Cert. No. [redacted]

CERTIFICATE OF WATER RIGHT

This Is to Certify, *That* G. H. HARRELL

of Route 2, Box 1415, Roseburg *, State of* Oregon 97470 *, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of* North Umpqua River

a tributary of Umpqua River *for the purpose of* irrigation of ~~123.64~~ 115.34 ~~117.14~~ acres

under Permit No. 28837 *and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from* May 13, 1963

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed ~~1.543~~ 1.44 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SW¼ SE¼, as projected within McKinney DLC 45, Section 14, T26S, R6W, WM; 2,550 feet South and 2,620 feet West from E¼ Corner, Section 14.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth *of one cubic foot per second per acre,* or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2½ acre-feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right to the use of water is limited to the period when the flow of the North Umpqua River is 525 cfs at its mouth,

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application T-5259, Douglas County	)))	FINAL ORDER CORRECTING SCRIVENER'S ERRORS IN PLACE OF USE

Applicant

Robert and Dolores Smith
1707 Del Rio Rd.
Roseburg, OR 97471

Findings of Fact

1. On January 23, 2009, the Department issued an order approving the re-description of the place of use associated with Transfer Application T-5259. This order is recorded in Special Order Volume 77 Pages 139-147 and resulted in the issuance of Certificate 85120.

2. Certificate 85120 listed the place of use as follows:

IRRIGATION					
Twp	**Rng**	**Mer**	**Sec**	**Q-Q**	**Acres**
26 S	6 W	WM	14	SW SE	1.62
26 S	6 W	WM	14	SE SE	1.30
26 S	6 W	WM	14	NE NE	2.00
26 S	6 W	WM	14	NW NE	1.70

3. The correct description of the authorized place of use for Certificate 85120 is as follows:

IRRIGATION					
Twp	**Rng**	**Mer**	**Sec**	**Q-Q**	**Acres**
26 S	6 W	WM	14	SW SE	1.62
26 S	6 W	WM	14	SE SE	1.30
26 S	6 W	WM	**23**	NE NE	2.00
26 S	6 W	WM	**23**	NW NE	1.70

Now, therefore, it is ORDERED:

1. Certificate 85120 is cancelled.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

2. Certificate 85394 is issued to supersede Certificate 85120 and to correctly describe the authorized place of use associated with Transfer Application T-5259 entered January 23, 2009, recorded in Special Order Volume 77, Pages 139-147.

3. The order recorded in Special Order Volume 77, Pages 139-147 is corrected to identify the authorized place of use as described in Finding of Fact #3.

4. All other provisions of the order are unchanged.

Dated at Salem, Oregon this 24th day of February, 2009.

William E Ferber

for Phillip C. Ward, Director

Mailing date: MAR 05 2009

STATE OF OREGON

COUNTY OF DOUGLAS

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROBERT AND DOLORES SMITH
1707 DEL RIO RD.
ROSEBURG, OR 97471

confirms the right to use the waters of NORTH UMPQUA RIVER, tributary to the UMPQUA RIVER, for IRRIGATION of 6.62 ACRES.

This right was perfected under Permit S-28837. The date of priority is MAY 13, 1963. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.076 CUBIC FOOT PER SECOND, (cfs)or its equivalent in case of rotation, measured at the point of diversion from the stream.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	McKinney DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year provided further that the right to the use of water is limited to the period when the flow of the North Umpqua River is 525 cfs at its mouth. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer. The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

A description of the place of use to which this right is appurtenant is as follows:

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
26 S	6 W	WM	23	NE NE	2.00
26 S	6 W	WM	23	NW NE	1.70
26 S	6 W	WM	14	SW SE	1.62
26 S	6 W	WM	14	SE SE	1.30

This certificate is issued to correctly identify the authorized place of use and supersedes Certificate 85120. This certificate also incorporates the re-description of this right as authorized by an order of the Water Resources Director entered January 23, 2009, at Special Order Volume 77, Pages 139-147.

WITNESS the signature of the Water Resources Director, affixed FEB 2 4 2009.

William E Farber

for Phillip C. Ward, Director

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application T-5259, Douglas County	))	FINAL ORDER REVERTING A POINT OF DIVERSION

Applicant

Robert and Delores Smith
1707 Del Rio Rd.
Roseburg, OR 97471

Findings of Fact

1. On May 2, 1983, G. H. Brey filed an application to change the point of diversion under a portion of Certificate 51279. The Department assigned the application number T-5259.

2. On July 20, 1983, the Water Resources Department issued an order approving T-5259. This order was recorded in the Special Order Volume 37, Pages 390 - 391.

3. On September 30, 2008, the Water Resources Department assigned the application from G. H. Brey to Robert L. and Dolores M. Smith.

4. A letter dated September 25, 2008, Robert and Dolores Smith notified the Department that the change authorized through approval of Transfer Application T-5259 would not be completed and requested that the authorized point of diversion revert back to the original point of diversion described in the following table:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	McKinney DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

5. Pursuant to OAR 690-380-6010, if the change in point of diversion is not completed, the point of diversion shall revert to the last authorized point of diversion prior to the transfer.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

Now, therefore, it is ORDERED:

The point of diversion for a portion of the right affected by Transfer Application T-5259 is reverted to the last authorized point of diversion prior to the transfer. A superseding certificate for the portion of the right affected by the transfer shall be issued.

Dated at Salem, Oregon this 23rd day of January, 2009.

SUBJECT: Transfer Application T-5259

Dear Mr. and Mrs. Smith,

Enclosed you will find a certificate that describes the water right appurtenant to your property near Del Rio Road in Douglas County.

As previously discussed, the Department has issued a certificate that reverts your point of diversion to the previously authorized location consistent with OAR 690-380-6010. This certificate also documents the re-description that will resolve the long outstanding corrections to water rights in and around your neighborhood. The certificate (#85120) is enclosed as is a copy of the Final Order wherein the re-description of the water rights is more fully explained.

Also, as we've discussed, the issuance of this certificate allows a request for an instream lease to be processed. Please feel free to contact Kody Thurgood (503-986-0892) or your Watermaster, Dave Williams (541-440-4255) about the leasing program.

Sincerely,

Susan Douthit
Water Right Transfer Specialist

enc

Del Rio

cc- Dave Williams, Watermaster District #15

T-5259

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application T-7683, Douglas County	)	FINAL ORDER APPROVING A CHANGE IN POINT OF DIVERSION AND RE-DESCRIPTION OF PLACES OF USE UNDER TRANSFER APPLICATION T-5259 and CERTIFICATES 56466, 55438, 60003, 81736, 44370, 64851 and 57553

Authority

ORS 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

Dave Russel
1800 Del Rio Road
Roseburg, OR 97470

Findings of Fact

Background

1. On January 10, 1997, Dave Russel filed an application to change the point of diversion under Certificate 57553 (perfected under Permit S-28837.) The Department assigned the application number T-7683.

2. On May 13, 1963, W. S. Barnes, a registered professional engineer, performed a survey of the water uses from the North Umpqua for the property owned by G. H. Harrell. The 1963 survey identified the general layout of the lands irrigated and described the place of use in relation to Township, Range, Section and Quarter-Quarter lines for the purpose of water right application S-38746 (Permit S-28837).

3. Following development of beneficial use of water under the permit, the Department performed a plane table survey for Permit S-28837 on July 12, 1967 and prepared a Final

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may either petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

Proof map concurrent with issuance of Certificate 35309. The Final Proof map confirmed the general shape of the place of use but described it somewhat differently in relation to Section quarter-quarter and Donation Land Claim (DLC) lines within each quarter-quarter and DLC from the way it was described in Application S-37446 map and Permit S-28837.

4. Subsequent to the Final Proof survey (1967), numerous modifications (transfers and cancellations) to the right were processed as the Del Rio subdivision was developed, resulting in the issuance of Certificate 57553. Transfer Application T-7683 requested further modification to Certificate 57553.

5. In 1993, the Department undertook an investigation of how the 1967 survey and the pending transfer application maps overlaid one another. The analysis showed that the location of the section line between sections 14 and 23 was not consistent between the 1967 survey and other maps due to a rotational error in the 1967 plane table survey; though the footprint of the place of use remains the same.

6. The Department determined that a re-description of the place of use for the entirety of the place of use originally evidenced by Certificate 35309 was needed and prepared a revised map and comparison table of acreage within each section and quarter-quarter.

