NOTICE OF BEGINNING OF CONSTRUCTION

I, R. Glenn Rees + Pearl E. Rees, the holder of Permit No. 15375
 to appropriate the public waters of the state of Oregon, began the actual construction of the works described
 therein on the about 15 day of May, 1949.

Remarks: Myself + 2 Sons built dam + laid 1000 ft 2 in pipe
then later laid 600 ft under grd with about 1000 ft 1 in pipe for
sprinklers. have also spanned creek with about 100 ft flume
 The appropriator should state the manner of beginning construction work, number of men employed, the amount of work completed
 up to the date of this statement, and any additional information which may tend to show the beginning of work in good faith.

IN WITNESS WHEREOF, I have hereunto set my hand this 27 day of Oct, 1949.

R. Glenn Rees
 (Signature of Applicant)

Willerville Oregon
 (Address)

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when construction work is begun.

Gentlemen:

Re: Water Use by Tax Lots 203, 300, 400, 402
401, TW. 37, R7 Sec. 10 (Map Attached).

These parcels of property use water conveyed by two 2" poly-pipe lines that cross our property (Tax Lots 204 and 205) and are suspended over Slate Creek by a system of cables, chains and baling wire - see photos. The pipes as they exist represent a flood hazard obstruction and are unsafe per F.E.M.A. standards.

I have reviewed all the records and find a number of issues that perplex me. Briefly outlined, they are:

1. No easements, maintenance rights, or trespass rights or legal access of any kind across our property exists.
2. The requests filed with you for water rights have no final proof of survey nor does it appear that any of the parcels have affirmed their useage as less than 1 gpm as outlined in your January 3, 1980 memo. No meter or measuring system exists and no pumps with known curves are involved.
3. Numerous errors exist in the requests; wrong location, wrong names, wrong information.
4. The existance of these pipelines has been challanged several times with Mr. & Mrs. John McGraw filing formal correspondance in the early 1980's. These challenges were not satisfactorily resolved.

The McGraws didn't proceed with their challenge due to later living out of the area, financial constraints and threats on thier lives. Mr. & Mrs. McGraw deeded the property back to us on October 18, 1990 due to Mr. McGraw's poor health.

Water Resources Department
Water Use
May 13, 1991
Page 2.

5. No State Highway approvals have been granted and the pipelines run through a drainage culvert in express violation of State Highway requirements.
6. The users of these lines have been confrontational to the point of violent temper tantrums, foul language, obscenities and threats. They also trespass at will to fix frequent leaks and turn on the valve on our property during cold weather that creates enormous and damaging ice formations.

I intend to resolve these matters in as constructive and professional manner as possible, but believe the time has come that these trespasses and violations can no longer be overlooked. I don't ask for any action or response by your office at all; this letter is simply to advise you of my concerns and that I will be working to resolve them.

Best regards,

David A. Bassett

NOTE: In the case of an irrigation permit, this Form C should not be mailed to the State Engineer until all of the land described in the permit, which it is intended to irrigate under this permit at any time, has actually been irrigated.

Fill out, detach, and mail to the State Engineer, Salem, Oregon, when all of the water has been applied.

MEMO

June 21, 1991

TO: STEVE A.

FROM: TOM

SUBJECT: RESCINDING ORDER FOR V.33, P.750

I DISCUSSED MY MEMO WITH YOU ON THE 14TH OF JUNE.

D. BASSETT HAS AGREED THAT THERE ARE LESS THAN 3 ACRES OF THE WATER RIGHT ON HIS LAND BETWEEN THE RAILROAD RIGHT-OF-WAY AND SLATE CREEK.

A CORRECTION CERTIFICATE FOR 49705 WILL BE ISSUED WITH THE JUNE 28TH BATCH OF CERTIFICATES TO BE ISSUED.

STATE OF OREGON
COUNTY OF JOSEPHINE

CERTIFICATE OF WATER RIGHT

This Is to Certify, That DAVID & KATHLEEN BASSETT, et al
~~R. GLENN & PEARL R. REES~~

of 500 WILDER LANE Wilderville, State of Oregon 97543, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of Wonder Mountain Gulch

a tributary of Slate Creek for the purpose of irrigation of 2.9 acres 6.0

under Permit No. 15375 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from October 31, 1942

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.08 cubic foot per second

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 15, T. 37 S., R. 7 W., W. M.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season from April 2 to October 31 of each year

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

6.0 acres SW $\frac{1}{4}$ SW $\frac{1}{4}$
Section 10
T. 37 S., R. 7 W., W. M.

This certificate describes that portion of the water right confirmed by the prior certificate recorded at page 20253, Volume 15, State Record of Water Right Certificates, NOT canceled by the provisions of an order of the Water Resources Director entered on September 29, 1980, and NOT modified by the provisions of orders of the Water Resources Director entered June 20, 1980 approving transfer application Nos. 4203, 4321, 4434 and 4493.

The issuance of this superseding certificate does not confirm the status of the water right in reference to ORS 540.610.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to the existing minimum flow policies established by the Water Policy Review Board.

WITNESS the signature of the Water Resources Director, affixed

Re: T.W 375, R7W, Sec 10, T.14. 2044205

Hi, Here are copies of the original water rights on this property with a priority date of 10-31-1942 for Glenn (Shorty) Rees who I knew as a child and teenager. Shorty used water extensively on this property below (South) of the highway on about $4\frac{1}{2}$ acres and so did the McGraws while they had the land before deeding it back to us on 10-18-1990.

Attached is the McGraw affidavit signed and notarized as we discussed by phone. Please re-instate the maximum water rights to this property as possible and I will properly apply the water.

Thank you for your help and consideration.

