Dear Applicant:

The Oregon Water Resources Department has received your applications to store water in a reservoir under the Alternate Review process. Your applications have been assigned file numbers **R-89328 and R-89329**. Please refer to these numbers when contacting the Department. Should you have any questions about your applications, please contact the following Water Rights Specialist assigned to your application:

Adam Frederick	Phone: 971-707-8400
	Email: adam.m.frederick@water.oregon.gov

A description of the steps that are used for processing an application to stored water in a reservoir are shown on the reverse side of this letter.

Included with this letter is a Wetland Determination Request form provided by the Department of State Lands (DSL) Wetland Program to determine if wetlands or other regulated water bodies (such as creeks) are in the project area. Please complete and return the form to DSL.

Please note that your application is subject to review and comment from other state agencies and interested parties.

Sincerely,

Dante Luongo

Water-Use Permit Application Processing Steps

Oregon Water Resources Department

Alternate Review Process for a Reservoir Applications:

After a completed application has been received by the Department, the Department must make public notice of the application within 60 days. Applications are noticed to the public every Tuesday and can be accessed from the Department's website: <https://www.oregon.gov/owrd>.

The Department does not notify individual, neighboring landowners of an application, unless they are identified in the application as affected landowners. The public notice is to ensure that any person may submit detailed information requesting the Department deny an application based upon whether the proposed use causes injury to existing water rights or poses a significant detrimental impact to an existing fishery resource. All comments must be submitted within 60 days of the public notice.

Following the 60-day public comment period, the Department can issue a Final Order. Alternate Reservoir applications typically take between 3-5 months to process, depending upon the number of pending applications in the queue.

The Department recommends applicants not schedule excavation work or otherwise expend financial resources until an ODFW fish passage plan and the alternate reservoir application have been approved. Also note that other permits may be required for any construction activities in waterways, wetlands, or riparian areas.
