# Application for Short-Term Instream Lease Renewal

The undersigned entered into Instream Lease Number L-88 involving Water Right Certificate(s) 68356 on July 7, 1999, which expired on September 30, 1999.

The undersigned Lessor and Lessee, parties to the original lease, hereby request that Lease Number L-88 be renewed. Lessor and Lessee warrant that, to the best of their knowledge, circumstances have not changed and all matters involved with or affected by the instream lease and the subject water right(s) remain as they were when the lease was first entered into, including but not limited to ownership of the lands to which the water right(s) is/are appurtenant, the acres from which the right is leased, and the public instream benefit provided as a result of this instream lease.

The terms and conditions of instream lease L-88 are hereby incorporated by reference in their entirety, with the following exception(s):

- The term of the lease shall commence on April 1, 2004 (not before execution by the parties) and continue through September 30, 2008.
- Section 1.5 of the original lease indicated the water right was valid since it was appurtenant to lands enrolled in the Federal Conservation Reserve Program. This statement is no longer appropriate and the validity of the water right was demonstrated through Instream Lease No. L-88.
- To prevent injury, the instream flow will be allocated on a daily average basis up to the described rate from June 22 through September 30. Additionally, the right will be protected as follows: at the POD, 0.59 cfs; below the POD 0.31 cfs to account for return flow, additionally a loss factor of 1 percent per mile will be added, with 0.27 cfs protected at the mouth of the North Fork John Day River. \_\_\_.

**CREP.** This instream lease is part of a Conservation Reserve Enhancement Program.
