Form C

IMPORTANT—This form is a notice to the State Engineer that permittee is ready to make **final proof** to the extent to which the water has actually been applied to the intended use under the terms of the permit. Permittee is cautioned that Certificate of Water Right will be issued based on the extent of the quantity and use as determined by the **final proof** inspection and survey which will be made in response to the filing of this Form C.

NOTE In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated. It should be detach and mail to the State Engineer, Salem, Oregon 97310, when all of the water has been applied.

Application No. G-7695

NOTICE OF COMPLETE APPLICATION OF WATER TO A BENEFICIAL USE

I, the City of Klamath Falls, the holder of Permit No. 6-7362
to appropriate the public waters of the state of Oregon, completely applied the waters to a beneficial use in accordance with the terms of said permit, on the 28th day of April, 1978.

Remarks: Project was completed in accordance with the initial water right application filed with the Water Resources Department. The project is currently in use in supplying domestic water to the users of the Klamath Falls water system.

IN WITNESS WHEREOF, I have hereunto set my hand this 1st day of September, 1978.

Thomas C. Barnes

Subject: RE: Permit G-7362

Danielle,

I pulled the file and found a variety of Final Proof Surveys and drafts of certificates. None of those have yet been reviewed by the Department and are all, including the Final Proof, still subject to revision. I do not have a timeline for the Department's review of the documents.

Let me know if you have any additional questions.

Hi Gerry -

I am following-up on the email below. Also, it appears there are a couple versions of proposed certificates in the water right file (Application G-7695) - is there any reason the certificate was never issued?

Thank you,

Danielle MacBain

Subject: Permit G-7362

Hi Gerry -

We are working on the City of Klamath Falls' water rights; during our review of Permit G-7362 we noticed that WRIS states a COBU report was received on 9/9/1994 but we are not certain that ever happened. Could you please check if there is a COBU pending?

8/24/2011

As always, I appreciate your help!

Regards,

Danielle MacBain

To appropriate the Ground Waters of the State of Oregon

I, **ASSIGNED** Oregon Water Corporation *City of Klamath Falls Box 237 Klamath Falls OR 97601 882-3436* 882-3870

of P. O. Box 237 Klamath Falls, county of Klamath state of Oregon 97601, do hereby make application for a permit to appropriate the following described ground waters of the state of Oregon, SUBJECT TO EXISTING RIGHTS:

MR. TOM BARNES - MGR.
BOB RIGGS
FOREMAN

If the applicant is a corporation, give date and place of incorporation

May 8, 1950 State of Oregon

1. Give name of nearest stream to which the well, tunnel or other source of water development is situated Lost River (Name of stream) tributary of Lost River

2. The amount of water which the applicant intends to apply to beneficial use is 1.26 cubic feet per second or 700 gallons per minute.

3. The use to which the water is to be applied is municipal

4. The well or other source is located 328.97 ft. South and 344.26 ft. West from the N.E. corner of Section 13 T.39S. R.9E. (N. or S.) (E. or W.) (Section or subdivision)

(If preferable, give distance and bearing to section corner)

(If there is more than one well, each must be described. Use separate sheet if necessary)

being within the NE 1/4 of NE 1/4 of NE 1/4 of Sec. 13, Twp. 39S., R. 9E. W. M., in the county of Klamath

5. The 12-inch asbestos cement (Canal or pipe line) to be 320 feet miles in length, terminating in the Distribution System (Smallest legal subdivision) of Sec. 13, Twp. 39S., R. 9E., W. M., the proposed location being shown throughout on the accompanying map.

6. The name of the well or other works is Henley Well

DESCRIPTION OF WORKS

7. If the flow to be utilized is artesian, the works to be used for the control and conservation of the supply when not in use must be described.

8. The development will consist of one well (Give number of wells, tunnels, etc.) having a diameter of 16 inches and an estimated depth of 260 feet. It is estimated that 220' = .250 solid 20' = .250 perforated feet of the well will require (Kind) casing. Depth to water table is estimated 18 feet. (Foot)

This is to certify that I have examined the foregoing application and do hereby grant the same, SUBJECT TO EXISTING RIGHTS and the following limitations and conditions:

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.56 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed acre feet per acre for each acre irrigated during the irrigation season of each year;

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water.

The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times.

The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 10, 1977

Actual construction work shall begin on or before September 12, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 12th day of September, 1977

The right herein granted is limited to the amount of water which can be applied to beneficial use and shall not exceed 1.55 cubic feet per second measured at the point of diversion from the well or source of appropriation, or its equivalent in case of rotation with other water users, from a well

The use to which this water is to be applied is municipal

If for irrigation, this appropriation shall be limited to _____ of one cubic foot per second or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed _____ acre feet per acre for each acre irrigated during the irrigation season of each year, _____

and shall be subject to such reasonable rotation system as may be ordered by the proper state officer.

