Thanks Duff! I found the file with Angee and have forwarded it to Jonnine's inbox. The 4/4/2023 assignment confirmation to only Adrienne is documented in the file and in Wris, but it's not reflected on the 6/20/2025 certificate.

Jonnine, please let me know if a correcting certificate will be issued to remove Michael Newman's name.

Thanks & have a great weekend!

ADRIENNE CALABRESE,

Petitioner,

v.

MICHAEL LANE NEWMAN,

Respondent.

No. 22DR09497

GENERAL JUDGMENT OF
 DISSOLUTION OF DOMESTIC
 PARTNERSHIP

OWRD

THIS MATTER came before the Court for trial on January 20, 2023. Petitioner ADRIENNE CALABRESE appeared in person and was represented by Kendell H. Ferguson. Respondent MICHAEL LANE NEWMAN did not appear, despite having received notice of the trial date in October 2022 and having contacted the court regarding the hearing and being provided information as to how to request a postponement and how to appear remotely. The Court having received the testimony and evidence presented by the Petitioner; having reviewed the records and documents on file herein, being fully advised in the premises and having issued an oral ruling from the bench, makes the following findings:

1. The parties were never married.

2. The parties began cohabitating in a nonmarital domestic relationship in August 2015.

3. The parties separated in April 2021, when Respondent moved back to California. This was the end of the parties' domestic relationship. The parties split their personal property at this time.

1 4. During their cohabitation, the parties jointly acquired two parcels of real
2 property and one Kubota Tractor.

3 5. On September 27, 2017, the parties purchased a parcel of real property
4 located at 16450 Water Gap Road, Grants Pass, Oregon for \$539,950.00. The current
5 balance due on the Water Gap property is \$360,360.67. The parties took out a joint loan
6 for the purchase with Umpqua Bank, and opened a joint account at Umpqua Bank to
7 service the loan. The property was held in the parties' individual names, not as tenants in
8 common but with right of survivorship. The property is currently worth approximately
9 \$700,000. The parties jointly paid on the Water Gap property until Respondent left in
10 April 2021. Since that time, Petitioner has made all of the payments on the Water Gap
11 property. The property has an estimated equity of \$339,639.33.

12 6. On or about February 21, 2020, the parties purchased a cabin in Santa
13 Barbara, but due to Forest Service regulations, the cabin was placed in Respondent's
14 name alone. This real property has an outstanding mortgage to a private money lender
15 in the approximate amount of \$120,000. The property is currently worth approximately
16 \$350,000. Petitioner was obligated to pay the power for the cabin and did so until
17 December 2021. The parties had no express agreement to share the value of the cabin,
18 but the behavior of the parties did establish a domestic partnership and an implicit intent
19 to share equally the value of the cabin, giving both parties an interest in the cabin. The
20 property has an estimated equity of \$230,000.

21 7. The parties jointly purchased a Kubota tractor for \$54,572.05 on May 9,
22 2019. The parties jointly paid on the Kubota until Respondent left in April 2021. Since
23 that time, Petitioner has made all of the payments on the Kubota. The current balance
24 due on the Kubota is \$15,462.26. Respondent filed a police report alleging a total value
25 of \$77,609.10 for the Kubota and its implements. Petitioner agreed to this value. The
26 Kubota has equity of \$62,146.84.

2 Santa Barbara Real Property

3 Respondent is awarded the real property located at 91 Paradise Road, Santa
4 Barbara, CA, 93105, free and clear of any interest of Petitioner, and subject to the
5 outstanding loan, more particularly described as follows:

6 COUNTY OF SANTA BARBARA, STATE OF CALIFORNIA,
7 LOT 91, SANTA YNEZ TRACT, SANTA BARBARA DISTRICT, AS SHOWN
8 ON THE MAP IN THE OFFICE OF THE FORREST SUPERVISOR OF THE
9 LOS PADRES DISTRICT, SANTA BARBARA RANGER DISTRICT, REGION
10 5, STATE OF CALIFORNIA.

11 This award shall offset the equity in the Water Gap property that would otherwise
12 be owed to Respondent.

13 4.

14 Kubota Tractor

15 Respondent is awarded the Kubota Tractor, free and clear of any interest of
16 Petitioner. Petitioner shall pay off the remaining balance owed on the tractor of
17 \$15,462.26 and shall convey title to the tractor to Respondent. This award shall offset
18 the equity in the Water Gap property that would otherwise be owed to Respondent.

19 5.

20 Joint Debts

21 Petitioner paid \$85,610.02 towards the parties' joint debts. Respondent's share of
22 those debts is \$42,805.01. This amount is hereby applied to offset Respondent's
23 remaining equity in the Water Gap property.