Twp	Rng	Mer	Sec	Q-Q	Acres based on 1967 survey	Acres based on 1993 investigation
26 S	6 W	WM	14	SW NE	10.0	10.1
26 S	6 W	WM	14	SE NW	1.2	1.1
26 S	6 W	WM	14	NE SW	1.2	1
26 S	6 W	WM	14	SW SW	0.1	0
26 S	6 W	WM	14	SE SW	15.4	15.4
26 S	6 W	WM	14	NE SE	19.4	19.9
26 S	6 W	WM	14	NW SE	17.4	16.8
26 S	6 W	WM	14	SW SE	30.4	25.88
26 S	6 W	WM	14	SE SE	22.3	24.4
26 S	6 W	WM	23	NE NE	1.6	2
26 S	6 W	WM	23	NW NE	15.0	13.3
26 S	6 W	WM	23	NE NW	0.3	1.20
				Total acres:	**134.3**	**134.3**

7. Since the issuance of Certificate 35309 numerous modifications (transfers and cancellations) to this water right occurred, each affecting a portion of the original place of use of the right. This necessitates the need to re-describe the place of use in some of the resulting documents that are not consistent with the 1993 investigation. Transfer Application T-5259,Certificates

56466, 55438, 60003, 81736, 44370, 64851 and 57553 need re-description as further outlined in the tables below:

*This entry includes 0.9 acre that has been cancelled (but erroneously documented) as further described in Finding of Fact #8.

8. On January 25, 1984, an order cancelling 0.9 acre in the NESE, Section 14, T26S 6W, WM, was issued and recorded in Special Order Volume 38, Page 114. However, the resulting document did not reduce the total acres in this quarter-quarter by the above referenced cancellation order. Additionally, all subsequent documents repeated this error which should have been corrected when a superseding certificate was issued.

9. Both the survey and the additional evidence describe the same irrigated land. The differences between the two descriptions result from different bases of bearing and reference points used. The 1993 retracements performed by both the Department and CWRE #80 were based on reference points established or re-established by government land surveyors instead of a retracement of the original survey made by the Department Final Proof survey in 1967 upon which the water right certificate was based. The actual location of the place of use, as found on the ground, remains the same.

10. The portion of the right (as authorized) proposed to be transferred under T-7683 is as follows:

    Certificate: 57553 in the name of G. H. HARRELL (perfected under Permit S-28837)
    Use: IRRIGATION of 1.70 ACRES
    Priority Date: MAY 13, 1963

Rate: 0.02 CUBIC FOOT PER SECOND (cfs)
Limit/Duty: ONE-EIGHTIETH cfs per acre, not to exceed 2.5 acre-feet per acre during the irrigation season, provided further that right to the use of water is limited to the period when the flow of the North Umpqua River is more than 525 cfs at its mouth.
Source: NORTH UMPQUA RIVER, tributary to UMPQUA RIVER

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	DLC	Survey Coordinates
26 S	6 W	WM	14	SW SE	45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
26 S	6 W	WM	14	SW SE		0.15
26 S	6 W	WM	23	NW NE	45	1.55

11. Transfer Application T-7683 proposes to move the authorized point of diversion approximately 360 feet upstream to:

Twp	Rng	Mer	Sec	Q-Q	Lot	DLC	Survey Coordinates
26 S	6 W	WM	23	NW NE	14	45	600 FEET SOUTH AND 300 FEET EAST FROM THE N¼ CORNER OF SECTION 23

12. During the processing of Transfer Application T-7683 it became apparent that the portion of the water right proposed to be modified did not "match" the existing water right map nor the 1993 revised map. The original transfer map showed the footprint of this portion of the water extending down to the water's edge and shows a total of 1.70 acres of water right within the parcel to be affected by this transfer. The 1967 and 1993 Department's water right maps indicate the water right place of use does not extend down to the water's edge.

13. The following table provides a comparison of the description of the portion of the authorized place of use for Certificate 57553 to be affected by Transfer Application T-7683 and a re-description based on other evidence collected by the Department (including assessor's information, Del Rio Ranch Estates Subdivision PLAT, aerial photographs and information from Janet Lundeen, CWRE #80).

Certificate 57553 Place of Use involved in T-7683	
T-7683 Transfer Map	*Revised* proposed re-description
SW SE 0.15 acre Section 14 NW NE 1.55 acres Section 23 Township 26 South, Range 6 West, W.M.	SW SE 0.13 acre Section 14 NW NE 1.26 acres Section 23 Township 26 South, Range 6 West, W.M.
TOTAL = 1.70 acres	**TOTAL** = 1.39 acres

14. Notice of the application for transfer was published on January 21, 1997, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.

15. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

16. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

17. The proposed change would not result in enlargement of the right.

18. An instream water right, Certificate 59939, exists for the reach of the river in which the authorized point of diversion would be moved upstream, and streamflows within the reach are frequently below the levels allocated under the instream water right. Thus, the instream water right would be injured as a result of the proposed change in point of diversion.

19. On April 26, 2007, the Department mailed a copy of the *draft* Preliminary Determination proposing to deny Transfer Application T-7683 to the applicant. The cover letter that accompanied the *draft* Preliminary Determination set forth a deadline of May 27, 2007, in which the applicant could respond.

20. On May 18, 2007, the applicant requested that the Department seek a recommendation from ODFW as to whether the Department should consent to injury of the instream water right pursuant to OAR 690-380-4030.

21. On June 20, 2007, the Department issued a Preliminary Determination proposing to deny Transfer Application T-7683 unless ODFW recommended the Department to consent to the injury due to a net benefit that would result from the proposed change. A copy of the Preliminary Determination was mailed to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on June 26, 2007 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

22. The cover letter that accompanied the Preliminary Determination informed the applicant of the Department's intent to initiate the consent to injury process by seeking a recommendation from ODFW.

23. On June 20, 2007, the Department sent a letter to ODFW requesting a recommendation as to whether the Department should consent to injury of the instream water right (Certificate 59939).

24. On April 9, 2008, ODFW recommended that the Department consent to injury of the instream water right Certificate 59939 because the proposed change would result in a net benefit to the resource. The recommendation concluded that:

a) The movement of the point of diversion to the North Umpqua River, where habitat is a bedrock shelf, is likely better than maintaining the point of diversion at the mouth of Sutherlin Creek, where a deep backwater hole provides better juvenile rearing and adult holding habitat for resident fish.

b) The applicant will limit water use to an average of one-inch-per-week during the irrigation season of each year, adjusted using the Eugene Water and Electric Board's (or other appropriate entity's) evapotranspiration information to compensate for more or less available soil moisture.

c) Native riparian habitat must be maintained and enhanced along the property boundary with the North Umpqua River.

25. Subsequent to the receipt of ODFW's recommendation, the Department noted that some of the information provided to ODFW in the initial request for a recommendation was erroneous. This necessitated another analysis by ODFW of the injury to instream water right Certificate 59939.

26. The initial proposal involved a total of 1.70 acres of irrigation. The amended information reflects a reduction of 0.31 acre leaving 1.39 acres (consistent with the proposed re-description) proposed to be served by the new point of diversion.

27. On August 4, 2008 the Department received the second recommendation from ODFW. This recommendation re-confirmed the initial recommendation and concluded that with the inclusion of the original conditions (as stated in Finding of Fact #25 above) the proposed change would result in a net benefit to the resource.

28. Notice of opportunity to comment on the initial recommendation to consent to injury of instream water right Certificate 59939 was provided to the applicant and all persons who filed comments under OAR 690-380-4030. Additionally, notice of the opportunity to comment was published in the Department weekly notice on June 10, 2008 pursuant to OAR 690-380-5050(4).

29. Furthermore, on September 24, 2008, an email incorporating the second recommendations of ODFW to consent to injury was sent to the applicant. The email asked for either acceptance or disagreement with the conditions suggested by ODFW.

30. On September 24, 2008, the applicant emailed the Department and agreed to the conditions outlined in Finding of Fact #25.

31. On December 10, 2008, the Department issued a *revised* Preliminary Determination proposing to approve Transfer Application T-7683 and mailed a copy to the applicants. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's week notice on December 16, 2008 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

Conclusions of Law

Based on the recommendation of the Oregon Department of Fish and Wildlife, the Department consents to injury of the instream water right evidenced by Certificate 59939. The proposed change in point of diversion proposed in Transfer Application T-7683, as conditioned, is consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000 and 690-380-5030.

Now, therefore, it is ORDERED:

1. The change in point of diversion proposed in Transfer Application T-7683, as conditioned, is approved.

2. Water right Certificate 57553 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer and incorporating the re-description and partial cancellation.

3. The right to use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 57553 and any related decree.

4. The applicant will limit water use to an average of one-inch-per-week during the irrigation season of each year, adjusted using the Eugene Water and Electric Board's (or other appropriate entity's) evapo-transpiration information.

