Hi Greg: Attached is the 2020 and 2021 Water Use Reports for Meenderinck as per the final order for T-8867. We are able to account for both exempt uses (stock and domestic) through separate flowmeters, as well as for the permitted dairy use by subtracting the domestic and stock water from the dairy well flowmeter readings. Irrigation is recorded on two separate flowmeters being North and South meters for Well #1. Please let me know if you have any questions. Stay well.

SECTION 6

CLAIM OF BENEFICIAL USE MAP

The Claim of Beneficial Use Map must be submitted with this claim. Claims submitted without the Claim of Beneficial Use map will be returned. The map shall be submitted on polyester film at a scale of 1" = 1320 feet, 1" = 400 feet, or the original full-size scale of the county assessor map for the location.

The changes that were authorized under the transfer final order must be mapped based on the developed locations; new or additional points of appropriation and place of use.

In cases where the order involved additional points of appropriation, the additional points should be mapped based on their developed locations. The original points of appropriation should be mapped based on the original right of record at the time the transfer final order was issued.

In cases where the order involved changing the place of use for a portion of a water right, the portion of the place of use being changed should be mapped based on the developed location. If the transfer also included portions of the place of use that were not being modified, but were receiving a new or additional point of appropriation, the place of use for those lands should be mapped based on the original right of record at the time the transfer final order was issued.

Provide a general description of the survey method used to prepare the map. Examples of possible methods include, but are not limited to, a traverse survey, GPS, or the use of aerial photos. If the basis of the survey is an aerial photo, provide the source, date, series and the aerial photo identification number.

The authorized point of appropriation, place of use, character of use, and visible system components were visited during the site inspection. The location of the point of appropriation and the extent of the place of use were located using an aerial photograph (4/14/2021 – Google Earth) and a field survey completed during the site inspection. The map was created using Geographic Information System Software (GIS) and special datasets obtained from ESRI and Oregon Water Resources Department. Additional data and information specific to the water right holder's use of water under the water right described in this Claim of Beneficial Use Report were obtained from the water right holder.

6. By-pass Devices

a. Are any points of diversion required to have a by-pass device to prevent fish from entering the point of diversion? **NO**

7. Other conditions required by the transfer final order or extension final order:

- a. Were there special well construction standards? **NO**
- b. Was submittal of a ground water monitoring plan required? **NO**
- c. Other conditions? **YES**

If "YES" to any of the above, identify the condition and describe the water user's actions to comply with the condition(s):

Water Use to be reported to watermaster by January 15th for previous year. Water use was submitted to watermaster on January 6, 2022 for the year 2021. Flowmeters are installed on the North Well system – Flowmeter #1 at the well records domestic and irrigation use, flowmeter #2 at the well records both dairy and exempt stock water use; flowmeter #3 located inside dairy parlor records exempt stock water use going directly to watering troughs, and flowmeter #4 located at housing site also records exempt domestic use. Water use from parlor (flowmeter #3) is subtracted from flowmeter #2 reading to obtain the permitted dairy-ag use. Flowmeter #4 is subtracted from use at flowmeter 1 to obtain irrigation use. Irrigation use is also recorded at flowmeter near Well #1 for the use on North Circle and small half circles.

Change #3

Change in Character of Use

Did the transfer order authorize a change in character of use?

YES

If "NO", this Section can be deleted.

1. Claim Summary – New Use(s):

Provide the new uses authorized by the transfer final order:

NEW USE(S) AUTHORIZED
Ag Water Use Associated
With A Dairy

RECEIVED

DEC 07 2022

OWRD
SALEM, OREGON

2. Variations:

Were all the uses developed from what was authorized by the transfer final order?

YES

If no, describe below.

(e.g. "The order authorized changes in character of use to industrial, commercial, and livestock. The water user did not develop the commercial use.")

The transfer application initially proposed that the Ag-Dairy use would be in the NWNE and SWNE of Section 14. Due to the logistics of power, location of the canal and road to the north, and more irrigable land in the SWNE, the Ag-Dairy use was developed in the NWNE and NENE of Section 14.

The dairy has a Re-Use of CAFO Effluent permit (ODA permit #ORI010554) for 239 acres that covers both the north and south circles, and the two small half circles all located in the East half of Section 14. Effluent use is accounted for with a flowmeter located at the lagoon.