Best regards,

David A. Bassett

REAL ESTATE CONTRACT

THIS CONTRACT, made and entered into in multiple originals, this 5th day of October, 1979, by and between DAVID A. BASSETT and KATHLEEN J. BASSETT, husband and wife, as tenants by the entirety, hereinafter referred to as SELLER and JOHN M. McGRAW and JUANITA M. McGRAW, husband and wife, as tenants by the entirety, hereinafter referred to as PURCHASER,

WITNESSETH:

I .

The SELLER hereby sells to the PURCHASER, and the PURCHASER hereby purchases from the SELLER, upon the terms and conditions set forth in this contract, and for the purchase price of FIFTY EIGHT THOUSAND DOLLARS payable as set forth in this contract, the following real property, with the tenements, hereditaments, and appurtenances thereof, and any improvements thereon, situated in Josephine County, Oregon, to wit:

All that portion of the West Half of the Southwest Quarter of Section 10, Township 37 South, Range 7 West of the Willamette Meridian, Josephine County, Oregon, lying South of the Redwood Highway and the California and Oregon Coast Railroad right of way. LESS AND EXCEPT: Beginning at a point 1320 feet from the West line of Section 10, Township 37 South, Range 7 West of the Willamette Meridian, Josephine County, Oregon; and on the California and Oregon Coast Railroad right of way; thence South to a point in the center of Slate Creek; thence West 161.5 feet to the center of irrigation ditch; thence Northward along the center of said ditch to a point intersecting South line of the California and Oregon Coast Railroad right of way 108.5 feet West of the point of beginning; thence Easterly to the point of beginning. LESS AND EXCEPT: The Westerly 60 feet running from the C. & O. C. Railroad right of way to the South side of Slate Creek..more fully described as follows:

EXCEPTING THEREFROM, the following described tract of land to wit:

Commencing at the Southwest corner of Section 10, Township 37 South, Range 7 West of the Willamette Meridian, Josephine County, Oregon, thence Northerly along the West line of said section, to the Southerly bank of Slate Creek for the true point of beginning; thence Easterly along said bank to a point 60 feet East of the West line of said section; thence Northerly, parallel with and 60 feet distant from said West line to the Southerly right of way line of the abandoned C. & O.C. Railroad; thence Westerly along said right of way line to the West line of said Section 10; thence Southerly along said West line to the true point of beginning.

SUBJECT TO:

