DETERMINATION OF SATISFACTORY
PROOF OF COMPLETION FOR A
PERMANENT DISTRICT TRANSFER

Authority

Oregon Administrative Rule (OAR) 690-385-7400 describes the documentation the district must file with the Department in order to provide proof of use.

OAR 690-385-7600 provides in pertinent part that satisfactory proof shall be (a) a determination by the Department that application of water to beneficial use under the terms of the transfer final order was completed to the extent authorized, or (b) a determination by the Department that the application of water to a beneficial use under the terms of the transfer final order was completed to an extent less than authorized.

Oregon Revised Statute (ORS) 540.530(2)(a) and OAR 690-385-7600 authorize the Department to issue or modify a certificate of water right upon satisfactory proof of completion of the change or changes authorized by a final order approving a permanent district transfer.

Applicant

OCHOCO IRRIGATION DISTRICT
1001 NW DEER ST,
PRINEVILLE, OREGON 97754

Findings of Fact

1. On December 29, 2020, the Department signed a final order, which was mailed on December 31, 2020, and recorded in Special Order Volume 118, Pages 254-259, approving Transfer Application T-13522 involving Certificates 82246, 82247 and 82249. The final order established October 1, 2022, as the date for completion of the authorized changes in place of use.
2. On August 18, 2022, the Department received a Claim of Beneficial Use (CBU) and associated maps from the applicant for Transfer Application T-13522 satisfying the requirements for providing proof of use under OAR 690-385-7400.

NOTICE OF RIGHT TO PETITION FOR RECONSIDERATION OR JUDICIAL REVIEW

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.482. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.482. Pursuant to ORS 183.482, ORS 536.075 and OAR 137-003-0675, you may petition for judicial review and petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

3. The Department reviewed the CBU and maps submitted by the applicant for Transfer Application T-13522.
4. The CBU did not contain a map of the point of diversion from the source. However, since the transfer involved the transfer of places of use only within an irrigation district and did not involve a change in the point of diversion, the existing maps on file with the Department are sufficient to identify the point of diversion from the source.
5. The proposed place of use for Certificate 82246 as approved the final order for Transfer Application T-13522, and as recorded in Special Order Volume 118, Pages 254-259 is shown in Table 1, below:

8. Based on the review of evidence submitted by the applicant, the Department finds that the application of water to beneficial use under the terms of the transfer final order for T-13522 was completed to the extent authorized in the transfer as described in Tables 1, 2 and 3.

Conclusions of Law

1. The Applicant has submitted proof of use pursuant to OAR 690-385-7400.
2. Application of water to a beneficial use under the terms of the transfer final order has been made to the extent shown in Tables 1, 2, and 3, above.
3. The applicant has demonstrated proof of completion under T-13522 to the satisfaction of the Department.
4. The Department is authorized to issue or modify certificates of water rights involved in transfer T-13522 consistent with this determination of satisfactory proof of completion.

Now, therefore, it is ORDERED:

Water right Certificates 82246, 82247 and 82249 are modified as shown in Tables 1, 2 and 3, above. The Department will issue superseding certificates describing these rights when it determines it is necessary for record keeping.

SECTION 14

TOWNSHIP 15 SOUTH, RANGE 14 EAST, W.M.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

The works constructed shall be in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon, and shall include air lines and pressure gauges or access ports for measurement adequate to determine water level elevation in the well at all times. Subsequent maintenance of wells shall also be in accordance with the General Standards for the Construction and Maintenance of Water Wells in Oregon.

The user shall maintain measuring devices suitable to the Water Resources Department, and shall keep a complete record of the amount of groundwater withdrawn.

The use of water allowed herein may be made only at a time when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows. This use may be regulated if analysis of data available discloses that the appropriation will measurably reduce the surface water flows necessary to maintain the free-flowing character of a scenic waterway in quantities necessary for recreation, fish and wildlife in effect as of the priority date of this right or as those quantities may be subsequently reduced.

This certificate describes that portion of the water right confirmed by Certificate 79681, State Record of Water Right Certificates, NOT modified by the provisions of six orders of the Water Resources Director entered JUL 26 2004, approving Transfer Applications 9293, 9333, 9341, 9342, 9344, and 9404.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed July 26, 2004.

