The water shall be acquired from the same aquifer (water source) as the original point of appropriation.

The quantity of water diverted at the new point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation described as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
39 S	20 E	WM	16	NW NE	SOUTH 57 DEGREES WEST, 1600 FEET FROM NE CORNER, SECTION 16

The water user shall maintain an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted.

The right to the use of the water for the above purpose is restricted to beneficial use on the place of use described, and is subject to all other conditions and limitations contained in Certificate 19943 and any related decree.

This certificate is issued to confirm a change in POINT OF APPROPRIATION AND PLACE OF USE approved by an order of the Water Resources Director entered May 13, 2011 at Special Order Volume 84, Page 272, approving Transfer Application 10525, supercedes Certificate 19943, State record of Water Right Certificates.

Issued JUN 03 2016.

NOTICE OF CERTIFICATE ISSUANCE

Attached is a certificate that confirms the water rights established under the terms of a transfer order issued by this Department.

This certificate is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This statement of judicial review rights is required under ORS 536.075; it does not alter or add to existing review rights or create review rights that are not otherwise provided by law.

The water must be controlled and not wasted. To change the location of the point of diversion, the character of use, or the location of use requires the advance approval of the Water Resources Director.

If you have any questions please contact Gerry Clark at 503-986-0811.

CLAIM OF BENEFICIAL USE

The completion of this form is required by OAR 690-014-0100(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. Every numbered item must have a response. If any requested information does not apply to the Claim, insert "n/a." Do not delete any section of this form unless directed by the form. The Department may require the submittal of additional information from any water user or authorized agent. A separate form shall be completed for each permit or transfer final order.

II. Points of Diversion/Appropriation and Place of Use

For each point of diversion or appropriation, provide the following information. If the claim is for more than one point of diversion/appropriation, copy and complete this section for each point of diversion or appropriation.

1. Provide a general narrative description of the distribution works. This description must trace the water system from the point of diversion or appropriation to and include the place of use:

Water is pumped from the well and connects to a 16" pump line that travels approximately 4800 feet to a storage tank. The water is then distributed to the Town of Lakeview through the municipal water supply.

2. Point of diversion/appropriation name or number (correspond to map):

Point of diversion/appropriation name or number (correspond to map)	Well log ID # for all work performed on the well (if applicable)	Well tag # (if applicable)
NW ¼ NE ¼ , SEC. 16, T39S, R20E, W.M.; 1,861.35 FEET NORTH AND 1,327.62 FEET WEST FROM THE E ¼ CORNER OF SEC. 16	LAKE 52105	L94386

Attach each well log available for the well (include the log for the original well and any subsequent alterations, reconstructions, and deepenings)

3. Point of diversion/appropriation source and, if from surface water, the tributary:

Source	Tributary to

2. Initial Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit an initial static water level measurement? YES NO NA

3. Annual Static Water Level Measurements:

**If the Claim is for surface water or a reservoir, or if the water user was not required to submit static water level measurements, items b through e relating to this section can be deleted.

a. Was the water user required to submit annual static water level measurements? YES NO NA

4. Measurement, recording, and reporting conditions:

a. Does the permit or transfer final order require the installation of a meter or approved measuring device?
YES NO

If a meter or approved measuring device was required, the COBU map must indicate the location of the device in relation to the point of diversion or appropriation.

**If "NO", items b through g relating to this section can be deleted.

b. Has a meter been installed? YES NO

c. Provide the date the meter was installed:

5/08

d. If a meter has not been installed, has a suitable measuring device been installed and approved by the Department? YES NO

e. If "YES", provide a copy of the letter approving the device, if available. If the letter is not available provide the name and title of the Water Resources Department employee approving the measuring device, and the approximate date of the approval:

Name	Title	Approximate date

f. Is the water user required to report the water use to the Department? YES NO

g. Have the reports been submitted? YES NO

If the reports have not been submitted, attach a copy of the reports if available.

