Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

JK LINDBLOOM REVOCABLE TRUST (JUSTIN LINDBLOOM)
314 BURKHART RAPIDS LN
ROSEBURG, OR 97471

Findings of Fact

1. On October 16, 2020, JK LINDBLOOM REVOCABLE TRUST filed a transfer application for authorization of an additional point of diversion under Certificate 22201. The Department assigned the application number T-13537.
2. Notice of the application for transfer was published on October 27, 2020, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On February 10, 2022, the Department notified the applicant by email of a deficiency in the application, specifically table 2 of the application, the application map and the evidence of use affidavit described acres incorrectly in the NW SW quarter-quarter.
4. On February 14, 2022, the Department received an amended table 2, an amended application map and an amended evidence of use affidavit, satisfying the deficiency.
5. On April 4, 2022, the applicant requested by email that transfer application T-13537 be withdrawn.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Now, therefore, it is ORDERED:

Thank you for your email and for sending the amended forms to me so quickly. Will you be sending me the hard copy of the evidence of use once it is notarized. I need it for the file. It is not a critical emergency, but I will need to receive the hard copy of the notarized form before the final order is sent out to Mr. Lindbloom. REFERENCE: Water Right Transfer Application T-13537

The Department has conducted an initial review of this water right transfer application. The following item will need to be clarified before we can continue processing the application:

1. Transfer Application T-13537 is proposing a new point of diversion, however the acres listed in Table 2 of the application, on the application map and on the evidence of use

affidavit are described incorrectly in the NW SW quarter-quarter. Certificate 22201 authorizes 7.6 total acres in the NW SW quarter-quarter; however, the application, map and evidence of use affidavit describe a total of 9.85 acres proposed by the transfer. Because the certificate only authorizes 7.6 acres in the NW SW quarter-quarter, the application, application map and evidence of use affidavit are all incorrect and are considered to be an enlargement of the right as proposed. An amended Table 2, Application Map and Evidence of Use affidavit, all accurately describing the number of acres in the NW SW quarter-quarter will need to be submitted to the Department.

Please provide the above requested information for the change proposed to take place under this transfer application. **If the Department does not receive the above requested materials by March 10, 2022, a Preliminary Determination will be issued denying the application as incomplete.**

Please do not hesitate to contact me at arla.l.davis@water.oregon.gov, if I may be of assistance.

Reference: Application T-13537

On October 16, 2020, we received your water right Transfer application. The application was accompanied by \$1160.00. Our receipt number 133671 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change. A review form will also be sent to Oregon Department of Fish and Wildlife to determine if a fish screen is needed.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water from the new point of diversion until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0815.
