

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Allocation of Conserved	)	PROPOSED FINAL ORDER APPROVING OF
Water Application CW-150,	)	ALLOCATION OF CONSERVED WATER
Hood River County	)	CW-150

Applicant

East Fork Irrigation District
PO Box 162
Odell, OR 97044

Applicable Law

Any person or group of persons holding a water use subject to transfer as defined in ORS 540.505 may submit an application for an Allocation of Conserved Water to the Water Resources Commission for a conservation project that has not yet been implemented or was implemented within five years prior to the submission of the application. ORS 537.465. Under the Allocation of Conserved Water Program, a portion of the water proposed to be conserved by an applicant may be used on additional lands, put to a different use, or be leased or sold to another user. OAR 690-018-0010. A portion of the water conserved is allocated to the state to be converted to an instream water right or to revert to the public for appropriation by other water users. ORS 537.470(3).

An application for an allocation of conserved water shall include: (a) A description of the measure as implemented and the date on which the measure was implemented; (b) A description of the diversion facilities before the conservation measure was implemented and the amount of water that was diverted at the facilities before the conservation measure was implemented; (c) The amount of water needed to supply existing rights after implementation of the conservation measure; (d) The amount of water conserved by implementing the conservation measure; (e) The proposed allocation and use of the conserved water if different from the allocation specified in ORS 537.470; (f) The intended use of any water allocated to the applicant and the proposed location of use; (g) The applicant's choice of priority date for the conserved water; (h) Evidence that the measure was implemented within five years prior

Under ORS 537.470(5) and ORS 536.077(1), any person may file a protest of this Proposed Final Order within 45 days after publication of notice of this Proposed Final Order in the Department's weekly notice. Under ORS 537.470(5) and ORS 536.077(2), if a protest is filed, any person who supports this Proposed Final Order may file a request for party status within 30 days after the deadline for filing a protest. Please refer to the end of this document for further information about filing protests and requests for party status.

to the date of filing the application; and (i) Any other information the commission considers necessary to evaluate the application. ORS 537.465.

After determining any quantity of water needed to mitigate the effects on other water rights, 25-percent of the conserved water shall be allocated to the state and 75-percent to the applicant unless the applicant proposes a higher allocation to the state or more than 25-percent of the funds used to finance the conservation measures comes from federal or state sources not subject to repayment. ORS 537.470(3).

If an application for the allocation of conserved water is approved, the Department shall issue orders describing the changes in the original water rights. Once the conservation project is finalized, the Department shall issue new certificates preserving the previously established-priority date of the rights to reflect the unaffected portion of the water rights and new certificates reflecting the changes for the portions of the water rights involved in the conserved water application. ORS 537.470(6).

ORS 537.455 to 537.500 authorize and establish the process by which a water right holder may submit a request for an allocation of conserved water. OAR Chapter 690, Division 18, implements the statutes and provides the Department's procedures and criteria for evaluating allocation of conserved water applications. OAR Chapter 690, Division 077 provides additional criteria for evaluating proposed instream water rights.

Findings of Fact

1. On April 21, 2026, East Fork Irrigation District (the District) filed an allocation of conserved water application under Certificate 92000. The Department assigned the application number CW-150.
2. On June 19, 2007, the District adopted an Allocation of Conserved Water Policy pursuant to OAR 690-018-0025. On May 19, 2026, the District reviewed and renewed the District's Allocation of Conserved Water Policy.
3. The conservation project involves modifying the water delivery system by replacing 63,754 feet of non-pressure rated pipe (primarily wood and unreinforced concrete) and 14 open concrete water boxes along the District's Gilkerson, Winkleblek, Chipping, Dukes Valley Canal, and Chamberlin/Marsh sublaterals, with 763,754 feet of HDPE pipe, installing 6 pressure reducing stations, and 12 smaller pressure reducing stations, which will eliminate seepage losses, overflow, and/or operational spills. The conversion to pressure rated piping is a proven technology for conserving water.

4. Application CW-150 proposes a rate reduction of approximately 2.4 cubic feet per second (cfs) and proposes to reduce the annual volume by 576.0 acre-feet (AF).