5. Fish Screening and/or By-pass Devices

a. Are any points of diversion required to be screened and/or have a by-pass device to prevent fish from entering the point of diversion? YES NO NA

If fish screening and/or by-pass devices were required, the COBU map must indicate their location in relation to the point of diversion.

****If "NO", items b through i relating to this section can be deleted**

6. **Pump Test** (Required for ground permits prior to issuance of a certificate, but not a requirement of permit development)

a. Did the permit require the submittal of a pump test? YES NO NA

b. Has the pump test been previously submitted to the Department? YES NO

c. Has the pump test been approved by the Department? YES NO

d. If no, is the pump test attached to this Claim? YES NO

7. **Other Permit Conditions** (examples: special well construct standards, water conservation plans, no obstructions to fish without a fishway, etc.; number as appropriate.)

Re: Town of Lakeview Well 4 Replacement – Pumping Test Data Analysis.

RECEIVED

MAR 18 2010

WATER RESOURCES DEPT
SALEM, OREGON

Step Test

The step test of the replacement to Lakeview Well 4 (Well 4R) was conducted by Western Water Development under the supervision of Anderson Engineering and Surveying, Inc. (AESI) on April 28, 2008. It comprised four steps of one hour duration each. The data are summarized in Table 1.

Table 1. Lakeview Well 4R step-drawdown test summary.

Step	Duration t (minutes)	Discharge Q (gpm)	Drawdown s (feet)	Specific Capacity C _s (gpm/ft)
I	60	400	54.43	7.35
II	60	600	84.13	7.13
III	60	800	112.34	7.12
IV	60	1000	142.73	7.01

The test data collected by AESI were provided to ECO:LOGIC for analysis. They were analyzed using the computer program AQTESOLV (HydroSOLVE, 2006). A good match between observed and simulated drawdown was achieved using an analytical model developed by Dougherty and Babu (1984) which describes unsteady flow in a confined aquifer for a fully or partially penetrating well. The analysis yielded the following:

Transmissivity, $T \approx 2,200 \text{ feet}^2/\text{day}$ ($\approx 16,000 \text{ gpd/ft}$)

Storage coefficient ≈ 0.0001 (dimensionless)

Wellbore skin ≈ 2.5 (dimensionless) (see Figure 1).

Note that the storage coefficient cannot be calculated directly from the pumped well data. It was estimated using a method of successive approximations. However, the combination of skin and storage coefficient result in a non-unique solution, so the best fit was achieved using the judgment of the analyst.

The data suggest virtually no well loss due to turbulent flow (well loss coefficient, $C = 0$), but drawdown in the well and overall well efficiency does appear to be influenced by a positive skin factor. Overall efficiency of the well is approximately 77 percent, which is reasonably good.

FIGURE 1. AQTESOLV solution to Lakeview Well 4R step-drawdown test data.

Constant-discharge Test

A 24-hour duration constant-discharge pumping test was performed May 7 and 8, 2008 under the supervision of AESI. The well was pumped at an average rate of approximately 750 gpm for 24 hours. A good correlation between observed and theoretical drawdown in the well was achieved using values for transmissivity, storage coefficient, and wellbore skin

consistent with those determined from the step test data analysis. The drawdown and recovery data are compared with the theoretical drawdown in the well in Figure 2.

FIGURE 2. AQTESOLV solution to Lakeview Well 4R constant-discharge test data.

Predicted performance of Well 4R.

The long-term performance of Well 4R was estimated using the "forward modeling" capabilities of AQTESOLV. Assumptions include:

Transmissivity, $T \approx 2,200 \text{ feet}^2/\text{day}$ ($\approx 16,000 \text{ gpd/ft}$)

Storage coefficient ≈ 0.0001 (dimensionless)

Wellbore skin ≈ 2.5 (dimensionless)

Borehole diameter = 18 inches

Casing diameter = 12 inches

Furthermore, the well is assumed to pump continuously 24 hours per day and seven days per week for the entire simulation period. In addition, all of the water is assumed to be derived from storage in the aquifer, i.e., no recharge to the aquifer occurs during the simulation period. The results of the simulation are depicted in Figure 3.