5. Native riparian habitat must be maintained and enhanced along the property boundary with the North Umpqua River.

6. When required by the Department, the water user shall install, maintain and operate an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

7. Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

8. The approved change shall be completed and full beneficial use of the water shall be made on or before October 1, 2012. A Claim of Beneficial Use prepared by a Certified Water

Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.

9. Superseding certificates and a final order incorporating the re-description (outlined in the table in Finding of Fact #7) will be issued for the following: Transfer Application T-5259, Certificates 56466, 55438, 60003, 81736, 44370, 64851 and 57553.

10. When satisfactory proof of the completed change is received, a new certificate confirming the portion of the right transferred will be issued.

Dated at Salem, Oregon this 23rd day of January, 2009.

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application T-5259, Douglas County	))	FINAL ORDER REVERTING A POINT OF DIVERSION

Applicant

Robert and Delores Smith
1707 Del Rio Rd.
Roseburg, OR 97471

Findings of Fact

1. On May 2, 1983, G. H. Brey filed an application to change the point of diversion under a portion of Certificate 51279. The Department assigned the application number T-5259.

2. On July 20, 1983, the Water Resources Department issued an order approving T-5259. This order was recorded in the Special Order Volume 37, Pages 390 - 391.

3. On September 30, 2008, the Water Resources Department assigned the application from G. H. Brey to Robert L. and Dolores M. Smith.

4. A letter dated September 25, 2008, Robert and Dolores Smith notified the Department that the change authorized through approval of Transfer Application T-5259 would not be completed and requested that the authorized point of diversion revert back to the original point of diversion described in the following table:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	McKinney DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

5. Pursuant to OAR 690-380-6010, if the change in point of diversion is not completed, the point of diversion shall revert to the last authorized point of diversion prior to the transfer.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

Now, therefore, it is ORDERED:

The point of diversion for a portion of the right affected by Transfer Application T-5259 is reverted to the last authorized point of diversion prior to the transfer. A superseding certificate for the portion of the right affected by the transfer shall be issued.

Dated at Salem, Oregon this 23rd day of January, 2009.

STATE OF OREGON

COUNTY OF DOUGLAS

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

G. H. HARRELL
ROUTE 2 BOX 1415
ROSEBURG, OR 97470

confirms the right to use the waters of NORTH UMPQUA RIVER, tributary to the UMPQUA RIVER, for IRRIGATION of 109.74 ACRES.

This right was perfected under Permit S-28837. The date of priority is MAY 13, 1963. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 1.380 CUBIC FEET PER SECOND (CFS), or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Survey Coordinates
26 S	6 W	WM	14	SW SE	MCKINNEY DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year, provided further that right to the use of water is limited to the period when the flow of the North Umpqua River is more than 525 cfs at its mouth.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION							
Twp	Rng	Mer	Sec	Q-Q	GLot	DLC	Acres
26 S	6 W	WM	14	SW NE		45	10.10
26 S	6 W	WM	14	SE NW		45	1.10

CRAIG E. AND GINA L. TANNER
7942 OSTROM AVE
LAKE BALBOA, CA 91406

confirms the right to use the waters of NORTH UMPQUA RIVER, tributary to UMPQUA RIVER, for IRRIGATION of 1.2 ACRES.

This right was perfected under Permit S-28837. The date of priority is MAY 13, 1963. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.015 CUBIC FOOT PER SECOND (cfs), if available at the original point of diversion being, SW SE, as projected within McKinney DLC 45, Section 14 T26S R6W, WM; 2550 feet South and 2620 feet West from the E1/4 corner of Section 24; or its equivalent in case of rotation, measured at the point of diversion from the stream.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	Measured Distances
26 S	6 W	WM	23	NW NE	535 FEET SOUTH AND 410 FEET EAST FROM THE N1/4 CORNER OF SECTION 23

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year, provided further that the right to the use of water is limited to the period when the flow of the North Umpqua River is more than 525 cfs at its mouth.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
26 S	6 W	WM	23	NW NE	1.20

When in the judgment of the Watermaster it becomes necessary to install headgates and measuring devices:

The diversion works shall include an inline flow meter, a weir, or other suitable device for measuring water to which the water user is entitled; and

The type and plans of measuring device be approved by the Watermaster before the beginning of construction work and the weir or measuring device be installed under the general supervision of said Watermaster.

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This certificate is issued to confirm a CHANGE IN POINT OF DIVERSION approved by an order of the Water Resources Director entered March 12, 1987 approving Transfer Application T-5895, and together with Certificate 84207 supersedes Certificate 53617.

WITNESS the signature of the Water Resources Director, affixed JAN 2 3 2009.

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

MAX POST, Trustee
PO BOX 499
SUTHERLIN, OR 97479

confirms the right to use the waters of the NORTH UMPQUA RIVER, a tributary to the UMPQUA RIVER, for IRRIGATION of 1.08 ACRES.

This right was perfected under Permit S-28837. The date of priority is MAY 13, 1963. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.01 CUBIC FOOT PER SECOND (cfs) [if available at the original point of diversion located in the SW SE, as projected within DLC 45, Section 14, T26S, R6W, W.M.; 2550 feet south and 2620 feet west from the E1/4 corner of Section 14], or its equivalent in case of rotation, measured at the point of diversion from the source.

The points of diversion are located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	45	2620 FEET SOUTH AND 2560 FEET WEST FROM THE E1/4 CORNER OF SECTION 14
26 S	6 W	WM	23	NE NW	45	2820 FEET SOUTH AND 2850 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. A description of the place of use to which this right is appurtenant is as follows:

IRRIGATION						
Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
26 S	6 W	WM	14	SE SW	45	0.34
26 S	6 W	WM	14	SW SE	45	0.54
26 S	6 W	WM	23	NE NW	45	0.20

The quantity of water diverted at the new point of diversion, together with that diverted at the old diversion, shall not exceed the quantity of water available at the original point of diversion.

When in the judgment of the Watermaster it becomes necessary to install headgates and measuring devices:

The diversion works shall include an in-line flow meter, a weir, or other suitable device for measuring water to which the water user is entitled; and

The type and plans of the measuring device be approved by the Watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said Watermaster.

The use herein may be made only at times when sufficient water is available to satisfy all prior rights including rights for maintaining instream flows.

This certificate documents the re-description approved by Special Order Volume 77 Pages 139-147 and supersedes Certificate 81736.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed JAN 23 2009.

SUBJECT: Transfer Application T-5259 and clarification to your water right

Dear Mr. and Mrs. Smith,

I wanted to thank you for meeting with me yesterday and to use this opportunity to re-cap our conversation.

As we discussed, the Department intends on issuing a certificate that reverts your point of diversion to the previously authorized location consistent with OAR 690-380-6010. This certificate will also document the re-description that will resolve the long outstanding corrections to water rights in and around your neighborhood. A draft of this certificate is included for your reference as is a Preliminary Determination wherein the re-description of the water rights is more fully explained (your specific water right has been highlighted).

I anticipate having a certificate issued in Spring 2009. Following issuance of this certificate you could then request to have it leased instream.

Again, thank you for the hospitality.

Sincerely,

Susan Douthit
Water Right Transfer Specialist

cc- Dave Williams, Watermaster District #15

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application T-5259, Douglas County	))	FINAL ORDER REVERTING A POINT OF DIVERSION

Applicant

Robert and Delores Smith
1707 Del Rio Rd.
Roseburg, OR 97471

Findings of Fact

1. On May 2, 1983, G. H. Brey filed an application to change the point of diversion under a portion of Certificate 51279. The Department assigned the application number T-5259.

2. On July 20, 1983, the Water Resources Department issued an order approving T-5259. This order was recorded in the Special Order Volume 371, Pages 390 - 391.

3. On September 30, 2008, the Water Resources Department assigned the application from G. H. Brey to Robert L. and Dolores M. Smith.

4. A letter dated September 25, 2008, Robert and Dolores Smith notified the Department that the change authorized through approval of Transfer Application T-5259 would not be completed and requested that the authorized point of diversion revert back to the original point of diversion described in the following table:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	McKinney DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

5. Pursuant to OAR 690-380-6010, if the change in point of diversion is not completed, the point of diversion shall revert to the last authorized point of diversion prior to the transfer.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

Now, therefore, it is ORDERED:

The point of diversion for a portion of the right affected by Transfer Application T-5259 is reverted to the last authorized point of diversion prior to the transfer. A superseding certificate for the portion of the right affected by the transfer shall be issued.

Dated at Salem, Oregon this _____ day of _____, 2008.

Draft

Phillip C. Ward, Director

STATE OF OREGON

COUNTY OF DOUGLAS

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROBERT AND DOLORES SMITH
1707 DEL RIO RD.
ROSEBURG, OR 97471

confirms the right to use the waters of NORTH UMPQUA RIVER, tributary to the UMPQUA RIVER, for IRRIGATION of 6.62 ACRES.