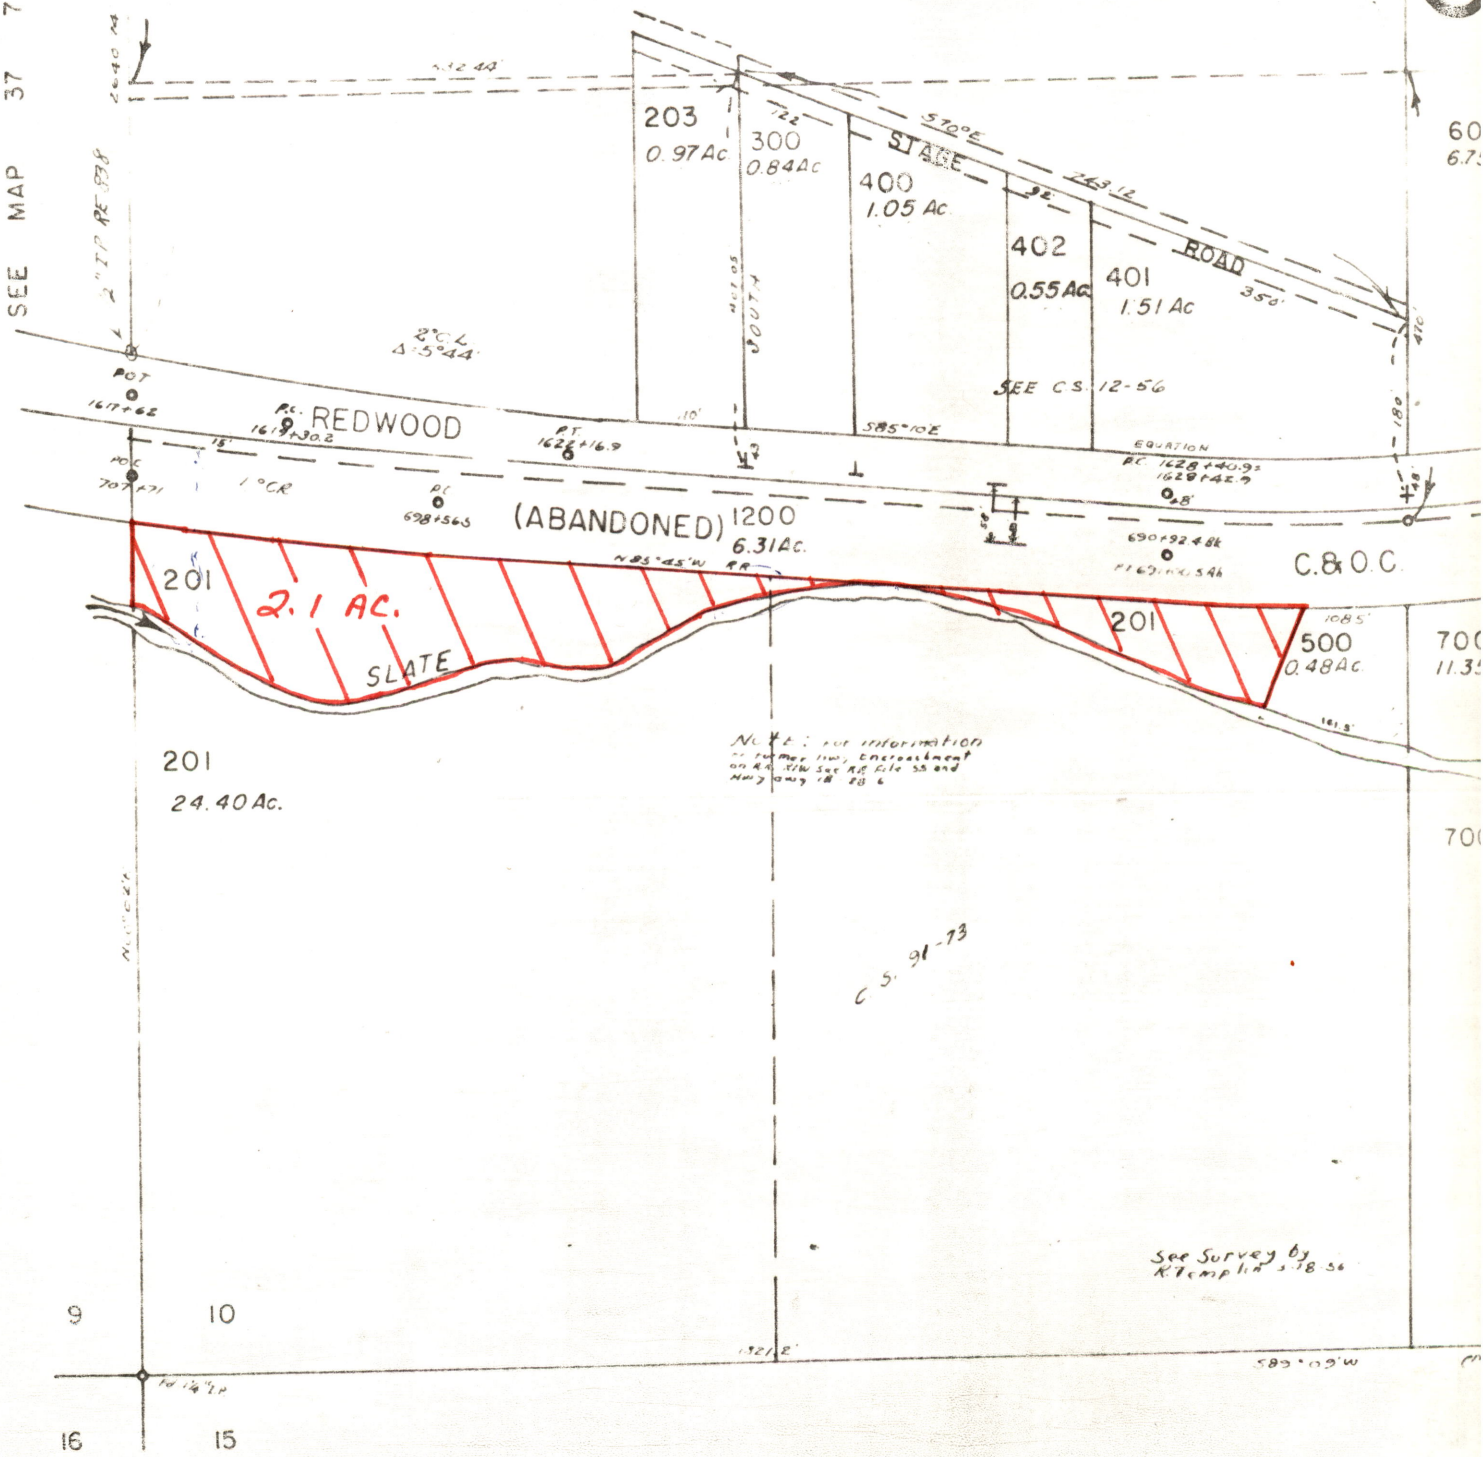

1. 1979-80 Real Property Taxes are now a lien but not yet payable.
2. For tax purposes, the herein described property has been classified as forest growth land and assessed at a lower valuation by the County Assessor pursuant to O.R.S. 321.618 to 321.621. If the land becomes disqualified for the special assessment under the statutes, an additional tax and interest thereon may be levied.
3. Rights of way for irrigation ditches.
4. Right of way 20 feet in width granted to the California Oregon Power Company, set forth in Volume 165, Page 230, Josephine County Deed Records. (Specific location not given in recorded document.)
5. Easement for transmission and distribution of electricity granted the Pacific Power and Light Company set forth in Volume 294, Page 898, Josephine County Deed Records (Specific location not given in recorded instrument.)
6. Trust Deed, including the terms and provisions thereof, executed by David A. Bassett and Kathleen J. Bassett, grantor, to Josephine County Title Co., an Oregon Corporation, Trustee, and Domenica Mac Isaac, as to an undivided 1/2 interest and Geraldine Wilson, as to an undivided 1/2 interest, beneficiary, dated September 10, 1979, recorded September 11, 1979, in Volume 229, Page 1624, Josephine County Mortgage Records, given to secure payment of a note for \$27,228.07, with interest thereon. The following recitation appears in the above trust deed: "There shall be no cutting of marketable timber until the note secured by this trust deed is paid in full."

TOGETHER with the personal property hereinafter described as follows: None.

8. The description of land given below corresponds to that found in your permit covering land to be irrigated, or, if for other purposes, the place of use.