Conserved Water Description										
	Certificate				Needed				Conserved Water	
	Rate		Duty		Rate		Duty		Rate	Duty
Certificate	Maximum CFS	CFS/AC	Maximum AF	AF/AC	Maximum CFS	CFS/AC	Maximum AF	AF/AC	Maximum CFS	Maximum AF
92000	96.5	1/80	22,976.78	2.69	94.1	1/80	22,400.78	2.62	2.4	576.0

5. The right to be modified by CW-150 is as follows:

Certificate: 92000 in the name of EAST FORK IRRIGATION DISTRICT (confirmed by Hood River Decree), as modified by CW-93, CW-117, CW-133, CW-143, and CW-144.

Use: IRRIGATION of 8531.77 ACRES, (INCLUDES INCHOATE ACRES), and 15.0 ACRES EQUIVALENT INDUSTRIAL

Priority Date: NOVEMBER 25, 1895

Rate: 96.5 CUBIC FEET PER SECOND (CFS), being 96.33 CFS for IRRIGATION (INCLUDING INCHOATE PORTION), and 0.17 CFS for INDUSTRIAL USE

Limit/Duty: The amount of water used for irrigation, is limited to a diversion of 1/80 of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year, and an annual volume limitation of 22,976.78 ACRE-FEET per year.

Source: EAST FORK HOOD RIVER, tributary to HOOD RIVER

6. Certificate 92000 does not describe the period of use of the right. Under the terms and conditions of the Final Decree of the Circuit Court for Hood River County dated October 24, 1921, the irrigation season was fixed as beginning on the 15th day of April and ending on the 1st day of October of each year (Decree Finding No. 23). However, additional information is available from the decree indicating the duty allowed for the right is 3.0 acre-feet/acre (AF/ac), with a rate of 1/80 cfs/acre (Decree Finding No. 28) for 120 days.
7. Water has been used within the five-year period prior to submission of the allocation of conserved water application, and no evidence is available that would demonstrate that the right is subject to forfeiture under ORS 540.610.
8. A pump, pipeline, and sprinkler system sufficient to use the full amount of water allowed under the existing right were present within the five-year period prior to submittal of the application.
9. The Applicant requests that the conserved water be allocated as follows:

	State's Portion			Applicant's Portion			Conserved Water		
	Percentage	Maximum Rate (CFS)	Max. Duty (Volume) AF	Percentage	Maximum Rate (CFS)	Max. Duty (Volume) AF	Percentage	Maximum Rate (CFS)	Max. Duty (Volume) AF
Certificate 92000	100%	2.4	576.0	0%	0	0	100%	2.4	576.0

10. The Applicant requests that the priority date for any conserved water be the same as the originating right.
11. The Applicant received approximately 100% of non-reimbursable state and federal funds for the conservation project.
12. The Applicant is dedicating 100% of the conserved water for instream purposes and will not result in any conserved water for out of stream use, therefore, water use is not expected to significantly affect land use. The Applicant is not required to submit a completed Land Use Form.
13. The Applicant anticipates implementation of the conservation measures to occur on or before July 31, 2029.

14. The Applicant proposes that any instream water right created be for the purposes of conservation, maintenance, and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat, other ecological values, and water quality.
15. The Applicant requested the Department protect the new instream water right created from the conserved water under Certificate 92000 from the authorized point of diversion to the mouth of the mainstem Hood River at approximately River Mile 0.0.
16. The Applicant requested the deadline for submitting the Notice of Completion of July 31, 2029. The Applicant will submit a Request for Finalization of the allocation on or before November 30, 2029.
17. The application meets the requirements of OAR 690-018-0040.
18. The Department has determined the proposed instream flows are necessary to support instream flow uses. Instream Water Right Certificate 94270 exists in the stream reach where the proposed instream water right is to be protected may not always be met. The public benefit or use for the proposed instream water right is for the same instream flow purposes. The priority date of Certificate 94270 is NOVEMBER 25, 1895, *plus one minute*.
19. On May 22, 2026, the Department corresponded with the Applicant regarding discrepancies in the application. More specifically, the District's Conserved Water Policy needed to be reviewed and updated, pursuant to OAR 690-018-0025(2), and the volume (duty) of water being conserved did not equal the difference between the water right of record and the amount needed for the existing uses.
20. On May 27, 2026, the Department received a revised application, which include an updated Conserved Water Policy and a corrected volume (duty) of water being conserved, resolving the discrepancies.
21. Notice of the application for transfer was published on the Department's notice on July 28, 2026, pursuant to OAR 690-018-0050(5). No comments were filed in response to the notice.