This right was perfected under Permit S-28837. The date of priority is MAY 13, 1963. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.076 CUBIC FOOT PER SECOND, (cfs)or its equivalent in case of rotation, measured at the point of diversion from the stream.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	McKinney DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year provided further that the right to the use of water is limited to the period when the flow of the north Umpqua River is 525 cfs at its mouth. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer. The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

A description of the place of use to which this right is appurtenant is as follows:

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

This certificate is issued in accordance with OAR 690-OAR 690-380-6010 to describe the water right for a non-completed change in point of diversion approved by an order of the Water Resources Director entered _____, at Special Order Volume __, Page __, approving Transfer Application T-5259 and supersedes a portion of Certificate 51279. This certificate also incorporates the re-description of this right as authorized by an order of the Water Resources Director entered _____ at Special Order Volume __, Page___.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed _____.

draft

Phillip C. Ward, Director

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application T-7683, Douglas County	)	***REVISED*** PRELIMINARY DETERMINATION PROPOSING APPROVAL OF A CHANGE IN POINT OF DIVERSION AND RE-DESCRIPTION OF PLACES OF USE UNDER TRANSFER APPLICATION T-5259 and CERTIFICATES 56466, 55438, 60003, 81736, 44370, 64851 and 57553

Authority

ORS 540.505 to 540.580 establishes the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. OAR Chapter 690, Division 380 implements the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

Dave Russel
1800 Del Rio Road
Roseburg, OR 97470

Findings of Fact

Background

1. On January 10, 1997, Dave Russel filed an application to change the point of diversion under Certificate 57553 (perfected under Permit S-28837.) The Department assigned the application number T-7683.

2. On May 13, 1963, W. S. Barnes, a registered professional engineer, performed a survey of the water uses from the North Umpqua for the property owned by G. H. Harrell. The 1963 survey identified the general layout of the lands irrigated and described the place of use in relation to Township, Range, Section and Quarter-Quarter lines for the purpose of water right application S-38746 (Permit S-28837).

3. Following development of beneficial use of water under the permit, the Department performed a plane table survey for Permit S-28837 on July 12, 1967 and prepared a Final

Pursuant to OAR 690-380-4030, any person may file a protest or standing statement within 30 days after the last date of publication of notice of this transfer application and preliminary determination.

Proof map concurrent with issuance of Certificate 35309. The Final Proof map confirmed the general shape of the place of use but described it somewhat differently in relation to Section quarter-quarter and Donation Land Claim (DLC) lines within each quarter-quarter and DLC from the way it was described in Application S-37446 map and Permit S-28837.

4. Subsequent to the Final Proof survey (1967), numerous modifications (transfers and cancellations) to the right were processed as the Del Rio subdivision was developed, resulting in the issuance of Certificate 57553. Transfer Application T-7683 requested further modification to Certificate 57553.

5. In 1993, the Department undertook an investigation of how the 1967 survey and the pending transfer application maps overlaid one another. The analysis showed that the location of the section line between sections 14 and 23 was not consistent between the 1967 survey and other maps due to a rotational error in the 1967 plane table survey; though the footprint of the place of use remains the same.

6. The Department determined that a re-description of the place of use for the entirety of the place of use originally evidenced by Certificate 35309 was needed and prepared a revised map and comparison table of acreage within each section and quarter-quarter.

Twp	Rng	Mer	Sec	Q-Q	Acres based on 1967 survey	Acres based on 1993 investigation
26 S	6 W	WM	14	SW NE	10.0	10.1
26 S	6 W	WM	14	SE NW	1.2	1.1
26 S	6 W	WM	14	NE SW	1.2	1
26 S	6 W	WM	14	SW SW	0.1	0
26 S	6 W	WM	14	SE SW	15.4	15.4
26 S	6 W	WM	14	NE SE	19.4	19.9
26 S	6 W	WM	14	NW SE	17.4	16.8
26 S	6 W	WM	14	SW SE	30.4	25.88
26 S	6 W	WM	14	SE SE	22.3	24.4
26 S	6 W	WM	23	NE NE	1.6	2
26 S	6 W	WM	23	NW NE	15.0	13.3
26 S	6 W	WM	23	NE NW	0.3	1.20
				Total acres:	**134.3**	**134.3**

7. Since the issuance of Certificate 35309 numerous modifications (transfers and cancellations) to this water right occurred, each affecting a portion of the original place of use of the right. This necessitates the need to re-describe the place of use in some of the resulting documents that are not consistent with the 1993 investigation. Transfer Application T-5259 and

Certificates 56466, 55438, 60003, 81736, 44370, 64851 and 57553 need re-description as further outlined in the tables below:

26 S	6 W	WM	14	SE SE	6	1.30	2.00
26 S	6 W	WM	23	NW NE		3.49	2.79
26 S	6 W	WM	23	NE NW		0	0.62

*This entry includes 0.9 acre that has been cancelled as further described in Finding of Fact #8.

8. On January 25, 1984, an order cancelling 0.9 acre in the NESE, Section 14, T26S 6W, WM, was issued and recorded in Special Order Volume 38, Page 114. However, the resulting document did not reduce the total acres in this quarter-quarter by the above referenced cancellation order. Additionally, all subsequent documents repeated this error which should have been corrected when a superseding certificate was issued.

9. Both the survey and the additional evidence describe the same irrigated land. The differences between the two descriptions result from different bases of bearing and reference points used. The 1993 retracements performed by both the Department and CWRE #80 were based on reference points established or re-established by government land surveyors instead of a retracement of the original survey made by the Department Final Proof survey in 1967 upon which the water right certificate was based. The actual location of the place of use, as found on the ground, remains the same.

10. The portion of the right (as re-described) proposed to be transferred under T-7683 is as follows:

    Certificate: 57553 in the name of G. H. HARRELL (perfected under Permit S-28837)
    Use: IRRIGATION of 1.70 ACRES
    Priority Date: MAY 13, 1963

Rate: 0.02 CUBIC FOOT PER SECOND (cfs)
Limit/Duty: ONE-EIGHTIETH cfs per acre, not to exceed 2.5 acre-feet per acre during the irrigation season, provided further that right to the use of water is limited to the period when the flow of the North Umpqua River is more than 525 cfs at its mouth.
Source: NORTH UMPQUA RIVER, tributary to UMPQUA RIVER

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	DLC	Survey Coordinates
26 S	6 W	WM	14	SW SE	45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

Authorized Place of Use:

Twp	Rng	Mer	Sec	Q-Q	DLC	Acres
26 S	6 W	WM	14	SW SE		0.15
26 S	6 W	WM	23	NW NE	45	1.55

11. Transfer Application T-7683 proposes to move the authorized point of diversion approximately 360 feet upstream to:

Twp	Rng	Mer	Sec	Q-Q	Lot	DLC	Survey Coordinates
26 S	6 W	WM	23	NW NE	14	45	600 FEET SOUTH AND 300 FEET EAST FROM THE N¼ CORNER OF SECTION 23

12. During the processing of Transfer Application T-7683 it became apparent that the portion of the water right proposed to be modified did not "match" the existing water right map nor the 1993 revised map. The original transfer map showed the footprint of this portion of the water extending down to the water's edge and shows a total of 1.70 acres of water right within the parcel to be affected by this transfer. The 1967 and 1993 Department's water right maps indicate the water right place of use does not extend down to the water's edge.

13. The following table provides a comparison of the description of the portion of the authorized place of use for Certificate 57553 to be affected by Transfer Application T-7683 and a re-description based on other evidence collected by the Department (including assessor's information, Del Rio Ranch Estates Subdivision PLAT, aerial photographs and information from Janet Lundeen, CWRE #80).

Certificate 57553 Place of Use involved in T-7683	
T-7683 Transfer Map	*Revised* proposed re-description
SW SE 0.15 acre Section 14 NW NE 1.55 acres Section 23 Township 26 South, Range 6 West, W.M.	SW SE 0.13 acre Section 14 NW NE 1.26 acres Section 23 Township 26 South, Range 6 West, W.M.
TOTAL = 1.70 acres	**TOTAL** = 1.39 acres

14. Notice of the application for transfer was published on January 21, 1997, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.

15. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screening and/or by-pass device is necessary at the new point of diversion to prevent fish from entering the diversion and/or safely transport fish back to the body of water from which the fish were diverted and that the diversion is not currently equipped with an appropriate fish screening and/or by-pass device. This diversion may be eligible for screening cost share funds.