[illegible]

(Attach separate sheet if necessary)

DESCRIPTION OF WORKS

9. (a) If a dam has been constructed, give description: Height, 3 ft.; length on top, 12 ft.; length on bottom, 8 ft.; material used and character of construction, Pole bracing with board facing
- (b) Give description of headgate: Width, _____ ft.; depth, _____ ft.; material used and character of construction, Valve in 2 inch pipe.
- (c) Size of canal: Width on top (at waterline), _____ ft.; width on bottom, _____ ft.; depth of water, _____ ft.; grade, _____ ft. fall per 1,000 ft. Actual capacity, _____ sec.-ft. Give general description: _____
- (d) Pipe line: Description of intake, 2" pipe inserted through dam into pool
- Length of pipe, 1600 ft.; size at intake, 2 in.; size at 1600 ft. from intake, 2 in.; size at place of use, 2 to 1 in. Difference in elevation between intake and place of use, 100 ft. Is grade uniform? no Actual capacity of pipe line, 0.1 sec.-ft. Give general description: Galvanized iron pipe
(Material: Steel, wrought, cast iron, wood stave, etc.)
1300 feet of galvanized iron pipe laterals
- (e) Pumping plant: Give size and type of pump, _____
- Suction lift, _____ ft.; discharge lift, _____ ft. Type of motor used _____
- Horsepower rating, _____ H. P. Actual capacity of pump, _____ sec.-ft.
10. During what months is water beneficially used? April 1 to October 1
11. State character of soil conglomerate loam
- Kind of crops raised Orchard, clover and pasture
12. Does the accompanying map, filed with your application, show correctly the point of diversion, area of land irrigated, or place of use? no
13. If not, wherein is such map in error? Diversion is in NW 1/4 NW 1/4 Sec. 15 T37S, R7W, WM. 1 acres of land irrigated instead of 30.
14. Domestic use: Give number of families actually using water at this time _____
15. If for power, mining, municipal, manufacturing, storage or any other purpose than irrigation, give extent and method of such use _____

INTEROFFICE MEMO

TO: BRUCE ESTES

DATE: June 4, 1980

FROM: Robert B. Steimer
Watermaster, District #14 *RBS*

SUBJECT: Hair Mountain Gulch Memo File #19817

Dear Bruce:

Thank you for your memo of May 30 regarding the Hair Mountain Gulch situation. I think most of the changes being made are not for point of diversion but for change of character of use from irrigation to domestic. I don't think any of the changes are going to help the situation at all, and I feel they will probably be involved with a law suit of some sort.

RBS:gi

ROBERT STEIMER

May 30, 1980

BRUCE ESTES

FILE NUMBER 19817

Judging by your letter of May 7, 1980, it appears that your work is going to be cut out for you regarding the distribution of water on Hair Mountain Gulch. You have undoubtedly been contacted by Mr. and Mrs. Daniel Jessee. It appears that Mr. McGraw and his attorney, Christopher Mecca, are going to learn a little bit about water rights and statutes of limitations regarding delivery systems.

Are the forthcoming changes in points of diversion going to alleviate the situation? If not, it appears a civil case will ensue regarding easements for pipeline or whatever delivery system they have. I note on the old map there was a flume across Slate Creek but no further information about piping.

Anyway, thanks for keeping us informed. We appreciate it, Bob.

FROM: Robert B. Steimer
Watermaster, District #14SUBJECT: APPLICATION #19817 PERMIT #15375 CERT. #20253
PRIORITY DATE 10-31-42

I have had Bruce Sund out at Wonder Mtn. or Hair Mtn. Gulch, whichever the case may be. He has surveyed in the diversion points and the property ownerships, including the houses. As you know, we have several pending transfers concerning this water right. The latest word I have on it is a letter written by Mr. McGraw's attorney, Christopher Mecca, to Mr. & Mrs. Daniel Jessee, granting them one year or until Nov. 1, 1980 to find alternative sources of water for their property. He has notified them that after Nov. 1, 1980, he will cut off their water source, known as Hair Gulch, and the water will be used exclusively by Mr. & Mrs. John McGraw, owners of the property.

As far as I know, neither the Jessees nor any of their neighbors have as yet obtained legal counsel concerning this matter.

INTEROFFICE MEMO

Bruce Estes

DATE: January 18, 1980

TO: Robert B. Steimer *RBS*
Watermaster, District #14

SUBJECT: File #19817

I received a copy of your inter-office memo concerning the above file. Norman Daft, Assistant Watermaster, has been out checking the area and it appears that two of the people are changing use from irrigation to domestic plus irrigation, one person will use irrigation as he has been using it, and it appears that one person has filed a new water right for domestic and intends to use the old right for irrigation. I think the best way to handle this, if possible, is to send the survey crew out and do a previous survey so we can find out exactly what we are dealing with. Let me know if you intend to do it this way and I will then wait on it; otherwise we will proceed to advise the people locally as to what they need to do.

RBS:cc

Bob,
If you feel this is the best way, so be it. I'm sending
a copy of this to Bruce Sund for him to contact you.

FROM: Bruce A. Estes

BAE

SUBJECT:

In processing permit number 15375 toward issuance of a certificate a clerical error was inadvertently made in limiting the rate of application to 0.01 cubic foot per second instead of 0.1 c.f.s. which should have been permitted by applying the rate of one-eightieth c.f.s. per acre to the 8 acres allowed in the proof. It should also be noted that Tom Pierce the Watermaster at that time upon an inspection approved 8 acres and 0.1 c.f.s. in his recommendation. It was further noted on the approval that the point of diversion was 60 feet South and 400 feet East from the NW Corner of Section 15. This was shown on the blue line map which accompanied the signed proof and also delineated the location of the 8 acres. The proof was received by this office November 9, 1953, and certificate 20253 was issued February 26, 1954.

They are presently awaiting two transfers numbers 4321 and 4303 orders to allow changes in points of diversion involving the subject right. Evidently there are three other potential POD transfers to be forthcoming involving this water right and therefore wording of the transfers should allow the appropriate amount of water for each under the change orders along with allowing the appropriate amount under a remaining right if any lands are left in tact.