Allocation of Conserved Water Review Criteria [OAR 690-018-0050]

22. The proposed allocation of conserved water will result in a reduced diversion of the use allowed under the existing right pursuant to OAR 690-0018-0050(4)(a). (Finding of Fact #4).
23. On May 11, 2026, the District #3 Watermaster performed a review of the proposed Allocation of Conserved Water Project. The Watermaster determined that the conservation project would not harm other water rights; therefore, no quantity of conserved water is needed to mitigate for harm to other water rights. OAR 690-018-0050(4)(b) and (d).

24. The conservation project is consistent with the local comprehensive land use plan requirements established in OAR 690-005-0045. OAR 690-018-0050(4)(c). (Finding of Fact #12).
25. Pursuant to OAR 690-018-0050(4)(e), the new reduced rate and duty for the existing uses involved in Allocation of Conserved Water Application CW-150 under Certificate 92000 are as follows:

Certificate	Rate		Duty	
	Maximum CFS	CFS/AC	Maximum AF	AF/AC
92000	94.1	1/80	22,400.78	2.62

(Finding of Fact #4).

26. Pursuant to OAR 690-018-0050(4)(e), the rate and volume allocated to the State for instream use is as follows:

Priority Date	Maximum Rate (cfs)	Maximum Duty (Volume) (AF)
November 25, 1895	2.4	576.0

(Finding of Fact #9).

27. As required by OAR 690-018-0050(4)(f), the Department has determined that the instream right created will support public benefits. (Finding of Fact #18).
28. The new instream water right created will be protected in East Fork Hood River from the authorized point of diversion as described in Finding of Fact #5, at approximately River Mile 6.4 to the mouth of the East Fork Hood River, described as where the East Fork and West Fork Hood River join to form the mainstem Hood River. This is further described as Hood River Mile 12.5 in the NWNE of Section 1, Township 1 North, Range 9 East, W.M., at latitude 45.605229, longitude 121.633196. OAR 690-077-0015(7).
29. EFID had requested the Department protect the instream water right from the authorized point of diversion on East Fork Hood River to the mouth of Hood River. If water is to be protected from the source stream (East Fork Hood River) into a receiving stream (Hood River), the quantity must be measurable in the receiving stream. The Department has determined the 2.4 cfs is not a measurable quantity in Hood River. OAR 690-018-0050(4)(h); OAR 690-077-0015(7).
30. The State's portion of conserved water may be protected for 120 days during the irrigation season without enlarging the right.
31. The instream right shall allow the use and protection of flows as follows:

Source: East Fork Hood River, tributary to Hood River

Priority Date	Period	Rate (cfs)	Volume (AF)
November 25, 1895	June 3 through September 30	2.4	576.0

From the authorized point of diversion at approximately River Mile (RM) 6.4 on the East Fork of Hood River:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
1 S	10 E	WM	4	NW SW	1	3750 FEET SOUTH AND 430 FEET EAST FROM THE NW CORNER OF SECTION 4

To: the mouth of the East Fork Hood River, described as where the East Fork and West Fork of Hood River join to form the mainstem Hood River. This location is further described as Hood River Mile 12.5 in the NWNE of Section 1, Township 1 North, Range 9 East, W.M., at latitude 45.605229, longitude 121.633196. (Findings of Fact #9 and #26).

