

NW $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 6 under Pioneer Irrigation Co. listed Ed Cravauch,  
 SE $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 6, SW $\frac{1}{4}$  NW $\frac{1}{4}$  Sec. 5 under Pioneer Irrigation Co. listed  
 J. A. Wendenhall are now owned by Ernest R. Sires.

The five acres of slash shown in NW $\frac{1}{4}$  NE $\frac{1}{4}$  Sec. 6 is the tract  
 of land which I would like to transfer water right to the  
 five acres of pasture shown in SW $\frac{1}{4}$  NW $\frac{1}{4}$  of Sec. 5.

This tract of land was in heavy growth of reeders but I have  
 cleared part of it completely, the rest enough so that it will  
 grow pasture. The river bed, straightened as shown on the  
 map and the dike which was built last spring on that tract land  
 and the adjoining place will control the river water so that  
 this tract of land can now be used and has been seeded to  
 pasture grass and clover. Ditches in use on adjoining field  
 will carry water onto this tract.
