If you need to enter another leased right, please use the additional water rights form.

1.6 Validity of rights. Lessor(s) attests (mark one) that:

- the water has been used over the past five years according to the terms and conditions of the owner's water right certificate or as an instream water right or
- the water has not been used over the past five years according to the terms and conditions of the owner's water right certificate, however the water right is not subject to forfeiture under ORS 540.610(2)()(include necessary supporting documentation as Attachment 3).

2.1 Public use. This lease will increase streamflows which will benefit:

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, and fish and wildlife habitat
- Pollution abatement
- Recreation and scenic attraction

2.2 Instream use created by lease. The instream use to be created is described as follows:

Deschutes River

Tributary to Columbia River in the Deschutes Basin.

Describe the point of diversion (POD) and any associated reach(es) of the instream use being created. If possible list the reach by river mile. If no reach is identified, and there is only one POD listed on the certificate, the lease may be processed to be protected at the POD. (If more than one POD is listed on the certificate, then the POD and any associated reach(es) must be identified): POD #11 to Lake Billy Chinook

- The instream flow will be allocated on a daily average basis up to the described rate from April 1 through October 26.
- Other (describe): _____

If you need to enter more instream uses, please use the additional water rights form.

2.3 Term of lease. This lease shall terminate on October 31, 2010.

2.4 Flow protection. The Trustee will regulate use of water from the source, subject to prior appropriation and the agency enforcement guidance, to assure the water is delivered to the point of diversion, and through the reach past junior downstream users, so long as flow is sufficient to meet the demand under priority date of the new instream use (see section 2.2). As part of regulation activities the watermaster or a designee has access to the point of diversion and place of use for the water rights involved in this lease. No party is required to continuously measure the flow of the waterway described in Section 2.2.

~III~ Other Information

Accuracy. The Undersigned Lessor/s, Lessee and Trustee declare that, to the best of their knowledge and belief, the information contained in this lease is true, correct and complete. If after the lease is signed, any information is determined to be false, the lease may be modified or terminated. This lease only exercises the water rights being leased; for the term of the lease; it shall not be construed to overcome any claim that the water right may otherwise be subject to forfeiture for nonuse pursuant to ORS 540.610 during the period of time prior to the execution of the lease.

3.3 **Precedent.** If a right which has been leased is later proposed to be leased again or transferred to an instream use under ORS 537.348 and OAR 690-077- 0070 or OAR 690-077-0075 a new injury review shall be required, and a prior short term lease shall not set a precedent for the amount of water to be leased or transferred instream.

3.4 **Suspension of original use.** During the period of the lease, the owner agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights. In the event that a supplemental water right is not part of this lease, it may be subject to forfeiture.

3.5 **Termination provision.**

- For multiyear leases, lessor *shall* have the option of terminating the lease each year, prior to the lease being exercised (April 1st), with 30 day written notice to the Department.
- For multiyear leases, lessor *shall not* have the option of terminating the lease each year, prior to the lease being exercised, with written notice to the Department.

3.6 **Modification to prevent injury.** Allocation of water to the instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source. If injury is found after this lease is signed, the lease may be modified or terminated to prevent injury.

Fees. Effective October 1, 2003, pursuant to ORS 536.050 (1)(v) (2003 SB 820), the following fee is included:

- \$200 for an application with four or more landowners or four or more water rights.
- \$100 for all other applications.
