**Part 3 of 4 – Water Right Information and Conservation Measures**

Please use a separate Part 3 for each water right involved in the proposed allocation of conserved water.

**WATER RIGHT INFORMATION:**

Water Right Subject to Transfer (check and complete **ONE** of the following):

|  |  |  |
|--|--|--|
| <input checked="" type="checkbox"/> Certificated Right   | 92000<br>Certificate Number            | Hood River, Vol Page:6-199<br>Permit Number or Decree Name |
| <input type="checkbox"/> Adjudicated, Un-certificated Right                                    | Name of Decree                         | Page Number  |
| <input type="checkbox"/> Permit for which Proof has been Approved                              | Permit Number                          | Special Order Volume _____, Page _____                     |
| <input type="checkbox"/> Transferred Right for which Proper Proof of the change has been filed | Previous Certificate / Transfer Number | Date Claim of Beneficial Use Submitted                     |

County: Hood River

Describe the pre-project water delivery system. Include information on the diversion structure, pumps, and conveyance facilities (including canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use). *Provide sufficient detail for the Department to determine the system capacity.*  
SEE ATTACHED

**Table 1: Pre-Project Description**

List: A) the maximum rate and annual duty (volume) of water that may be diverted **as stated on the water right of record**; and B) the maximum amount of water that can be diverted using the pre-project facilities ("**system capacity**"). If there are multiple priority dates on the water right, list the rate and duty associated with each priority date. *(If the water right is only limited by rate, do not list a duty. Conversely, if the water is only limited by duty, do not list a rate).*

| PRE-PROJECT DESCRIPTION   |            |          |                                   |        |            |       |                             |            |
|---------------------------|------------|----------|-----------------------------------|--------|------------|-------|-----------------------------|------------|
|                           |            |          | Column A<br>Water Right of Record |        |            |       | Column B<br>System Capacity |            |
|                           |            |          | Rate                              |        | Duty       |       | Rate                        | Duty       |
| Originating Water Right # | Priority   | Acres    | Maximum CFS                       | CFS/AC | Maximum AF | AF/AC | Maximum CFS                 | Maximum AF |
| 92000                     | 11/25/1895 | 8,546.77 | 96.50                             | 1/80   | 22,976.78  | 2.69  | 1/80                        | 576.00     |
| <b>Totals</b>             |            |          |                                   |        |            |       |                             |            |

Note: 1 miner's inch = 1/40 cfs;      1 cfs = 448.8 gpm      1 cfs = 1.983471 ac-ft/day

**CONSERVATION MEASURES:**

Describe the type of conservation measures, check all that apply:

- On-Farm efficiency project
- Distribution project, such as a ditch piping or lining project
- Other: \_\_\_\_\_

**E-RECEIVED**  
**6/10/2026**  
**OWRD**

**Part 4 of 4 – Mitigation, Proposed Use,  
Project Schedule, Funding, and  
Fee Calculation**

**MITIGATION:**

Describe any expected effects from the proposed allocation of conserved water on other water rights. Describe what currently happens to the water that is proposed to be conserved. SEE ATTACHED

Describe any mitigation or other measures that are planned to avoid harm to other water rights. \_\_\_\_\_

**PROPOSED USE:**

**New Out-of Stream Uses:**

N/A For new out-of-stream uses, describe the intended use and boundaries of the expected area within which the diversion structures and places of use of the applicants' conserved water right will be located. This is land other than that to which this water right is appurtenant. Intended Use: \_\_\_\_\_; Boundaries: \_\_\_\_\_.

Will the new use require a change or additional point of diversion/appropriation?

Yes       No       Unknown at this time

**New Point of Diversion:**

| Twp | Rng | Sec | ¼ | ¼ | Tax Lot | Gvt Lot or DLC | Measured Distances or Latitude and Longitude |
|-----|-----|-----|---|---|---------|----------------|--|
|     |     |     |   |   |         |                |  |

**New Instream Uses to be Created (State's Portion):**

| Originating Surface Water Right (as identified in Part 3) | Priority Date | Source               | Proposed Instream Period | Rate (cfs)* | Volume (ac-ft)** |
|---|---------------|----------------------|--------------------------|-------------|------------------|
| 92000   | 11/25/1895    | East Fork Hood River | 06/03-9/30 (120 Days)    | 2.40        | 576.00           |
| <b>TOTAL VOLUME</b>                                       |               |                      |                          |             |                  |

\* To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

\*\* To calculate volume, multiply the rate by the number of days in the instream period and then multiply by 1.983471.

**Note:** The instream rate may not exceed the maximum rate conserved and the total volume may not exceed to maximum duty or volume conserved (Table 3, Column C).

**Location of the proposed instream water right.**

Water is requested to be protected within a reach. Location of the proposed reach (identify the extent of the reach): (e.g., from the upstream POD located at RM \_\_\_ to downstream location at the mouth at RM \_\_\_) from the POD located at RM 6.4 of the East Fork Hood River to the mouth of the mainstem Hood River at RM 0 (21.3 miles).

**OR**

Water is requested to be protected at a point at the following location (i.e. legal description of the point of diversion (POD)):