16. Water has been used within the last five years according to the terms and conditions of the right, and there is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

17. The proposed change would not result in enlargement of the right.

18. An instream water right, Certificate 59939, exists for the reach of the river in which the authorized point of diversion would be moved upstream, and streamflows within the reach are frequently below the levels allocated under the instream water right. Thus, the instream water right would be injured as a result of the proposed change in point of diversion.

19. On April 26, 2007, the Department mailed a copy of the *draft* Preliminary Determination proposing to deny Transfer Application T-7683 to the applicant. The cover letter that accompanied the *draft* Preliminary Determination set forth a deadline of May 27, 2007, in which the applicant could respond.

20. On May 18, 2007, the applicant requested that the Department seek a recommendation from ODFW as to whether the Department should consent to injury of the instream water right pursuant to OAR 690-380-4030.

21. On June 20, 2007, the Department issued a Preliminary Determination proposing to deny Transfer Application T-7683 unless ODFW recommended the Department to consent to the injury due to a net benefit that would result from the proposed change. A copy of the Preliminary Determination was mailed to the applicant. Additionally, notice of the Preliminary Determination for the transfer application was published on the Department's weekly notice on June 26, 2007 pursuant to ORS 540.520 and OAR 690-380-4020. No protests were filed in response to the notice.

22. The cover letter that accompanied the Preliminary Determination informed the applicant of the Department's intent to initiate the consent to injury process by seeking a recommendation from ODFW.

23. On June 20, 2007, the Department sent a letter to ODFW requesting a recommendation as to whether the Department should consent to injury of the instream water right (Certificate 59939).

24. On April 9, 2008, ODFW recommended that the Department consent to injury of the instream water right Certificate 59939 because the proposed change would result in a net benefit to the resource. The recommendation concluded that:

a) The movement of the point of diversion to the North Umpqua River, where habitat is a bedrock shelf, is likely better than maintaining the point of diversion at the mouth of Sutherlin Creek, where a deep backwater hole provides better juvenile rearing and adult holding habitat for resident fish.

b) The applicant will limit water use to an average of one-inch-per-week during the irrigation season of each year, adjusted using the Eugene Water and Electric Board's (or other appropriate entity's) evapotranspiration information to compensate for more or less available soil moisture.

c) Native riparian habitat must be maintained and enhanced along the property boundary with the North Umpqua River.

25. Subsequent to the receipt of ODFW's recommendation, the Department noted that some of the information provided to ODFW in the initial request for a recommendation was erroneous. This necessitated another analysis by ODFW of the injury to instream water right Certificate 59939.

26. The initial proposal involved a total of 1.70 acres of irrigation. The amended information reflects a reduction of 0.31 acre leaving 1.39 acres (consistent with the proposed re-description) proposed to be served by the new point of diversion.

27. On August 4, 2008 the Department received the second recommendation from ODFW. This recommendation re-confirmed the initial recommendation and concluded that with the inclusion of the original conditions (as stated in Finding of Fact #25 above) the proposed change would result in a net benefit to the resource.

28. Notice of opportunity to comment on the initial recommendation to consent to injury of instream water right Certificate 59939 was provided to the applicant and all persons who filed comments under OAR 690-380-4030. Additionally, notice of the opportunity to comment was published in the Department weekly notice on June 10, 2008 pursuant to OAR 690-380-5050(4).

29. Furthermore, on September 24, 2008, an email incorporating the second recommendations of ODFW to consent to injury was sent to the applicant. The email asked for either acceptance or disagreement with the conditions suggested by ODFW.

30. On September 24, 2008, the applicant emailed the Department and agreed to the conditions outlined in Finding of Fact #25.

Conclusions of Law

Based on the recommendation of the Oregon Department of Fish and Wildlife, the Department consents to injury of the instream water right evidenced by Certificate 59939. The proposed change in point of diversion proposed in Transfer Application T-7683, as conditioned, is

consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000 and 690-380-5030.

Now, therefore, it is ORDERED:

1. The change in point of diversion proposed in Transfer Application T-7683, as conditioned, is approved.

2. Water right Certificate 57553 is cancelled. A new certificate will be issued describing that portion of the right not affected by this transfer and incorporating the re-description and partial cancellation.

3. The right to use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 57553 and any related decree.

4. The applicant will limit water use to an average of one-inch-per-week during the irrigation season of each year, adjusted using the Eugene Water and Electric Board's (or other appropriate entity's) evapo-transpiration information.

5. Native riparian habitat must be maintained and enhanced along the property boundary with the North Umpqua River.

6. When required by the Department, the water user shall install, maintain and operate an in-line flow meter, weir, or other suitable device for measuring and recording the quantity of water diverted. The type and plans of the measuring device must be approved by the Department prior to beginning construction and shall be installed under the general supervision of the Department.

7. Prior to diverting water, the water user shall install a fish screening and/or by-pass device, as appropriate, at the new point of diversion consistent with the Oregon Department of Fish and Wildlife's (ODFW) design and construction standards. Prior to installation, the water user shall obtain written approval from ODFW that the required screen and/or by-pass device meets ODFW's criteria. Prior to submitting a Claim of Beneficial Use, the water user must obtain written approval from ODFW that the required screening and/or by-pass device was installed to the state's criteria. The water user shall maintain and operate the fish screen and/or by-pass device, as appropriate, at the point of diversion consistent with ODFW's operational and maintenance standards.

8. The approved change shall be completed and full beneficial use of the water shall be made on or before October 1, 2012. A Claim of Beneficial Use prepared by a Certified Water Rights Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.

9. Superseding certificates and a final order incorporating the re-description (outlined in the table in Finding of Fact #7) will be issued for the following: Transfer Application T-5259, Certificates 56466, 55438, 60003, 81736, 44370, 64851 and 57553.

10. When satisfactory proof of the completed change is received, a new certificate confirming the portion of the right transferred will be issued.

Dated at Salem, Oregon this _____ day of _____, 2008.

SUBJECT: Transfer Application T-5259 and clarification to your water right

Dear Mr. and Mrs. Smith,

I wanted to thank you for meeting with me yesterday and to use this opportunity to re-cap our conversation.

As we discussed, the Department intends on issuing a certificate that reverts your point of diversion to the previously authorized location consistent with OAR 690-380-6010. This certificate will also document the re-description that will resolve the long outstanding corrections to water rights in and around your neighborhood. A draft of this certificate is included for your reference as is a Preliminary Determination wherein the re-description of the water rights is more fully explained (your specific water right has been highlighted).

I anticipate having a certificate issued in Spring 2009. Following issuance of this certificate you could then request to have it leased instream.

Again, thank you for the hospitality.

Sincerely,

Susan Douthit
Water Right Transfer Specialist

cc- Dave Williams, Watermaster District #15

STATE OF OREGON

COUNTY OF DOUGLAS

CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

ROBERT AND DOLORES SMITH
1707 DEL RIO RD.
ROSEBURG, OR 97471

confirms the right to use the waters of NORTH UMPQUA RIVER, tributary to the UMPQUA RIVER, for IRRIGATION of 6.62 ACRES.

This right was perfected under Permit S-28837. The date of priority is MAY 13, 1963. The amount of water to which this right is entitled is limited to an amount actually used beneficially, and shall not exceed 0.076 CUBIC FOOT PER SECOND, (cfs)or its equivalent in case of rotation, measured at the point of diversion from the stream.

The point of diversion is located as follows:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	McKinney DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year provided further that the right to the use of water is limited to the period when the flow of the north Umpqua River is 525 cfs at its mouth. The use shall conform to such reasonable rotation system as may be ordered by the proper state officer. The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described.

A description of the place of use to which this right is appurtenant is as follows:

This is a final order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60-day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-0080, you may petition for judicial review or petition the Director for reconsideration of this order. A petition for reconsideration may be granted or denied by the Director, and if no action is taken within 60 days following the date the petition was filed, the petition shall be deemed denied.

IRRIGATION					
Twp	Rng	Mer	Sec	Q-Q	Acres
26 S	6 W	WM	14	NE NE	2.00
26 S	6 W	WM	14	NW NE	1.70
26 S	6 W	WM	14	SW SE	1.62
26 S	6 W	WM	14	SE SE	1.30

This certificate is issued in accordance with OAR 690-OAR 690-380-6010 to describe the water right for a non-completed change in point of diversion approved by an order of the Water Resources Director entered _____, at Special Order Volume __, Page __, approving Transfer Application T-5259 and supersedes a portion of Certificate 51279. This certificate also incorporates the re-description of this right as authorized by an order of the Water Resources Director entered _____ at Special Order Volume __, Page___.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed _____.

_____

Phillip C. Ward, Director

BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON

In the Matter of Transfer Application T-5259, Douglas County	))	FINAL ORDER REVERTING A POINT OF DIVERSION

Applicant

Robert and Delores Smith
1707 Del Rio Rd.
Roseburg, OR 97471

Findings of Fact

1. On May 2, 1983, G. H. Brey filed an application to change the point of diversion under a portion of Certificate 51279. The Department assigned the application number T-5259.