FIGURE 3. Predicted drawdown in Lakeview Well 4R.

From Figure 3, it is apparent that if Well 4R is pumped continuously at 750 gpm, approximately 143 feet of drawdown should be anticipated after 90 days. Assuming a static water level of 15 feet below the land surface, the pumping level after 90 days of pumping can be expected to be approximately 158 feet below the land surface. However, water levels in the alluvial aquifer system near Lakeview experience seasonal fluctuations of several 10's of feet. Given that the perforations in Well 4R begin 210 feet below the land surface, the pumping level in the well is not expected to be drawn down below the top of the perforations under normal operating conditions at the recommended rate of 750 gpm. The well might be equipped to pump as high as 800 gpm, which would result in a 90-day pumping level of 167 feet below land surface, but this allows for a smaller margin of error in the analysis. Actual performance of the well may vary because the conditions in most aquifers differ from the idealized aquifer assumed in the analysis.

In summary, we recommend the following:

- Design pumping rate – 750 gpm
- Design pumping level – 158 feet below the land surface.
- Pump setting – approximately 250 to 270 feet below the land surface (within the blank well casing located between 230 and 285 feet below the land surface).

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

CITY OF LAKEVIEW
PO BOX 28
LAKEVIEW OR 97630

Findings of Fact

Background

1. On January 30, 2008, the City of Lakeview filed an application to change the point of appropriation under Certificate 19943. The Department assigned the application number T-10525.
2. On March 9, 2009, the applicant submitted a revised map, identifying a proposed new place of use for transfer.
3. The right to be transferred is as follows:
Certificate: 19943 in the name of CITY OF LAKEVIEW (perfected under Permit U-128)
Use: DOMESTIC, CITY WATER SUPPLY
Priority Date: JUNE 29, 1940
Rate: 1.56 CUBIC FEET PER SECOND
Source: A WELL in the Goose Lake Basin

This final order is subject to judicial review by the Court of Appeals under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482(1). Pursuant to ORS 536.075 and OAR 137-003-0675, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

6. Notice of the application for transfer was published on February 12, 2009, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
7. On March 20, 2009, the Department delivered a copy of the Preliminary Determination proposing to approve Transfer Application T-10525 to the applicant. The Preliminary Determination set forth a deadline of April 28, 2009, for the applicant to respond. On March 23, 2009, the applicant responded and identified a few corrections to the place of use listing in the draft and requested that the Department proceed with issuance of a Preliminary Determination. This document reflects those corrections.
8. On April 15, 2009, the Department issued a Preliminary Determination proposing to approve Transfer Application T-10525 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on April 21, 2009, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.
9. On May 21, 2009 the Department issued a Final Order for the transfer, recorded at Special Order Volume 77, Pages 910 to 914. Subsequent to issuance of the order the Department recognized a scrivener's error in the water right certificate named in the order. The certificate was incorrectly listed in the order as number 19443 rather than 19943.
10. This order is issued to supersede the previous order recorded at Special Order Volume 77, Pages 910 to 914, and to correct the scrivener's error.

Transfer Review Criteria (OAR 690-380-4010)

11. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
12. A pump, pipeline, and delivery system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10525.
13. The proposed change would not result in enlargement of the right.
14. The proposed change would not result in injury to other water rights.

Conclusions of Law

The changes in point of appropriation and place of use proposed in application T-10525 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000 and the scrivener's error in Special Order Volume 77, Pages 910 to 914 should be corrected in the record.

Now, therefore, it is ORDERED:

1. The order entered at Special Order Volume 77, Pages 910 to 914 is withdrawn and of no further force and effect and is superseded by this order.
2. The changes in point of appropriation and place of use proposed in application T-10525 are approved.
3. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 19943 and any related decree.
4. Water right certificate 19943 is cancelled.
5. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
6. The quantity of water diverted at the new point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
7. Prior to diverting water, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain and operate the measuring device as required by the Department.
8. The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2014**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
9. When satisfactory proof of the completed changes is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 13 day of May, 2011.