SECTION 4

CONDITIONS

All conditions contained in the transfer final order, or any extension final order shall be addressed. Reports that do not address all performance related conditions will be returned.

1. Time Limits:

Describe how the water user has complied with each of the development timelines established in the transfer final order and any extensions of time issued for the transfer:

	DATE FROM TRANSFER	DATE THE AUTHORIZED CHANGES WERE COMPLETED *THIS DATE MUST FALL BETWEEN THE "ISSUANCE DATE" AND THE "COMPLETENESS DATE"
ISSUANCE DATE	9-16-2002	
COMPLETENESS DATE FROM ORDER (C)	10-1-2022	March 31, 2022

* MUST BE WITHIN PERIOD BETWEEN TRANSFER FINAL ORDER, OR ANY EXTENSION FINAL ORDER ISSUANCE AND THE DATE TO COMPLETE THE CHANGE

2. Is there an extension final order(s)?

YES

If "NO", you may delete the following table.

Change #2

Change in Place of Use

Did the transfer order authorize a change in the place of use?

YES

If "NO", this Section can be deleted.

1. Claim Summary – Authorized Use:

If Irrigation or Nursery Use:

THE # OF ACRES ALLOWED	THE # OF ACRES DEVELOPED
62.8	62.8

If the new use(s) was not irrigation or nursery:

NEW USE(S)	WAS THE NEW PLACE OF USE DEVELOPED TO THE FULL EXTENT AUTHORIZED UNDER THE ORDER? (INCLUDE THE LOCATION OF THE DEVELOPED PLACE USE ON THE CLAIM MAP)
	See Change #3 for new use

2. Variations:

Was the use developed differently from what was authorized by the transfer final order?

YES

If yes, describe below.

(e.g. "The order authorized a change in place of use for 40 acres. The water user only developed 38 acres.")

The applicant proposed to irrigate 21 acres in the NENE of Section 14. Due to logistics of power lines, location of the canal and road directly to the north, the proposed large three-quarter irrigation circle was shifted clockwise to make more efficient use of the available space and irrigable land. Instead, 16.4 acres were irrigated in the NENE, 36.8 acres in the SENE, 4.3 acres in the SWNE, and 5.3 acres in the NESE of Section 14, totaling 62.8 acres irrigated as proposed in the transfer application.

OWRD
SALEM, OREGON

A fee of \$230 must accompany this form for any Transfer final orders including a water right with a priority date of July 9, 1987, or later.

Example – A transfer involves 5 rights and one of the rights has a priority date of July 9, 1987, or later, the fee is required.

A separate form shall be completed for each transfer.

This form is subject to revision. **Begin each new claim** by checking for a new version of this form at:
<https://www.oregon.gov/OWRD/Forms/Pages/default.aspx>

The completion of this form is required by OAR 690-014-0100(1) and 690-014-0110(4).

Please type or print in dark ink. If this form is found to contain errors or omissions, it may be returned to you. **Every item must have a response.** If any requested information does not apply to the claim, insert "NA." **Do not delete or alter any section of this form unless directed by the form.** The Department may require the submittal of additional information from any water user or authorized agent.

"Section 7" of this form is intended to aid in the completion of this form and should not be submitted.\

A claim of beneficial use includes both this report and a map. If the map is being mailed separately from this form, please include a note with this form indicating such.

If you have questions regarding the completion of this form, please call 503-979-9103.

The Department has a program that allows it to enter into a voluntary agreement with an applicant for expedited services. Under such an agreement, the applicant pays the cost to hire additional staff that would not otherwise be available. This program means a certificate may be issued in about a month. For more information on this program see:

<https://www.oregon.gov/OWRD/programs/WaterRights/RA/Pages/default.aspx>

Dear Applicant,

On 12-07-2022, the Water Resources Department received the Claim of Beneficial Use (COBU) for the following files:

Application T-8867

The COBU included a report and map. In the future the Department will review your submittal. At that time we will review these items and provide a final certificate, proposed certificate, or a request for additional information.

If you are interested in having your COBU reviewed sooner, you may pay to have your file processed immediately, using the Reimbursement Authority program, which is described at: <https://www.oregon.gov/owrd/programs/waterrights/ra/pages/default.aspx>.

Customer Service phone: (503) 986-0900

If you sell the property, please contact the Department, or have the new owners contact the Department about the need to file an assignment.

Sincerely,
Dante Luongo
