

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	PROPOSED FINAL ORDER APPROVING A
T-13000, Baker County	)	CHANGE IN PLACE OF USE AND A
	)	CHANGE IN CHARACTER OF USE

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

CARNEY AND DEBRA LANSFORD FAMILY TRUST
PO BOX 474
BAKER CITY, OR 97814

Findings of Fact

1. On August 6, 2018, Carney and Debra Lansford Family Trust filed an application to change the place of use and to change the character of use under Certificate 89153. The Department assigned the application number T-13000.
2. Notice of the application for transfer was published on August 14, 2018, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On November 5, 2018, the applicant submitted an amended transfer application and map changing the character of use portion of the application from storage to wetland enhancement.
4. On September 29, 2025, the Department determined that the change in place of use and character of use of the 5.2 acres for wetland enhancement will be located in a wetland designated by the National Wetlands Inventory as a Palustrine, Unconsolidated Bottom, Permanently Flooded (PUBH) area.
5. On November 14, 2025, the Department conducted a site visit of the property to detail the size and beneficial use of the wetland area. The Department determined the full volume (see Finding of Fact No. 9) could be used beneficially without waste within the footprint of the approximate 0.85 acre area of wetland management.

6. On November 20, 2025, the Department sent a copy of the revised draft Preliminary Determination (further referred to as Initial Review) to the applicant, proposing to approve Transfer Application T-13000. The Initial Review cover letter provided a deadline of December 20, 2025, for the applicant to respond and submit the required information. The applicant requested that the Department proceed with issuance of a Preliminary Determination (further referred to as Proposed Final Order) and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.
7. The portion of the right to be transferred is as follows:

Certificate: 89153 in the name of DONALD D. CROMPTON (confirmed by Powder River, Consolidated Decree)

Use: IRRIGATION of 15.5 ACRES

Priority Date: 1890

Limit/Duty: The amount of water to which such right is entitled, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 1/40th of one cubic foot per second per acre, and shall be subject to all other conditions and limitations contained in said decree.

Authorized Place of Use:

8. Transfer Application T-13000 proposes to change the place of use of the right to:

8 S	39 E	WM	30	SE NE	10.3

WETLAND ENHANCEMENT				
Twp	Rng	Mer	Sec	Q-Q
8 S	39 E	WM	30	SE NE

9. Transfer Application T-13000 proposes to change the character of use for 5.2 acres of the original right to wetland enhancement. The District 8 Watermaster determined that 3.0 acre feet per acre would be appropriate. Therefore, the wetland enhancement component of the water right would be limited to 0.13 cfs to be diverted ($5.2 \text{ acres} \div 1/40$) and 15.6 AF ($5.2 \text{ acres} \times 3.0 \text{ AF} = 15.6 \text{ AF}$).

10. Water is proposed to be diverted for wetland enhancement during the irrigation season and remain in the enhancement area year-round. The PUBH wetland enhancement area will be located in an approximate footprint of 0.85 acre:

Transfer Review Criteria [OAR 690-380-0100(14), OAR 690-380-4010(2), OAR 690-380-2200, and OAR 690-380-2300]

11. Water has been used within the five-year period prior to submittal of Transfer Application T-13000 according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.
12. A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-13000.
13. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
14. The proposed changes, as conditioned, would not result in enlargement of the right.
15. The proposed changes, as conditioned, would not result in injury to other existing water rights.
16. All other application requirements are met.

Determination and Proposed Action

The change in place of use and change in character of use proposed in Transfer Application T-13000 appear to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-13000 is approved, the final order will include the following:

- 1. The change in place of use and change in character of use proposed in Transfer Application T-13000 are approved.*
- 2. The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 89153 and any related decree.*
- 3. Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new place of use.*

4. *Water right Certificate 89153 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer.*
5. *The change in character of use from irrigation to the proposed wetland enhancement shall be limited such that the wetland enhancement component of the water right is limited to 0.13 cfs to be diverted ($5.2 \text{ acres} \div 1/40$), and 15.6 AF ($5.2 \text{ acres} \times 3.0 \text{ AF} = 15.6 \text{ AF}$). Further, the water shall be diverted during the irrigation season, and remain on the approximate 0.85-acre footprint of wetland enhancement area year-round.*
6. *The former place of use of the transferred right shall no longer receive water under the right.*
7. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2027**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the changes and full beneficial use of the water.*
8. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

SUBJECT: Water Right Transfer Application T-13000

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-13000. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the Baker City Herald newspaper, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

The Proposed Final Order will become a Final Order 33 days after the protest period ends without any further action by the Department, as a matter of law, if no protest is filed.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please don't hesitate to contact me at (971 304-5006 or Dante.J.Luongo@water.oregon.gov, if I may be of assistance.
