No (Well 9)	N/A	Anticipate 16-inch borehole	Anticipate 10-inch steel casing	Anticipate 260 feet of casing	Anticipate 40 feet of screen	Anticipate 50 to 100 feet	Anticipate a static water level of 20 to 40 feet	Sand layers from approximately 60 to 300 feet	¾" port minimum	Anticipated depth of ~ 300 feet

Notes: Proposed construction presented above is based on anticipated depth to and production capacity of the target aquifer; final construction of the proposed well may differ based on information collected during drilling.

Additional Remarks: The existing points of appropriation, Well 3 and Well 4, are completed in and produce groundwater from sand layers within the Willamette Aquifer and Willamette Confining Unit. Based on discussions with the Department (Marc Norton, 8/24/2009), these sand layers are hydraulically connected (to some degree) and are considered a single groundwater source (aquifer) for water right permitting purposes. As such, the proposed additional point of appropriation, Well 9, will be completed in and produce groundwater from the same aquifer as the existing points of appropriation.

Dear Ms. Pedersen,

GSI Water Solutions, Inc. is an authorized agent for the City of Harrisburg (City), with respect to the attached transfer application for certificate 41999. Water right certificate 41999 is held by the City and allows use of 0.24 cfs from Well 3 and 0.5 cfs from Well 4 for municipal use. The purpose of the transfer is to add proposed Well 9 as an additional point of appropriation. Due to the complexity of the project, including infrastructure, financing, permitting, and related issues, the City requests a 10 year period to complete the changes proposed in the transfer application.

We have included a check for the appropriate transfer fee of \$1,200.00, plus \$125.00 for an estimate under the reimbursement authority program, for a total check in the amount of \$1,325.00.

If you have any questions or concerns about this transfer application or the request for an estimate under the reimbursement program, please call me at 503-753-0745, extension 201, or send an e-mail to ASussman@GSIWaterSolutions.com.