32. The amount and timing of the proposed instream flows are allowable within the limits and use of the original water right. OAR 690-077-0015(9).
33. The protection of flows within the proposed reach is appropriate, considering:
 - a. The instream water use begins at the recorded point of diversion.
 - b. The location of confluences with other streams downstream of the point of diversion.
 - c. There are no known areas of natural loss of streamflow to the river bed downstream from the point of diversion; and
 - d. Any return flows resulting from the exercise of the existing water right would re-enter the river downstream of the reach of the instream water right.OAR 690-077-0015(7).
34. The deadline for submitting a Notice of Completion is July 31, 2029. The deadline for submitting a Request for Finalization is November 30, 2029. (Finding of Fact #16). OAR 690-018-0050(4)(i).
35. No other conditions or limitations are needed to prevent or mitigate for harm to existing water rights. (Finding of Fact #23). OAR 690-018-0050(4)(j).

Determination and Proposed Action

The project described in Allocation of Conserved Water Application CW-150, is consistent with the criteria in ORS 537.455 to 537.500, and OAR Chapter 690, Divisions 018 and 077. If protests are not filed pursuant to OAR 690-018-0050(6), the conserved water application will be approved.

If Allocation of Conserved Water Application CW-150 is approved, the Order Approving will include the following:

1. *The proposed change will result in a reduced diversion for the uses allowed under the original water right. Findings of Fact #4 and #22.*
2. *The proposed allocation of conserved water will not harm existing water rights. Finding of Fact #23 and #35.*

3. *The application is consistent with the requirements established in OAR 690-005-0045. Finding of Fact #12 and #24.*
4. *The changes proposed in CW-150 are approved.*
5. *The quantities of water conserved and allocated are as follows:*

	State's Portion			Applicant's Portion			Conserved Water		
	Percentage	Maximum Rate (CFS)	Max. Duty (Volume) AF	Percentage	Maximum Rate (CFS)	Max. Duty (Volume) AF	Percentage	Maximum Rate (CFS)	Max. Duty (Volume) AF
Certificate 92000	100%	2.4	576.0	0%	0	0	100%	2.4	576.0

6. *The right to the use of the water is restricted to beneficial use at the places of use described and is subject to all other conditions and limitations contained in Certificate 92000 and any related decree.*
7. *Water Right Certificate 92000 is modified. The Department will issue a superseding Certificate for the existing use and place of use (described in Finding of Fact #5) as modified by subsequent transfers, at the reduced rate and duty as follows, when it determines that is necessary for record keeping:*

Use: *IRRIGATION of 8531.77 ACRES, (INCLUDES INCHOATE ACRES, and 15.0 ACRES EQUIVALENT INDUSTRIAL*

Priority Date: *NOVEMBER 25, 1895*

Rate: *94.10 CUBIC FEET PER SECOND (CFS), being 93.93 CFS for IRRIGATION (INCLUDING INCHOATE), and 0.17 CFS for INDUSTRIAL USE*

Limit/Duty: *The amount of water used for irrigation, is limited to a diversion of 1/80 of one cubic foot per second, or its equivalent for each acre irrigated, and shall be further limited to a diversion of not to exceed 3.0 acre-feet per acre for each acre irrigated during the irrigation season of each year, and an annual volume limitation of 22,400.78 ACRE-FEET per year.*

Source: *EAST FORK HOOD RIVER, tributary to HOOD RIVER*
8. *Water use measurement conditions:*
 - a. *The water user shall maintain the meters or measuring devices in good working order.*
 - b. *The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

9. All conserved water shall be managed instream until a Request for Finalization is submitted as follows:

Priority Date	Period	Rate (cfs)	Volume (acre-feet)
November 25, 1895	June 3 through September 30	2.4	576.0

East Fork Hood River, tributary to Hood River

From the authorized point of diversion at approximately River Mile (RM) 6.4:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
1 S	10 E	WM	4	NW SW	1	3750 FEET SOUTH AND 430 FEET EAST FROM THE NW CORNER OF SECTION 4

To: the mouth of the East Fork Hood River, described as where the East Fork and West Fork of Hood River join to form the mainstem Hood River. This location is further described as Hood River Mile 12.5 in the NWNE of Section 1, Township 1 North, Range 9 East, W.M., at latitude 45.605229, longitude 121.633196. (Findings of Fact #9 and #26).

