  )    PROPOSED FINAL ORDER APPROVING  
  )    OF A CHANGE IN POINT OF  
  )    APPROPRIATION AND A CHANGE IN  
  )    PLACE OF USE

**Authority**

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

**Applicant**

VITIRITTI FAMILY FARM, LLC  
14115 SW 157TH PLACE  
TIGARD, OR 97224

**Findings of Fact**

1. On July 31, 2024, Vitiritti Family Farm, LLC filed an application to change the point of appropriation and to change the place of use under Certificate 68344. The Department assigned the application number T-14511.
2. Notice of the application for transfer was published on August 6, 2024, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. The application and application map indicate that 8.2 acres in the SENW of Section 15, T5S, R1W as both FROM lands and TO Lands as a part of the change in Place of Use. Because these acres would continue to receive water under the right, the proposed change would result in enlargement pursuant to OAR 690-380-0100(2)(c).

Under ORS 540.520(8) and (9) and ORS 536.077(1), any person may file a protest of this Proposed Final Order within 30 days after publication of notice of this Proposed Final Order in the Department’s weekly notice. Under ORS 540.520(9) and ORS 536.077(2), if a protest is filed, any person who supports this Proposed Final Order may file a request for party status within 30 days after the deadline for filing a protest. Please refer to the end of this document for further information about filing protests and requests for party status.

4. On January 21, 2026, the Department sent a copy of the Initial Review to the applicant, proposing to deny Transfer Application T-14511. The Initial Review cover letter provided a deadline of February 20, 2026, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Proposed Final Order and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer and provided amendments to the application.
5. On February 17, 2026, the applicant's agent provided the Department with amended pages to the application and map for T-14511. The amended pages clarified what acres were changing the place of use and changing the point of appropriation, further defining what acres were only changing the point of appropriation.
6. The portion of the right to be transferred is as follows:

**Certificate:** 68344 in the name of BUTSCH BROTHERS (perfected under Permit G-5479)

15. All other application requirements are met.

## **Determination and Proposed Action**

- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of appropriation or the new place of use.*
- 4. Water right Certificate 68344 is cancelled. A new certificate will be issued describing the portion of the right not affected by this transfer.*
- 5. The quantity of water diverted at the new point of appropriation (POA 2) shall not exceed the quantity of water lawfully available at the original point of appropriation (Well 2).*
- 6. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
- 7. The former place of use of the transferred right shall no longer receive water under the right.*
- 8. Water use measurement conditions:*
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (both new and existing).*
  - b. The water user shall maintain the meters or measuring devices in good working order.*
  - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

SUBJECT: Water Right Transfer Application T-14511

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14511. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Woodburn Independent newspaper, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

**The Proposed Final Order will become a Final Order 33 days after the protest period ends without any further action by the Department, as a matter of law, if no protest is filed.**

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at 971 304-5006 or [Dante.J.Luongo@water.oregon.gov](mailto:Dante.J.Luongo@water.oregon.gov), if I may be of assistance.

Sincerely,