24 6.

25 Equalizing Judgment

26 Petitioner is receiving the Water Gap property for a total equity of \$339,639.33.
27 Respondent is receiving the Santa Barbara property, with an equity of \$230,000, the
Kubota - free from any liens, for a value of \$77,609.10, and the offset of joint debts paid
by Petitioner for a total offset of \$42,805.01, giving Respondent a total value of

1 \$350,414.11. Petitioner agreed that the amounts were close enough and that no
2 equalizing judgment was necessary to Petitioner for the disparity in distribution of the
3 parties' assets and liabilities. All other personal property has already been divided
4 between the parties.

5 7.

6 Attorney Fees

7 Each party shall be responsible for their own Attorney Fees incurred in this
8 matter.

9 8.

10 Jurisdiction

11 Josephine County Circuit Court shall retain jurisdiction over this matter.

The time allowed to complete the transfer is specified in the final order. YOU SHOULD GIVE PARTICULAR ATTENTION TO THE TIME LIMIT. The water right for any portion of the authorized change in character of use or change in place of use NOT carried out within the time allowed will be lost.

An extension of the time limit can be allowed only upon a showing that diligent effort has been made to complete the actual change(s) within the time allowed.

You are required to hire a Certified Water Rights Examiner (CWRE) to complete a Claim of Beneficial Use report and map which must be submitted to this Department within one year of the date you complete the change(s) or within one year of the completion date authorized in the transfer final order, whichever occurs first.

If you have any questions related to the approval of this temporary transfer, you may contact your caseworker, Corey Courchane by telephone at (503) 979-3917 or by e-mail at Corey.A.Courchane@oregon.gov.

 - c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

5. The former place of use of the transferred right shall no longer receive water under the right.
6. Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2023**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.
7. After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.

SUBJECT: Water Right Transfer Application T-13523

Please find enclosed the Preliminary Determination indicating that, based on the information available, the Department intends to approve application T-13523. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication, simultaneously with issuance of the Preliminary Determination. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Preliminary Determination or a standing statement supporting the Department's decision. The protest period will end 30 days after the Department's notice.

If no protest is filed, the Department will issue a Final Order consistent with the Preliminary Determination. You should receive a copy of the Final Order about 30 days after the close of the protest period.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Preliminary Determination to present information and arguments supporting their position in a quasi-judicial proceeding.

IMPORTANT: Due to COVID-19, the Department's office is closed to walk-in services. The Department encourages the submission of protests by U.S. mail. Please consider mailing early to ensure the Department receives the protest by the deadline specified above.

Please do not hesitate to contact me, at corey.a.courchane@water.oregon.gov or (503) 979-3917, if I may be of assistance.

Sincerely,

Your response and submittal of the items outlined below are required by December 13, 2021.

Required items needing your immediate attention:

1. Please carefully review the Draft Preliminary Determination to verify that it accurately reflects the changes you intend to make and to become familiar with the proposed conditions.

 - ii. Prepared within 3 months of recording of a water right conveyance agreement; **OR**
 - iii. Have a prepared date showing ownership at the time a water right conveyance agreement was recorded.

If water right conveyance agreements are involved, it is helpful to provide copies of those agreements along with the Report of Ownership.

IMPORTANT: In order for the Department to clearly understand the date that the title company prepared the Report of Ownership, the title company must indicate/state the date that they prepared the report on the coversheet and/or first page of the report.

Conditions to your water right...

The Watermaster has required a water measurement device(s) at the new diversion point(s) prior to diversion of water. Enclosed is a contact information sheet to assist you in pursuing additional information or approval of the required (or alternate) device(s).

Please note the proposed date by which all conditions must be met: October 1, 2023. If the required completion date is insufficient to comply with any of the conditions, you may request more time, at no cost to you, during this stage of processing. **Please let me know by the comment deadline if you will need more time and explain the reasons why.**

What happens next...

Once the preliminary determination is issued a publication period is required. The Department will publish a notice in their weekly publication, which opens a 30-day period in which the transfer can be protested.

1. Your written response to the conditions and proposed action in the Draft Preliminary Determination (e-mail is acceptable); and
2. The Report of Ownership, including affidavits of consent from any landowners shown in the ownership report who have not signed the transfer application. The title company must indicate/state the date that they prepared the ownership report on the coversheet and/or first page of the report.

If we do not receive the items listed above by December 13, 2021, a Preliminary Determination may be issued denying the application as incomplete.

