- Attach a **separate Supplemental Form A** (*Description of Proposed Change(s) to a Water Right*) for **each** water right listed above.
- Check **all** proposed change(s) included in this transfer application:
 - Place of Use Point of Diversion (POD) Additional Point of Diversion
 - Character of Use Point of Appropriation (POA, or well) Additional POA
 - Instream Transfer Surface Water POD to Ground Water POA
 - Substitution of Supplemental Groundwater right for Primary Surface water right
 - Historic POD change Other
- Reason(s) for change(s): To provide mitigation for Ground Water Application number G-16905 in the Little Deschutes Zone.

5. WATER DELIVERY SYSTEM

- Describe the **current** water delivery system **or** the system that **was in place** at some time **within the last 5 years**. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. If the transfer involves multiple rights that have independent systems, describe each system separately.

The description must be sufficient to demonstrate that the full quantity of water to be transferred can be conveyed from the authorized source and applied at the authorized location and that the applicant is ready, willing, and able to exercise the right.

(See attachment.)

- System capacity: 9.0 cubic feet per second (cfs). If the transfer involves multiple rights that have independent systems, describe the capacity for each system separately.

6. EVIDENCE OF BENEFICIAL WATER USE

- Attach one or more **Evidence of Use Affidavits** (Supplemental Form B) demonstrating that each of the right(s) involved in the transfer have been exercised in the last five years in accordance with the terms and conditions of the right or that a presumption of forfeiture for non-use could be rebutted. The Evidence of Use Affidavit(s) **must include supporting documentation** such as the following:
 - ▶ Copies of receipts from sales of irrigated crops or for expenditures relating to use of water;
 - ▶ Records such as Farm Service Agency crop reports, irrigation district records, an NRCS farm management plan, or records of other water suppliers;
 - ▶ Dated aerial photographs of the lands or other photographs containing sufficient detail to establish location and date of the photograph; *or*
 - ▶ If the right has **not** been used during the past five years, documentation that the presumption of forfeiture would be rebutted under ORS 540.610(2).

7. AFFECTED DISTRICTS

- Are any of the water rights proposed for transfer located within or served by an irrigation or other water district? Yes No
- Will any of the water rights be located within or served by an irrigation or other water district after the proposed transfer? Yes No
- Is water for any of the rights supplied under a water service agreement or other contract for stored water with a federal agency or other entity? Yes No

If "Yes", for any of the above, list the name and mailing address of the district, agency and/or entity:

Property is located in the La Pine Cooperative Water Association. However, Article VIII of the Articles of Association state: "The association shall not own any water rights or have any interest in the water carried or transported through its distribution system. All water rights shall be owned by its individual members, and membership in the association shall entitle such members only to the transportation through the distribution system of such water as they may individually own or be entitled to."

8. LOCAL GOVERNMENTS

- List the name and mailing address of all local governments (i.e., each county, city, municipal corporation, or tribal government within whose jurisdiction water will be diverted, conveyed or used).

11. ATTACHMENTS

*Check each of the following attachments included with this application.
The application will be returned if all required attachments are not included.*

Supplemental Form A –

Description of Proposed Change(s) to a Water Right

- A **separate** Supplemental Form A is enclosed for **each** water right to be affected by this transfer.

Supplemental Form B –

Evidence of Use Affidavit(s)

- At least one Evidence of Use Affidavit documenting that the right has been used during the last five years or that the right is not subject to forfeiture under ORS 540.610 is attached. The affidavit provided must be the original (not a copy), **and**
- The Evidence of Use Affidavit **must** be accompanied by **supporting documentation**.

Map

- Water Right Transfer*

The map must be prepared by a Certified Water Right Examiner and meet the requirements of OAR 690-380-3100 unless a waiver has been granted. The map provided must be the original, not a copy.

- Temporary Transfer or Historical POD Change*

A map meeting the requirements of OAR 690-380-3100 must be included but need **not** be prepared by a Certified Water Right Examiner.

Water Well Report(s)/Well Log(s):

- The application is for a change in point of appropriation or change from surface water to ground water and copies of all water well reports are attached.
- Water well reports are not available and a description of construction details including well depth, static water level, and information necessary to establish the ground water body developed or proposed to be developed is attached.
- N/A. The application does **not** involve a change in point of appropriation or a change from surface water to ground water, so water well reports are **not** required.)

