**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	FINAL ORDER
T-10541, Harney County	)	APPROVING AN ADDITIONAL POINT
	)	OF APPROPRIATION

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

PATTI WILSON
67564 SCOTT ROAD
HINES, OREGON 97738

Findings of Fact

Background

1. On February 19, 2008, Patti Wilson filed an application for an additional point of appropriation under Certificates 55676. The Department assigned the application number T-10541.

2. The right to be transferred is as follows:

Certificate: 55676 in the name of JOHN W. WILSON (perfected under Permit G-6468)

Use: IRRIGATION OF 104.7 ACRES

Priority Date: MARCH 31, 1975

Rate: 1.31 CUBIC FEET PER SECOND

Limit/Duty: ONE-EIGHTIETH cfs per acre per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year

Source: A WELL, tributary to SAGE HEN CREEK (Malheur Lake Basin)

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

24 S	30 E	WM	18	SW SE		22.5
24 S	30 E	WM	30	NW NW	1	2.6

3. There was a scrivener's error found in Certificate 55676. The final proof survey for this right shows the correct location of the place of use. The certificate incorrectly describes location of 2.6 acres in Section 30. The correct place of use is described as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
24 S	30 E	WM	18	SW SW	4	40.5
24 S	30 E	WM	18	SE SW		31.3

24 S	30 E	WM	18	SW SE		22.5
24 S	30 E	WM	19	NW NW	1	2.6

4. Transfer Application T-10541 proposes an additional point of appropriation located approximately 0.5 mile west from the existing point of appropriation:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
24 S	30 E	WM	19	NW NW	1	80 FEET SOUTH AND 860 FEET EAST FROM THE NW CORNER OF SECTION 19

5. Notice of the application for transfer was published on February 26, 2008, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
6. On December 10, 2008, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-10541 to the applicant. The cover letter for the draft Preliminary Determination set forth a deadline of January 8, 2009, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
7. On February 20, 2009, the Department issued a Preliminary Determination proposing to approve Transfer Application T-10541 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on February 24, 2009, and in the Burns Times-Herald newspaper on March 11, 18, and 25, 2009, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

Transfer Review Criteria (OAR 690-380-4010)

8. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
9. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10541.
10. The proposed change would not result in enlargement of the right.
11. The proposed change would not result in injury to other water rights.

Conclusions of Law

The additional point of appropriation proposed in Transfer Application T-10541 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The additional point of appropriation proposed in Transfer Application T-10541 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 55676 and any related decree.
3. Water Right Certificate 55676 is cancelled.
4. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
5. When required by the Department, the water user shall install, maintain and operate an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
6. The approved change shall be completed and full beneficial use of the water shall be made on or before **October 1, 2010**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.

7. When satisfactory proof of the completed change is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 24th day of April 2009.

Authority

OAR 690-380-6020 establishes an application process and criteria for the review of extensions of time for the completion of changes authorized under water right transfer applications.

Findings of Fact

1. On February 16, 2016, the Department received an application for extension of time for Transfer Application T-10541.
2. The Department issued an order approving Transfer Application T-10541 on April 24, 2009. The order was recorded in Special Order Volume 77, Pages 615-618. The order set a transfer completion date of October 1, 2010.
3. To fully complete the changes, the applicant needs to install the well, the pivot, and irrigate.
4. The applicant has completed construction of the well and installation of the pivot, but was unable to irrigate before the transfer completion date.
5. The applicant has requested that the time for completion of beneficial use be extended to October 1, 2020.

Conclusions of Law

Pursuant to OAR 690-380-6020, the Director of the Water Resources Department concludes the applicant has shown reasonable diligence to complete the transfer within the time period established by the order approving Transfer Application T-10541.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Now, therefore, it is ORDERED:

The time for completion of the changes in place of use authorized by Transfer Application T-10541 shall be extended to October 1, 2020.

Authority

OAR 690-380-6020 establishes an application process and criteria for the review of extensions of time for the completion of changes authorized under water right transfer applications.

Findings of Fact

1. On February 16, 2016, the Department received an application for extension of time for Transfer Application T-10541.
2. The Department issued an order approving Transfer Application T-10541 on April 24, 2009. The order was recorded in Special Order Volume 77, Pages 615-618. The order set a transfer completion date of October 1, 2010.
3. To fully complete the changes, the applicant needs to install the well, the pivot, and irrigate.
4. The applicant has completed construction of the well and installation of the pivot, but was unable to irrigate before the transfer completion date.
5. The applicant has requested that the time for completion of beneficial use be extended to October 1, 2020.

