In your own words tell us what change(s) you want made and the reason for the change(s): The City of Yamhill is proposing to create a second point of diversion 790 feet downstream of the current point of diversion. This change is proposed because the original point of diversion is threatened by a landslide and erosion. The City is also submitting maps to show where the places of use listed in the certificates have been located, and to show the additional places of municipal use proposed in the transfers. A final proof map does not exist for certificates 10846 and 15427.

Include information on the pumps, canals, pipelines and sprinklers used to divert, convey and apply the water at the authorized place of use. The diversion works consist of a dam that is 7 feet high and 50 feet long. The iron headgate has a concrete intake chamber and one 12-inch square opening. The water is delivered by pipe to the City of Yamhill Treatment Plant and by pipe to the City for municipal use.

For Place of Use or Character of Use Changes

Are there other water right certificates, water use permits or ground water registrations associated with the "from" or the "to" lands? ☐ Yes ☒ No

If YES, list the certificate, water use permit, or ground water registration numbers: _____.

Pursuant to ORS 540.510, any "layered" water use such as an irrigation right that is supplemental to a primary right proposed for transfer must be included in the transfer or be cancelled. Any change to a ground water registration must be filed separately in a ground water registration modification application.

For Substitution (ground water supplemental irrigation will be substituted for surface water primary irrigation)

Ground water supplemental Permit or Certificate # _____;

Surface water primary Certificate # _____.

For a change from Supplemental Irrigation Use to Primary Irrigation Use

Identify the primary certificate to be cancelled. Certificate # _____

For a change in point(s) of appropriation (well(s)) or additional point(s) of appropriation:

- ☐ Well log(s) are attached for each authorized and proposed well(s) that are clearly labeled and associated with the corresponding well(s) in Table 1 above and on the accompanying application map. (**Tip:** You may search for well logs on the Department's web page at: http://apps2.wrd.state.or.us/apps/gw/well_log/Default.aspx)

OR

- ☐ Describe the construction of the authorized and proposed well(s) in Table 3 for any wells that do not have a well log.

Table 3. Construction of Point(s) of Appropriation

Any well(s) in this listing must be clearly tied to corresponding well(s) described in Table 1 and shown on the accompanying application map. Failure to provide adequate information is likely to delay the processing of your transfer application. For proposed wells, we recommend that you consult a licensed well driller, geologist, or certified water right examiner for the proper information needed to complete the table.