2. On July 20, 1983, the Water Resources Department issued an order approving T-5259. This order was recorded in the Special Order Volume 371, Pages 390 - 391.

3. On September 30, 2008, the Water Resources Department assigned the application from G. H. Brey to Robert L. and Dolores M. Smith.

4. A letter dated September 25, 2008, Robert and Dolores Smith notified the Department that the change authorized through approval of Transfer Application T-5259 would not be completed and requested that the authorized point of diversion revert back to the original point of diversion described in the following table:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	14	SW SE	McKinney DLC 45	2550 FEET SOUTH AND 2620 FEET WEST FROM THE E1/4 CORNER OF SECTION 14

5. Pursuant to OAR 690-380-6010, if the change in point of diversion is not completed, the point of diversion shall revert to the last authorized point of diversion prior to the transfer.

This is an order in other than a contested case. This order is subject to judicial review under ORS 183.484. Any petition for judicial review must be filed within the 60 day time period specified by ORS 183.484(2). Pursuant to ORS 536.075 and OAR 137-004-080 and OAR 690-01-005 you may either petition for judicial review or petition the Director for reconsideration of this order.

Now, therefore, it is ORDERED:

The point of diversion for a portion of the right affected by Transfer Application T-5259 is reverted to the last authorized point of diversion prior to the transfer. A superseding certificate for the portion of the right affected by the transfer shall be issued.

SUBJECT: Transfer Application T-5259 and clarification to your water right

Dear Mr. and Mrs. Smith,

I am in receipt of your letter dated September 25, 2008, wherein you indicate that the point of diversion you requested in T-5259 has not been developed. You requested in this letter that the Water Resources Department issue a new certificate "reverting" the point of diversion to the last authorized location.

After your transfer was approved, the Department became aware of certain differences between the original water right survey and other property surveys that had been performed on and around your property.

The Department determined that the best course of action (because of the numerous modifications to the water rights in your area) was to re-describe the place of use of the original water right of which a portion is on your property. The goal of the re-description would be to bring the water right records into better conformity with property records. The Department has concluded its investigation and would like to share with you our findings as you are being directly affected.

We would like to meet with you to explain our findings and how they may affect the way your water right is described. Following is a list of possible dates and times that Department staff is available to discuss this matter. There are several options as to a location for this conversation. Be assured that no change in your right to use water on your property is anticipated. Only the legal description of the place of use is proposed to be updated.

Please contact me via telephone at 503-986-0858, via email at Susan.M.Douthit@wrd.state.or.us or via return mail to schedule a time that best fits your schedule.

November 3 – 4 (Monday – Tuesday)
10 a.m. – 6 p.m.

November 17 – 19 (Monday – Wednesday)
10 a.m. – 7 p.m.

Should none of the above times be conducive to your schedule, please feel free to suggest other dates and times.

I look forward to hearing from you.

Sincerely,

Susan Douthit

Re: T-5259

Dear Susan:

Enclosed is our assignment form for Transfer T-5259. This transfer requested a new point of diversion (pod) from the North Umpqua River for the irrigation of 6.1 acres on our property. This letter is to advise you that we have not used the new pod and therefore ask that a new certificate be issued for those lands described in this transfer allowing for use from the last authorized pod as described in OAR 690-380-6010 (6). Thank you for your assistance in this matter.

Sincerely,

Dsmith

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

DOUGLAS COUNTY

IN THE MATTER OF THE APPLICATION OF G.H. BREY FOR APPROVAL OF A CHANGE IN POINT OF DIVERSION OF WATER	))))	ORDER APPROVING TRANSFER 5259

On May 2, 1983, an application was filed in the office of the Water Resources Director by G.H. Brey for approval of a change in point of diversion of water from North Umpqua River, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 51279, Volume 46, State Record of Water Right Certificates, in the name of G.H. Harrell, describes a right which includes the use of not to exceed 0.076 cubic foot per second from North Umpqua River, for irrigation of 1.0 acre in SW 1/4 SE 1/4, 0.8 acre in SE 1/4 SE 1/4, Section 14, 1.6 acres in NE 1/4 NE 1/4 and 2.7 acres in NW 1/4 NE 1/4, Section 23, Township 26 South, Range 6 West, WM with a date of priority of May 13, 1963.

Water for the said right is diverted from a point located 2550 feet South and 2620 feet West from the East quarter Corner of Section 14, being within the SW 1/4 SE 1/4 of Section 23, Township 26, Range 6 West, WM.

The applicant herein, owner of the lands above described, proposes to change the point of diversion therefrom, to a point located 3420 feet South and 2090 feet West from the East quarter Corner of Section 14, being within the NW 1/4 NE 1/4 of Section 23, Township 26 South, Range 6 West, WM.

Notice of the application, pursuant to ORS 540.520(2), was published in The News Review, a newspaper printed and having general circulation in Douglas County, Oregon, for a period of three weeks in the issues of May 10, 17 and 24, 1983.

Gary L. Ball, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the proposed change in point of diversion is approved, without loss of priority.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right and shall not exceed 0.076 cfs.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the Watermaster it becomes necessary to install headgates and measuring devices:

> That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;
>
> That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said Watermaster.

It is FURTHER ORDERED that the construction work shall be completed and water used from the proposed point of diversion on or before October 1, 1985.

It is FURTHER ORDERED that the certificate recorded at page 51279, Volume 46, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

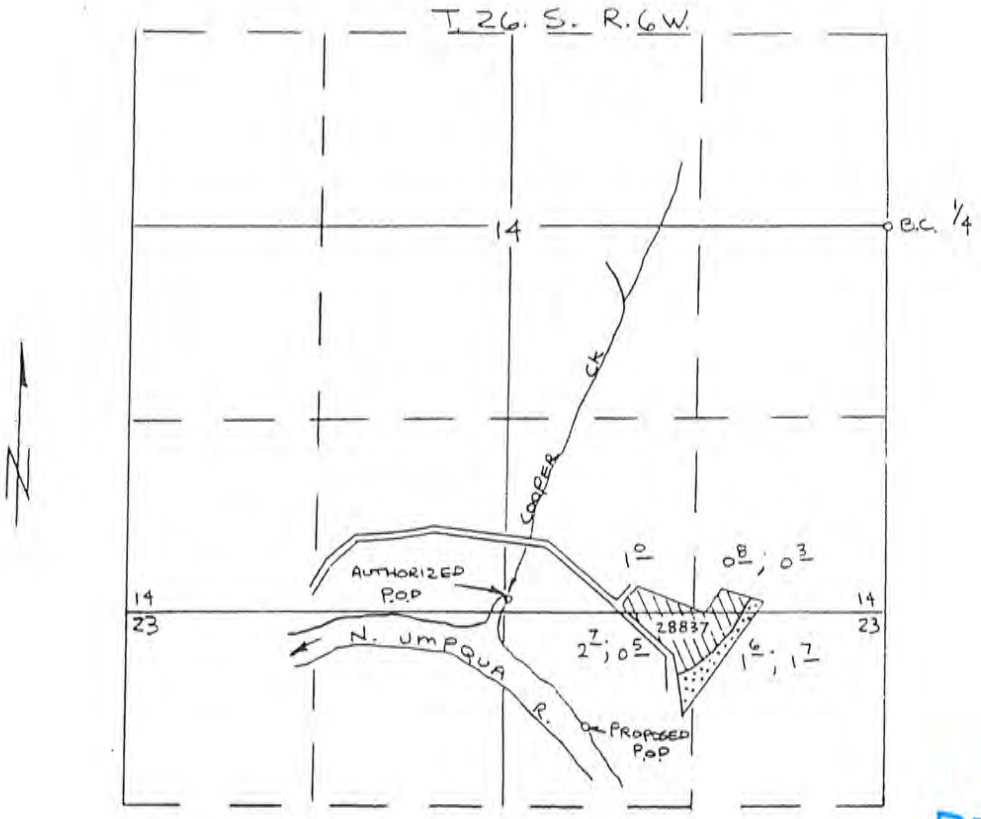

Dated at Salem, Oregon this 20th day of July, 1983.

CHRIS L. WHEELER
Deputy Director

NOTE: The approval of a water right transfer application does not confirm the status of the right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

4. The source of water is N. UMPQUA RIVER

5. What is the date of priority of your water right? 5/13/63

6. The authorized point of diversion is located 2550 ft. S (N. or S.) and 2620 ft. W. (E. or W.) from the E. 1/4 corner of Sec. 14 being within the SW ¼ SE ¼ of Section 14 Tp. 26S. (No. N. or S.) R. 6W. (No. E. or W.) W. M., in the county of DOUGLAS The name of the ditch used is .....

