

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application) PROPOSED FINAL ORDER DENYING AN
T-12227, Clackamas County) ADDITIONAL POINT OF APPROPRIATION

Authority

Oregon Revised Statutes (ORS) 537.705 and 540.505 to 540.586 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department’s procedures and criteria for evaluating transfer applications.

Applicant

STEPHANY MOODY
PO BOX 1156
WILSONVILLE, OR 97070-1156

Findings of Fact

1. On December 30, 2015, Stephany Moody filed an application for an additional point of appropriation under Certificate 50260. The Department assigned the application number T-12227.
2. On September 27, 2016, the Department contacted the applicants’ agent informing him that the Department could not approve the application without additional discharge and water-level measurements in the pumping well and simultaneous water level measurements in the other well and possibly nearby wells. The Department would have to find the reports acceptable before findings could be reversed and use at the additional point of appropriation could be approved in the Sherwood-Dammasch-Wilsonville Groundwater Limited area.
3. On April 20, 2017, the Department contacted the applicants’ agent through e-mail and set forth a deadline of May 20, 2017, for the applicant to respond.
4. On May 8, 2018, and again on June 22, 2018, emails requesting information as to how to proceed were sent to the applicants’ agent.

<p>Under ORS 540.520(8) and (9) and ORS 536.077(1), any person may file a protest of this Proposed Final Order within 30 days after publication of notice of this Proposed Final Order in the Department’s weekly notice. Under ORS 540.520(9) and ORS 536.077(2), if a protest is filed, any person who supports this Proposed Final Order may file a request for party status within 30 days after the deadline for filing a protest. Please refer to the end of this document for further information about filing protests and requests for party status.</p>

5. On July 6, 2018, the Department sent a letter outlining problems with the application giving the applicants until August 7, 2018, to respond.
6. As of September 5, 2019, the Department has not received a response to any correspondence and the initial mailings to the applicant were returned to the Department.
7. On January 22, 2021, the Department mailed a copy of the Initial Review (formerly known as the draft Preliminary Determination) proposing to deny Transfer Application T-12227 to the applicant. The draft Preliminary Determination cover letter set forth a deadline of February 24, 2021, for the applicant to respond. The applicant did not respond by the deadline.
8. Notice of the application for transfer was published on January 12, 2016, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.

9. The right to be transferred is as follows:

Certificate: 50260 in the name of WALTER HERDT (perfected under Permit G-6466)

Use: IRRIGATION of 10.0 ACRES

Priority Date: MAY 21, 1975

Rate: 0.08 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

2 S	1 E	WM	31	NE SW	4.10
2 S	1 E	WM	31	NW SE	5.90

10. Transfer Application T-12227 proposes an additional point of appropriation approximately 160 feet from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
2 S	1 E	WM	31	NW SE	WELL #2-380 FEET SOUTH AND 340 FEET EAST FROM THE CENTER CORNER OF SECTION 31

11. Transfer Application T-12227 also proposes that the proposed WELL#2 serve a portion of the right 3.7 acres in the NW SE, as described in the table below:

Transfer Review Criteria (OAR 690-380-4010)

12. Water has been used within the last five years prior to the submittal of Transfer Application T-12227 according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
13. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Transfer Application T-12227.
14. The proposed change may result in enlargement of the right unless the applicant can determine that the wells would be developing from the same basalt aquifer. The proposed additional point of appropriation is located within the Sherwood-Dammasch-Wilsonville Groundwater Limited Area and based on the limited available static water levels the Department could not positively determine that this well will be producing from the same source.
15. The proposed change would not result in injury to other water rights.
16. The application is incomplete because the applicant never responded to the Initial Review (formerly known as the Draft Preliminary Determination), with failure to provide:
- a) Additional discharge and water level measurements in the pumping well and simultaneous water level measurements in the other well and possible nearby wells.

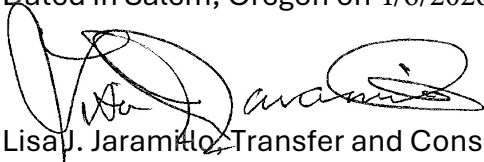

- b) Provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer with a report of ownership.
- c) The name of the newspaper for the Department to use for publication. The application was required to be published in a newspaper with general circulation in the area where the water right is located.

Therefore, all other application requirements are not met.

Determination and Proposed Action

The additional point of appropriation (Well 2) proposed in Transfer Application T-12227 does not appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be denied.

SUBJECT: Water Right Transfer Application T-12227

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to deny application T-12227. This document is an intermediate step in the denial process; water may not be used legally as proposed in the transfer application until a Final Order approving the transfer has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

The Proposed Final Order will become a Final Order 33 days after the protest period ends without any further action by the Department, as a matter of law, if no protest is filed.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

If you have any questions or concerns, please contact me at scott.a.grew@water.oregon.gov or 503-986-0890/503-986-0886 or Patrick.K.Starnes@wrds.state.or.us.

Sincerely,