In the Matter of Transfer Application	)	FINAL ORDER
T-10541, Harney County	)	APPROVING AN ADDITIONAL POINT
	)	OF APPROPRIATION

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

PATTI WILSON
67564 SCOTT ROAD
HINES, OREGON 97738

Findings of Fact

Background

1. On February 19, 2008, Patti Wilson filed an application for an additional point of appropriation under Certificates 55676. The Department assigned the application number T-10541.
2. The right to be transferred is as follows:

Certificate:	55676 in the name of JOHN W. WILSON (perfected under Permit G-6468)
Use:	IRRIGATION OF 104.7 ACRES
Priority Date:	MARCH 31, 1975
Rate:	1.31 CUBIC FEET PER SECOND
Limit/Duty:	ONE-EIGHTIETH cfs per acre per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year
Source:	A WELL, tributary to SAGE HEN CREEK (Malheur Lake Basin)

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
24 S	30 E	WM	18	SW SE	860 FEET SOUTH AND 820 FEET EAST FROM THE NW CORNER OF THE SW¼SE¼ OF SECTION 18

Authorized Place of Use:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres

24 S	30 E	WM	18	SE SW		31.3
24 S	30 E	WM	18	NW SE		7.8
24 S	30 E	WM	18	SW SE		22.5
24 S	30 E	WM	30	NW NW	1	2.6

3. There was a scrivener's error found in Certificate 55676. The final proof survey for this right shows the correct location of the place of use. The certificate incorrectly describes location of 2.6 acres in Section 30. The correct place of use is described as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
24 S	30 E	WM	18	SW SW	4	40.5
24 S	30 E	WM	18	SE SW		31.3

24 S	30 E	WM	18	SW SE		22.5
24 S	30 E	WM	19	NW NW	1	2.6

4. Transfer Application T-10541 proposes an additional point of appropriation located approximately 0.5 mile west from the existing point of appropriation:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
24 S	30 E	WM	19	NW NW	1	80 FEET SOUTH AND 860 FEET EAST FROM THE NW CORNER OF SECTION 19

5. Notice of the application for transfer was published on February 26, 2008, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
6. On December 10, 2008, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-10541 to the applicant. The cover letter for the draft Preliminary Determination set forth a deadline of January 8, 2009, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
7. On February 20, 2009, the Department issued a Preliminary Determination proposing to approve Transfer Application T-10541 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on February 24, 2009, and in the Burns Times-Herald newspaper on March 11, 18, and 25, 2009, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

Transfer Review Criteria (OAR 690-380-4010)

8. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
9. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10541.
10. The proposed change would not result in enlargement of the right.
11. The proposed change would not result in injury to other water rights.

Conclusions of Law

The additional point of appropriation proposed in Transfer Application T-10541 is consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. The additional point of appropriation proposed in Transfer Application T-10541 is approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 55676 and any related decree.
3. Water Right Certificate 55676 is cancelled.
4. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
5. When required by the Department, the water user shall install, maintain and operate an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.
6. The approved change shall be completed and full beneficial use of the water shall be made on or before **October 1, 2010**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.

7. When satisfactory proof of the completed change is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 21st day of April 2009.

On February 19, 2008 we received your water right transfer application requesting additional point of appropriation. The application was accompanied by \$400.00. Our receipt 91488 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

Except as provided under ORS 540.510(3) for municipalities, you may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, the buyer's consent to the transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

We will notify you if additional information or corrections to the application or map are required.

SUBJECT: Water Right Transfer Application T-10541

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve Transfer Application T-10541. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a 30-day period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

Because the new additional point of appropriation is more than ¼ mile from the authorized point of appropriation, the applicant is responsible for giving public notice of the transfer change in a local newspaper having a general circulation in the area of the water right. The notice must be published at least once a week for three consecutive weeks. We have prepared the notice for you (enclosed). The deadline for individuals to file protests or standing statements is 30 days after the date of last publication. Please have the newspaper insert the date of last publication in the proper place.

After publication, the Department needs to receive an affidavit specifying the dates the notice was published. Please have the newspaper prepare and mail an original affidavit of publication to me at the address shown in the letterhead, by April 9, 2009.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at 503-986-0886 or Patrick.K.Starnes@wrdd.state.or.us if I may be of assistance.

Sincerely,

Transfer Specialist

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

PATTI WILSON
67564 SCOTT ROAD
HINES, OREGON 97738

Findings of Fact

Background

1. On February 19, 2008, Patti Wilson filed an application for an additional point of appropriation under Certificates 55676. The Department assigned the application number T-10541.
2. The right to be transferred is as follows:

Certificate: 55676 in the name of JOHN W. WILSON (perfected under Permit G-6468)
Use: IRRIGATION OF 104.7 ACRES
Priority Date: MARCH 31, 1975
Rate: 1.31 CUBIC FEET PER SECOND
Limit/Duty: ONE-EIGHTIETH cfs per acre per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year
Source: A WELL tributary to SAGE HEN CREEK (Malheur Lake Basin)

Authorized Point of Appropriation:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
24 S	30 E	WM	18	SW SE	860 FEET SOUTH AND 820 FEET EAST FROM THE NW CORNER OF THE SW¼SE¼ OF SECTION 18

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this preliminary determination.