STATE OF OREGON

INTEROFFICE MEMO

TO: Larry Jebousek and Newt Perry

DATE: January 3, 1980

FROM: Robert B. Steimer
Watermaster, District #14 *BB*

SUBJECT: Correction of Certificate #20253, Transfers 4321 and 4303

RECEIVED
JAN 7 1980
WATER RESOURCES DEPT
SALEM, OREGON

In accordance with the Watermaster's Manual 3.32 (3) I submit the following:

It appears the amount of water allowed at the time proof of certificate #20253 was made was in error--.01 being allowed for 8 acres rather than .1.

There are presently five property owners. During the last of October or the first of November, 1979 one of the present owners, Daniel J. Jessee, made a transfer of a $\frac{1}{2}$ acre portion of this right. He changed the character of use to domestic including $\frac{1}{2}$ acre of irrigation. This appears to me to be an enlargement of this right and should not be allowed unless more of the original right is sacrificed. On October 12, 1979 Michael Larson, Transfer #4303, asked for a change of use of 1.05 acres of the original 8 acres to domestic including $\frac{1}{2}$ acre of irrigation.

It appears to me that a correction of the certificate is necessary because we have less than 1 gpm for each of the five property owners if divided evenly. I would appreciate your concurrence before I proceed to spend the time necessary in contacting and explaining this to the people involved.

RBS:cc

*Permit 15375
Application 19817*

1-8-80

*Applied for 0.50 cfs
permit issued 0.38 cfs for 30 acres
Tom Pearce, watermaster, inspected and approved 8 acres
with 0.10 cfs recommended.*

It looks like simple staff error in lettering for certificate. I agree it is State Engineer error and suggest we correct by reissuing right certificate and new certificates on Trans. 4321 and 4303.

File 19817

September 14, 1977

Robert B. Steimer
714 NW "A" Street
Grants Pass, OR 97526

Dear Mr. Steimer:

Enclosed is a copy of the proof of appropriation of water relative to the use of water perfected under the terms of the permit No. 15375. Prints of the blue print that was submitted with the proof are also enclosed. The hatchuring added to the blue print along with the 8.0 acre notation indicates the location where the water right was perfected.

The certificate of water right recorded at Page 20253 evidencing the water right perfected under the terms of the permit No. 15375 evidences the right to the use of 0.01 cubic foot of water per second for the irrigation of the 8.0 acres. I believe an error was made in regard to the amount of water allowed. The file relating to this water right will be reviewed and a correction certificate may be issued to allow an amount of 0.1 cubic foot per second.

Sincerely,

Wayne J. Overcash

R. Glenn & Pearl E. Rees
Wilderville
Oregon

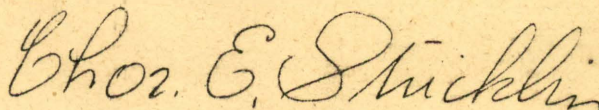

Dear Sir & Madam:

This will acknowledge receipt of your notice to the effect that complete application of water has been made under Permit No. 15375.

Pursuant to your notice and in line with the general practice of this office, a survey will be made at a later date for the purpose of checking the acreage actually irrigated. After this survey, proof may be made and certificate issued covering the lands which the survey shows to have been irrigated, and any lands described in the permit that have not been irrigated will be automatically eliminated from the water right.

In the meantime, the permit which you hold will be valid evidence of the water right.

Resp R. Glenn Rees

November 7, 1952

Mr. Glenn Rees
Wilderville
Oregon

Dear Mr. Rees:

Pursuant to your request in your card received November 3, 1952, I am enclosing a blank which you may use to make application for an Extension of Time in which to complete the construction and make complete application of the water under Permit No. 15375.

The application should be executed before a Notary Public and submitted to this office, together with the statutory filing fee in the amount of \$2.

Please be advised that the State Engineer is permitted to extend the Time for completion only upon showing of due diligence by the Permittee.

Considering the size of your appropriation and the fact that the application initiating the right was filed 10 years ago, it is doubtful whether or not sufficient diligence has been exercised to enable the State Engineer to further extend the time, it is therefore believed that you should make proof at this time covering the number of acres that have actually been irrigated and the extent that beneficial use has been made of the water, and then file a new application when you are in a position to commence construction and complete the appropriation within the statutory period.

If you do not believe that the facts of the case are known, you may file an application for an Extension of Time as explained above setting out those facts. If you do not agree with the decision which the State Engineer will then make, you may appeal his decision to the circuit court.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer

R. Glenn Rees & Pearl E. Rees
Wilderville, Oregon

Dear Sir and Madam:

This will acknowledge receipt of your letter which was received in this office on October 19, 1949 in which you requested an application blank for an extension of time within which to apply the water to beneficial use under the terms of your Permit No. 15375.

Pursuant to said request, I am enclosing herewith a blank for said purpose. The fee provided by law for filing an application for an extension of time is \$2.00 which should be submitted with the application.

Under the terms of your permit and as provided by law, construction work was to be commenced on or before one year from the date of issuance of said permit or November 4, 1943 and was to have been completed on or before October 1, 1944. Said latter date having been extended by the State Engineer from time to time, upon application of the permittee to October 1, 1949. To date we have not received Form A, being notice of beginning of construction within the time limit of November 4, 1943. The law specifically provides that construction work must commence on or before the time specified and that the permittee must notify the State Engineer thereof, otherwise said permit is subject to cancellation.