PHILLIP C. WARD, DIRECTOR

6. Notice of the application for transfer was published on February 12, 2009, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
7. On March 20, 2009, the Department delivered a copy of the Preliminary Determination proposing to approve Transfer Application T-10525 to the applicant. The Preliminary Determination set forth a deadline of April 28, 2009, for the applicant to respond. On March 23, 2009, the applicant responded and identified a few corrections to the place of use listing in the draft and requested that the Department proceed with issuance of a Preliminary Determination. This document reflects those corrections.
8. On April 15, 2009, the Department issued a Preliminary Determination proposing to approve Transfer Application T-10525 and mailed a copy to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on April 21, 2009, pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

Transfer Review Criteria (OAR 690-380-4010)

9. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
10. A pump, pipeline, and delivery system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10525.
11. The proposed change would not result in enlargement of the right.
12. The proposed change would not result in injury to other water rights.

Conclusions of Law

The changes in point of appropriation and place of use proposed in application T-10525 are consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

Now, therefore, it is ORDERED:

1. The changes in point of appropriation and place of use proposed in application T-10525 are approved.
2. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 19443 and any related decree.
3. Water right certificate 19443 is cancelled.

4. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.
5. The quantity of water diverted at the new point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.
6. Prior to diverting water, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain and operate the measuring device as required by the Department.
7. The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2014**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.
8. When satisfactory proof of the completed changes is received, a new certificate confirming the right transferred will be issued.

Dated at Salem, Oregon this 21ST day of May 2009.

MAY BE MADE WITHOUT INJURY WOULD RESULT IN INJURY* to an existing water right.

*The approval of this transfer application would result in injury to other water rights because

The existing right may not be valid because

Headgate notices HAVE HAVE NOT Been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) for diversion between the authorized and proposed points of diversion? (Yes or No) _____

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

_____ (1) PRIOR to the diverting of water at the new point of diversion . . .

_____ (2) WHEN IN the judgement of the watermaster it becomes necessary . . .

FROM: Donn Miller, Hydrogeologist (503.986.0845)

SUBJECT: Review

The transfer proposes to change the POD.

The proposed POD is only about 80 feet from the existing, authorized well and would be of a very similar construction.

There are some domestic wells in the area per the well reports. However, I see very limited potential for injury since the spacing between wells is great and the change is very close to the old well location. Therefore, I conclude that the proposed changes may be made without injury to an existing water right.

Applicant Name: Town of Lakeview

Proposed Changes: ☐ POU ☐ POD ☒ POA ☐ USE ☐ OTHER

Reviewer(s): Brian Mayer

Date of Review: Feb. 22, 2008

1. Do you have information suggesting that the water rights may be subject to forfeiture?
☐ Yes ☒ No If "Yes", describe the information and indicate if you intend to file a cancellation affidavit or if you need additional time to determine if a cancellation affidavit should be filed: _____
2. Is there a history of regulation on the source that serves the right proposed for transfer that has involved the right and downstream water rights? ☐ Yes ☒ No Generally characterize the frequency of any regulation or explain why regulation has not occurred: _____
3. Check here if it appears that downstream water rights benefit from return flows resulting from the current use of the right? ☐ If you check the box, generally characterize the locations where the return flows likely occur and list the water rights that benefit most: _____
4. Are there upstream water rights that would be affected by the proposed change?
☐ Yes ☐ No If "Yes", describe how the rights would be affected and list the rights most affected: _____
5. For POD changes and instream transfers, check here if there are channel losses between the old and new PODs or within the proposed instream reach? ☐ If you check the box, describe and, if possible, estimate the losses: _____
6. Would distribution of water for the right after the proposed change result in regulation of other water rights that would not have occurred if use of the existing right was maximized?
☐ Yes ☐ No If "Yes", explain: _____
7. For POU changes, would the original place of use continue to receive water from the same source? ☐ Yes ☐ No ☐ N/A If "Yes", explain: _____
8. For POU or USE changes, would use of the existing right at "full face value," result in the diversion of more water than can be used beneficially and without waste? ☐ Yes ☐ No
If "Yes", explain: _____
9. Are there other issues not identified through the above questions? ☒ Yes ☐ No If "Yes", explain: Same source as original POA
10. What alternatives may be available for addressing any issues identified above: _____

