11. The proposed change would not result in enlargement of the rights.
12. The proposed change would not result in injury to other existing water rights
13. All other application requirements are met.

Determination and Proposed Action

The changes in place of use proposed in Transfer Application T-14595 appear to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-14595 is approved, the final order will include the following:

- 1. The change in places of use proposed in Transfer Application T-14595 are approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificates 7547 and 76595 and any related decree.*
- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new place of use.*
- 4. Water right Certificates 7547 and 76595 are cancelled. A new certificate will be issued describing that portion of Certificate 76595 not affected by this transfer.*
- 5. The former place of use of the transferred rights shall no longer receive water under the rights.*
- 6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2027**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
- 7. After satisfactory proof of beneficial use is received, new certificates confirming the rights transferred will be issued.*

SUBJECT: Water Right Transfer Application T-14595

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14595. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

The Proposed Final Order will become a Final Order 33 days after the protest period ends without any further action by the Department, as a matter of law, if no protest is filed.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please contact me at scott.a.grew@water.oregon.gov or 503-986-0890/503-986-0886 or Patrick.K.Starnes@wrdd.state.or.us if I may be of assistance.