For your convenience I am enclosing blank Forms A, B and C, together with an application blank for an extension of time.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer

Willerville Oregon

January 5, 1949

R. Glenn Rees & Pearl E. Rees
Wilderville, Oregon

Dear Sir & Madam:

According to the terms of your Application No. 19817 , Permit No. 15375 , which is for the appropriation of 0.38 second-feet of water from **Wonder Mountain Gulch** complete application of water was to have been made on or before October 1, 1948. It appears from our records that you have failed to submit the notice of complete application, although a post-card, calling this matter to your attention, was mailed to you on October 7, 1948.

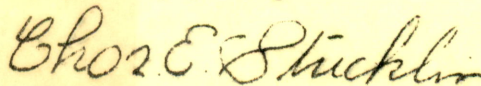

Section 116-435, O. C. L. A., provides: "whenever the time within which any appropriation under a permit should have been perfected shall have expired and the owner of such permit shall fail or refuse within the period of three months thereafter to submit to the State Engineer proof of the completion of such appropriation as required by Section 116-426, O. C. L. A., the State Engineer may, after 60 days' notice by registered mail, order the cancellation of such permit, ***."

If you have complied with the terms of this permit, you should promptly submit the notice of complete application of water after which we will take up with you the matter of final proof. If, however, you have abandoned your plan of development, we would appreciate your authority to cancel the permit, so that the permit may be cancelled without the necessity for following the legal procedure. In case you have not completed your appropriation, although you still wish to do so, you may submit an application for an extension of time. Such an extension may be granted if it appears that proper diligence has been shown.

Complete application of water under an irrigation permit means the irrigation of ALL of the land described in the permit, which it is intended to irrigate.

In accordance with the provisions of Section 116-435, Oregon Compiled Laws Annotated, a part of which is quoted above, you are hereby notified that unless we hear from you within 60 days from the date of this letter, your permit will be cancelled without further notice.

Very truly yours,

CHAS. E. STRICKLIN
State Engineer

MEMO

June 14, 1991

TO: STEVE APPLGATE

FROM: TOM SHOOK

SUBJECT: REINSTATEMENT OF WATER RIGHT FILE 19817

DAVID A. BASSETT, P.E., CLAIMS WE INCORRECTLY CANCELED 2.1 ACRES WITH OUR ORDER DATED SEPTEMBER 29, 1980.

HE SAID JOHN M. AND JUANITA M. MCGRAW WERE PURCHASING THE LAND DESCRIBED IN THE AFFIDAVIT THEY SUBMITTED ON CONTRACT FROM HIM AND DID NOT HAVE THE RIGHT TO CANCEL THE WATER RIGHT WITHOUT HIS KNOWLEDGE. I AGREE.

FURTHER, MCGRAWS NOW SAY THEY DID NOT INTEND TO CANCEL THE RIGHT. THERE IS CORRESPONDENCE IN THE FILE STRONGLY SUGGESTING THEY INTENDED TO BE THE ONLY USERS OF THE RIGHT.

CORRESPONDENCE ALSO SUGGESTS THE OTHER USERS WERE NOT FRIENDLY WITH THE MCGRAWS. MR. BASSETT SAID HE UNDERSTOOD THERE HAD BEEN LIFE THREATENING STATEMENTS MADE BETWEEN THE PARTIES DURING THE LATE 70'S AND EARLY 80'S.

ANYHOW, MR. BASSETT WANTS THE RIGHT BETWEEN THE SOUTH RIGHT-OF-WAY FOR THE RAILROAD AND SLATE CREEK REINSTATED AND A CERTIFICATE **ISSUED TO HIM FOR 4.1 ACRES.** HE HAS SUBMITTED AN AFFIDAVIT FROM THE MCGRAWS INDICATING THEY HAD NOT INTENDED TO CANCEL THE RIGHT AND THAT THEY HAVE CONTINUED TO USE THE WATER. HE ALSO HAS KNOWLEDGE THAT THE WATER HAS BEEN USED AND HAS SO STATED.

DILEMMA.

THE MAP USED TO ISSUED THE CERTIFICATE IN 1954 LEAVES A LOT TO BE DESIRED. WE CANCELED 2.1 ACRES USING MCGRAWS TAX LOT MAP BUT BASED ON THE FINAL PROOF MAP, THIS IS ABOUT 1/2 ACRE SHORT. QUITE A BIT SHORT OF WHAT BASSETT WANTS.

WE RECEIVED FOUR TRANSFER APPLICATIONS (4303, 4321, 4434, AND 4493), IN 1979 AND 1980 FROM OTHER USERS FOR THE RIGHT IN QUESTION. THESE APPLICATIONS REQUESTED A CHANGE IN USE FROM IRRIGATION TO DOMESTIC. ORDERS WERE WRITTEN APPROVING THE REQUESTS AND FOR CANCELING THAT PORTION DESCRIBED ABOVE. WE ALSO ISSUED A REMAINING RIGHT CERTIFICATE FOR THAT PART NOT INVOLVED IN THE CANCELLATION OR CHANGES (3.9 ACRES).

BASSETT SENT US A MAP PRINT, SCALE 1" = 100', AND I HAVE DETERMINED THERE ARE, AT BEST, 2.9 ACRES OF LAND THAT COULD BE IRRIGATED, NOT 4.1 ACRES.

I SUGGEST WE WRITE AN ORDER RESCINDING THE CANCELLATION ORDER OF 1980. THAT IS THE EASY DECISION.

WE COULD THEN ISSUE ANOTHER REMAINING RIGHT CERTIFICATE FOR 3.9 PLUS 2.1 (CANCELED) = 6.0 ACRES AND SUPERSEDE CERTIFICATE 49705. WE SHOULD ONLY ALLOW 2.9 ACRES FOR BASSETT, HOWEVER. THE REST WOULD BE NORTH OF THE ROAD BUT I KNOW NOT WHERE.