Recorded in State Record of Water Right Certificates numbered 80689.

Affidavit of Voluntary Cancellation or Diminution of a Water Right Certificate

VOLUNTARY CANCELLATION is how the legal holder(s) of a water right certificate may cancel an abandoned water right or an abandoned portion of a water right. Abandonment means water use has or will have ceased under the cancellation. A cancellation can apply to an entire certificate or to a specific place of use and acreage. The rate of water must be proportionately cancelled to match the portion of the right being cancelled. If a certificate is partially cancelled, a remaining water right certificate will be issued describing the uncanceled portion.

[see also Oregon Revised Statute (ORS) 540.621 and Administrative Rule (OAR) 690-017-0100.]

VOLUNTARY DIMINUTION is how the legal holder(s) of a water right certificate may diminish an entire water right or a portion of it from a primary purpose to a supplemental purpose. The overall authorized rate of water on the certificate will remain the same, but the proportions between primary use and supplemental use will change. In the diminution process, the originating water right will be cancelled, and a new water right will be issued describing the diminution. [see also Oregon Administrative Rule (OAR) 690-330-0040.]

Describe in your own words what you want to accomplish with this affidavit: I want to utilize district irrigation water rights, and would like to cancel 5.0 acres of groundwater rights so they will not be layered.

OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	FINAL ORDER APPROVING
T-13522, Crook County	)	A DISTRICT PERMANENT TRANSFER FOR
	)	PLACE OF USE

Authority

Oregon Revised Statutes (ORS) 540.570 through 540.580 establish the process in which a district may submit a request to transfer a water right within district boundaries. Oregon Administrative Rule (OAR) Chapter 690, Division 385 implements the statutes and provides the Department's procedures and criteria for evaluating district transfer applications.

Applicant

OCHOCO IRRIGATION DISTRICT
1001 NW DEER STREET
PRINEVILLE, OR 97754

Findings of Fact

1. On September 16, 2020, OCHOCO Irrigation District (OID) filed a district transfer application to permanently change the place of use under Certificates 82246, 82247 and 82249. The Department assigned the application number T-13522.
2. On September 21, 2020, OID amended their application by new submitting tables and maps, thereby adding an additional 13.4 acres to the transfer request.
3. On October 2, and 7, 2020, OID submitted revised tables and two revised maps to correct scrivener's errors.

Checklist for District Transfer Intake – Division 385

Permanent or Non-Use district transfers are for POU *ONLY*.

Temporary district transfers can include changes in POD/POA (to facilitate a change in POU) and are limited to a single year.

Please assure a “Supplemental Form A” is included for each water right involved, and that all required attachments are completed and included.

Note: Generally speaking, we prefer not to return district applications for deficiencies; if it is questionable, please check with the District Transfer Program advisor before returning the application.

- ☐ Identify the type of district transfer application. (Note: a “District Notice” **is not** an application, but at the after the end of the irrigation season, District Permanent Applications may include copies of prior District Notices.)

Sometimes districts inadvertently use parts of two different types of transfer forms when filing. If not sure if a district is submitting a Transfer Notice or a District Transfer, or if not sure if a district is submitting a District Temporary or District Permanent Transfer, or not sure if a district is submitting a regular transfer or a District Transfer, **please contact Ann or Joan.**

- ☒ Is the use proposed for transfer irrigation or supp'l irrigation? **If not please contact Ann or Joan.**

These items need to be included in the district transfer application:

- ☒ Transfer Application communicating rights affected and includes signature.
- ☒ POU listing – both “authorized/from” and “proposed/to”. Multiple formats accepted.
- ☒ POD/POA listing – if temporary – both “authorized/from” and proposed/to” *ON/OFF* ✓
- ☒ Land Use Information Form – Not required if (a) for place of use change only (b) existing and proposed water use is located entirely w/in EFU or w/in an irrigation district (c) The change does not involve the placement or modification of structures, including but no limited to water diversions, impoundments, distribution facilities , water wells and well houses and (d) application involves irrigation water uses **ONLY**.
- ☒ Maps – – both “authorized/from” and “proposed/to” (From and to can be on same map.)
NOTE- districts are authorized to submit the maps in multiple digital formats and often submit maps via email. If maps are not submitted, please contact Ann or Joan.
- ☒ Appropriate Fees