Authorized Place of Use:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
24 S	30 E	WM	18	SW SW	4	40.5
24 S	30 E	WM	18	SE SW		31.3
24 S	30 E	WM	18	NW SE		7.8
24 S	30 E	WM	18	SW SE		22.5
24 S	30 E	WM	30	NW NW	1	2.6

3. There was a scrivener's error found in Certificate 55676. The final proof survey for this right shows the correct location of the place of use. The certificate incorrectly describes location of 2.6 acres in Section 30. The correct place of use is described as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	GLot	Acres
24 S	30 E	WM	18	SW SW	4	40.5
24 S	30 E	WM	18	SE SW		31.3
24 S	30 E	WM	18	NW SE		7.8
24 S	30 E	WM	18	SW SE		22.5
24 S	30 E	WM	19	NW NW	1	2.6

4. Transfer Application T-10541 proposes an additional point of appropriation located approximately 0.5 mile west from the existing point of appropriation:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
24 S	30 E	WM	19	NW NW	1	80 FEET SOUTH AND 860 FEET EAST FROM THE NW CORNER OF SECTION 19

5. Notice of the application for transfer was published on February 26, 2008, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
6. On December 10, 2008, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-10541 to the applicant. The cover letter for the draft Preliminary Determination set forth a deadline of January 8, 2009, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Preliminary Determination and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Transfer Review Criteria (OAR 690-380-4010)

7. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10541.
9. The proposed change would not result in enlargement of the right.

10. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The additional point of appropriation proposed in Transfer Application T-10541 appears to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If Transfer Application T-10541 is approved, the final order will include the following:

- 1. The additional point of appropriation proposed in Transfer Application T-10541 is approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 55676 and any related decree.*
- 3. Water Right Certificate 55676 is cancelled.*
- 4. The quantity of water diverted at the additional point of appropriation, together with that diverted at the original point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.*
- 5. When required by the Department, the water user shall install, maintain and operate an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.*
- 6. The approved change shall be completed and full beneficial use of the water shall be made on or before **October 1, 2010**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*
- 7. When satisfactory proof of the completed change is received, a new certificate confirming the right transferred will be issued.*

Dated at Salem, Oregon this 20th day of Febuary 2009.

SUBJECT: Application T-10541

Enclosed is a draft of our Preliminary Determination regarding transfer application T-10541. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be approved. This draft is intended to provide you with an opportunity to comment on our findings and conclusions should you wish to do so. Please review the draft carefully to evaluate whether the document is consistent with your intent in seeking the transfer, and whether you agree with the proposed action.

At this time, you must submit a report of ownership and lien information for the lands to which the water right(s) are appurtenant (the FROM lands) that has been prepared within the last three months by a title company. You will need to submit a notarized statement of consent from any landowner listed in the report who is not already included in the transfer application. If there are additional lienholders identified in the report that have not previously been notified of the transfer, you must send notice of the transfer to them, and submit copies of each notice to the Department to document that each lienholder has been informed of the transfer.

****The enclosed deed lists John W Wilson as the authorized party as well. If you are the authorized representative for the estate then please submit a power of attorney or another document that reflects this at the address listed above.**

Because the new point of appropriation is more than ¼ mile from the authorized point of appropriation/diversion, the applicant is responsible for publishing notice of the transfer in a local newspaper having a general circulation in the area of the water right. The notice must be published at least once a week for three consecutive weeks. We will provide a copy of the required notice to you upon issuance of the Preliminary Determination.

Issuance of the Preliminary Determination will occur shortly after we receive your written response, the report of ownership and lien information and the document that describes you as the representative of the estate.. If we do not receive your response and the report by January 8, 2008, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me at 541-523-8224 x 36 or Carrie.R.Jones@wrd.state.or.us, if I may be of assistance.

The title company's ownership and lien report needs to include:

- 1) current ownership,**
 - 2) a legal description of the lands,**
 - 3) identification of lien holders (if any)**

Babe;

I am processing an additional well transfer for a Patti Wilson of Hines. Her husband passed away and I'm trying to get something that reflects that she is the responsible party. Do you know her? If not do you know where to get the recorded record of John's death certificate so I can put this in the file and continue processing her transfer.

Thanks Babe,

Reference: Transfer 10541

On February 19, 2008 we received your water right transfer application requesting additional point of appropriation. The application was accompanied by \$400.00. Our receipt 91488 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

Except as provided under ORS 540.510(3) for municipalities, you may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, the buyer's consent to the transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0883.

SUBJECT: WATER RIGHT TRANSFER # 10541

A change in: POU POD APOA USE of wa

In the name(s) of Ratti Wilson

Carrie #8

In my opinion (assuming the right is valid), the proposed change

☒ MAY BE MADE WITHOUT INJURY ☐ WOULD RESULT IN INJURY* to an existing water right.

*The approval of this transfer application would result in injury to other water rights because

The existing right may not be valid because

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) _____

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

_____ (1) PRIOR to the diverting of water at the new point of diversion . . .

_____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

The enclosed copy of the transfer application and map(s) is for your records.

Subject: Application Review: T-10541, Patti Wilson

This application proposes an additional POA as a result of subdivision of the property. The authorized well (HARN 837/835) and the proposed additional well will develop the same aquifer in valley-fill and volcanic sediments.

I find that the proposed change may be made without injury provided the following: the right is valid and the Watermaster can approve the proposal.
