other application requirements are met.

Determination and Proposed Action

The modification in point of appropriation proposed in Groundwater Registration Modification T-14101 appears to be consistent with the requirements of ORS 537.610, 537.705, 540.505 to 540.580 and OAR 690-382-1000. If protests are not filed pursuant to OAR 690-382-0900, the modification will be approved.

If Groundwater Registration Modification T-14101 is approved, the final order will include the following:

1. *The modification to Registration Application GR-1598 (Certificate of Registration GR-1550) proposed in Groundwater Registration Modification Application T-14101 is recognized. Recognition of the modification shall not be construed as a final determination of the right to appropriate groundwater under the certificate of registration or modification. Such a determination will occur in an adjudication proceeding under ORS 537.670 to 537.695.*
2. *The use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Registration Application GR-1598 (Certificate of Registration GR-1550) and any related decree.*
3. *Approval of this groundwater registration modification application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of appropriation.*
4. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
5. *Water shall no longer be appropriated from the original point of appropriation as part of this groundwater certificate of registration.*

6. *The quantity of water diverted at the proposed point of appropriation (Well 2) shall not exceed the quantity of water lawfully available at the original point of appropriation (Dug Well, aka Well 1).*
7. *Water use measurement conditions:*
 - a. *Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at the new point of appropriation.*
 - b. *The water user shall maintain the meter or measuring device in good working order.*
 - c. *The water user shall allow the Watermaster access to the meter or measuring device; provided however, where the meter or measuring device is located within a private structure, the Watermaster shall request access upon reasonable notice.*

SUBJECT: Groundwater Registration Modification T-14101

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14101. This document is an intermediate step in the approval process; water may not be used legally as proposed in the groundwater registration modification application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 45 days after the Department's notice.

If no protest is filed, the Proposed Final Order will become a Final Order 33 days after the protest period end, without any further action by the Department.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at 971-701-5485 or Elyse.D.Hennen@water.oregon.gov if I may be of assistance.

Sincerely,

Elyse Hennen
