

**BEFORE THE WATER RESOURCES DEPARTMENT
OF THE
STATE OF OREGON**

In the Matter of Transfer Application	)	PROPOSED FINAL ORDER APPROVING
T-14569, Douglas County	)	A CHANGE IN POINT OF DIVERSION

Authority

Oregon Revised Statutes (ORS) 540.505 to 540.580 establish the process in which a water right holder may submit a request to transfer the point of diversion, place of use, or character of use authorized under an existing water right. Oregon Administrative Rules (OAR) Chapter 690, Division 380 implement the statutes and provides the Department's procedures and criteria for evaluating transfer applications.

Applicant

TRYSTAN CAMPBELL
218 WHITE OAK LANE
ROSEBURG, OR 97471

Findings of Fact

1. On December 2, 2024, Trystan Campbell filed an application to change the point of diversion under Certificate 65226. The Department assigned the application number T-14569.
2. Notice of the application for transfer was published on December 10, 2024, pursuant to OAR 690-380-4000. No comments were filed in response to the notice.
3. On May 22, 2026, the Department sent a copy of the Initial Review to the applicant, proposing to approve Transfer Application T-14569. The Initial Review cover letter provided a deadline of June 22, 2026, for the applicant to respond. The applicant requested that the Department proceed with issuance of a Proposed Final Order and provided the necessary information to demonstrate that the applicant is authorized to pursue the transfer.

Under ORS 540.520(8) and (9) and ORS 536.077(1), any person may file a protest of this Proposed Final Order within 30 days after publication of notice of this Proposed Final Order in the Department's weekly notice. Under ORS 540.520(9) and ORS 536.077(2), if a protest is filed, any person who supports this Proposed Final Order may file a request for party status within 30 days after the deadline for filing a protest. Please refer to the end of this document for further information about filing protests and requests for party status.

4. The right to be transferred is as follows:

Certificate: 65226 in the name of WENDY ESTABROOK (perfected under Permit S-49395)

Use: IRRIGATION OF 5.1 ACRES

Priority Date: JUNE 19, 1985

Rate: 0.06 CUBIC FOOT PER SECOND

Limit/Duty: The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to ONE-EIGHTIETH of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 2.5 acre-feet per acre for each acre irrigated during the irrigation season of each year.

Source: THE UMPQUA RIVER, a tributary of THE PACIFIC OCEAN

Authorized Point of Diversion:

Twp	Rng	Mer	Sec	Q-Q	DLC	Measured Distances
26 S	6 W	WM	18	SW SW	60	400 FEET NORTH AND 240 FEET EAST FROM THE SW CORNER OF SECTION 18

Authorized Place of Use:

IRRIGATION

26 S	7 W	WM	13	NE SW	38	1.5
26 S	7 W	WM	13	NW SE	38	3.6
					Total	5.1

5. Transfer Application T-14569 proposes to move the authorized point of diversion approximately 1.1 miles downstream from the existing point of appropriation to:

Twp	Rng	Mer	Sec	Q-Q	GLOT	Measured Distances
26 S	6 W	WM	7	SW SW	7	POD 1: 630 FEET NORTH AND 960 FEET EAST FROM THE SW CORNER OF SECTION 7

6. The Oregon Department of Fish and Wildlife (ODFW) has determined that a fish screen is necessary at the new point of diversion to prevent fish from entering the diversion and that the diversion is not currently equipped with an appropriate fish screen. This diversion may be eligible for screening cost-share funds.

Transfer Review Criteria [OAR 690-380-0100(14), OAR 690-380-4010(2), and OAR 690-380-2110(2)]

7. Water has been used within the last five years according to the terms and conditions of the right. There is no information in the record that would demonstrate that the right is subject to forfeiture under ORS 540.610.