11. Have headgate notices been issued for the source that serves the right? ☐ Yes ☐ No
12. What water control and measurement conditions should be included in the transfer:

RE: Application Files # T-10525 and T-10526

Dear Mr. Anderson:

Governor Theodore Kulongoski signed SB788 on July 23, 2009, which, in part, raised the fee for many of the Department's water right related processes and created fees for processes not previously requiring fees. The Bill created a fee for the submittal of a Claim of Beneficial Use (Claim). The Department has determined that the Bill did not contain a requirement for a fee to be submitted for transfer Claims; only for Claims for permits having a priority date of July 9, 1987, or later.

The main purpose of this letter is to return the fees submitted with the Claims. In the future, the Department will review the Claims to determine the amount of beneficial use developed within the terms and conditions of the transfer final orders. At that time, additional information may be requested.

Thus, the Department is returning two checks in the amount of \$150.00. Please give Gerry Clark (503-986-0811) a call if you have any questions about this return.

Sincerely,

A handwritten signature in black ink, appearing to read "Gerry Clark", with a long horizontal line extending to the right.

SUBJECT: Water Right Transfer Application T-10525

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-10525. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication simultaneously with issuance of the Preliminary Determination. The notice initiates a 30-day period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

Please do not hesitate to contact me at (503) 986-0890 or Dorothy.I.Pedersen@wrdd.state.or.us if I may be of assistance.

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

CITY OF LAKEVIEW
PO BOX 28
LAKEVIEW OR 97630

Findings of Fact

Background

1. On January 30, 2008, the City of Lakeview filed an application to change the point of appropriation under Certificate 19943. The Department assigned the application number T-10525.
2. On March 9, 2009, the applicant submitted a revised map, identifying a proposed new place of use for transfer.
3. The right to be transferred is as follows:
Certificate: 19943 in the name of CITY OF LAKEVIEW (perfected under Permit U-128)
Use: DOMESTIC, CITY WATER SUPPLY
Priority Date: JUNE 29, 1940
Rate: 1.56 CUBIC FEET PER SECOND
Source: A WELL in the Goose Lake Basin

6. Notice of the application for transfer was published on February 12, 2009, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
7. On March 20, 2009, the Department delivered a copy of the Preliminary Determination proposing to approve Transfer Application T-10525 to the applicant. The Preliminary Determination set forth a deadline of April 28, 2009, for the applicant to respond. On March 23, 2009, the applicant responded and identified a few corrections to the place of use listing in the draft and requested that the Department proceed with issuance of a Preliminary Determination. This document reflects those corrections.

Transfer Review Criteria (OAR 690-380-4010)

8. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
9. A pump, pipeline, and delivery system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10525.
10. The proposed change would not result in enlargement of the right.
11. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The changes in point of appropriation and place of use proposed in application T-10525 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If application T-10525 is approved, the final order will include the following:

1. *The changes in point of appropriation and place of use proposed in application T—10525 are approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 19443 and any related decree.*
3. *Water right certificate 19443 is cancelled.*
4. *Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
5. *The quantity of water diverted at the new point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.*

6. *Prior to diverting water, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain and operate the measuring device as required by the Department.*
7. *The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2014**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
8. *When satisfactory proof of the completed changes is received, a new certificate confirming the right transferred will be issued.*

Dated at Salem, Oregon this 15th day of April 2009.

