7. I attest, as indicated under either **Item a.** or **Item b.** below, that:

a. Beneficial water use is evidenced by one of the following:

- ☐ Certificate # \_\_\_\_\_ confirming beneficial water use to perfect Permit # \_\_\_\_\_ was issued within the past five years.

**NOTE:** This cannot be a remaining right certificate.

- ☐ Certificate # \_\_\_\_\_ confirming completion of a change in place of use, point(s) of diversion/ appropriation, or character of use authorized under Transfer Application #T- \_\_\_\_\_ was issued within the past five years.

- ☐ Part or all of the water right was leased instream at some point within the last five years. The instream lease number is: \_\_\_\_\_

**NOTE:** If the entire right proposed for transfer was not leased, then additional evidence of use is needed for the portion not leased instream.

- ☐ Water has been diverted at the actual current point of diversion for more than 10 years for beneficial use under Certificate # \_\_\_\_\_ (For Historic POD Transfers).

**-OR-**

b. Water was not used in the past 5 years, but the water right is not subject to forfeiture and documentation is attached to support the assertion that the presumption of forfeiture for nonuse would be rebutted under ORS 540.610(2) due to the following:

- ☐ Consistent with ORS 540.610(2)(e), the period of nonuse occurred during a period of time within which land was withdrawn from use in accordance with the Federal Conservation Reserve Program.
- ☐ Consistent with ORS 540.610(2)(h), the nonuse occurred during a period of time when I/we was/were using reclaimed water in lieu of using water under the water right.
- ☐ Consistent with ORS 540.610(2)(j), I/we was/were unable to make full beneficial use of the water because water was not available. During this time I/we had a facility capable of handling the full allowed rate and duty, and I/we was/were otherwise ready, willing and able to beneficially use the entire amount of water allowed under the water right.
- ☐ Consistent with ORS 540.610(2)(L), the nonuse occurred during a period of time within which the exercise of the water right was not necessary due to climatic conditions. During this time I/we had a facility capable of handling the full allowed rate and duty, and I/we was/were otherwise ready, willing and able to beneficially use the entire amount of water allowed under the water right.
- ☐ Consistent with ORS 540.610(2)(n), the nonuse of the supplemental water right occurred during a period of time when the primary water right used in conjunction with the supplemental water right was leased as an in-stream water right pursuant to ORS 537.348.
- ☐ Other (please explain and cite the statutory reference under ORS 540.610(2) that applies):

8. I understand that if I do not attach one or more of the documents shown in **Table 2** to support the above statements, my application will be considered incomplete.

## NOTE TO LOCAL GOVERNMENTS

The Oregon Water Resources Department (OWRD) requires applicants to obtain land use information to ensure the water right does not result in land uses that are incompatible with your comprehensive plan. Please complete the form and return it to the applicant for inclusion in their application.

You will receive notice via OWRD's weekly Public Notice once the applicant formally submits their request to OWRD. The notice will give more information about OWRD's water right process and provide additional comment opportunities. If you have questions concerning this form, please contact OWRD's Customer Service Group at 503-986-0900 or [WRD\\_DL\\_customerservice@water.oregon.gov](mailto:WRD_DL_customerservice@water.oregon.gov).