MR. BASSETT IS ANXIOUS FOR US TO GIVE HIM AN ANSWER SOON. I BELIEVE OUR ANSWER HAS SOMETHING TO DO WITH THE PARTITIONING (HIS MAP 1" = 100') WHICH IS SCHEDULED FOR JUNE 21. I DO NOT SEE HOW WE COULD DO ALL THIS BY NEXT FRIDAY.

6/14/91

Per discussion with SPA, write order rescinding cancellation order & issue a correction certificate for 6 Ac.

We do not know where 6 Ac are and Bassett's map only shows 2.8 acres or so south of R/R. We are not to identify.

To: State of Oregon Water Resources Dept.
Attention: Mr. Tom Shook

Re: Reestablishing Water Rights On Our Prior Property
(T.W.37S, ~~R~~7W, W.M. Section 10, TL 204 & 205)
11,111 Redwood Highway, Wilderville, Oregon.

This to affirm that we were the contract buyers of the subject property from October 5, 1979 to October 18, 1990. Due to health problems, we deeded the property back to David and Kathleen Bassett who are the mortgage holders and previous owners.

During the time we were buying this property, we regularly were there (especially summers) and made use of the water from Hare Gulch for domestic and irrigation purposes. The area where this occurred is the flat ground between Slate Creek and Redwood Highway. John McGraw was the project superintendent on the Rogue Valley Mall and we used the water until that project was finished in 1988.

Never did we intentionally cancel or lose our water rights that were originally associated with the early filings of Glenn ("Shorty") Ree's with a priority date of October 31, 1942. Additionally, we had no authority to cancel any water rights as the property was not paid for and Mr. and Mrs. Bassett's interests would be to keep the original priority rights in place.

Therefore, we respectfully request that the water rights on this property be reinstated as we had no right or intention that they be cancelled. Further, we made use of the water and that a period of 5 years has not elapsed without the use and beneficial application of water from Hare Gulch.

Thank you for your help and consideration.

In witness whereof, the parties here unto have set their hands the day and year noted.

BEFORE THE WATER RESOURCES DIRECTOR OF OREGON

JOSEPHINE COUNTY

IN THE MATTER OF CANCELLATION)
OF A PORTION OF A WATER RIGHT)
IN THE NAMES OF R. GLENN AND)
PEARL E. REES)

ORDER RESCINDING
ORDER OF CANCELLATION

An order was entered September 29, 1980 in Special Order Record at Volume 33, Page 750, canceling a portion of certificate of water right recorded at page 20253. The order was based on an affidavit submitted by John M. and Juanita M. McGraw alleging that they were the owners of record of property to which the water right was appurtenant. They requested that the right be canceled because it had been abandoned.

The water right included the use of 0.03 cubic foot of water per second from Wonder Mountain Gulch. It described the irrigation of 2.1 acres in the SW 1/4 SW 1/4, SECTION 10, TOWNSHIP 37 SOUTH, RANGE 7 WEST, W.M. The date of priority is October 31, 1942.

Remaining right certificate 49705 was issued to describe that part of certificate 20253 NOT changed NOR canceled by orders of the Water Resources Director entered June 20 and September 29, 1980 respectively.

David and Kathleen Bassett revealed that, at the time, they were the legal owners of the property described in the affidavit submitted by the McGraws who were contract buyers. The Bassetts were not advised of the cancellation and have objected to our action.

On June 13, 1991, an affidavit was received from John and Juanita McGraw stating it was not their intent to cancel the water right in 1980. The affidavit also describes use of water during their occupancy.

The order of the Water Resources Director purporting to cancel the water right in question is without authority and should be rescinded.

NOW, THEREFORE, it is ORDERED that the order entered September 29, 1980, in Special Order Records at Volume 33, Page 750, is rescinded.

IT IS FURTHER ORDERED, that a correction certificate be issued to supersede certificate 49705.

WITNESS the signature of the Water Resources Director, affixed June 21, 1991.

William H. Young

STATE OF OREGON
COUNTY OF JOSEPHINE
CERTIFICATE OF WATER RIGHT

THIS CERTIFICATE ISSUED TO

R. GLENN AND PEARL R. REES
WILDERVILLE, OREGON 97543

confirms the right to use the waters of WONDER MOUNTAIN GULCH, a tributary of SLATE CREEK, for THE IRRIGATION OF 6.0 ACRES.

This right was perfected under Permit 15375. The date of priority is OCTOBER 31, 1942. This right is limited to 0.08 CUBIC FOOT PER SECOND or its equivalent in case of rotation, measured at the point of diversion from the source.

The point of diversion is located as follows:

NW 1/4 NW 1/4, SECTION 15, T 37 S, R 7 W, W.M.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, is limited to a diversion of ONE-EIGHTIETH of one cubic foot per second (or its equivalent) and 4 1/2 acre-feet for each acre irrigated during the irrigation season of each year from April 2 to October 31 of each year.

The use shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use to which this right is appurtenant is as follows:

SW 1/4 SW 1/4 6.0 ACRES
SECTION 10
TOWNSHIP 37 SOUTH, RANGE 7 WEST, W.M.

The right to the use of the water for the above purpose is restricted to beneficial use on the lands or place of use described. The use confirmed herein may be made only at times when sufficient water is available to satisfy all prior rights, including rights for maintaining instream flows.

The cancellation order entered September 29, 1980 at Volume 33, page 750 of Special Order Record has been rescinded by an order of the Water Resources Director entered June 21, 1991.

This certificate is issued to supersede certificate 49705 and to correctly describe that portion of the water right NOT modified by orders of the Water Resources Director entered June 20, 1980.