NOTE: Answer question if the application is for change in point of diversion.

7. The proposed point of diversion is located 3420 ft. S. (N. or S.) and 2090 ft. W (E. or W.) from the E. 1/4 corner of Sec 14 being within the NW ¼ NE ¼ of Section 23 Tp. 26S. (No. N. or S.) R. 6W. (No. E. or W.) W. M., in the county of DOUGLAS The name of the ditch to be used is .....

8. The use to which the water is applied is IRRIGATION
(Irrigation, Mining, Power, Manufacturing, etc.)

Location of area irrigated, or place of use if other than irrigation:

Township North or South	Range E. or W. of Willamette Meridian	Section	List ¼-¼ of Section	Number Acres Irrigated
T. 26 S.	R. 6 W.	14	SW¼ SE¼	1.0
"	"	"	SE¼ SE¼	0.8
T. 26 S.	R. 6 W.	23	NE¼ NE¼	1.6
"	"	"	NW¼ NE¼	2.7
				6.1 AC
				0.076 cfs

(If more space required, attach separate sheet)

9. Are you the legal owner of the above described lands? YES
(If not owner, explain your interest)

10. To your knowledge, has any portion of the water right above described undergone a period of five or more consecutive years of nonuse? NO
(Yes or No)

NOTE: Answer questions 11, 12 and 13 if application is for change in use or place of use.

11. Are the lands from which you propose to transfer your water right free of all encumbrances, including taxes, mortgages, liens, etc.? .....
(Answer Yes or No)

12. If not, give below a description of existing encumbrances:

NATURE OF ENCUMBRANCE	HELD BY	AMOUNT

13. The use to which the water is to be applied is .....
(Irrigation, power, mining, manufacturing, domestic supplies, etc.)

Location of area to be irrigated, or place of use if other than irrigation:

Township North or South	Range E. or W. of Willamette Meridian	Section	List ¼-¼ of Section	Number Acres To Be Irrigated

(If more space required, attach separate sheet)

14. Reasons for the proposed changes are ACCESS TO DIVERSION

15. Construction work will be completed on or before OCT. 1, 1984

16. The water will be completely applied to the proposed use on or before OCT 1, 1984

Remarks #100.00 ENCLOSED FOR ADVERTISING

NOTE: THIS APPLICATION MUST BE ACCOMPANIED BY A MAP OR MAPS SHOWING THE BEFORE AND AFTER LOCATIONS OF THE POINT OF DIVERSION AND/OR PLACE OF USE, AS THE CASE MAY BE.

AFFIDAVIT OF APPLICANT

I, G.H. BREY, the applicant herein, being first duly sworn, depose and say that I have read the above and foregoing application for transfer of water right; that I know the contents thereof and that the statements therein made are true and correct to the best of my knowledge and belief.

In Witness Whereof, I have hereunto set my hand this 28 day of April, 1983.

Enclosed is a certified copy of the order approving your water right transfer application.

A time to complete the transfer is given in the order. A form for reporting completion is enclosed for your convenience.

YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in use or change in place of use NOT carried out within the time allowed, or within an extension thereof, will be lost. An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change within the time allowed.

In line with the general practice of this office, a survey will be made at a later date.

Sincerely,

Samuel R Allison

STATE OF OREGON

COUNTY OF DOUGLAS

CERTIFICATE OF WATER RIGHT

This Is to Certify, That G. R. HARRELL

of Route 2, Box 1415, Roseburg, State of Oregon, has made proof to the satisfaction of the STATE ENGINEER of Oregon, of a right to the use of the waters of North Umpqua River

a tributary of Umpqua River for the purpose of irrigation of 134.3 acres

under Permit No. 28337 of the State Engineer, and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from May 13, 1963

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 1.68 cubic feet per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the SW¼ SE¼, as projected within McKinney DLC 45, Section 14, T. 26 S., R. 6 W., W. M. Diversion point located 2550 feet South and 2620 feet West from E¼ Corner, Section 14.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2½ acre feet per acre for each acre irrigated during the irrigation season of each year; provided further that the right to use of water is limited to the period when the flow of the North Umpqua River is more than 525 c.f.s. at its mouth;

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed and to which such right is appurtenant, is as follows:

10.0 acres SW¼ NE¼ as projected within McKinney DLC 45
1.2 acres SE¼ NW¼ as projected within McKinney DLC 45
1.2 acres NE¼ SW¼ as projected within McKinney DLC 45
0.1 acre SW¼ SW¼ as projected within McKinney DLC 45
15.4 acres SE¼ SW¼ as projected within McKinney DLC 45
0.4 acre Lot 7 (NE¼ SE¼)
19.0 acres NE¼ SE¼ as projected within McKinney DLC 45
17.4 acres NW¼ SE¼ as projected within McKinney DLC 45
30.4 acres SW¼ SE¼ as projected within McKinney DLC 45
21.0 acres SE¼ SE¼ as projected within McKinney DLC 45
1.3 acres Lot 6 (SE¼ SE¼)
Section 14

1.6 acres NE¼ NE¼ as projected within McKinney DLC 45
15.0 acres NW¼ NE¼ as projected within McKinney DLC 45
0.3 acre NE¼ NW¼ as projected within McKinney DLC 45
Section 23
T. 26 S., R. 6 W., W. M.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described.

WITNESS the signature of the State Engineer, affixed this date. September 30, 1968

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

DOUGLAS COUNTY

IN THE MATTER OF THE APPLICATION OF G.H. BREY FOR APPROVAL OF A CHANGE IN POINT OF DIVERSION OF WATER	ORDER APPROVING TRANSFER 5259

On May 2, 1983, an application was filed in the office of the Water Resources Director by G.H. Brey for approval of a change in point of diversion of water from North Umpqua River, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 51279, Volume 46, State Record of Water Right Certificates, in the name of G.H. Harrell, describes a right which includes the use of not to exceed 0.076 cubic foot per second from North Umpqua River, for irrigation of 1.0 acre in SW 1/4 SE 1/4, 0.8 acre in SE 1/4 SE 1/4, Section 14, 1.6 acres in NE 1/4 NE 1/4 and 2.7 acres in NW 1/4 NE 1/4, Section 23, Township 26 South, Range 6 West, WM with a date of priority of May 13, 1963.

Water for the said right is diverted from a point located 2550 feet South and 2620 feet West from the East quarter Corner of Section 14, being within the SW 1/4 SE 1/4 of Section 23, Township 26, Range 6 West, WM.

The applicant herein, owner of the lands above described, proposes to change the point of diversion therefrom, to a point located 3420 feet South and 2090 feet West from the East quarter Corner of Section 14, being within the NW 1/4 NE 1/4 of Section 23, Township 26 South, Range 6 West, WM.

Notice of the application, pursuant to ORS 540.520(2), was published in The News Review, a newspaper printed and having general circulation in Douglas County, Oregon, for a period of three weeks in the issues of May 10, 17 and 24, 1983.

Gary L. Ball, Watermaster, has filed a statement to the effect that the proposed change in point of diversion may be made without injury to existing rights.

No objections having been filed and it appearing that the proposed change in point of diversion may be made without injury to existing rights, the application should be approved.

NOW, THEREFORE, it hereby is ORDERED that the proposed change in point of diversion is approved, without loss of priority.

It is FURTHER ORDERED that the quantity of water diverted at the new point of diversion shall not exceed the quantity of water available at the old point of diversion under the subject right and shall not exceed 0.076 cfs.

It is FURTHER ORDERED that the following provisions shall be effective when in the judgment of the Watermaster it becomes necessary to install headgates and measuring devices:

> That the diversion works shall include an in line flow meter, a weir, or other suitable device for measuring the water to which the applicant is entitled;
>
> That the type and plans of the measuring device be approved by the watermaster before the beginning of construction work and that the weir or measuring device be installed under the general supervision of said Watermaster.

It is FURTHER ORDERED that the construction work shall be completed and water used from the proposed point of diversion on or before October 1, 1985.

It is FURTHER ORDERED that the certificate recorded at page 51279, Volume 46, State Record of Water Right Certificates, is canceled; and in lieu thereof a new certificate be issued covering the balance of the right NOT involved in this proceeding; and upon proof satisfactory to the Water Resources Director of completion of works and beneficial use of water to the extent intended under the provisions of this order, a confirming certificate of water right shall be issued to the applicant herein.

Dated at Salem, Oregon this 20th day of July, 1983.

