Reference: Transfer 10520

On January 17, 2008 we received your water right transfer application requesting place of use, point of appropriation. The application was accompanied by \$1125.00. Our receipt 91247 91246 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

Except as provided under ORS 540.510(3) for municipalities, you may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, the buyer's consent to the transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0883.

T-10549 and T-10520, Lake County	)	TEMPORARY TRANSFER AND

	)	APPROPRIATION AND PLACE OF

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

Golden Rule Farms
P.O. Box 255
Christmas Valley, OR 97641

Findings of Fact

Background

1. On January 17, 2008, Golden Rule Farms filed an application to change the place of use and point of appropriation under Certificate 76483. The Department assigned the application number T-10520.
2. On April 10, 2008, temporary transfer T-10549 was approved (Special Order Volume 74, pages 583-585). That temporary transfer covered the same place of use and point of appropriation described in this application and is in effect for five years, ending in 2012, or until terminated by order of the Department.
3. On February 23, 2009, received an email withdrawing temporary transfer 10549 when transfer 10520 is approved.
4. The right to be transferred is as follows:

Certificate: 76483 in the name of RICHARD WIDENOJA (perfected under Permit G-6980)

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

26 S	15 E	WM	8	SW NE	32.5
26 S	15 E	WM	8	SE NE	32.5

5. Application T-10520 proposes to move the authorized point of appropriation approximately 15.5 miles southeast from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	Survey Coordinates
27 S	17 E	WM	15	SE SW	1310 FEET NORTH AND 10 FEET WEST FROM THE S $\frac{1}{4}$ CORNER OF SECTION 15

6. Application T-10520 also proposes to change the place of use of the right to:

Twp	Rng	Mer	Sec	Q-Q	Acres
27 S	17 E	WM	15	NE SW	32.5
27 S	17 E	WM	15	SE SW	32.5
27 S	17 E	WM	15	NW SE	32.5
27 S	17 E	WM	15	SW SE	32.5

7. Before T-10520 can be approved, temporary transfer T-10549 must expire or be terminated by order of the Department.
8. Notice of the application for transfer was published on January 29, 2008, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
9. On February 20, 2009, the Department mailed a copy of the draft Preliminary Determination proposing to approve Transfer Application T-10520 to the applicant. The draft Preliminary Determination set forth a deadline of April 20, 2009, for the applicant to respond. The applicant requested that temporary transfer T-10549 be cancelled upon issuance of an order approving transfer application T-10520 and that the Department proceed with issuance of a Preliminary Determination. The applicant provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

10. On March 25, 2009, the Department issued a Preliminary Determination proposing to approve Transfer Application T-10520 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on April 7, 2009, and in the Lake County Examiner newspaper on April 15, 22 and 29, 2009, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

Transfer Review Criteria (OAR 690-380-4010)

11. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
12. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10520.
13. The proposed change would not result in enlargement of the right.
14. The proposed change would not result in injury to other water rights.

Conclusions of Law

The changes in place of use and point of appropriation proposed in application T-10520 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000.

Now, therefore, it is ORDERED:

1. Temporary transfer T-10549 is terminated. The final order entered at Special Order Volume 74, pages 583-585 is of no further force or effect.
2. The changes in place of use and point of appropriation proposed in application T-10520 are approved.
3. The right to the use of the water is restricted to beneficial use at the proposed place of use described, and is subject to all other conditions and limitations contained in Certificate 76483 and any related decree.
4. Water right certificate 76483 is cancelled.
5. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
6. The quantity of water diverted at the new point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
7. The former place of use of the transferred right shall no longer receive water under the right.

8. Prior to diverting water, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain and operate the measuring device as required by the Department.
9. The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2010**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
10. When satisfactory proof of the completed changes is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 1ST day of June 2009.

MEMORANDUM

DATE: 2/29/08

TO: File T-10520, Golden Rule Farms
FROM: Donn Miller, Hydrogeologist (503.986.0845)
SUBJECT: Review

The transfer proposes changes in both POD and POA.

The POD changes seems fine to me.

The POA change is also acceptable. The "To" and "From" wells both develop the same source, the main ground water reservoir of the Fort Rock Basin. See OWRD GW Report #31 for more information. I see very limited potential for injury since the spacing between wells is great and the history of well interference in the area is nominal. Therefore, I conclude that the proposed changes may be made without injury to an existing water right.

