4. PROPOSED CHANGE(S) TO WATER RIGHT(S)

- List **all** water rights to be affected by this transfer. Indicate the certificate, permit, decree or other identifying number(s) in the table below: *(Attach additional pages as necessary.)*

	Application / Decree	Permit / Previous Transfer	Certificate

2.			
3.			

- Attach a **separate Supplemental Form A** (*Description of Proposed Change (s) to a Water Right*) for **each** water right above.
- Check **all** proposed change(s) included in this transfer application:
 - Place of Use Point of Diversion (POD) Additional Point of Diversion
 - Character of Use Point of Appropriation (POA, or well) Additional POA
 - Instream Transfer Surface Water POD to Ground Water POA
 - Substitution of Supplemental Groundwater right for Primary Surface water right
 - Historic POD change Other
- Reason(s) for change(s): **The Correa-to-Correa portion of this temporary transfer application is identical to the Temporary Transfer T-10025 that ended its effectiveness last fall. I am unable to able to irrigate the authorized place of use for the acres described in this application with the center pivot in their authorized location. The Baremore-to-Correa portion areas are difficult to irrigate because the Umatilla River has claimed some of the acres authorized in the water right. The remaining acres are the corners on the outside of a recently installed center pivot.**

5. WATER DELIVERY SYSTEM

- Describe the **current** water delivery system **or** the system that **was in place** at some time **within the last 5 years**. Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. If the transfer involves multiple rights that have independent systems, describe each system separately.

The description must be sufficient to demonstrate that the full quantity of water to be transferred can be conveyed from the authorized source and applied at the authorized location and that the applicant is ready, willing, and able to exercise the right.

The Correa-to-Correa portion acres have been irrigated under Temporary Transfers T-7943(1998-1999), T-8461 (2000) T-8728 (2000), T-8728 (2001), T-9041 (2003), and T-10025 (2006-2009) using 3 miles of Westland Irr. Dist. main canal (200cfs). At headgate 8-B on this canal, the water is diverted into an 18 inch ½ mile pvc gravity pipeline to my 15hp electric pump. This pump pumps the water to a ¼ mile 1000 gpm center pivot. The Baremore-to-Correa portion acres were flood irrigated from the Pioneer Company Ditch system (20 cfs) which received water from the Westland Irr. Dist. main canal headgate #3 (Pioneer- Courtney Headgate) about 1 mile from the Westland Irr. Dist. point of diversion from the Umatilla River.

- System capacity: 3.3 cubic feet per second (cfs). If the transfer involves multiple rights that have independent systems, describe the capacity for each system separately.

T 11022

6. EVIDENCE OF BENEFICIAL WATER USE

- Attach one or more **Evidence of Use Affidavits** (Supplemental Form B) demonstrating that each of the right(s) involved in the transfer have been exercised in the last five years in accordance with the terms and conditions of the right or that a presumption of forfeiture for non-use could be rebutted. The Evidence of Use Affidavit(s) **must include supporting documentation** such as the following:
 - ▶ Copies of receipts from sales of irrigated crops or for expenditures relating to use of water;
 - ▶ Records such as Farm Service Agency crop reports, irrigation district records, an NRCS farm management plan, or records of other water suppliers;
 - ▶ Dated aerial photographs of the lands or other photographs containing sufficient detail to establish location and date of the photograph; *or*
 - ▶ If the right has **not** been used during the past five years, documentation that the presumption of forfeiture would be rebutted under ORS 540.610(2).
