- Attach a **separate Supplemental Form A** (*Description of Proposed Change(s) to a Water Right*) for **each** water right listed above.
- Check **all** proposed change(s) included in this transfer application:
 - Place of Use Point of Diversion (POD) Additional Point of Diversion
 - Character of Use Point of Appropriation (POA, or well) Additional POA
 - Instream Transfer Surface Water POD to Ground Water POA
 - Substitution of Supplemental Groundwater right for Primary Surface water right
 - Historic POD change Other

Reason(s) for change(s): Ease of accessibility to EWEB canal system; canal irrigation water has been in use at this location for at least the past 11 years

5. WATER DELIVERY SYSTEM

- Describe the **current** water delivery system **or** the system that **was in place** at some time **within the last 5 years**. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. If the transfer involves multiple rights that have independent systems, describe each system separately.

The description must be sufficient to demonstrate that the full quantity of water to be transferred can be conveyed from the authorized source and applied at the authorized location and that the applicant is ready, willing, and able to exercise the right.

Original certificate related to this site includes a point of diversion along the McKenzie River for certificate 75778. In 1998, T-7484 was approved, transferring the points of diversion for portions of each of these water rights to the Walterville Canal operated by the Eugene Water and Electric Board. After that time, there must have been some confusion, because a system was put in place to irrigate the entire property from the EWEB canal. For at least the past 11 years, then, when the agricultural property has been leased, water from the Walterville canal has been used to irrigate. The water has been removed from the Walterville canal on the EWEB canal system using a 40 HP pump capable of sending approximately 700 gallons per minute through an 8 inch mainline to wheel line irrigation systems already in place on the agricultural fields. This system was designed to address the property remaining on both certificates 75778 and 75779, which initially had very similar diversion points on the McKenzie River.

T 10988

- System capacity: 1.33 cubic feet per second (cfs). If the transfer involves multiple rights that have independent systems, describe the capacity for each system separately.

This transfer involves a single water right that has been irrigated via the Walterville canal for the past several years (more than 10).

6. EVIDENCE OF BENEFICIAL WATER USE

- Attach one or more **Evidence of Use Affidavits** (Supplemental Form B) demonstrating that each of the right(s) involved in the transfer have been exercised in the last five years in accordance with the terms and conditions of the right or that a presumption of forfeiture for non-use could be rebutted. The Evidence of Use Affidavit(s) **must include supporting documentation** such as the following:
 - ▶ Copies of receipts from sales of irrigated crops or for expenditures relating to use of water;
 - ▶ Records such as Farm Service Agency crop reports, irrigation district records, an NRCS farm management plan, or records of other water suppliers;
 - ▶ Dated aerial photographs of the lands or other photographs containing sufficient detail to establish location and date of the photograph; *or*
 - ▶ If the right has **not** been used during the past five years, documentation that the presumption of forfeiture would be rebutted under ORS 540.610(2).

7. AFFECTED DISTRICTS

- Are any of the water rights proposed for transfer located within or served by an irrigation or other water district? Yes No
- Will any of the water rights be located within or served by an irrigation or other water district after the proposed transfer? Yes No
- Is water for any of the rights supplied under a water service agreement or other contract for stored water with a federal agency or other entity? Yes No

If "Yes", for any of the above, list the name and mailing address of the district, agency and/or entity:

Eugene Water and Electric Board 500 East 4th Eugene, OR 97401

8. LOCAL GOVERNMENTS

- List the name and mailing address of all local governments (i.e., each county, city, municipal corporation, or tribal government within whose jurisdiction water will be diverted, conveyed or used).