**Notice of Preliminary Determination for
Water Right Transfer T-10525**

T-10525 filed by CITY OF LAKEVIEW, PO BOX 28, LAKEVIEW OR 97630, proposes a change in point of appropriation and place of use under Certificate 19943. The right allows the use of 1.56 CUBIC FEET PER SECOND (priority date JUNE 29, 1940) from a well in Sec. 16, T 39 S, R 20 E, W.M. (Goose Lake Basin) for domestic, city water supply in Sec. 10 and 15. The applicant proposes to move the point of appropriation approximately 80 feet north in Sec. 16, T39S, R 20E, W.M. and to change the place of use to Sec. 3, 4, 9, 10, 15, 16, 17, 21, and 22, T 39N, R 20E, W.M.. The Water Resources Department has concluded that the proposed transfer appears to be consistent with the requirements of ORS Chapter 540 and OAR 690-380-5000.

Any person may file, jointly or severally, with the Department a protest or standing statement within 30 days after the date of final publication of notice in the Department's weekly notice or of this newspaper notice, whichever is later. A protest form and additional information on filing protests may be obtained by calling (503) 986-0883. The last date of newspaper publication is [DATE OF LAST PUBLICATION]. If no protests are filed, the Department will issue a final order consistent with the preliminary determination.

RE: Town of Lakeview Well # 4 Application T-10525

Dear Sir/Madam:

Please find enclosed a new map for the place of use for Transfer Application T-10525. We would like this new point of appropriation to match the Town of Lakeview's service area. The enclosed map shows all of the service area that needs to be included in the new place of use.

Also enclosed is a check for \$400.00 for the fee for enlarging the place of use.

Sincerely,

Darryl Anderson

SUBJECT: Application T-10525

Enclosed find a draft of our Preliminary Determination regarding transfer application T-10525. The document reflects the Department's conclusion that, based on the information currently available, the transfer will be approved. This draft is intended to provide you with an opportunity to comment on our findings and conclusions should you wish to do so. Please review the draft carefully to evaluate whether the document is consistent with your intent in seeking the transfer, and whether you agree with the proposed action.

Issuance of the Preliminary Determination will occur shortly after we receive your written response. If we do not receive your response by April 28, 2009, a Preliminary Determination may be issued denying the application as incomplete.

Please do not hesitate to contact me at if I may be of assistance.

Subject: RE: transfer 10525

Hi Vern,

Is the city requesting a re-classification of the use? If not, I think we're better off being silent about the character of use and just dealing with the change in POU and POA. If they are requesting the character of use to become municipal, we would have to research the processing and proving up of the original application/permit/certificate to see whether in fact they have always used the right for "all usual and ordinary municipal purposes", or whether in deed it is a change in character of use that they are proposing. Then we'll know whether to do a usual character of use change (for a fee) or to get creative with clarifying the name of the use.

Dorothy, would you look at findings of fact number 7? What do you think, am i on thin ice and need a character of use or can i go with something like this?

PRELIMINARY DETERMINATION
PROPOSING APPROVAL OF A
CHANGE IN POINT OF
APPROPRIATION, AND PLACE OF
USE

Authority

ORS 537.705 and 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of appropriation, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

CITY OF LAKEVIEW
PO BOX 28
LAKEVIEW OR 97630

Findings of Fact

Background

1. On January 30, 2008, City Of Lakeview filed an application to change the point of appropriation under Certificate 19943. The Department assigned the application number T-10525.
2. On March 9, 2009, the applicant submitted a revised map, identifying new place of use for transfer.
3. The right to be transferred is as follows:
Certificate: 19943 in the name of CITY OF LAKEVIEW (perfected under Permit U-128)
Use: DOMESTIC, city water supply
Priority Date: JUNE 29, 1940
Rate: 1.56 CUBIC FEET PER SECOND
Source: A WELL in the Goose Lake Basin

6. Notice of the application for transfer was published on February 12, 2009, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.

Transfer Review Criteria (OAR 690-380-4010)

7. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of Application T-10525.
9. The proposed change would not result in enlargement of the right.
10. The proposed change would not result in injury to other water rights.

Determination and Proposed Action

The change in point of appropriation proposed in application T-10525 appear to be consistent with the requirements of ORS 537.705 and 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the application will be approved.