Land Use Information For Proposed Changes:

For Instream Transfers:

- Notice of the intent to file an instream transfer application has been provided to each affected local government along the proposed reach, and copies of the notices are enclosed. (*For instream transfers a Land Use Information Form is not required.*)

For All Other Transfers:

- Land Use Information Form is enclosed; *or*
- All** of the following criteria are met, therefore a Land Use Information Form is not required:
- ① In EFU zone or irrigation district,
 - ② Change in place of use only,
 - ③ No structural changes needed, including diversion works, delivery facilities, other structures, *and*
 - ④ Irrigation only.

Fees:

- Amount enclosed: \$ 400.00

Instream Water Right Transfers, also include:

Supplemental Form C –

Instream Water Right Transfer

- Complete this form to describe the desired nature and attributes for the proposed instream water right.

Temporary Transfers, also include:

Recorded Deed:

- The applicant must submit a copy of the current deed of record for the land **from** which the authorized place of use or point of diversion/appropriation is being moved.

Affidavit of Consent:

- If the applicant is **NOT** the owner of record for the land **from** which the authorized place of use or point of diversion/appropriation is being moved, a notarized statement from the actual owner of record consenting to the proposed transfer must be submitted.

MAY 12 2008

Before submitting your application to the Department, be sure you have:

- Answered each question completely.
- Included all the required attachments.
- Provided original signatures for **all** named deed holders, or other parties, with an interest in the water right.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

12. SIGNATURES

▪ Check **one** of the following, as appropriate, and sign the application in the signature box below:

In accordance with OAR 690-380-3000(13)(a), I (we) understand that prior to Department approval of a permanent transfer and upon my receipt of a draft Preliminary Determination for the proposed transfer, I (we) will be required [pursuant to OAR 690-380-4010(5)] to provide the following landownership information and evidence demonstrating that I (we) are authorized to pursue the transfer:

- (a) A report of ownership and lien information that has been prepared by a title company *within the last three months*;
- (b) A copy of written notification of the proposed transfer provided by the applicant to **all** lien holders on the subject lands unless the report of ownership and lien information shows that a water right conveyance agreement has been recorded for the subject lands. *If a water right conveyance agreement has been recorded for the subject lands, a copy of the agreement and identification of the owner of the lands at the time the agreement was recorded must be submitted; and*
- (c) If the landowner identified in the report of ownership and lien information is **not** the applicant, a notarized statement consenting to the transfer (*attached*) signed by the landowner identified in the report or an authorized representative of the entity to whom the interest in the water right has been conveyed as identified in a water right conveyance agreement or other documentation demonstrating that the applicant is authorized to pursue the transfer in the absence of the consent of the landowner.

I (we) affirm that interest in the water right has been conveyed to someone other than the landowner, and documents, including a water right conveyance agreement, report of ownership and lien information, and any required lienholder notification are enclosed, demonstrating that I am (we are) authorized to pursue the transfer. I (we) understand that we may be required to provide additional information upon receipt of the draft Preliminary Determination.

I (we) affirm that the applicant is a municipality, as defined in ORS 540.510(3)(b), and that the right is in the name of the municipality or a predecessor. Therefore, pursuant to OAR 690-380-3000(13)(b), the applicant is **NOT** required to provide the above described report of ownership and lien information.

I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the water right proposed for transfer is appurtenant by condemnation. Documentation is provided with this application supporting this statement. Therefore, pursuant to OAR 690-380-3000(13)(c), the applicant is **NOT** required to provide the above described report of ownership and lien information. (*NOTE: Such an entity may only apply for a transfer under this subsection if it has filed a condemnation action to acquire the property.*)

I (we) affirm that this is a temporary transfer and a copy of the deed for the "from" land (and affidavits of consent from any other landowners, if applicable) is enclosed.

▪ I (we) affirm that the information contained in this application is true and accurate.

Water Right Transfer Supplemental Form C INSTREAM WATER RIGHT TRANSFER

Permanent Instream Transfer or **Time-Limited Instream Transfer**
Please contact the Department with any questions on filling out this form. Attach additional pages, if necessary.