Upon Filing the Request for Finalization:

10. The project is complete, and no additional time is needed for finalization.
11. The Department shall issue a new instream water right certificate for the conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat and other ecological values; and water quality, as follows:

Priority Date	Period	Rate (cfs)	Volume (acre-feet)
November 25, 1895	June 3 through September 30	2.4	576.0

East Fork Hood River: From the authorized point of diversion under Certificate 92000 at approximately River Mile (RM) 6.4:

Twp	Rng	Mer	Sec	Q-Q	GLot	Measured Distances
1 S	10 E	WM	4	NW SW	1	3750 FEET SOUTH AND 430 FEET EAST FROM THE NW CORNER OF SECTION 4

To: the mouth of the East Fork Hood River, described as where the East Fork and West Fork of Hood River join to form the mainstem Hood River. This location is further described as Hood River Mile 12.5 in the NWNE of Section 1, Township 1 North, Range 9 East, W.M., at latitude 45.605229, longitude 121.633196. (Findings of Fact #9 and #26).

Within the specified stream reaches, the amount of water to which this right is entitled shall not exceed the quantity of water legally available at the original points of diversion. Stream channel losses and gains calculated based on available data and the use of water by senior appropriators will determine the amount of water to which this right is entitled downstream from the original point of diversion within the specified stream reach.

Dated at Salem, Oregon August 21, 2026.

Lisa J. Jaramillo, Transfer and Conservation Section Manager, for
IVAN GALL, DIRECTOR
Oregon Water Resources Department

Mailing Date: August 24, 2026

Pursuant to ORS 536.077(4) and (5), if no protest of this Proposed Final Order is received by October 9, 2026, and the Department does not withdraw this Proposed Final Order on or before November 11, 2026, this Proposed Final Order is a final order without any further action by the Department on November 11, 2026.

Protests and Requests for Party Status

The following sections explain how to: (1) file a protest in opposition to this Proposed Final Order to request a contested case hearing on this Proposed Final Order; and (2) file a request for party status to request to participate in any contested case proceeding in support of this Proposed Final Order.

Protests: Under the provisions of ORS 537.470(5) and ORS 536.077(1), any person may protest this Proposed Final Order. Protests may be mailed or hand delivered to the Oregon Water Resources Department at 725 Summer Street NE, Suite A, Salem, OR 97301. If you submit a protest by U.S. mail, please consider mailing early to ensure the Department receives the protest by the deadline. Protests may be emailed to will.d.davidson@water.oregon.gov, but payment of Protest fees cannot be accepted electronically and must be received by the Department by mail or hand delivery prior to the deadline. Protests and protest fees must be received by the Water Resources Department no later than **October 9, 2026**.

Protests must meet the following requirements:

- Be in writing;
- Include the protestant's name, address, telephone number, and email address, if the protestant has an email address;
- Include the name, address, telephone number, and email address of the protestant's attorney, if the protestant is represented by an attorney;

- Include a description of the protestant's interest in the Proposed Final Order, and, if the protestant claims to represent the public interest, a precise statement of the public interest represented;
- Include a detailed description of how the action proposed in the Proposed Final Order would impair or be detrimental to the protestant's interest and/or the claimed public interest;
- Identify which of the Proposed Final Order's recommended findings of fact, conclusions of law or conditions of approval the protestant objects to;
- Raise all reasonably ascertainable issues and include all reasonably available arguments that support the protestant's position;
- Include any citation of legal authority to support the protest, if known;
- Explain how the issues raised in the protest are within the Department's jurisdiction;
- If the protestant is the applicant, include a protest fee of \$720 required by ORS 536.050; and
- If the protestant is not the applicant, include a protest fee of \$1,425 required by ORS 536.050.

Requests for Party Status: Under the provisions of ORS 537.470(5) and ORS 536.077(2), if this Proposed Final Order is protested, any person who supports this Proposed Final Order may file a request for party status to request to participate in any contested case proceeding on the Proposed Final Order or for judicial review of a final order resulting from the Proposed Final Order. There is no need for the applicant to file a request for party status. The applicant will automatically be a party to any contested case proceeding on this Proposed Final Order. Requests for party status must be mailed or hand delivered to the Oregon Water Resources Department at 725 Summer Street NE, Suite A, Salem, OR 97301. If you submit a request for party status by U.S. mail, please consider mailing early to ensure the Department receives the request by the deadline. Requests for party status may be emailed to will.d.davidson@water.oregon.gov, but payment of request for party status fees cannot be accepted electronically and must be received by the Department by mail or hand delivery prior to the deadline. Requests for party status and request for party status fees must be received by the Water Resources Department no later than **November 9, 2026**.