14. Do conditions need to be included in the transfer order to avoid enlargement of the right or injury to other rights? ☐ No ☒ Yes, as checked and provided below:

☐ For POU changes that involve micro-irrigation, provide the monitoring and reporting conditions necessary to prevent injury/enlargement:

☐ A Headgate should be required prior to diverting water.

Before water use may begin under this order, the water user shall install a **totalizing flow meter***, or, with prior approval of the Director, another suitable measuring device, ☒ at each point of diversion/appropriation (new and existing) OR at each new point of diversion/appropriation ☐ with the exception that water rights issued to the Bureau of Reclamation or an irrigation district (or similar entity) are not subject to this condition.*

b. The water user shall maintain the meters or measuring devices in good working order.

c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.

Reference: Application T- 13523

On September 23, 2020, we received your water right Transfer application. The application was accompanied by \$2090.00. Our receipt number 133474 is enclosed.

By copy of this letter, we are asking the Watermaster for a report regarding the potential for injury to existing water rights which may be caused by the requested change.

This application may require publication of a notice for two consecutive weeks in a newspaper with general circulation in the area where the water right is located. If it is determined that newspaper notice will be required, the Department will prepare the notice and notify you of the cost. You will be responsible for submitting payment to the Department prior to publication of the notice.

Except as provided under ORS 540.510(3) for municipalities, you may not use water in the new place of use until a final order approving the transfer application has been issued by the Department. In order to avoid any possible forfeiture of the water right, you should continue to use the water as described by your existing water right.

If the land is sold before the application is approved, the buyer's consent to the application will be required unless a recorded deed or other legal document clearly established that the water right was not conveyed in the sale.

Refer to the following page for a chart showing the steps and expected timelines for the processing of your application.

If you have any questions, please contact the Transfer Section at (503) 986-0815.

- ☒ Permanent quality printed with dark ink on good quality paper.
- ☒ The size of the map can be 8½ x 11 inches, 8½ x 14 inches, 11 x 17 inches, or up to 30 x 30 inches. For 30 x 30 inch maps, one extra copy is required.
- ☒ A north arrow, a legend, and scale.
- ☒ The scale of the map must be: 1 inch = 400 feet, 1 inch = 1,320 feet, the scale of the Final Proof/Claim of Beneficial Use Map (the map used when the permit was certificated), the scale of the county assessor map if the scale is not smaller than 1 inch = 1,320 feet, or a scale that has been pre-approved by the Department.

*Example for Line 5a calculation to transfer 45.0 acres of Primary Certificate 12345 (total 1.25 cfs for 100 acres) and 45.0 acres of Supplemental Certificate 87654 (1/80 cfs per acre) on the same land:

1. For irrigation calculate cfs for each water right involved as follows:
 - a. Divide total authorized cfs by total acres in the water right (for C12345, $1.25 \text{ cfs} \div 100 \text{ ac}$); then multiply by the number of acres to be transferred to get the transfer cfs ($\times 45 \text{ ac} = 0.56 \text{ cfs}$).
 - b. If the water right certificate does not list total cfs, but identifies the allowable use as 1/40 or 1/80 of a cfs per acre; multiply number of acres proposed for change by either 0.025 (1/40) or 0.0125 (1/80). (For C87654, $45.0 \text{ ac} \times 0.0125 \text{ cfs/ac} = 0.56 \text{ cfs}$)
2. Add cfs for the portions of water rights on all the land included in the transfer; however **do not count cfs for supplemental rights on acreage for which you have already calculated the cfs fee for the primary right on the same land**. The fee should be assessed only once for each "on the ground" acre included in the transfer. (In this example, blank 5a would be only 0.56 cfs, since both rights serve the same 45.0 acres. Blank 5b would be 0 and Line 5 would then also become 0).

Additional remarks:POU change is in within original 1/4 1/4 and taxlot. Original map for certificate is at 1:1320 scale and is very hard to disseminate actual place of use. This transfer has been prepared in coordination with the D14 watermaster to bring the necessary level of precision to present day standards to alleviate concerns of enlargement and incorrect place of use in relation to current OWRD records.

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☒ Yes ☐ No

If YES, list the certificate, water use permit, or ground water registration numbers: **Permit R-14849.**

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

http://apps.wrd.state.or.us/apps/gw/well_log/Default.aspx

AND/OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log. For *proposed wells not yet constructed or built*, provide "a best estimate" for each requested information element in the table. The Department recommends you consult a licensed well driller, geologist, or certified water right examiner to assist with assembling the information necessary to complete Table 3.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide the information will delay the processing of your transfer application until it is received. The information is necessary for the department to assess whether the proposed well(s) will access the same source aquifer as the authorized point(s) of appropriation (POA). The Department is prohibited by law from approving POA changes that do not access the same source aquifer.