CHRIS L. WHEELER
Deputy Director

NOTE: The approval of a water right transfer application does not confirm the status of the right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

7471B

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

DOUGLAS COUNTY

IN THE MATTER OF CANCELLATION)
OF A PORTION OF A WATER RIGHT) ORDER
IN THE NAME OF G.H. HARRELL)

On July 9, 1984, Garry F. and Sandra K. Swanson submitted an affidavit that they are the owners of a certain water right and the lands to which the water right is appurtenant; that they have abandoned any and all interest in and to the said water right and request the same be canceled.

The water right in question is a portion of the right described by the certificate recorded at page 51279, Volume 46, State Record of Water Right Certificates, in the name of G.H. Harrell, and is for the use of not to exceed 0.011 cubic foot per second of water from North Umpqua River, with a date of priority of May 13, 1963, for irrigation of 0.90 acre in SE 1/4 SW 1/4, Section 14, Township 26 South, Range 6 West, WM.

ORS 540.621 provides that: "Whenever the owner of a perfected and developed water right certifies under oath to the Water Resources Director that the water right has been abandoned by him and that he desires cancellation thereof, the Water Resources Director shall enter an order canceling the water right."

NOW, THEREFORE, it hereby is ORDERED that the said water right, being a portion of the right described by the certificate recorded at page 51279, Volume 46, State Record of Water Right Certificates, is canceled.

It is FURTHER ORDERED that a new certificate be issued to describe the balance of water right NOT involved in this proceeding, and not modified by provisions of orders of the Water Resources Director entered on July 20, 1983 and January 25, 1984.

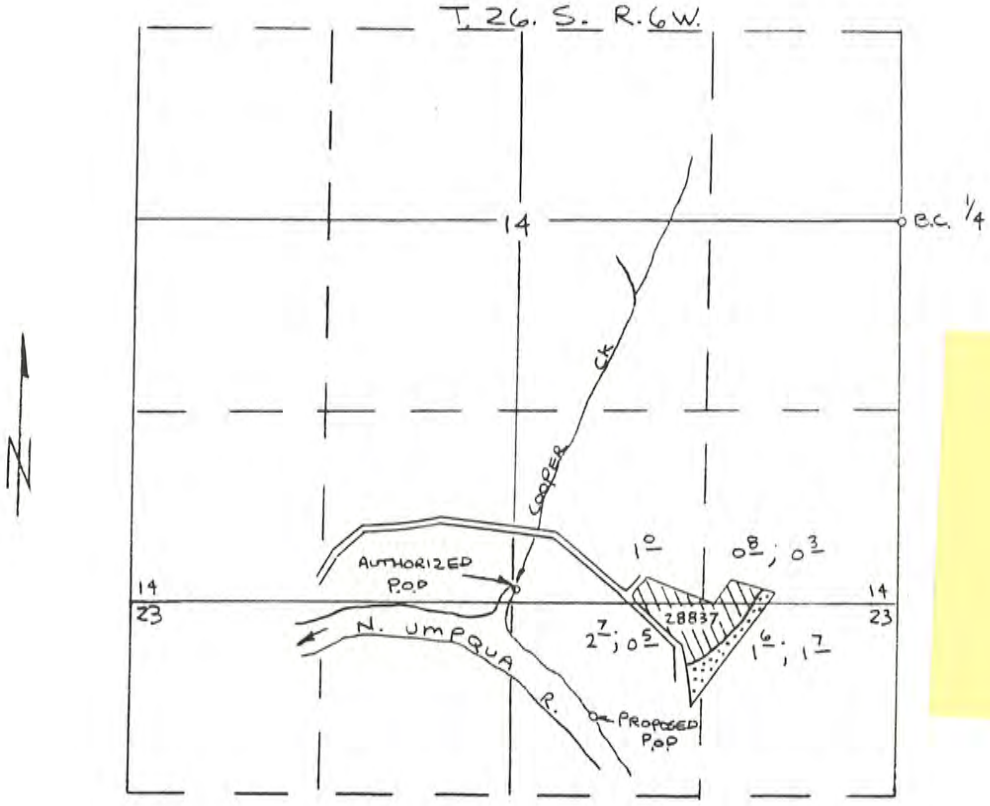

Dated at Salem, Oregon, this 16th day of July, 1984.

NOTICE OF WATER RIGHT TRANSFER APPLICATION 5259

On May 2, 1983, an application was filed in the office of the Water Resorces Director by G.H. Brey for approval of a change in point of diversion of water from North Umpqua River, pursuant to the provisions of ORS 540.510 to 540.530.

The certificate recorded at page 51279, Volume 46, State Record of Water Right Certificates, in the name of G.H. Harrell, describes a right which includes the use of not to exceed 0.076 cubic foot per second from North Umpqua River, for irrigation of a certain 1.0 ac in SW ¼ SE ¼ & .08 ac in SE ¼ SE ¼, Sec 14; 1.6 ac in NE ¼ NE ¼ & 2.7 ac in NW ¼ NE ¼, Sec 23, T26S, R6W, WM, with a date of priority of May 13, 1963.

Water for said right is diverted from a point located 2550' S & 2620' W from the E ¼ Cor of Sec 14, being within the SW ¼ SE ¼ of Sec 14, T26S, R6W, WM.

The applicant herein, owner of the lands above described, proposes to change the point of diversion therefrom, without loss of priority, to a point located 3420' S & 2090' W from the E ¼ Cor of Sec 14, being within the NW ¼ NE ¼ of Sec 23, T26S, R6W, WM.

Purusant to ORS 540.520(2), a hearing is scheduled for 9:30 a.m. on Thursday, June 30, 1983, at the Douglas County Courthouse, Roseburg, Oregon. Any objection to the proposed change must be prepared in writing: one copy to be served on the applicant at PO Box 2126, Beaumont, CA 92223; and one copy filed in the office of the Water Resources Director, Salem, OR 97310, together with a $10 filing fee, at least 10 days prior to the date set for hearing. Rules for filing objections will be furnished upon request.

IF NO OBJECTIONS ARE FILED, THE APPLICATION MAY BE APPROVED BY THE WATER RESOURCES DIRECTOR WITHOUT A HEARING.

Dated at Salem, Oregon this 5th day of May, 1983.

TO: TRANSFER SECTION, WATER RIGHTS DIVISION DATE: May 16, 1983

FROM: WATERMASTER, DISTRICT NO. 15

(signature) Gary L. Ball

SUBJECT: Water Right Transfer Application 5259 for change in POU (POD) Use of water

In the name~~(s)~~ of G H Brey

In my opinion (assuming the water right is valid), the proposed change

MAY BE MADE WITHOUT INJURY ~~WOULD RESULT IN INJURY*~~ to an existing water right.

*The approval of this transfer application would result in injury to other water rights because _____

The existing right may not be valid because _____

Headgate notices ~~HAVE~~ HAVE NOT been issued for diversion from the source(s) which serve(s) this right.

If for change in point of diversion, is there any intervening point(s) of diversion between the authorized and proposed points of diversion? yes (yes or no)

In my opinion, the order approving the subject transfer application should include the following in regard to the appropriator installing suitable measuring devices in the diversion works:

_____ (1) PRIOR to the diverting of water at the new point of diversion ... .

✓ (2) WHEN IN the judgment of the watermaster it becomes necessary ... .

The enclosed copy of the transfer application and map(s) is for your records.

REFERENCE: Files 63464 and T-5259

This is to acknowledge your superseding Application 63464 now describing the proposed use of 0.041 cubic foot per second of water from the North Umpqua River, being 0.031 cfs for the irrigation of 2.5 acres and 0.01 cfs for stock use. This application now appears to be in satisfactory form to be considered for approval. However, we will hold action towards considering an approval of the application pending conclusion of the matter regarding the transfer application filed as T-5259 you submitted.

In response to your question regarding the price, the $165 you submitted covers the fees needed for the processing of your transfer application and the $85 you originally submitted are still needed for your superseding Application 63464.

REFERENCE: File T-5259

Your Water Right Transfer Application, together with supporting data and fees in the amount of $165, was received on May 2, 1983. Our Receipt 36271 is enclosed.

Oregon Water Law, ORS 540.520(2), requires that notice of your proposed water right transfer be published once each week for three consecutive weeks in a newspaper that is printed and has general circulation in the county where the water right is located.

The newspaper publication dates and date for hearing on your proposed transfer are given on the attached sheets.

If no protests are filed, a hearing will not be held, and the transfer will be considered for approval within 30 days from the date set for hearing.

If protests are filed and a hearing is held, a determination by the Water Resources Director will be made and the transfer approved or denied within 60 days from the date the hearing is held.

Until such time as an order is issued approving the transfer, you are not authorized to appropriate water for the proposed use.

Sincerely,

SAMUEL R. ALLISON
Supervisor
Transfer Section
