## Part 2 of 4 – Historic Change in Point of Diversion Map Requirements Checklist

**Please be sure that the historic change in point of diversion application map you submit includes all the required items and matches the existing water right map.**

**Check all boxes that apply.**

- YES  N/A If **more than three** water rights are involved, a separate map for each water right is required.
- Permanent quality printed with dark ink on polyester film or good quality paper. Maps may also be submitted as a PDF (portable document format) if they meet all other requirements.
- The preferred size is 8½ x 11 inches and should be no larger than 30 x 30 inches (one extra map copy is required for 30 x 30 inch maps). To request a waiver for a map larger than 30 x 30 inches, please send an email to [mapwaiver@water.oregon.gov](mailto:mapwaiver@water.oregon.gov).
- A north arrow and a legend.
- Include the scale, which must be even-numbered and not exceed 1 inch = 1,320 feet. To request a waiver for a map scale that exceeds 1 inch = 1,320 feet, please send an email to [mapwaiver@water.oregon.gov](mailto:mapwaiver@water.oregon.gov).
- Township, Range, Section, ¼ ¼, DLC, Government Lot, and other recognized public land survey lines.
- Tax lot boundaries (property lines) are required. Tax lot numbers are recommended.
- Major physical features including rivers, creeks, streams, lakes, reservoirs, ponds, roads and railroads. For any surface water on the map, indicate the direction of flow.
- Major water delivery system features from the point(s) of diversion such as main pipelines, canals, and ditches.
- Existing place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other
- YES  N/A Proposed place of use that includes separate hachuring for each water right, priority date, and use including number of acres in each quarter-quarter section, government lot, or in each quarter-quarter section as projected within government lots, donation land claims, or other recognized public land survey subdivisions.
- Existing point(s) of diversion with distance and bearing or coordinates from a recognized survey corner. This information can be found in your water right certificate or permit.
- YES  N/A If you are proposing a change in point(s) of diversion, show the proposed location and label it clearly with distance and bearing or coordinates from a recognized survey corner. If GPS coordinates are used, latitude-longitude coordinates may be expressed as either degrees-minutes-seconds with at least one digit after the decimal (example – 42°32'15.5") or degrees-decimal with five or more digits after the decimal (example – 42.53764°).

**PROPOSED CHANGES**

**Check all type(s) of change(s) proposed below (change "CODES" are provided in parentheses):**

**Changes to Point(s) of Diversion:**

- Point of Diversion (POD) – the proposed POD will replace the existing authorized POD
- Additional Point of Diversion (APOD) – the proposed POD will be in addition to the existing authorized POD

**Changes in Place of Use, Character of Use and Supplemental to Primary Use:**

- Place of Use (POU) - the proposed changes to place of use are described in Table 2

**Explain in your own words what you propose to accomplish with this transfer application, and why:**

For Certificate 27180 the POD location on the Grande Ronde River is not specifically defined and is described on the certificate map as "portable pumping". The current POD has been in use for over 15 years and the water user seeks to correct the state records to accurately describe the location of the POD. Also, the water user seeks to change the place of use to change the coverage from handlines and sprinklers to an area to be under a center pivot. The place of use transfer will allow for more efficient use of the existing water and will require less labor.

**If you need additional space, continue on separate piece of paper and attach to application as "Attachment 1".**

I, Dale Eisminger, in my capacity as Landowner/ Irrigator,  
mailing address 68473 Highway 82, Imbler, OR 97841,  
telephone no.(s) 541-786-2159, e-mail address eisfarms@oregonwireless.net,

being first duly sworn depose and say:

1. My knowledge of the exercise or status of the water right is based on:

Check only the box that applies:

- Personal observation. Explain the specific grounds for your knowledge:  
Me and my family farm and irrigate our property with the certificated water right described herein (27180)
- Professional expertise. Explain the specific grounds for your knowledge:

2. I attest that I have read and understand the terms and conditions of water use under Certificate #27180, and that I have attached copies of documents demonstrating beneficial water use consistent with those terms and conditions (i.e., documentation showing compliance with the terms and conditions of the right).

Examples of documentation demonstrating compliance with the terms and conditions include, but are not limited to:

- Information showing that a required water meter was installed
- Copies of submitted static water level measurement reports (for groundwater sources)
- Copies of submitted annual water use reports
- Written confirmation from Oregon Department of Fish & Wildlife (ODFW) documenting installation of required fish screen(s)

- 3. I attest that water was beneficially used under Certificate #27180 for the following purpose (e.g., crops, pasture, commercial, industrial, etc.): crops, pasture
- 4. I attest that water from the authorized source was diverted/appropriated, conveyed, and applied to the authorized place of use under Certificate # 27180 through the current water delivery system used to apply water or the system that was in place at some point within the five years prior to submittal of this Transfer Application.

