1.7 **Suspension of original use.** During the period of the lease, the owner agrees to suspend use of water allowed under the subject water rights and under any water right that is supplemental to the subject water rights.

1.8 **Water use reporting.** The Trustee agrees to fulfill legal obligations related to water use reporting.

II.

2.1 **Public Use.** The public use served by the amount, timing and location of the instream use provided for under this lease is:

provided by evidence contained in Exhibit E, such as a signed statement by lessee, or other party, explaining how the lease will benefit recreation, scenic attraction, aquatic and fish life, wildlife habitat and ecological values, pollution abatement, navigation or other public use.

2.2 **Instream use created by lease.** The instream use to be created is described as follows:

Certificate No. 29841

South Deer Creek, tributary of Deer Creek

Location: POD to mouth of South Fork Deer Creek

Priority date: May 27, 1957

Use: Described in Section 2.1, above

Total volume: 55.5 acre-feet

Rate in cfs: 0.28 cfs

Period of use: March 1 - October 31

Conditions to prevent or mitigate injury, if any: The instream flow will be allocated on a daily average basis up to the described rate from July 24 until October 31, or until such time that the total duty for the irrigation season is met. The instream use period has been diminished to 100 days to insure the duty limitation is not exceeded during the period of use described above.

- 2.3 **Term of lease.** This Lease shall commence on March 1, 2000 (not before execution by the parties) and continue through October 31, 2000.
- 2.4 **Compensation.** Lessor has agreed to lease the subject water rights herein to the Oregon Water Trust for cash and other considerations and for the benefit of the people of the state of Oregon.
- 2.5 **Flow protection.** The Trustee will regulate use of water from the source, subject to prior appropriation and the agency enforcement guidance, to assure the water is delivered to the point of diversion, and through the reach past junior downstream users, so long as flow is sufficient to meet the demand under priority date of the new instream use (see Section 2.2). No party is required to continuously measure the flow of the waterway described in Section 2.2.

III.

- 3.0 **Watermaster review.** By signature below, the watermaster for the district where the subject water right is located verifies that:
- 3.1 Lessor is currently entitled to appropriate water under the water rights described in Section 1.4.
- 3.2 A suitable control is in place so that WRD staff may regulate use of water under the subject rights to ensure water is not diverted or applied on lands to which the subject right is attached.
- 3.3 Allocation of water to the new instream use described in Section 2.2 during the term of this lease is not reasonably expected to cause injury to other rights to use water from the same source.
- 3.4 Necessary conditions to the proposed instream use: None
