For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: **NA.**

 Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- ☒ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map.

Tip: You may search for well logs on the Department's web page at:

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- ☒ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.

MEC is owned by the member/owners, who are represented in each district by a member of the Board of Directors. There are 9 Board Districts and a Board of 9 Directors. Directors are elected by the member/owners and serve a three-year term. Three board members are eligible for re-election each year.

MEC provides electric service to portions of four counties in Central Oregon: Deschutes, Klamath, Lake, and Lane Counties.

MEC's service territory covers 5,600 square miles from the Cascade Mountains to the West, Lava Butte to the North, Klamath Marsh to the South, and Christmas Valley to the East.

MEC is one of 18 rural electric cooperatives in Oregon. All are members of the National Rural Electric Cooperative Association (NRECA) and Oregon Rural Electric Cooperative Association (ORECA).

MEC is a Touchstone Energy® Cooperative providing high standards of service according to their four core values: integrity, accountability, innovation and a longstanding commitment to communities. Touchstone Energy® Cooperatives, a national alliance of 750 local member owned electric cooperatives in 46 states, are committed to providing their members with safe, reliable electricity at the lowest possible price.