Received

5. I attest that the following is a description of the water delivery system attested to in Item #4 above. Please check all applicable boxes below and include information that describes the type, model, dimensions (size/diameter, length, etc.) and delivery capacity, in cubic feet per second (cfs) or gallons per minute (gpm):

- Pump(s) in stream: 50 hp at the Grande Ronde River
- Pump(s) in reservoir/pond:
- Pump(s) in well(s):
- Headgate in stream/canal:
- Headgate in reservoir pond:
- Other (describe also include its general location in the description):
  
- Gravity Ditch:
- Pipeline: 8" diameter buried mainline (~4,600 feet) 4" diameter aboveground handline (~2,000 feet)
- Sprinklers: 100 13/64" sprinklers at 40 psi (7.6 gpm ea.) maximum of 40 used at a time. And Center pivot nozzled at 850 gpm
- Other (also include its general location in the description):

6. Can you attest to beneficial water use under Certificate # 27180 consistent with the terms and conditions of the water right, during the past five years on the **entire** place of use or a **portion** of the place of use?

- No [skip to Question 7]
- Yes, my knowledge is specific to only the **portion** of the place use described below: [complete **Table 1** below, then go to Question 8]
- Yes, water was used on the **entire** place of use [skip to Question 8]

7. I attest, as indicated under either **Item a.** or **Item b.** below, that:

a. Beneficial water use is evidenced by one of the following:

- Certificate # \_\_\_\_\_ confirming beneficial water use to perfect Permit # \_\_\_\_\_ was issued within the past five years.

**NOTE:** This cannot be a remaining right certificate.

- Certificate # \_\_\_\_\_ confirming completion of a change in place of use, point(s) of diversion/ appropriation, or character of use authorized under Transfer Application #T- \_\_\_\_\_ was issued within the past five years.

- Part or all of the water right was leased instream at some point within the last five years. The instream lease number is: \_\_\_\_\_

**NOTE:** If the entire right proposed for transfer was not leased, then additional evidence of use is needed for the portion not leased instream.

- Water has been diverted at the actual current point of diversion for more than 10 years for beneficial use under Certificate # \_\_\_\_\_ (For Historic POD Transfers).

**-OR-**

b. Water was not used in the past 5 years, but the water right is not subject to forfeiture and documentation is attached to support the assertion that the presumption of forfeiture for nonuse would be rebutted under ORS 540.610(2) due to the following:

- Consistent with ORS 540.610(2)(e), the period of nonuse occurred during a period of time within which land was withdrawn from use in accordance with the Federal Conservation Reserve Program.
- Consistent with ORS 540.610(2)(h), the nonuse occurred during a period of time when I/we was/were using reclaimed water in lieu of using water under the water right.
- Consistent with ORS 540.610(2)(j), I/we was/were unable to make full beneficial use of the water because water was not available. During this time I/we had a facility capable of handling the full allowed rate and duty, and I/we was/were otherwise ready, willing and able to beneficially use the entire amount of water allowed under the water right.
- Consistent with ORS 540.610(2)(L), the nonuse occurred during a period of time within which the exercise of the water right was not necessary due to climatic conditions. During this time I/we had a facility capable of handling the full allowed rate and duty, and I/we was/were otherwise ready, willing and able to beneficially use the entire amount of water allowed under the water right.
- Consistent with ORS 540.610(2)(n), the nonuse of the supplemental water right occurred during a period of time when the primary water right used in conjunction with the supplemental water right was leased as an in-stream water right pursuant to ORS 537.348.
- Other (please explain and cite the statutory reference under ORS 540.610(2) that applies):

## NOTE TO APPLICANTS

In order for your application to be processed by the Oregon Water Resources Department (OWRD), this Land Use Information Form must be completed by a local government planning official in the jurisdiction(s) where your water right will be diverted, conveyed, used, and developed. Applications received by OWRD without the Land Use Information Form will be returned to you. Please be aware that your application cannot be approved without land use approval.

### This form is **NOT** required if:

- 1) Water is to be diverted, conveyed, and used on federal lands only; **OR**
- 2) The application is for a water right transfer, allocation of conserved water, exchange, permit amendment, or ground water registration modification, and **all** of the following apply:
  - a. The existing and proposed water use is located entirely within lands zoned for exclusive farm-use or within an irrigation district;
  - b. The application involves a change in place of use only;
  - c. The change does not involve the placement or modification of structures, including but not limited to water diversion, impoundment, distribution facilities, water wells and well houses; **and**
  - d. The application involves irrigation water uses only.

## NOTE TO LOCAL GOVERNMENTS

The person presenting the attached Land Use Information Form is applying for a new water right or modifying an existing water right. The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application.

You will receive notice via OWRD's weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or [WRD\\_DL\\_customerservice@water.oregon.gov](mailto:WRD_DL_customerservice@water.oregon.gov).

## For Local Government Use Only

The following section must be completed by a planning official from each county and city listed unless the project will be located entirely within the city limits. In that case, only the city planning agency must complete this form. This deals only with the local land use plan. Do not include approval for activities such as building or grading permits.

**Please check the appropriate box below and provide the requested information**

- Land uses to be served by the proposed water use(s), including proposed construction, are allowed outright or are not regulated by your comprehensive plan. Cite applicable ordinance section(s): zoned EFU, allowed by right
- Land uses to be served by the proposed water use(s), including proposed construction, involve discretionary land-use approvals as listed in the table below. (Please attach documentation of applicable land-use approvals which have already been obtained. Record of Action/land-use decision and accompanying findings are sufficient.) **If approvals have been obtained but all appeal periods have not ended, check "Being Pursued."**
