13. Transfer Application T-11051 also proposes to TEMPORARILY add additional points of appropriation under this right to facilitate the place of use change for the 111.1 acres described in the table above. The proposed additional points of appropriation are located as follows:

Proposed Additional Points of Appropriation:

Twp	Rng	Mer	Sec	Q - Q	Measured Distances

3 N	30 E	WM	20	SW SW	Ditchen Well #2 – 80 Feet East from the SW Corner of Section 20

14. The Department has determined that the proposed additional points of appropriation (Coppinger New Well #1, Ditchen Wells #1 and #2) are all within the same subareas (D and H) of the Stage Gulch Critical Ground Water Area and will all develop the same source of water as the authorized existing wells described in Certificates 80849, 80850 and 85124.
15. Pursuant to OAR 690-385-3110, Echo Irrigation District has indicated that water use under existing water rights or water use permits will remain unexercised nor will the water rights or water use permits be transferred during the course of the 2010 irrigation season. (See Findings of Facts #5, #7, and #12.)
16. Notice of the application for temporary transfer was published April 13, 2010, pursuant to ORS 540.570 and OAR 690-385-3400. No comments were filed in response to the notice.

17. The district temporary transfer application satisfies the criteria of OAR 690-385-3000, contains the information required under OAR 690-385-3200, and includes a map meeting the requirements of OAR 690-385-3300.
18. The water rights are subject to transfer as defined in OAR 690-385-0100(17).
19. The proposed changes in place of use would not result in enlargement of the rights.
20. The proposed changes would not result in injury to other water rights.