COUNTY OF LAKE

ORDER APPROVING A CHANGE IN PLACE OF USE
AND POINT OF APPROPRIATION

Pursuant to ORS 537.705, after notice was given and no objections were filed, and finding that no injury to existing water rights would result, this order approves, as conditioned or limited herein, TRANSFER 8370 submitted by

RICHARD WIDENOJA
HC 84 BOX 200

The amount of water to which this right is entitled is limited to an amount actually beneficially used and shall not exceed 0.38 cubic foot per second, if available at the original well; NE¼ NE¼, SECTION 8, T 26 S, R 15 E, W.M.; 1310 FEET SOUTH AND 1320 FEET WEST FROM THE NE CORNER, SECTION 8, or its equivalent in case of rotation, measured at the well.

This is an order in other than contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2).

Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order

The use shall conform to any reasonable rotation system ordered by the proper state officer.

The authorized place of use is as follows:

Notice of Preliminary Determination for Water Right Transfer T-10520

T-10520 filed by Golden Rule Farms, Inc., P.O. Box 255, Christmas Valley, OR 97641, proposes a change in point of appropriation and place of use under Certificate 76483. The right allows the use of 1.62 cubic feet per second (priority date SEPTEMBER 1, 1976) from a well in Sec. 8, T26S, R15E, W.M. (Fort Rock Basin) for IRRIGATION in Sec. 8. The applicant proposes to move the point of appropriation approximately 15.5 miles southeast, to Sec. 15, T27S, R17E, W.M. and to change the place of use to Sec. 15, T27S, R17E, W.M. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Any person may file, jointly or severally, with the Department a protest or standing statement within 30 days after the date of final publication of notice in the Department's weekly notice or of this newspaper notice, whichever is later. A protest form and additional information on filing protests may be obtained by calling (503) 986-0883. The last date of newspaper publication is April 29, 2009.

SUBJECT: Water Right Transfer Application T-10520

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-10520. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a 30-day period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

Because the new point of appropriation is more than ¼ mile from the authorized point of appropriation, the applicant is responsible for giving public notice of the transfer changes in a local newspaper having a general circulation in the area of the water right. The notice must be published at least once a week for three consecutive weeks. We have prepared the notice for you (enclosed). The deadline for individuals to file protests or standing statements is 30 days after the date of last publication. Please have the newspaper insert the date of last publication in the proper place.

After publication, the Department needs to receive an affidavit specifying the dates the notice was published. Please have the newspaper prepare and mail an original affidavit of publication to me at the address shown in the letterhead, by May 11, 2009.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period. If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a judicial proceeding.

Please do not hesitate to contact me at (503) 986-0890 or Dorothy.I.Pedersen for assistance.

Sincerely,

Dorothy I. Pedersen

SUBJECT: Application T-10520

Enclosed find a draft of our Preliminary Determination regarding transfer application T-10520. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be approved. This draft is intended to provide you with an opportunity to comment on our findings and conclusions should you wish to do so. Please review the draft carefully to evaluate whether the document is consistent with your intent in seeking the transfer, and whether you agree with the proposed action.

At this time, you must submit a report of ownership and lien information for the lands to which the water right(s) are appurtenant (the FROM lands) that has been prepared within the last three months by a title company. You will need to submit a notarized statement of consent from any landowner listed in the report who is not already included in the transfer application. If there are additional lienholders identified in the report that have not previously been notified of the transfer, you must send notice of the transfer to them, and submit copies of each such notice to the Department to document that each lienholder has been informed of the transfer.

Because the new point of appropriation is more than ¼ mile from the authorized point of appropriation, the applicant is responsible for publishing notice of the transfer in a local newspaper having a general circulation in the area of the water right. The notice must be published at least once a week for three consecutive weeks. We will provide a copy of the required notice to you upon issuance of the Preliminary Determination.

Issuance of the Preliminary Determination will occur shortly after we receive both your written response to move forward, a written request to withdraw transfer 10549, and the report of ownership and lien information. If we do not receive your response and the report by April 20, 2009, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me at if I may be of assistance.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

Except as provided under ORS 540.510(3) for municipalities, you may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, the buyer's consent to the transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

We will notify you if additional information or corrections to the application or map are required.
