To whom it may concern,

The conservation measures of upgrading the golf course irrigation system were implemented on May 31, 2003.

The City of Milton-Freewater hereby requests that the allocation of conserved water be finalized at the Department's earliest convenience. Further, the City requests that 100% of the conserved water be dedicated to permanent instream use with a priority equal to the priority of the original right plus one minute.

Thank You,
