The POD on the Pehling-McFadden Ditch consists of a 30-inch Waterman gate. The ditch downstream of the POD is 6 feet wide at the bottom with 1:1 side slopes and a grade of 0.4 feet. The ditch could carry as much as 1.5 feet of water.

Using N=0.35, the ditch capacity is 32.2 cfs. The Waterman gate is the limiting factor for the system because it has a capacity of 27 cfs

- System capacity: 27 cubic feet per second (cfs). If the transfer involves multiple rights that have independent systems, describe the capacity for each system separately.

▪ Does the water right being transferred involve a ground water source(s)?

☐ Yes ☒ No (Surface water source only.)

If "Yes", for each authorized point of appropriation (well) involved, you must either:

A. Supply a copy of the well log(s) for each point of appropriation that is **clearly labeled** and associated with the corresponding well in the table above and on the accompanying application map. (NOTE: You may search for well logs on the Department's web page at: <http://www.wrd.state.or.us>)

or

B. If a well log is **not** available, you must describe the construction of the authorized point of appropriation by completing the table below. Attach additional copies as necessary.

Construction of Existing Authorized Point(s) of Appropriation – (Only needed if no well log is available.)

Wells in this listing must be **clearly tied** to corresponding well location(s) described in the table above and shown on the accompanying application map.

Will the ENTIRE water right be affected by this transfer? ☐ Yes ☒ No

If "Yes", the remainder of this page does not need to be completed. Go on to the next page.

If "No", the following information **must be provided** only for those places of use that **are involved in the transfer (i.e., list only the portion of the water right to be affected by the change.)**

Attach additional pages as necessary.

Government lot and donation land claim numbers must be included in the tables below **only** if the information is reflected on the existing water right.