8. A water delivery system sufficient to use the full amount of water allowed under the existing right was present within the five-year period prior to submittal of Transfer Application T-14569.
9. The water right is subject to transfer as defined in ORS 540.505(4) and OAR 690-380-0100(14).
10. The proposed point of diversion diverts water from the same source of surface water as the authorized point of diversion, as required by OAR 690-380-2110(2).
11. The proposed change, as conditioned, would not result in enlargement of the right.
12. The proposed change, as conditioned, would not result in injury to other existing water rights.
13. All other application requirements are met.

Determination and Proposed Action

The change in point of diversion proposed in Transfer Application T-14569 appears to be consistent with the requirements of ORS 540.505 to 540.580 and OAR 690-380-5000. If protests are not filed pursuant to OAR 690-380-4030, the transfer application will be approved.

If Transfer Application T-14569 is approved, the final order will include the following:

1. *The change in point of diversion proposed in Transfer Application T-14569 is approved.*
2. *The right to the use of the water is restricted to beneficial use at the place of use described and is subject to all other conditions and limitations contained in Certificate 65226 and any related decree.*
3. *Approval of this transfer application does not constitute nor grant legal access onto or through another person's property for purposes of accessing the new point of diversion.*
4. *Water right Certificate 65226 is cancelled.*
5. *The quantity of water diverted at the new point of diversion (POD 1) shall not exceed the quantity of water lawfully available at the original point of diversion.*
6. *Water shall be acquired from the same source of surface water as the original point of diversion.*

7. *Water use measurement conditions:*

- a. Before water use may begin under this order, the water user shall install a totalizing flow meter, or, with prior approval of the Director, another suitable measuring device, at each point of diversion (new and existing).*
- b. The water user shall maintain the meters or measuring devices in good working order.*
- c. The water user shall allow the Watermaster access to the meters or measuring devices; provided however, where the meters or measuring devices are located within a private structure, the Watermaster shall request access upon reasonable notice.*

8. *Prior to diverting water, the water user shall install an approved fish screen at the new point of diversion and shall provide to the OWRD a written statement from Oregon Department of Fish and Wildlife (ODFW) that the installed screen meets the state's criteria, or that ODFW has determined a screen is not necessary.*

The water user shall operate and maintain the fish screen at the new point of diversion consistent with ODFW's operational and maintenance standards. If ODFW determines the screen is not functioning properly and is unsuccessful in working with the water user to meet ODFW standards, ODFW may request that OWRD regulate the use of water until OWRD receives notification from ODFW that the fish screen is functioning properly.

9. *Full beneficial use of the water shall be made, consistent with the terms of this order, on or before **October 1, 2028**. A Claim of Beneficial Use prepared by a Certified Water Right Examiner shall be submitted by the applicant to the Department within one year after the deadline for completion of the change and full beneficial use of the water.*

10. *After satisfactory proof of beneficial use is received, a new certificate confirming the right transferred will be issued.*

SUBJECT: Water Right Transfer Application T-14569

Please find enclosed the Proposed Final Order indicating that, based on the information available, the Department intends to approve application T-14569. This document is an intermediate step in the approval process; water may not be used legally as proposed in the transfer application until a Final Order has been issued by the Department. Please read this entire letter carefully to determine your responsibility for additional action.

A public notice is being published in the Department's weekly publication and in the News Review newspaper, simultaneously with issuance of the Proposed Final Order. The notice initiates a period in which any person may file either a protest opposing the decision proposed by the Department in the Proposed Final Order or a request for party status supporting the Department's decision. The protest period will end 30 days after the Department's notice.

The Proposed Final Order will become a Final Order 33 days after the protest period ends without any further action by the Department, as a matter of law, if no protest is filed.

If a protest is filed, the application may be referred to a contested case proceeding. A contested case provides an opportunity for the proponents and opponents of the decision proposed in the Proposed Final Order to present information and arguments supporting their position in a quasi-judicial proceeding.

Please contact me at scott.a.grew@water.oregon.gov or 503-986-0890 if I may be of assistance.

Sincerely,

Scott Grew