The well shall be cased as necessary in accordance with good practice and if the flow is artesian the works shall include proper capping and control valve to prevent the waste of ground water. The works constructed shall include an air line and pressure gauge or an access port for measuring line, adequate to determine water level elevation in the well at all times. The permittee shall install and maintain a weir, meter, or other suitable measuring device, and shall keep a complete record of the amount of ground water withdrawn.

The priority date of this permit is June 10, 1977

Actual construction work shall begin on or before September 12, 1978 and shall thereafter be prosecuted with reasonable diligence and be completed on or before October 1, 1978

Complete application of the water to the proposed use shall be made on or before October 1, 1979

WITNESS my hand this 12th day of September, 1977

James E. Stevens Water Resources Director

Dear Mr. Smith:

I have reviewed the permits described by Nos. G-1541 and G-756. There are no statements that would in any way bind the water right permit holder to provide domestic water to any owners within the described areas of the permits.

If copies of these permits are still required, they will be furnished upon receipt of the required copy fee of \$3.25.

I trust this will provide the information you need.

Sincerely,

Stephen C. Brown
Water Rights Engineer

Subject: City of Klamath Falls, Oregon

Dear Mr. Cooper:

This will acknowledge receipt of your letter dated December 4, 1979, directed to Mr. James E. Sexson, Director of this office, requesting information regarding the water rights initiated in the name of the Oregon Water Company.

Certificate numbered 32192 confirms the use of the waters from well No. 9 for municipal purposes within certain sections of land which were described in the certificate. I am enclosing a copy for your reference.

Certificate numbered 32193 confirms the use of water from four wells, being wells No. 3, No. 6, No. 7, and No. 8. The distribution area as described on this certificate is identical to the other.

In addition, the Oregon Water Corporation made application for the "Hanley well", primarily to serve new subdivisions located in Sections 12 and 13 of Township 39 South, Range 9 East, W. M. A copy of the map which accompanied the application is enclosed for your reference. This permit was assigned to the City of Klamath Falls in 1978; proof has not been submitted, nor a confirming certificate issued.

If wells other than those described in the rights outlined above are being used for municipal purposes, our records do not reflect this.

I trust this will provide the information you seek.

Sincerely,

RALPH H. JACKSON
Supervisor

Re: City of Klamath Falls, Oregon

Dear Mr. Sexson:

The Oregon water company previously owned the water system that serves the City of Klamath Falls. I would like to know whether or not the certificates of water right which were issued to that firm and which are now the property of the City of Klamath Falls which bought the system a couple of years ago, described the service area to be served by the municipal supply to which the certificates relate.

Yours very truly,

Forrest E. Cooper

Dear Mr. Barnes,

We have changed our records to show you as holder of permit G-7362. Our receipt No. 5922, covering the \$2.00 assignment recording fee has been sent to Oregon Water Corporation.

Thank you for your letter of September 8, 1978 advising us of completion of the water system. We will set your file up for survey and make a final proof inspection of the project the next time our engineers are in the area. In the meantime, the permit will remain valid evidence of your right to the use of water.

Sincerely,

Thomas E. Shook
Water Rights Engineer

RE: File G 7691 - Permit No. G 7362

Dear Mr. Shook:

The City of Klamath Falls purchased the water system serving domestic water service to this area, from Oregon Water Corporation, on April 28, 1978. The sale included transfer of all deeds, easements, water rights, etc. on the above closing date.

The City Water Department, after this date, completed the construction on the Henley Well as per permit No. G 7362. This well began supplying domestic water to the users of the Klamath Falls Water System in August 1978.

If we can be of any further assistance in the assignment of this water right please call me or Harold Derrah at City Hall.

Sincerely,

Tom Barnes
Supt. Utilities

Attetnion: Glenn D. Bowen, Manager

Dear Mr. Bowen:

We have received your map of the well location, fees of \$37.00 and application for a permit to use 1.56 cubic feet per second of water from a well for municipal use. For reference, your application is No. G-7695.

Before a permit can be issued in approval of this application, a map describing the area of use and primary distribution system is required. This map should be in agreement with the application and locate your use by Township, Range, Section and quarter-quarter section, as done in Item No. 12.

I'm returning your application to be resubmitted with a proper map. The application is endorsed so that in order to retain its priority date, it must be received in this office on or before May 9, 1977.

Sincerely,

Vestal R. Garner
Water Rights Engineer