The issuance of this superseding certificate does not confirm the status of the water right in regard to the provisions of ORS 540.610 pertaining to forfeiture or abandonment.

WITNESS the signature of the Water Resources Director, affixed JUNE 21, 1991.

STATE OF OREGON

CERTIFICATE NO.

COUNTY OF

JOSEPHINE

CERTIFICATE OF WATER RIGHT

This Is to Certify, That R. GLENN & PEARL R. REES

of Wilderville, State of Oregon 97543, has made proof to the satisfaction of the Water Resources Director, of a right to the use of the waters of Wonder Mountain Gulch

a tributary of Slate Creek
irrigation of 3.9 acres

for the purpose of

under Permit No. 15375 and that said right to the use of said waters has been perfected in accordance with the laws of Oregon; that the priority of the right hereby confirmed dates from October 31, 1942

that the amount of water to which such right is entitled and hereby confirmed, for the purposes aforesaid, is limited to an amount actually beneficially used for said purposes, and shall not exceed 0.05 cubic foot per second

0.08

or its equivalent in case of rotation, measured at the point of diversion from the stream. The point of diversion is located in the NW $\frac{1}{4}$ NW $\frac{1}{4}$, Section 15, T. 37 S., R. 7 W., W. M.

The amount of water used for irrigation, together with the amount secured under any other right existing for the same lands, shall be limited to one-eightieth of one cubic foot per second per acre, or its equivalent for each acre irrigated and shall be further limited to a diversion of not to exceed 4 $\frac{1}{2}$ acre feet per acre for each acre irrigated during the irrigation season from April 2 to October 31 of each year

and shall conform to such reasonable rotation system as may be ordered by the proper state officer.

A description of the place of use under the right hereby confirmed, and to which such right is appurtenant, is as follows:

3.9 acres SW $\frac{1}{4}$ SW $\frac{1}{4}$
Section 10
T. 37 S., R. 7 W., W. M.

This certificate describes that portion of the water right confirmed by the prior certificate recorded at page 20253, Volume 15, State Record of Water Right Certificates, NOT canceled by the provisions of an order of the Water Resources Director entered on September 29, 1980, and NOT modified by the provisions of orders of the Water Resources Director entered June 20, 1980 approving transfer application Nos. 4303, 4321, 4434 and 4493.

The issuance of this superseding certificate does not confirm the status of the water right in reference to ORS 540.610.

The right to the use of the water for the purposes aforesaid is restricted to the lands or place of use herein described and is subject to the existing minimum flow policies established by the Water Policy Review Board.

WITNESS the signature of the Water Resources Director, affixed

to the McGraws in
Ponthead, we have
Discussed by phone
& all is factual.

See you later
Thanks,
Dave

This to affirm that we were the contract buyers of the subject property from October 5, 1979 to October 18, 1990. Due to health problems, we deeded the property back to David and Kathleen Bassett who are the mortgage holders and previous owners.

During the time we were buying this property, we regularly were there (especially summers) and made use of the water from Hare Gulch for domestic and irrigation purposes. The area where this occurred is the flat ground between Slate Creek and Redwood Highway. John McGraw was the project superintendent on the Rogue Valley Mall and we used the water until that project was finished in 1988.

Never did we intentionally cancel or lose our water rights that were originally associated with the early filings of Glenn ("Shorty") Ree's with a priority date of October 31, 1942. Additionally, we had no authority to cancel any water rights as the property was not paid for and Mr. and Mrs. Bassett's interests would be to keep the original priority rights in place.

Therefore, we respectfully request that the water rights on this property be reinstated as we had no right or intention that they be cancelled. Further, we made use of the water and that a period of 5 years has not elapsed without the use and beneficial application of water from Hare Gulch.

Thank you for your help and consideration.

WARRANTY DEED

KNOW ALL MEN BY THESE PRESENTS, That Helen D. Baugh, now the widow of E. B. Baugh, deceased, of State of Oregon, in consideration of ten and more Dollars to her paid by R. Glenn Rees and Pearl E. Rees, husband and wife, of State of Oregon, has bargained and sold, and by these presents does grant, bargain, sell and convey unto said R. Glenn Rees and Pearl E. Rees, husband and wife, their heirs and assigns, all of the following bounded and described real property, situated in the County of Josephine, and State of Oregon:

The West one-half ($W\frac{1}{2}$) of the Southwest quarter ($SW\frac{1}{4}$) of Section ten (10) in Township thirty-seven (37) South, Range seven (7) West of Willamette Meridian; less and except:

Right of way of the California and Oregon Coast Railroad Company, containing 3.24 acres, as described in deed of conveyance recorded in Volume 25 at page 365 of Deed Records of Josephine County, Oregon;

Also, less and excepting right of way of the Redwood Highway as the same was located July 15, 1936; together with all and singular the tenements, hereditaments and appurtenances thereto belonging or in anywise appertaining, and also all her estate, right, title and interest in and to the same, including dower and claim of dower.

TO HAVE AND TO HOLD, the above described and granted premises unto the said R. Glenn Rees and Pearl E. Rees, husband and wife, their heirs and assigns forever. And Helen D. Baugh, widow, grantor above named does covenant to and with R. Glenn Rees and Pearl E. Rees, husband and wife, the above named grantees, and their heirs and assigns that she is lawfully seized in fee simple of the above granted premises, that the above granted premises are free from all incumbrances, except taxes for 1942-43, and that she will and her heirs, executors and administrators, shall warrant and forever defend the above granted premises, and every part and parcel thereof, against the lawful claims and demands of all persons whomsoever, except as stated.

IN WITNESS WHEREOF, the grantor above named, has hereunto set her hand and seal this 6th day of October, 1942, 19__.