9. LAND OWNERSHIP

- Does the applicant own the lands where the portion of water right proposed for transfer is currently located? Yes No

*If "No", provide the following information. For Temporary Transfers, also include a **notarized statement granting consent** to the transfer from each of the landowners (for Permanent Transfers see Section 12(c)):*

Names of Current Landowner(s): Stan McNutt

Address: PO Box 357

City: Walterville

State: OR

Zip: 97489

- Does the applicant own the lands **TO** which the right is being transferred?
 Yes No N/A - NOT APPLICABLE TO INSTREAM TRANSFERS

If "No", provide the following information:

Names of Receiving Landowner(s): Stan McNutt

Address: PO Box 357

City: Walterville

State: OR

Zip: 97489

Check **one** of the following:

- The receiving landowner will be responsible for completion of the proposed changes after the final order is issued. All notices and correspondence should be sent to this landowner.
- The applicant will remain responsible for completion of changes. Notices and correspondence should continue to be sent to the applicant and applicant's agent.
- N/A. *(Not applicable. Application is for an Instream Water Right Transfer.)*

10. Other Remarks (optional)

Water for this property has been used from the Walterville Canal for several years, though the original water rights show points of diversion on the McKenzie River. The original point of diversion site is now nearly inaccessible, and it is cost prohibitive to re-establish the original point of access. This proposal simply requests a legal transfer of the points of diversion from original location on the McKenzie River to the historically used location on the Walterville canal.

Before submitting your application to the Department, be sure you have:

- Answered each question completely.
- Included all the required attachments.
- Provided original signatures for **all** named deed holders, or other parties, with an interest in the water right.
- Included a check payable to the Oregon Water Resources Department for the appropriate amount.

12. SIGNATURES

▪ Check **one** of the following, as appropriate, and sign the application in the signature box below:

- In accordance with OAR 690-380-3000(13)(a), I (we) understand that prior to Department approval of a permanent transfer and upon my receipt of a draft Preliminary Determination for the proposed transfer, I (we) will be required [pursuant to OAR 690-380-4010(5)] to provide the following landownership information and evidence demonstrating that I (we) are authorized to pursue the transfer:
- (a) A report of ownership and lien information that has been prepared by a title company *within the last three months*;
- (b) A copy of written notification of the proposed transfer provided by the applicant to **all** lien holders on the subject lands unless the report of ownership and lien information shows that a water right conveyance agreement has been recorded for the subject lands. *If a water right conveyance agreement has been recorded for the subject lands, a copy of the agreement and identification of the owner of the lands at the time the agreement was recorded must be submitted; and*
- (c) If the landowner identified in the report of ownership and lien information is **not** the applicant, a notarized statement consenting to the transfer (*attached*) signed by the landowner identified in the report or an authorized representative of the entity to whom the interest in the water right has been conveyed as identified in a water right conveyance agreement or other documentation demonstrating that the applicant is authorized to pursue the transfer in the absence of the consent of the landowner.
- I (we) affirm that interest in the water right has been conveyed to someone other than the landowner, and documents, including a water right conveyance agreement, report of ownership and lien information, and any required lienholder notification are enclosed, demonstrating that I am (we are) authorized to pursue the transfer. I (we) understand that we may be required to provide additional information upon receipt of the draft Preliminary Determination.
- I (we) affirm that the applicant is a municipality, as defined in ORS 540.510(3)(b), and that the right is in the name of the municipality or a predecessor. Therefore, pursuant to OAR 690-380-3000(13)(b), the applicant is **NOT** required to provide the above described report of ownership and lien information.
- I (we) affirm that the applicant is an entity with the authority to condemn property and is acquiring the property to which the water right proposed for transfer is appurtenant by condemnation. Documentation is provided with this application supporting this statement. Therefore, pursuant to OAR 690-380-3000(13)(c), the applicant is **NOT** required to provide the above described report of ownership and lien information. (*NOTE: Such an entity may only apply for a transfer under this subsection if it has filed a condemnation action to acquire the property.*)
- I (we) affirm that this is a temporary transfer and a copy of the deed for the "from" land (and affidavits of consent from any other landowners, if applicable) is enclosed.

▪ I (we) affirm that the information contained in this application is true and accurate.
