RE: Application for exempt reservoir.

Dear Mr. Teige:

I have received your application for exempt reservoir and supportive documents.

These must go to the Salem Water Resource Department, Salem, to be verified and then returned to me for inspection.

I am forwarding your application to Salem and will contact you when I am prepared to inspect your reservoir.

Sincerely,

Gene Mc Ginnis
Watermaster

MINIMUM APPLICATION REQUIREMENTS TO FILE:

HB 2153 - existing, small, EXEMPT ponds

5/28/94 CE
(date & initials)

NOTICE OF EXEMPT RESERVOIR form (or letter if prior to April 8, 1994).

Appropriate map (see item 1 on form).

January 1, 1993 (one or more of the following: dated aerial photo, **NOTARIZED** affidavit, dated map from agency, construction receipts or other documentation).

Items 2, 3, 4, 5, and 6 are completed.

Signature (and title, if applicable)

HB 2153 - non-exempt existing ponds (large, on-channel)

Complete Minimum Requirements to File on reverse, except before routing to Data Center, change priority date to 1/1/1993. Also, confirm the following:

Receipt of evidence that reservoir existed before January 1, 1993 (one or more of the following: dated aerial photo, **NOTARIZED** affidavit, dated map from agency, construction receipts or other documentation)

HB 2107 - wetland, stream restoration and storm water management

Complete Minimum Requirements to File on reverse **EXCEPT DO NOT ROUTE TO DATA CENTER, BUT DO ROUTE TO CAROL.** Also confirm the following:

____ Name/address of adjacent property owner within 1/4 mile

____ Map with scale not less than 2 in.=1 mi.
____ CWRE map if > 10 feet dam or > 9.2 AF

____ Description of proposed use

____ Condition addressed

____ Resulting benefits

____ Public notices (circle) #1 #2

WATER
RESOURCES
DEPARTMENT

REFERENCE: File # P-74111;
Notice of Exempt Reservoir (Pond)

Your exempt reservoir notice has been received by the Department and has been assigned the above-referenced file number. We would like to ask you to refer to this number if you should need to contact us about the notice, your pond, or ponds if you have more than one.

To avoid any misunderstanding, we feel it is important to tell you that although we have received and filed your notice, we have not yet determined whether you are exempt from water right requirements. The watermaster responsible for the area in which the pond(s) is (are) located will help us apply the Water Resources Commission's administrative rules to your situation. These rules set the standards that determine which ponds require water rights and which are exempt. We will let you know the results as soon as we are able to complete our review of your pond(s)'s nature.

Since the department must rely initially on the information you submit to us, it is very important that the information be complete and accurate. If inspections show that your pond(s) does (do) not qualify as exempt, you could be asked to drain the pond(s) or submit a water right application or both. If you submit your application after January 1, 1995, it will be processed like any other application, since that is the deadline for filing water rights under the pond amnesty program.

The department will process your information as quickly as possible. However, because water right processing staff members are working hard to reduce a backlog of applications, it may be some weeks before you hear from us.

If you have questions, you may contact your watermaster. The enclosed brochure lists watermaster names, telephone numbers and addresses by county.

Sincerely,

Cory Engel

Out to look at pond registered P- 74111, to see if it was expanded and needs a new permit. The registration was for a pond of 4500 gallons, it is being reconstructed and will store around 0.28 ac ft. Substantially more than registered. Mr Smith claimed that he really is not increasing the amount of water in the pond and that the registrant under estimated its size. Non-the-less, he will submit a new application, I helped fill out the application, I told him I would get him the ODFW contact information and a map that meets our standards and email him pictures. I then looked at his water system (cert 15616), which is part of the same right as his neighbor's. I gps'd the spring POD, which is 3 courses of cinder blocks built into the hill side with locked lid, could hear water running . 44.14697, -122.59255 and photographed the three tanks on the systems

The spring starts on the neighbors but does not flow off that property in a well defined channel (I think, it is hard to tell where the property line is and I didn't look very hard) the spring does sub out well before reaching the McKenzie, and two neighbors use it. One for domestic use exp, the other for domestic exp and commercial (trailer court). Then in office rest of day, 8 hrs.

Michael Smith 541-285-5820,
See if expanded beyond registraion P- 74111,
4,500 gallons