Requests for party status must be in writing and include the following:

- Names, addresses, and email addresses (if any) of the requestor and any organization the requestor represents;
- Name, address, and email address of the requestor's attorney, if any;
- A statement of whether the request is for participation as a party or a limited party, and, if as a limited party, the precise area or areas in which participation is sought;
- If the requestor seeks to protect a personal interest in the outcome of any contested case hearing on the Proposed Final Order, a detailed statement of the requestor's

interest, economic or otherwise, and how such interest may be affected by the results of the hearing;

- If the requestor seeks to represent a public interest in the results of any contested case hearing on the Proposed Final Order, a detailed statement of such public interest, the manner in which such public interest will be affected by the results of the hearing, and the requestor's qualifications to represent such public interest;
- A statement of the reasons why existing parties to the proceeding cannot adequately represent the private and/or public interest(s) the requestor seeks to represent; and
- The request for party status fee of \$1,425 required by ORS 536.077(2)(b)(C) and ORS 536.050.

After the deadline for requests for party status, the Department will provide copies of any timely requests for party status, accept responses to requests for party status, and consider and rule on timely requests for party status as provided in OAR 690-002-0225.

Additional Notices

Notice of requirement to provide updated contact information: Parties must timely provide the Department with updated contact information, including any change of address or primary means of electronic communication. The contact information provided in the protest or request for party status, as applicable, is presumed to be valid for the purposes of service and notification of upcoming referral to the Office of Administrative Hearings unless timely updated by the party. OAR 690-002-0081.

Notice of the circumstances under which this Proposed Final Order will become a final order: If no protest of this Proposed Final Order is timely received and the Department does not withdraw this Proposed Final Order for reconsideration within 33 days after the close of the period for submitting a protest, this Proposed Final Order will become a final order on the date that is 33 days after the close of the period for submitting a protest, with no further action required by the Department. If a protest or protests are timely received, but later: (1) all timely-filed protests are withdrawn and the withdrawals are not based on a settlement agreement requiring changes to this Proposed Final Order; (2) all protestants fail to appear at a scheduled hearing; or (3) all protestants notify the Department or the administrative law judge that the protestants will not appear at a scheduled hearing, the protestants will have waived any right to a hearing, and the Department or the administrative law judge will issue an order dismissing the protests and notifying the parties that this Proposed Final Order has become a final order. OAR 690-002-0235; OAR 137-003-0672. The Department designates the relevant portions of its file on this matter, including all materials that you have submitted relating to this matter, as the record for the purpose of proving a prima facie case upon default. OAR 137-003-0672.

Notice of right to be represented by an attorney: You may be represented by an attorney at any contested case hearing on this Proposed Final Order. Legal aid organizations may be able to assist a party with limited financial resources. Generally, partnerships, corporations,

associations, governmental subdivisions or public or private organizations are represented by an attorney. However, consistent with OAR 690-002-0020 and OAR 137-003-0555, an “authorized representative” as defined at OAR 137-003-0555(1)(b) may represent a partnership, corporation, association, governmental subdivision or public or private organization if the Department determines that appearance of a person by an authorized representative will not hinder the orderly and timely development of the record in this case.

Notice to active duty servicemembers: Active-duty service members have a right to stay proceedings under the federal Service Members Civil Relief Act. 50 U.S.C. App. §§501-597b. For more information contact the Oregon State Bar at 800-452-8260, the Oregon Military Department at 971-355-4127, or the nearest United States Armed Forces Legal Assistance Office through <http://legalassistance.law.af.mil>.

If you have questions about how to file a protest or a request for party status, or if you have previously filed a protest or a request for party status and you want to know the status, please contact Will Davidson at 503-507-2749.

If you have questions about the Department or any of its programs, please contact our Water Resources Customer Service Group at 503-986-0900.