1. Identify the public use for which the instream right is requested (check one).

- Conservation, maintenance and enhancement of aquatic and fish life, wildlife, fish and wildlife habitat and other ecological values.
- Recreation
- Navigation
- Pollution Abatement

2. Instream use proposed to be created by the instream transfer:

Originating Water Right Number (as identified in the transfer application)	Priority Date	Source	Proposed Instream Period	Rate (cfs)*	Volume (ac-ft)**
72196	1902	Little Deschutes River	April 1 to November 1	0.73 @ 1/40 th 0.36 @ 1/80 th	116.0
Total Volume:					116.0

* To calculate rate (if other than the rate allowed by the right), divide the volume by the number of days in the period and then divide by 1.983471; or

** To calculate volume, multiply the rate by the number of days in the period and then multiply by 1.983471.

The quantity allocated during any period may not exceed the quantity that may be used under the existing right during that period. The total volume of water for the year may not exceed the total volume of water that may be used during the year under the existing right.

Additional information: _____

3. Identify the location of the proposed instream water right.

Water is requested to be protected at a point.
Location (i.e. the point of diversion (POD), or if the water right has more than one POD or if a POD is not described on the water right, please provide the legal description): _____

Water is requested to be protected within a reach.
Location of proposed reach (if an instream water right reach is requested, identify the upstream and downstream extent of the reach): From the authorized POD in the SW SW, Section 34, T.23 S., R.9 E., W.M., to the mouth of the Little Deschutes River.

4. Recommendations for conditions on the instream use to avoid taking away or impairing existing water rights.

- None
- Other (such conditions may include, but are not limited to, reductions in the instream flow levels in cfs per month or total ac-ft, the effective reach(es) or lake levels of the instream flow, measuring locations and the strategy for monitoring the instream flow or lake levels): We request that the quantity of water protected instream be adjusted to account for return flows if necessary.

RECEIVED

5. Are there any existing instream water rights at the same point or within the same requested reach(es) or lake, or on a portion thereof:

- No Yes (identify other instream water rights): 73226

New instream water rights generally (but not always) are additive to instream water rights established under ORS 537.348 (instream transfer application process) and ORS 537.470 (allocation of conserved water) and replace a portion of instream water rights established under ORS 537.341 (state agency application process) or ORS 537.346 (conversion of minimum perennial streamflows) with an earlier priority date.

Is it your intent to have the proposed instream water right transfer be additive to any instream water right established under ORS 537.348 and ORS 537.470 and replace a portion of any instream water right established under ORS 537.341 and ORS 537.346 with an earlier priority date?

- Yes No. If no, please explain your intent below.

If the proposed conversion would add to the amounts of an existing instream water right(s) established under ORS 537.341 or 537.346, provide documentation demonstrating why additional instream flows are necessary. Supporting documentation should include information from the Dept. of Fish and Wildlife (ODFW) (fish life), Dept. of Environmental Quality (DEQ) (pollution abatement), and/or Parks and Recreation Dept. (recreation).

6. Is the requested instream flow intended to exceed the estimated average natural flow or level occurring from the drainage system?

- No; or
 Yes (Provide supporting documentation that demonstrates why additional flows are significant for the public use requested.); or
 Yes, and it is presumed that flows that exceed the estimated average natural flow or natural lake levels are significant because:

- The requested flow does not exceed the maximum amount of any instream water right application applied for under ORS 537.341 (state agency instream water right application process) for the same reach or portion thereof, and the requested public use is for the same public use as the aforementioned instream water right application; and
 For the specified time period that flows are requested to exceed the estimated average natural flow or lake level, the stream is in an ODFW flow restoration priority watershed (A copy of the priority watershed map indicating the specific watershed involved should be included with the application. Priority watershed maps may be found on the OWRD web page); or
 The stream is listed as water quality limited and DEQ has provided scientific information that demonstrates that increased flows would improve water quality. (The scientific information provided by DEQ should be included with the transfer application.)

7. For a time-limited instream transfer, please answer the following:

- The time-limited instream transfer is for a specific number of years:
Begin Year _____ to End Year _____
 The time-limited instream transfer is to terminate based upon other conditions:
Conditions: _____
