**Transfer Review Criteria [OAR 690-380-0100(14), OAR 690-380-4010(2), OAR and OAR 690-380-2110(2)]**

10. Water has been used within the last five years according to the terms and conditions of the rights. There is no information in the record that would demonstrate that the rights are subject to forfeiture under ORS 540.610.
11. A water delivery system sufficient to use the full amount of water allowed under the existing rights was present within the five-year period prior to submittal of Transfer Application T-14564.
12. The water rights are subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
13. The proposed point of appropriation develops groundwater from the same aquifer as the authorized points of appropriation, as required by OAR 690-380-2110(2).
14. The proposed change, as conditioned, would not result in enlargement of the rights.
15. The proposed change, as conditioned, would not result in injury to other existing water rights.
16. All other application requirements are met.

**Determination and Proposed Action**

The additional point of appropriation proposed in Transfer Application T-14564 appears to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-14564 is approved, the final order will include the following:

1. The additional point of appropriation proposed in Transfer Application T-14564 is approved.

2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 97920, 97921 and any related decree.
3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of appropriation.
4. Water right Certificates 97920 and 97921 are cancelled. New certificates will be issued describing those portions of the rights not affected by this transfer.
5. For Certificate 97920, the quantity of water diverted at the new additional point of appropriation (Well 3 (MALH 131)), together with that diverted at the authorized points of appropriation (Well 1 (HEID) and Well 2 (HEID)), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well 1 (MALH 208/MALH 53959); Lot 1 (NE ¼ NE ¼), Section 6, Township 16 south, Range 43 east, W.M.; 250 feet south and 760 feet west from the NE corner of Section 6).
6. For Certificate 97921, the quantity of water diverted at the new additional point of appropriation (Well 3 (MALH 131)), together with that diverted at the authorized points of appropriation (Well 1 (HEID) and Well 2 (HEID)), shall not exceed the quantity of water lawfully available at the original point of appropriation (Well 2 (MALH 130); NE ¼ NW ¼, Section 31, Township 15 south, Range 43 east, W.M.; 4440 feet north and 3150 feet west from the NE corner of Section 6, Township 16 south, Range 43 east, W.M.).
7. Water shall be acquired from the same aquifer (water source) as the original points of appropriation.
8. The former place of use of the transferred rights shall no longer receive water under the rights.
9. Water use measurement conditions:
  - a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of appropriation (new and existing).
  - b. The water user shall maintain the meters or measuring devices in good working order.
  - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

10. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2027**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
11. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.

Notwithstanding OAR 690-002-0175, if the applicant files a notification of intent to pursue approval of the transfer under OAR 690-380-5030 to 690-380-5050, the deadline for filing exceptions to the proposed order shall be 30 days after the Department provides notice to the parties that the transfer does not meet the requirements of OAR 690-380-5030 to 690-380-5050.

SUBJECT: Water Right Transfer Application T-14564

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14564. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Malheur Enterprise newspaper, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

**The Proposed Final Order will become a Final Order 33 days after the protest period ends without any further action by the Department, as a matter of law, if no protest is filed.**

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at [Kim.R.French@water.oregon.gov](mailto:Kim.R.French@water.oregon.gov), if I may be of assistance.

Sincerely,

Kim French