If application T-10525 is approved, the final order will include the following:

- 1. The change in point of appropriation proposed in application T-10525 are approved.*
- 2. Water right certificate 19443 is cancelled.*
- 3. The right to the use of the water is restricted to beneficial use at the place of use described, and is subject to all other conditions and limitations contained in Certificate 19443 and any related decree.*
- 4. Water shall be acquired from the same aquifer (water source) as the original point of appropriation.*
- 5. The quantity of water diverted at the new point of appropriation, shall not exceed the quantity of water lawfully available at the original point of appropriation.*
- 6. Prior to diverting water, the water user shall install an in-line flow meter or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department. The water user shall maintain and operate the measuring device as required by the Department.*
- 7. The approved changes shall be completed and full beneficial use of the water shall be made on or before **October 1, 2010**. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
- 8. When satisfactory proof of the completed changes is received, a new certificate confirming the right transferred will be issued.*

Reference: Transfer 10525

On January 30, 2008 we received your water right transfer application. The application was accompanied by \$400.00. Our receipt 91341 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the change.

Your application will be examined to determine if additional information is needed. You will be contacted following this examination.

Except as provided under ORS 540.510(3) for municipalities, you may not use water for the new use, in the new place of use or from the new point of diversion until the transfer application has been approved. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right. If the land is sold before the transfer is approved, the buyer's consent to the transfer will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

We will notify you if additional information or corrections to the application or map are required.

If you have any questions, please call the Transfer Section, (503)986-0883.

Before submitting your application to the Department, be sure you have:

- Answered each question completely.
- Included all the required attachments.
- Provided original signatures for all named deed holders, or other parties, with an interest in the water right.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

12. SIGNATURES

- Check one of the following, as appropriate, and sign the application in the signature box below:

- ☐ In accordance with OAR 690-380-3000(13)(a), I (we) understand that prior to Department approval of a permanent transfer and upon my receipt of a draft Preliminary Determination for the proposed transfer, I (we) will be required [pursuant to OAR 690-380-4010(5)] to provide the following landownership information and evidence demonstrating that I (we) are authorized to pursue the transfer:
- (a) A report of ownership and lien information that has been prepared by a title company *within the last three months*;
- (b) A copy of written notification of the proposed transfer provided by the applicant to all lien holders on the subject lands unless the report of ownership and lien information shows that a water right conveyance agreement has been recorded for the subject lands. *If a water right conveyance agreement has been recorded for the subject lands, a copy of the agreement and identification of the owner of the lands at the time the agreement was recorded must be submitted; and*
- (c) If the landowner identified in the report of ownership and lien information is not the applicant, a notarized statement consenting to the transfer (*attached*) signed by the landowner identified in the report or an authorized representative of the entity to whom the interest in the water right has been conveyed as identified in a water right conveyance agreement or other documentation demonstrating that the applicant is authorized to pursue the transfer in the absence of the consent of the landowner.
- ☐ I (we) affirm that interest in the water right has been conveyed to someone other than the landowner, and documents, including a water right conveyance agreement, report of ownership and lien information, and any required lienholder notification are enclosed, demonstrating that I am (we are) authorized to pursue the transfer. I (we) understand that we may be required to provide additional information upon receipt of the draft Preliminary Determination.
- ☒ I (we) affirm that the applicant is a municipality, as defined in ORS 540.510(3)(b), and that the right is in the name of the municipality or a predecessor. Therefore, pursuant to OAR 690-380-3000(13)(b), the applicant is NOT required to provide the above described report of ownership and lien information.
- ☐ I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the water right proposed for transfer is appurtenant by condemnation. Documentation is provided with this application supporting this statement. Therefore, pursuant to OAR 690-380-3000(13)(c), the applicant is NOT required to provide the above described report of ownership and lien information. (*NOTE: Such an entity may only apply for a transfer under this subsection if it has filed a condemnation action to acquire the property.*)
- ☐ I (we) affirm that this is a temporary transfer and a copy of the deed for the "from" land (and affidavits of consent from any other landowners, if applicable) is enclosed.

- I (we) affirm that the information contained in this application is true and accurate.
